We've seen a lot of batteries, but never another like the Willard Threaded Rubber Battery.

Threaded Rubber insulates the plates instead of separating them the way wood separators do.

No carbonizing, puncturing, checking or cracking, because Threaded Rubber Insulation retains all the valuable insulating qualities of rubber and is not affected by acid.

That's one reason why we're strong for Willard Threaded Rubber Batteries.

### TWO HUNDRED HIGH SCHOOLS IN DEBATE

Chapel Hill, April 1.—Two hundred high schools in all sections of the state have notified Secretary E. R. Rankin that they will take part in the triangular debates of the high schools debating union next April 1, on the query resolved, "That the policy of collective bargaining through trade unions should prevail in American industry." Interest in this, the ninth annual statewide contest of the high school debating union, is at high pitch in the schools of the state according to reports received here.

The schools winning both of their debates April 1 will send their teams to the university on April 14 and 15 to compete in the final contest for the Aycock Memorial cup. Other such contests will be held at that time are the inter-scholastic track meet and tennis tournament.

The Asheville high school won the award of the Aycock Memorial cup by defeating the Goldsboro high school in last year's final debate at the university. Should Asheville win the Aycock cup again this year then the trophy will remain the permanent possession of the Asheville high school.

### W. M. U. CONCLUDES YEAR'S CONVENTION

Rocky Mount, April 1.—The Women's Missionary union convention, which has been in session in the First Baptist church of this city since Tuesday night adjourned last night without a meeting place for the next session a year hence. The matter of selecting a place was left to the executive committee. The convention has grown so large and the house-keepers problems have grown so acute that no town or city dared to invite them. The convention registered its protest against moving the general headquarters of the union from Baltimore.

The Charlotte division, composed of 18 associations, of which Mrs. T. B. Henry of Wadesboro is superintendent, led all the divisions in the matter of contributions and gold seals for mission study, the amount given being \$96,619. Among their gifts have been an Edison to Rev. and Mrs. H. H. McMillian of China and operating table for the new Yathcoon Mallory hospital at Lichowfu, China, and they offer to employ a trained worker for the proposed "Good Will Center" to be established in Charlotte.

The features of the closing service last night were a pageant by the local Y. W. and inspiring addresses by Mrs. Maude McAlure of the W. M. U., training school, Louisville, Ky., "Worth While Lights" and a splendid musical program by a large chorus choir.

The following officers were elected to serve during the coming year: President, Mrs. Wesley N. Jones, Raleigh; vice-presidents, Mesdames

### POLISH TRAINS OPERATE

Warsaw, March 13.—Trains made up entirely of Polish rolling stock and manned by Polish crews began making regular trips into Rumania recently to bring grain to the new republic which suffered terribly in crop losses last year owing to the Bolshevik offensive. Rumania was unable to deliver grain to Poland because of lack of usable rolling stock. This grain is milled into flour for the population of Galicia. Northern Poland including Warsaw receives its supply of flour chiefly from America.

Two trains a day, transporting about 25,000 tons of grain a month, are now making regular trips from Central Rumania.

Experts have reported excellent prospects for Poland's crops next harvest and it is expected that with a summer of peace the country will raise enough grain to supply all needs.

The situation in Ireland will not be helped by the fact that the ambulances will soon be in full leaf. Indianapolis News.

## Our Strawberries Grow in the Sunny South—

IN THE Southern States that have long been famous for fertile soil and wonderful fruit, grow the strawberries which flavor "The Velvet Kind Ice Cream."

Picked fresh in season, these berries are "cold packed" and, thus frozen, shipped to our factories where they remain at frigid temperature, retaining all their deliciousness until used in flavoring your "Velvet Kind Ice Cream."

We use only the genuine natural flavors in all our products, barring absolutely all imitation or extracts and compounds. This, with our own personally created formula and method for manufacture (Patents applied for to protect our process) reinforced with the ingredients of pure cream, pure milk and pure cane sugar, gives us the exclusive privilege of offering you this superb and distinctive Ice Cream, both in flavor and in quality.

We do not use gelatins, gums, starch or fillers.

It is truly an Ice Cream of incomparable deliciousness and quality, exceeding in charm and purity even that good old-fashioned kind your Mother made—

Homespun Folks is not a cocktail drama. It has romance and tenderness; it has pathos and robust comedy; it has tenderness and the rush of melo-dramatic action—but it never loses that deft, magnetic, masterful something that makes it a pastoral epic.

A mother story that hits the greatest target in all the world—the human heart
