Of all the pleasures which nature has given man the power to enjoy the keenest, is that derived from fair contest. To the winner in any fair rivalry where wit is pitted against wit, effort against effort, endurance against endurance, there is a satisfaction not to be found in any other pleasure. The sense of superiority thus acquired is the only sense of superiority that is laudable and bears no resemblance to vanity which is engendered by wealth or mere success of physical strength or charm. The loser in a fair contest is yet winner by the mental development acquired through contesting gallantly against keen opposition. To the winners in this popularity contest the pleasure of the strife will be equal to the magnificence of the prizes.

We are making an earnest effort to represent the people of High Point in an adequate manner, reflecting through our columns the progressiveness of our citizens and we trust that our readers will co-operate with us in our efforts by joining actively in the contest.

ABSOLUTELY FREE

No entrance fee or other expense of any kind will be attached to the contest and all THE REVIEW asks of the persons entering the race is their hearty co-operation in making the contest an enthusiastic and friendly struggle for leadership.

WHO MAY NOT ENTER

No employee or immediate relative of an employee of THE REVIEW or immediate relative of the proprietor may enter the contest. Otherwise the contest is open to all white persons wishing to enter.

THE JUDGES

For the purpose of conducting the contest THE REVIEW has made arrangements whereby the services of Mr. Rene Bidez have been secured. Mr. Bidez is a young man of much refinement and accomplishment and a person in whose acquaintance the contestants will all

delight. He will have entire charge of the contest and his decisions in all matters relating to it will be final. All contestants entering the race must agree to be governed by the rules of the contest and decisions of the Manager.

IN CONCLUSION

This is to be one of the greatest contests inaugurated by any paper in the State. We have spared no expense to make it a live proposition that will keep the entire community keenly interested in the final outcome.

We are endeavoring by every means we can obtain to give High Point the newsiest and most up-to-date paper in the State and we believe that the citizens appreciate our efforts and will extend to us in this contest the same hearty co-operation that we have enjoyed in the past and for which, by the way, we take this opportunity to express our gratitude.

COTTON BILLS GOOD UNTIL DECEMBER 31

ENGLISH BROKERS EXTEND TIME FOR ACCEPTING PRESENT BILLS OF LADING.

AMERICAN BANKERS WIN

Further Conferences Will Be Held to Perfect Plan for Guaranteeing Cotton Bills of Lading.

New York.—An extension from October 31 to December 31 of the period during which American cotton bills of lading will be accepted in current terms by foreign banks, was announced here by Sir Edward H. Holden, the English broker, who came to this country for the British and continental interests.

This course was recommended to the foreign bankers by Sir Edward, and, following the receipt of cable advices from London authorizing him to act, he issued a formal statement. This is the first fruit of a series of conferences Sir Edward has held here during the last week.

The favor with which the plan to have bills of lading guaranteed or insured has been received by interior bankers of this country justified Sir Edward, he said, in urging an extension of the status quo as probably two months would be required to perfect the project. In granting this extension the English bankers reserve the right to renew conferences with the American financiers to devise another scheme for safeguarding bills of lading in event the guaranty plan proves impracticable.

The British bankers refused to add a word to his statement or explain the contemplated plan of protecting bills of lading in detail.

PLAN FOR RAISING MAINE.

Spain is to Be Shown How the Maine Was Wrecked.

Beverly, Mass.—President Taft finally approved plans for raising the wreck of the battleship Maine from Havana harbor, which call for the completion of the work on or before the thirtieth anniversary of the destruction of the war vessel, February 15, next. The work is to be done according to plans made by army engineers, and is to be under the direction of an engineer officer.

President Taft said that the paramount question in the raising of the Maine is the determining for all time of the cause of the explosion and whether the source of destruction was from the outside or inside the vessel. For this reason he desires that the work shall be retained in the hands of the army engineers and not let out by contract.

By direction of the President, Spain has been invited to send a representative to Havana to be present during the work of exposing and removing the wreck.

WAR ON THE HOOKWORM.

Experts Will Try to Rid Alabama of Life-Sapping Disease.

Montgomery, Ala.—From now on the hookworms which are thriving in Alabama soil will have a hard time of it, if it is at all possible for Dr. W. W. Dismore of Decatur, Ala., to put into effect some of the ideas that he has regarding the eradication of the parasite. The physician has taken up his headquarters at the capital as head of the Alabama department of the Rockefeller hookworm commission, and is throwing out lines which are aimed with the end in view of permanently ridding the state of the life-sapping pest.

INDORSE PARCELS POST.

Postmasters' League Also Approves of the Postal Savings Bank Idea.

Chattanooga, Tenn.—The National League of Postmasters in the last day of their seventh annual session passed resolutions endorsing the establishment of the parcels post and the postal savings banks. Another resolution which was adopted embodied recommendations for the removal of postmasters from partisan politics.

Extreme Cholera Precautions.

New York City.—The health authorities of every city and town in the United States where immigrants coming from the infected districts of Russia and Italy take up their residence, will be asked by the Federal immigration authorities to assist in preventing cholera from gaining a foothold in this country. This decision was reached at a conference between the Ellis Island authorities and a representative of Dr. Walter Wyman, surgeon general of the United States marine hospital service.

Ketchel Shot to Death.

Springfield, Mo.—Stanley Ketchel, champion middleweight pugilist of the world, died here as a result of being shot by Walter A. Hartz. The shooting took place on the ranch of R. H. Dickerson, a friend of Ketchel's, near Conway, 40 miles east of here. The trouble between Ketchel and Hartz is said to have started when the pugilist upbraided the ranchhand for beating a horse. This so angered Hartz that he procured a rifle and shot the fighter in the back; \$5,000 reward has been offered for Hartz, dead or alive.

TAFT PLANS CANAL TRIP.

President Will Sail on the Battleship North Carolina From Charleston, November 10.

Beverly, Mass.—President Taft will sail for the Isthmus of Panama on November 10 from Charleston, S. C. He will make the trip on the armored cruiser North Carolina, and will be conveyed by the sister ship, the Montana. The President will be gone about twelve days. The North Carolina and Montana can make the journey in each direction in four days. This will give Mr. Taft about four days on the isthmus.

The President had practically given up all idea of visiting the canal this year until Col. George W. Goethals, chief engineer of the canal, visited him. At the end of the visit Mr. Taft had been convinced that the problems, confronting the officials at Panama require his presence on the isthmus.

Although his visit will be a flying one, the President expects to be able to secure first-hand information regarding a number of problems of which he will call upon congress to deal at its session. Some of the problems to be dealt with in the immediate future are as follows:

The extent and character of the fortifications, the fixing of tolls for the passage of vessels through the canal, a proposed increase in wages, the future management of the Panama railroad, the form of permanent government for the Canal Zone and the regulation of the sale of coal at the terminal points.

The date for opening the Panama canal has been set for January 11, 1915. President Taft and Colonel Goethals believe it will be completed and open long before that time.

Washington.—It is estimated that \$47,920,848 will be required to continue the construction of the Panama canal during the fiscal year.

The principal items are \$19,211,396 for skilled and unskilled labor and \$19,186,751 for the purchase and delivery of material and supplies.

An estimate of \$1,000,000 is submitted for the re-location of the Panama railroad. The total appropriations on account of the canal to date are \$248,092,568. Of that amount \$40,000,000 was paid for the French rights and \$10,000,000 to Panama.

Steady progress in the construction of the canal is shown by the monthly report of Chief Engineer Goethals to the Isthmian canal commission.

COTTON SAMPLES COST \$35.

Government Ready to Supply Nine Grades at Price Named.

Washington.—The Department of Agriculture has announced that it is prepared to supply the nine official grades of white American cotton recently promulgated by the Secretary of Agriculture. The grades will be furnished for \$35 a set, the cost of their preparation, as required by law. The sale is begun in accordance with the recommendation of the committee of cotton experts upon whose advice the grades were established, that they be issued for general use during the crop season of 1910-11.

The official grades are elaborately prepared and the integrity of each type is attested by a full-sized photograph secured in the box cover and bearing the signature of the Secretary and the seal of the Department of Agriculture. The permanency of the standard is to be secured by the preservation of twenty-five sets in vacuum to be opened as occasion may demand for purposes of comparison.

EX-SENATOR INDICTED.

Ex-Senator Gardner Alleged to Have Offered \$25,000 Bribe.

New York.—Former State Senator Frank J. Gardner of Brooklyn was indicted as a briber by the New York grand jury. The indictment was returned after ex-Senator Foelker, whose one vote defeated the anti-race track gambling bills, had testified before the grand jury. A detective was sent at once to Scranton, where Gardner is held in \$10,000 bond as a fugitive from justice. He is alleged to have offered Foelker \$25,000 to vote against the bill.

Five Killed in C. & W. C. Wreck.

Augusta, Ga.—Five persons were killed and seventeen injured when trains Nos. 8 and 3 on the Charleston and Western Carolina railway crashed together at full speed, about two miles south of McCormick, S. C. All of the dead and seven of the injured were members of the two train crews. It is said that the operator at McCormick failed to deliver "meet orders" for the southbound train. Both locomotives were completely demolished, and the baggage cars of both trains were telescoped.

Portraits on Postal Banks.

Washington.—Presidents Washington, Lincoln and Cleveland have been chosen as the subjects of the portraits for the first postal savings bank bonds, the \$20, \$100 and \$500 respectively. This decision has been reached by Acting Secretary of the Treasury A. Piatt Andrew. The bonds will be ready for the public as soon as the postal savings scheme is put into operation. Treasury officials expect that the Washington, Lincoln and Cleveland bonds will be very popular.
