Caldwell Bush Is Called to Tell His Tale of Wee.

Col. Noah Harris Will Listen to Much That Is Said.

BUSH IS UNDER A BOND OF \$300

People Who Come and Go—Brief Briefs of Interest to All Readers of The Globe.

Caldwell Bush was today arrested and placed under bonds of \$300.

He could not give bonds and he was sent to jail.

There will be a trial at 3 o'clock but that is after we have gone to press.

People who read THE GLOBE Saturday—and who did not?—will remember the charge of shooting.

This is a case which simply fills an event in all the things going, and then that is about all.

The case will be duly reported in this album of song to-morrow.

The last persimmon of the season was gathered today, by Colonel Albright from a hickory bush. It is said that the colonel struck it with a cancelling stamp, and that this ended it.

The services at the First Baptist church yesterday awakened such general interest as to cause them to be protracted during the week. Accordingly there will be services every evening until further notice.

For everything beautiful in the line of jewelry and silverware take a look through Postley's jewelry store. The novelties now being shown there for the holiday trade are, in number and variety, beyond anything ever seen before in Durham. Have the colonel show you some of his latest.

COMING AND GOING.

Durham People on the Move and Visitors in the City.

Mr. J. W. Cooper, of Cherokee county, is spending the day in Durham.

Mr. W. R. Cooper is confined to his room with an attack of the grippe.

Railroad Commissioner, J. W. Goodwin, of Lynchburg, is at the Claborn.

Mr. R. C. Stanford, acting president of the L. & D. railroad is in the city to-day.

Mr. J. A. Aiken, manager Raleigh Western Union Telegraph office, is here to-day looking after the business of his company.

Colonel Jack Albright returned to-day from Graham, where he has been to organize an old bachelor's club. The club, he says, is a howling success.

ANOTHER BLACK EYE FOR RALEIGH.

The Seaboard Air-Line Company Reducing Their Force in That City.

The Raleigh correspondent to the Wilmington Messenger says: A rumor has been current in this city for the past day or so which causes much uneasiness, not only to those directly interested, but to the business community generally. It is to the effect that after the first of January next, the Raleigh and Gaston Railroad company will discharge about one-half of its working force in the machine and repair shops.

It may be proper to say that the railroad authorities here are very reticent about the matter, but enough is known to justify the firm conviction that the directors are determined to pursue the line of "lopping off" expenses to the very lowest possible notch. A leading reason alleged for the cause is the shortage of crops, by which the outgoing and incoming freight will be much reduced. So far as the absolute removal of the shops is concerned, it may be safely said that it is a mere question of time, dependent upon the connecting lines of the Seaboard system further south.

Listen at This!

T. L. McClees has just opened a meat stall, and while thanking the people for their patronage on fish, desires to announce that he will continue fish and also meats. The meat stall will be separate, but all customers will be rightly handled. The best and freshest meats will be sold by him, and at prices lower than the lowest.

A HORRIBLE CRIME.

Two Ladies and Two Children Found Murdered in a Cottage.

JACKSONVILLE, Fla., Dec. 12.—A New Smyrna special to the Times-Union says: Miss A. H. Bruce, Mrs. L. D. Hatch and her little son, Master Frank Packwood were found murdered late this afternoon in a cottage recently leased by them for the winter, six miles below this town, on the east coast of Florida. The throats of all four were cut from ear to ear, and they had been dead apparently from eighteen to thirty hours. There is no clue to the murderer. As several tramps have been seen in this neighborhood lately, suspicion naturally rests on them. A posse of nearly fifty men has been organized and it started to-night on horse-back and afoot for the scene of the tragedy. The victims had recently come from the North to spend the winter here and were not known generally. No further particulars are procurable to night, as the Packwood cottage is nearly seven miles from a telegraph office.

FROM ALL OVER.

About People Who Made News When News Was News.

The Mechanics Mill, Attleboro, Mass., was nearly destroyed by fire Saturday morning, entailing a loss of \$40,000; insurance partial.

The American Federation of Labor met in annual convention in Birmingham, Ala., to-day. A large number of delegates were in attendance.

It is understood at Washington that Representative Culbertson, of Texas, has accepted the position of inter-state service commissioner, and his name was sent to the senate to-day.

Miss Julia A. Ames, editor of the Union Signal, of Chicago, official organ of the Woman's Christian Temperance Union, died Saturday morning at the Homeopathic hospital, Boston, Mass., after a short illness.

Pat's Great Wonder.

We are surrounded by dangers all the way from the cradle to the grave. "The great wonder is," as Pat says, "that after getting out of our cradle, we live long enough to reach our grave." Thousands are out of health—morose, morbid and miserable, because they do not avail themselves of the remedy within easy reach of them. Dr. Pierce's Golden Medical Discovery would cure them.

For all chronic or lingering Coughs, Weak Lungs, Spitting of Blood, Bronchitis, Shortness of Breath, Asthma, and kindred ailments, it is a most potent remedy. It cleanses the blood, invigorates the liver, improves digestion, and builds up both flesh and strength. Does small and pleasant to taste. Large bottles, one dollar. Of all druggists.

A FALSE ALARM IN!

Miss Hopkins Burned Some of Her Biscuits.

The Fire Department Responds but it Seems of No Use.

BECAUSE THE FIRE WAS PUT OUT

Yet the Crowd from the Churches Filled the Streets and Were Eager to See All of the Apparatus Squirt.

Yesterday as the crowd was coming from the different churches the alarm of fire was turned in.

There was much scrambling, and there was much of that which we call running.

But so far as could be learned, Miss Hopkins burned her biscuits just a little too much.

Yet there was the crowd, and there were the boys—and who will say that a fire cannot be extinguished in this city—

Whether it be biscuits—or, Whether it be a block? Let all come!

DETERMINED SUICIDE.

An Alabama Physician Ends His Life with a Pistol Shot.

BIRMINGHAM, Dec. 12.—At his home in Dayton to-day, Dr. H. W. Morgan, one of the leading physicians of middle Alabama, attempted suicide by taking morphine. He was revived by the prompt attention of another doctor, who left him getting along all right; but scarcely had he gotten out of the room when the report of a pistol was heard, and rushing back again he found Dr. Morgan dying. He had gotten up and shot himself through the head.

DIPHTHERIA EPIDEMIC.

Attended with Alarming Fatalities at Wheatland, Minn.

WHEATLAND, MINN., Dec. 12.—A diphtheria epidemic is here. Seven deaths have already resulted from it. One family lost three children—all they had; another, three which were buried together. All died the same day. The school is stopped. There are four more families down with it. They seem to be effected as much in the head as in the throat. Doctors here cannot do anything for it, and it is still spreading.

They Will Meet.

The regular monthly meeting of the W. C. T. U. will be held to-morrow (Tuesday) afternoon, at the Y. M. C. A. parlor. A full attendance is earnestly desired. Time of meeting half past three. Mrs. W. H. ROGERS.
