to others? Are there not persons dependent on your earnings for their support? Are they provided for in case of your death? The simplest and safest way of assuring their protection is life insurance. Edison declares that if he was so disposed he could cause a panic among the dealers in precious stones. He says that he can manufacture fine sapphires for next to nothing, and that he can produce rubies superior to the natural stone for five dollars a pound. As rubies are sometimes more valuable than diamonds he could set the jewelers crazy within a week if he felt disposed to do so. The artificial production of precious stones he regards a mere scientific diversion, however, and has no intention of bearing the market.

The late Gov. Jenkins of Georgia took away with him the the great seal of the state when he was deposed under military rule and came north just after the close of the war. At the end of reconstruction days he returned it to the state and the legislature voted to him a gold fac simile of it. This, at his death, he bequeathed to his wife's great nephew, his own namesake, Dr. Charles Jenkins Montgomery, of Denver, Colorado. Governor Jenkins had no children.

It is not generally known that the inscriptions upon the peristyle in the "court of honor" at the world's fair were prepared by President Eliot, of Harvard university. There are twelve of them, and it was the first intention to have them in Latin, but Prof. William G. Hale, of the Latin department of the University of Chicago, gave the wise counsel that they be in English, whereupon Mr. Millet intrusted the preparation of them to President Eliot.
