

ARE FARMERS BASE?

What Roosevelt Said of Them in 1896.

Falsely Declared That Bryan Had a Great Hold on the Unintelligent and the Vicious of the Land.

(By C. A. Edwards, Secretary National Congressional Executive Committee.)

Washington, D. C., Oct. 10.—The Republican speakers and the press bureau of the Republican National Committee are industriously denying that President Roosevelt, when he was Police Commissioner Theodore Roosevelt, in New York City, in 1896, ever said that "Mr. Bryan and his adherents have appealed to the basest set in the land, the farmers."

There are the facts and also some extracts from an interview that will prove interesting reading:

At a rally of the Sound Money Club at the Wool Exchange in New York City October 27, 1896, the leading speakers were General Horace Porter and Police Commissioner Theodore Roosevelt. Mr. Roosevelt had but recently returned from a stumping tour of the West, in which he had devoted much time to Illinois. In the course of his speech at this Sound Money Club meeting at the Wool Exchange, he said:

"I shall outline my remarks to what General Porter has said about patriotism. Patriotism comes first and I hope you will not fail to display it next Tuesday."

"Mr. Bryan and his adherents have appealed to the basest set in the land, the farmers."

"If they are not so, then why do they believe that he can make a dollar out of fifty cents? He tells them it can be brought about by a free royalty—the right to burn and plunder without the interference of the police."

(The port of this speech was taken from the New York Journal of October 28, 1896.)

It appears that this speech was not reported in any of the Republican papers of New York, but this is not unusual because the time was near the close of the campaign and so much political news was going that it was more likely to be omitted. However, the sentiments of the speech were expressed on the same day that the speech was delivered and printed as an interview in the New York Sun of the same day that the New York Journal published the report of the speech.

Extracts from the interview follow: In October, 1896, after a stumping tour, chiefly through Illinois and Michigan, Theodore Roosevelt, then Police Commissioner of the city of New York, gave a stumping interview to the New York Sun. This interview was evidently as carefully considered as Mr. Roosevelt ever considers anything. It was published in the New York Sun of October 28, 2nd page, 3d column. The Sun was then, as at present, on the same side of the political fence as Mr. Roosevelt and anxious to do him honor in expounding his views. In the course of this interview, Mr. Roosevelt said: "Men who know that they have in them the capacity of success, and who feel that the time that comes with strong hands, stout hearts, and cool heads, do not see the necessity of being jealous of anybody. The strength of the ignorant and vicious and also with the weak, who have not the intelligence to see that their failure in life is due not to others, but to themselves, but who wish to put the blame of their shortcomings on some one else."

Again: "Undoubtedly Bryan has a great hold upon the unintelligent and the vicious. He attracts that type of farmer whose gate hangs on the hinge, whose old hat supposes the place of a mission, who is to be found at the crossroads grocery store than behind the plough. He attracts still more the professional laboring man, the type that labors as little as possible, and continually strives to delude such workmen as are ignorant and foolish enough to be misled into some movement which can not but end in disaster. But the thrifty, intelligent and resolute are in the majority and it was my invariable experience that men of this stamp, even if somewhat predisposed to Bryan, were repelled by the cheapness of the man. I do not like to use such a word in reference to a Presidential candidate, but there is no other word describes him so well."

AN OUTRAGEOUS PUBLICATION.

The Way Republicans Insult the Intelligence of the People.

(Fayetteville Observer.)

The Republican Executive Committee have established a campaign in this city, and its first issue is a reared yesterday. Some of the statements are so outrageous that they will not bear repetition in the Observer. They are absolutely indecent. It is filled with a number of untruths, but these might have been expected, but the veriest partisan could never have dreamed of the publication of such indecencies in our community.

White men of Cumberland county, whether you are Populists, Republicans or Democrats, will you give countenance to a party that fathers such stuff as is published officially by this party? We think not. Get the publication and read it yourself. If you doubt the above statement, for the Observer cannot reproduce it.

WATCH YOUR KIDNEYS!

The Slightest Derangement of these important organs should be promptly heeded, for no Disease is more dangerous

Deadly diabetes, gravel or stone in the bladder, uric poisoning, and other fatal forms of Kidney Diseases always begin in a mild form. There is little harm at first, and with proper treatment all irregularities can be corrected, but the slight symptoms are often overlooked and before the victim can realize it, a fully developed and dangerous stage is reached. A thoroughly reliable and time-tested remedy for all diseases of the Bladder and Kidneys is

STUART'S GIN AND BUCHU. For thirty years this remedy has been in general use, and has made some noteworthy cures of cases that had reached a dangerous stage. It promptly reaches the cause of the disease, dissolving and expelling from the system all poisonous matter, and restores the bladder and kidneys to their normal healthy condition.

YOU CAN TEST IT FREE. Stuart's Gin and Buchu can be obtained at all drug stores, but if you desire to test the remedy, send us your name and address and a trial sample will be sent you absolutely free. Do not delay or neglect this warning which nature is giving in the form of pain, and which, if neglected, leads to serious complications in the urine, etc., but write for a sample today. Opening of Elizabeth College. (Special to News and Observer.) Charlotte, N. C., Oct. 10.—This college opened this fall with an increased attendance over previous years. This is an encouraging sign for higher education, as Elizabeth College for Women has its A. B. degree course on a par with the Southern universities for men. The Conservatory of Music is maintained and run on the plan of the Leipzig, Germany Conservatory under the able management of Harry J. Zehm. The conservatory is a separate building in connection with the college, and is attractive and well equipped for the high grade of work done there.

All the departments of the institution are headed by specialists who have enjoyed university training.

Children's Many Misfortunes. In the ages of children up to twelve years, their misfortunes, from baby's prickly heat to the boy's open sore, are many. Few parents realize the therapeutic value of sulphur for skin diseases and impure blood.

Hancock's Liquid Sulphur, Nature's Greatest Germicide, is indispensable in a home where are children—it may be taken internally or applied direct to the affected parts.

Here is the opinion of Mr. H. J. Lamar, Vineville, Macon, Ga.: We used your Liquid Sulphur on our one-year-old baby, who suffered intensely from prickly heat over her entire body. A half dozen applications in two days entirely relieved her and she slept soundly. You should recommend Liquid Sulphur strongly to mothers. It will prove a blessing to every family with small children.

The Hancock Liquid Sulphur Co., Baltimore, Md., sends free its booklet on sulphur.

FACE KNOCKED OFF. Tub Weighing 200 Pounds Fell on Him in Bottom of Well. He Walked Into the Doctor's Office Unassisted. His Face Resembling Nothing Human but the Eyes.

(Special to News and Observer.) Jonesboro, N. C., Oct. 10, 1904.—This morning while at work in a well just south of town, an old colored man by name of William Palmer, was fatally injured by a large tub of mud falling from the top of the well upon him. He was looking up as the tub was about to reach the top, when the rope broke letting the tub and its contents, probably weighing a couple of hundred pounds fall back on him. The edge of the tub struck him just on the upper part of the nose completely tearing it from his face, and his mouth and jaws were knocked completely off with the exception of the threads of skin which held the jaws to his face. He was put in a buggy and brought here as quickly as possible for medical attention, and he got out of the buggy unassisted into the physician's office and walked into the office with a face that resembled human except the eyes. Dr. Monroe was summoned at once from Sanford to assist Dr. Shipes in dressing the wound, but they state there is no hopes for recovery, and the face was in such a shape that it was almost impossible to do anything with it. He can eat or drink nothing unless it be inserted by means of a tube. People turned away from him, and he was left alone. Another teacher is to be elected and the enrollment is expected to reach five hundred before this session closes.

The new building is a real gem of architecture, having six large, conveniently arranged recitation rooms and one large auditorium. The cost was between \$7,000 and \$8,000. This school marks a large step forward in the progress of that thriving town.

A new depot of the Aberdeen and Rockfish Railroad is nearing completion. It is a beautiful and convenient building. The passenger service on this road will be into effect October 10th, and is a great convenience for the people of Hope Mills and surrounding country.

A TRAIN'S NARROW ESCAPE. Saved by a Safety Switch When Coming Down the Mountain from Salisbury, N. C.

(Special to News and Observer.) Spartanburg, Oct. 9.—The down passenger train from Asheville was just as it reached the old Salisbury station this morning, and engineer and brakemen were powerless to check its speed. It dashed down to the first safety switch like an automobile in a race. So great was its momentum that the engine climbed over the switch at the end. The coaches remained on the track. The fireman was slightly injured, but no one else was hurt. It was a very wonderful escape and shows the value of the safety switches.

Meeting of the Daughters of the Confederacy. (Special to News and Observer.) Kitley, N. C., Oct. 10, 1904.—The C. C. Blackall Chapter U. D. C. held a most interesting meeting this afternoon at the residence of Mrs. Ira G. Hunt where it was entertained with that genuine and eloquent old-time Southern hospitality so fast becoming a lost art of which Mrs. Hunt (a sister of Mr. R. B. Roney) is mistress. Among the papers read was one on Sherman's march through the South, by Miss Jean Staghorn Wood, considered one of the best and most vivid ever read before the chapter. Miss Minnie Stone was elected delegate to the State convention at Goldsboro.

BRIGHT'S DISEASE AND DIABETES!

Have their origin in an Inactive or Disordered Liver. The most stealthy and fatal diseases confronting medical science, claiming more victims, annually, than war and famine combined. A puffiness under the eyes, paleness and scanty or too copious urine mark the beginning of Bright's Disease. When the liver is diseased, the kidneys in their effort to perform double work become affected. A simple "liver regulator" will not cure Kidney disease, for although it corrects the first cause, the Kidneys are still affected. A Kidney remedy will not do it, because the source of the disease is not reached. A cure is a remedy combining both, and

DR. THACHER'S LIVER & BLOOD SYRUP CURES

because it removes the cause and at the same time cures the Kidneys. It is the only preparation now on the market that actually cures. Weakness in the small of the back, pains in loins and groins, numbness of the thighs, high colored or scalding urine, milky or bloody urine, frequent desire to urinate, nausea, vomiting, colic, constipation, hot and cold flashes, furred or unnaturally red tongue. These are the symptoms of diseased Kidneys—don't neglect them.

Only one remedy contains all the curative properties, scientifically combined, required in the treatment of Liver and Kidney diseases, and that is Dr. Thacher's Liver and Blood Syrup.
