DR. TOWNSEND'S SASSAPARILLA
Wunder and Blazing of the Age—The most Extraordinary Medicine in the World.
THIS Extract is put up in Quarts Bottles: it is six times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening, or debilitating the Patient.
The great beauty and superiority of this Sarsaparilla over all other medicines is, that while it eradicates the disease, it invigorates the body. It is one of the very best SPRING AND SUMMER MEDICINES ever known; it not only purifies the whole system, and strengthens the person, but it creates new, pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last five years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 5,000 children during the two past seasons.
10,000 cures of General Debility and want of Nervous Energy.
Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indigestion, committed in youth, or the excessive indulgence of the passions, and brought down a general physical prostration of the nervous system, lassitude, want of ambition, fainting sickness, premature decay and decline, hastening towards that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any INVIGORATING CORDIAL, as it renews and invigorates the system, gives activity to the limbs and strength to the muscular system, in a most extraordinary degree.
CONSUMPTION CURED.
Cleanse and strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.
SPITTING BLOOD.
New York, April 28, 1847.
Dr. Townsend—I really believe that your Sarsaparilla has been the means through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has been a wonderful change brought in me. I am now able to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

DR. MILANE'S LIVER PILLS!!!—The great American remedy for all the most formidable ills that flesh is heir to, is now acknowledged superior to any medicine of the kind ever offered to the public. The action is easy, certain, and attendant with no unpleasant results. It has never been tried without producing the most salutary effect. Compounded by one of the most eminent physicians in our country, it is the medicine which science, skill and experience offers to human suffering.

WORMS.—As this is the season of the year when worms are most formidable among children, the proprietors of Milane's Vermifuge beg leave to call upon parents, soliciting their attention to its virtues for the expelling of these annoying and often fatal enemies of children. Their invention is by a physician of great experience in Virginia, and after using it for several years in his own practice, and finding its success so universal, he has been induced at last to offer it to the public as a cheap but certain and excellent medicine.

RAN away in July 1847, a negro man by the name of BUCK. He is yellow complexioned, about five feet six inches high, rather bow-legged, very quick in his movements, and when spoken to very slow to answer. He was in the possession of Robert F. Morris, at Hillsborough, when he went away, and is very likely still in that neighborhood; yet he was raised in Granville County, by Mrs. Blackhall, in the neighborhood of Wilton, and may be in that neighborhood now. The above reward will be given for his apprehension, and delivery to me, or confinement in any jail so that I can get him.

Brown Town, N. C., Jan. 4th, 1849.
Messrs. P. Childs & Co.—Having witnessed the good effects of your Sovereign Balm Pills in some two cases of Fever and Ague, by the use of a single box they were both cured; also the headache, several cases; and there being none kept nearer than 10 miles of this place, (that I know of,) I am thereby induced to write you for an agency. I trust because I believe them the best pills I know of, and wish to have them for family use; and secondly, because I am of the opinion that they would save much suffering from ague and fever, and also much expense with employing Physicians. Mitchell's Eye Salve.
THE concurrent testimony of men of integrity and worth is the best evidence we can have of any fact of which we have no cognizance ourselves. The great advantages possessed by this article over every other, as its Certainty, Safety, Convenience, and Economy. All Physicians admit that great danger is to be apprehended from dragging the eye when in an inflamed and unhealthy state. In the use of this salve this objection is entirely removed, as no harm can possibly result from its use; it being in all cases applied to the external portion of the eye; thereby avoiding all the inconvenience, pain and danger, which necessarily attend the introduction of any pungent article into the eye. Its activity in subduing inflammation is so great that but few cases require the use of more than one bottle to effect a perfect cure. One Physician remarked to us, after having witnessed its effects in several instances, that it was a "perfect fire killer." We might multiply reasons why this Salve should be preferred to every thing else in the treatment of diseases of the eye, but we prefer it should stand on its own merits. All we ask is that its virtues be thoroughly tested, and that the directions be strictly followed.
D. MITCHELL,

BRANDRETH'S PILLS ARE A SURE CURE FOR INFLUENZA.
This complaint has become so frequent, that there are few persons who have not had it several times. It is a kind of malignant contagious cold attended with much fever, and great prostration of strength. So soon as possible, swallow six or eight pills; a large dose is absolutely necessary to relieve the brain, that organ appearing to suffer greatly in this complaint. When they have operated well, put your feet and legs in hot water, or take a warm bath. Be sure and be purged, life may be forfeit. Now go to bed; and, when in bed, take two more pills and some hot bonnet tea, catnip, or balm or balsam, or some warm gruel—any of these warm drinks will do—and which may be left to choice—either of them will help to restore insensible perspiration, and this method will generally cure. Should, however, the patient after the pills and this after treatment, not be better still in the morning, let him take another six, eight or ten pills, or more, according to urgency of symptoms, and the warm drinks and foot or general bath, at night. My experience has shown me that the third day, generally finds the patient well, when this plan has been adopted in the beginning. But in any event, the continuance of the treatment is the best that can be adopted, whether it takes one day or twenty to effect the cure. However bad the head may be, never let blood be drawn or leeches applied; we want all the blood we have. Instead of leaving this "life of our flesh," let us take more pills, which will take the death principle from us, leaving our blood relieved, and ready to rally all its life powers for our restoration, so soon as the purgation has left it free to effect this object.
