

**BULLETIN INDICATES KING IS CONTINUING TO BUILD UP HEALTH**

King George Passes Restful Night: 'No Appreciable Change' Reported

London, Dec. 21.—(AP)—Today's bulletin from Buckingham Palace on King George, one of the briefest yet issued, brought the satisfactory news that he had passed a restful night calculated to help building up his strength from the extreme exhaustion caused by his prolonged and grave illness.

The bulletin, taken in the light of yesterday's lengthy and guardedly optimistic report by the king's physicians, was felt to indicate that there was nothing appreciable to add to what on the whole was considered a favorable situation.

This morning's bulletin read: "The king has had a restful night. There is no appreciable change to be noted."

The view taken in palace circles, it was learned, coincided with the public impression from the bulletin that his majesty is continuing to gain slowly. His physicians, it was indicated, are satisfied with the course that events are taking. They are not expected to make any further statement on the king's case until the usual hour for the night bulletin.

Prince George, returning home from his sea station at Bermuda to the bedside of his father, arrived at Southampton today aboard the steamship Berengaria.

**Violent Earthquake Shakes Philippines**

Manila, Dec. 21.—(AP)—Manila learned today that a violent earthquake shook the greater part of Mindanao province Wednesday night. One person was killed at Citabato, provincial capital. Many houses collapsed and fire broke out, but it was quickly controlled. An undetermined number of persons were injured.

The damage was estimated at \$100,000. The tremor also was felt in Zamboanga and Davao, two other provinces of Mindanao, but little damage was done in those areas.

The weather bureau estimated that the quake had its center in the Celebes sea, 1,000 kilometers south of Manila.

**Dresses the Part**

When Lady Mary Heath goes record seeking, her costume would please even the most exacting medicos who disparage the lack of warm feminine apparel. Flying from Curliish Field, Long Island, the famous Irish flyer took her tiny ship into the chilly skies until a cold motor forced an abandonment of the attempt to break her own light plane altitude record of 24,700 feet.

Count Reverses Decision

The supreme court today reversed the decision of Ward county district court in the case of Harry Light vs. the state workmen's compensation bureau. The court held that in a case where an employer fails to pay his workmen's compensation premium but reinstates it following the injury of an employe, the bureau is the sole judge of the compensation due the injured man. The case was remanded to the bureau for further action.

**Beekeepers to Meet at Fargo, Jan. 15-18**

Beekeepers of North Dakota and western Minnesota will meet at the annual session of the North Dakota Beekeepers association and regular

short course held during Farmers Week, January 15-18, at North Dakota Agricultural college. Prominent speakers on beekeeping of national reputation have agreed to address the beemen at that time.

That the beekeeping industry of North Dakota has developed from 708 hives of bees in 1920 to 30,000 hives in 1928 is the estimated increase. The past season's honey crop is estimated at 3,300,000 pounds.

**MAIL BREAKS RECORD**

Minot, Dec. 21.—(AP)—The volume of outgoing mail passing through the Minot postoffice yesterday broke all records it was announced by Postmaster B. E. Stewart. A total of 38,134 letters and cards were canceled.
