Next Thursday evening's entertainment at the Donovan Hall is something that the people of Langdon may feel assured will be the genuine article. Prof. Chas. F. Craig is without a peer as a humorous character impersonator and gives a program wherever he goes that never fails to well please his audience. His makeup and acting were among the most successful hits of the Chautauqua over at Devils Lake last summer. This attraction comes under the special auspices of the local Knights of Pythias lodge and will come the nearest to being the event of the season of anything presented to the amusement seeking people of Langdon for a long time. Secure your seats early at the Donovan drug store and avoid disappointment.

MONEY TO LOAN
ON REAL ESTATE AND CITY PROPERTY
TERMS REASONABLE.
FARRELL & BURKE,

J. McPhail had a corner on home grown potatoes of the heavy-weight class last week and showed around a beauty weighing two pounds dug on one of his farms near town. But the news came through the Moon on Saturday that Donald Shaw the Byron postmaster had one that tipped the beam at four pounds, which puts it slightly in the shade.

Osnabrock was represented at the county seat Monday by such prominent townsman as R. P. McAllan, Jno. Trotter, H. Bidlake, K. N. Syverud and Frank Sim. They were interested in the disposition of the case against Jos. Brennan the pigger, one of the several parties arrested on Friday last for infraction of the prohibition law. Although not successful in discovering anything in the way of "evidence" on the premises of the defendant they express themselves as satisfied that the lawless element that has given their town a bad name all fall has at last been thoroughly broken up.

A dispatch received yesterday by W. J. Loynes from Attorney Doughty at Williston stated that the jury on the Alex Renville case failed to agree on a verdict after being out eighteen hours. The case will be carried over the term and the defendant has been released under bond to appear for a new trial. Mr. Doughty went to Williston last week to act as Renville's attorney at his trial for horse stealing. The prosecution was handled by States Attorney Stewart of Williams county, who had associated with him Attorney J. H. Bossard of Grand Forks, and the outcome of the trial is certainly one which is quite a credit to that veteran of the Cavalier county bar, Attorney Doughty. It is understood that Renville was at one time a resident of this county and worked for a short time on one of P. McHugh's farms near town.

The management of the Electric Light Co., have about concluded to dispense with the use of gasoline in the operating of their plant and the 60 horse power Otto gasoline engine will be taken out and a 100 horse power Corliss steam engine installed in its place. A crew of threshers who had been working with their teams for outfits operated in this county got into trouble last Friday at Marvel, in Grand Forks county. They were on their way to Bemidji and had stopped at a hotel in Marvel over night, putting their three teams in the barn and slipped away without paying their bills. After their departure a number of chickens, a turkey and some harness was found to be missing. The local officer telephoned the police at the Forks and the officers met the crew just as they were entering the town at the N. P. bridge. Upon searching the crowd they found the stolen property. The men admitted taking the harness rings but swore up and down they didn't know how the chickens and turkey came under the hay in their wagon. A little persuasion was used by the officers and the crowd finally returned the property, paid the costs and were sent on their way to Bemidji where they claimed they were heading for.
