Report comes from the southwestern part of the county of the recent marriage of Miss Lizzie Schuler, daughter of Postmaster D. Schuler of Trier, to Mr. John Olderman. The ceremony was performed at the Trier Catholic church by Rev. Fr. Benhardy of Devils Lake. The festivities at the bride's home following the wedding were participated in by neighbors and friends for miles around.

It is learned by the DEMOCRAT from a reliable source that when the city council meets Monday night active steps will be taken to see if the "kid nuisance" cannot be abated on show nights at the Donovan Hall. The racket the young hoodlums kicked up last Friday night at the Dixy Jubilee concert brought matters to a climax. These traveling companies pay a license to the city and hereafter the authorities will take a hand and see they are accorded fair treatment. Consideration is due them in this matter equally as much as those who pay their money at the door to be entertained. We think we see the finish of Langdon's noisy young "gallery gods."

F. J. Kelly, well known in musical circles here and at Milton, has opened up a photograph gallery at Edmore.

Judge Kneeshaw got a boost for the prospective vacancy on the supreme court bench from the Bathgate Pink Paper, all of which is very nice and well suited to the wearer of ermine on wool sack of the seventh judicial district. Indications point to the fact that though Langdon has to "go 'way back," as far as base ball matters are concerned this year, it stands a fair show of putting onto the road some of the finest driving and trotting horses that are being brought into the state this spring. Among those who already have fast ones that raise considerable dust when hitched to rubber tired red wheelers are Tom Pierce and George Barnard. Last night's freight brought in a string of half a dozen more fast travelers, purchased in the Twin Cities by Banker Mooney, Sheriff Pinkerton and County Treasurer McGauvran. Judges of horse flesh have pronounced them as fit to race against anything from Crescents to an air ship. We hear that Banker Mooney's team have a mile record of 2:40 in double harness and the balance of the bunch are in the habit of moving in fast company.

Mrs. Wm. Plummer and her mother, Mrs. Sandison, left Saturday for Montreal, from which point they take ocean passage over the Beaver line for Scotland, where both ladies spend the greater portion of the summer and later expect to join with the balance of the Langdon party—leaving in a few weeks—in traveling over the British Isles and witnessing the coronation of King Edward VII. The departure of Robert Marie and daughter and Mr. Harry Atkinson will occur within a few days for the same destination. Later on, after the schools close the members of the Travel Club, to the number of ten, leave here for a couple of month's sight seeing in the Old Country. Rev. Dougan and niece join the Langdon party later at some point in Scotland, not being able to leave when the others do.
