British Warship Ashore.
VANCOUVER, B. C., Dec. 4.—On the second anniversary of the disaster to H. M. S. Condor, which left for Honolulu and was never heard of again, the British second class armored cruiser Flora lies piled on the rocks of Denman island, and there she hangs with a tenacious grip. Serious fears are entertained that the Flora will prove a total wreck unless she is floated from her present position before a storm arrives.

The Story of a Wonderful Woman.

This is the day of women leaders in many fields of thought and action, but there are few among the sex so prominent as Mrs. Augusta E. Stetson, New York's High Priestess of Christian Science. The crowning achievement of her career—the raising of $2,000,000 for the building of a new temple to Christian Science, and the opening of this temple last week—calls attention to Mrs. Stetson and makes the story of her remarkable life particularly interesting just now. This story will appear in next Sunday's New York World.
