

MARITAL WOES OF VALENTINES ARE PARTIALLY AIRED

She Applies Here for Alimony and Counsel Fees.

NEITHER APPEARS IN COURT ROOM TODAY

Charges and Counter-Charges Galore Have Been Made.

Through an application for alimony and counsel fees made on behalf of Mrs. Abby O. M. Valentine, her troubles with her husband, Ludlow W. Valentine, of Atlantic City, who is trying to get a divorce from her on the ground of desertion, were partly disclosed before Vice-Chancellor Emery today. The application was taken under advisement and no date fixed for the hearing.

Neither Mrs. Valentine nor her husband were in court, the former being represented by Judge Worrall F. Mount and the latter by Endicott & Endicott, of Atlantic City.

Valentine's story is that the wife, who is a daughter of John Muir, a wealthy New York stockholder, residing in New Rochelle, deserted him October 28, 1908. She denies this and makes a counter-charge of the same nature with some extras thrown in.

Mrs. Valentine also denies that she never asked her husband to support her, as he alleges.

The couple were married about a dozen years ago and have a 10-year-old boy, who is being taken care of by the mother.

Some of their troubles were aired in print early in the month, when Mrs. Valentine had her husband arrested in Atlantic City, charging him with non-support. He was held in custody, extradited to New York State and indicted by the grand jury at White Plains. He is now under bond awaiting the next move in her action.

Valentine at one time was in a sort of copartnership with his father-in-law, and there was trouble there also. It was over their respective accounts, and this was finally settled by the father-in-law's payment to the son-in-law of \$20,000.

In the meantime Mrs. Valentine is supporting herself by running a real estate business in the metropolis.

PANIC IN TRIPOLI AS WAR HOVERS NEAR; MASSACRE FEARED

Map showing Italy and Turkey and the country over which trouble has arisen between them; the heads of these two countries who are preparing to fly at each other's throat, and the cruiser Chester, dispatched to Tripoli to watch American interests.

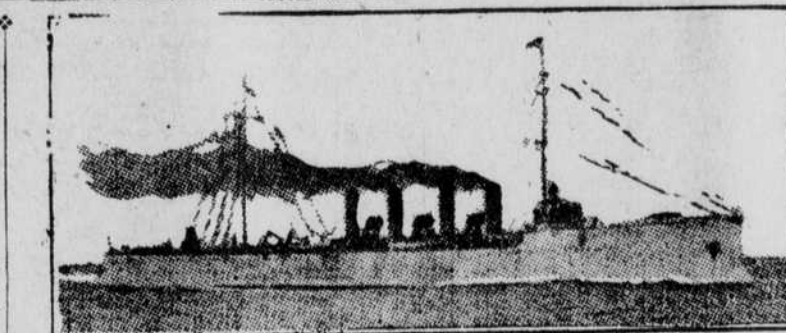

Italian Warships Twenty Miles Off; Europeans in Danger.

MALTA, Sept. 27.—A private message from Tripoli today says that Italian warships with an expeditionary force are lying twenty miles off Tripoli and that there is a panic among the Italian residents there, as it is feared that the landing of troops would be the signal for a massacre of Europeans.

The Anglo-Maltese colony in Tripoli today sent an appeal to their compatriots, saying:

"We implore our brethren to appeal to the government to assist us and to come to our help, as the Italian steamers refuse to receive any but persons of their own nationality."

CONSTANTINOPLE, Sept. 27.—The

Turkish cabinet in council yesterday decided that in the event of a rupture of the relations between Italy and Turkey, the Italians should be deprived of all benefit of the capitulations.

The capitulations are Turkish State papers guaranteeing to foreigners residing in Turkey and its dependencies extra territorial rights and immunities such as trial by consular courts in cases where Turkish subjects are concerned.

RECEPTION FOR RETIRING PASTOR IS TENDERED.

"Godspeed" for Rev. S. J. Skevington and Family.

A farewell reception was tendered Rev. Samuel J. Skevington, pastor of the Clinton Avenue Baptist Church, this city, and Mrs. Skevington last night in the chapel. Mr. Skevington, who has completed almost six years of successful ministry at the Clinton Avenue Church, and his family left this morning for Niagara Falls en route for the Belden Avenue Baptist Church, Chicago, to which he received a unanimous call last August.

The reception last night was in charge of Rev. D. De Wolf, assisted by several pastors of this city. Addresses were given by Dr. E. T. Tomlinson, formerly pastor of the First Baptist Church of Elizabeth, who will occupy the Clinton Avenue pulpit until a new pastor has been called; Dr. Thomas J. Villars, pastor of the Peddie Memorial Baptist Church, of this city; Senior Deacon Edgar C. Sutphen, and Dr. De Wolf. A musical program was given by Miss Lilly Weiss, Mr. Hamilton and the orchestra.

During the evening Mr. Skevington was presented with a complete table service of Gorham sterling silver and an autograph album containing a picture of the church and autographs of most of the congregation, and Mrs. Skevington and Miss Gladys and Miss Florence Skevington with bouquets of flowers.

CARRIES GUN TO POLLS IN CASTING HIS BALLOT.

Frank Redpath, brother-in-law of Joe McGinnis, gave an illustration of Western determination yesterday when he made several sacrifices in order to be permitted to cast a ballot for the regular Democratic candidates, chiefly John C. Monahan. Redpath startled those who were waiting for transfers in the court yesterday when he entered with his favorite gun in a russet leather case. No, he was not on the warpath, but if he succeeded in getting his transfer before dark he intended to participate in a prize shoot at the Speedway Club's traps. But he wasn't able to shoot, but he voted for Monahan and the first thing today he inquired how many runs Monahan won by. "I mean votes," said the former Oklahoma citizen.

"I'm so accustomed to inquiring about baseball. 'I don't like that Gerson law you got in Jersey,' was Redpath's comment. 'Out home it ain't that way; no siree. They asked me a lot of questions and I thought that a voter had to pass the civil service to cast his ballot.'"

ROCHESTER MAY REFUSE TO PLAY IN BALTIMORE.

(Special to the Newark Star.)

ROCHESTER, N. Y., Sept. 27.—It is not certain today that the Rochester Eastern League champions will go to Baltimore to play a game there Saturday against the All-Star team. The directors of the Eastern League last night voted to play Saturday in Baltimore and Sunday in Newark for the purpose of giving the players the benefit of these two big drawing days.

President C. T. Chapin, of Rochester, protested. It was the contention of Mr. Chapin that the original agreement provided for five consecutive games, two in Rochester, two on neutral ground and the fifth in Rochester. The players do not share in the proceeds of the fifth game. Under the old agreement, five consecutive days of play would make the fifth game on Saturday in this city. Thus the players would be deprived of the proceeds of this one big day.

TALK ON NEGRO PROBLEM. "My Views on the Solution of the Negro Problem" will be the subject of a lecture to be given tomorrow night by the Rev. Henry R. Rose, of the Church of the Redeemer, in St. John's Methodist Episcopal Church, of which the Rev. William R. Palmer is pastor. It will be the first in a series of three talks by different ministers on the same topic.

HATINE & CO.

Instinctive Playing With the Virtuolo

THE Virtuolo is an art medium. It enables you to put into your playing, involuntarily, beautiful tone and touch and accent. It is involuntary to such an extent that you would really have to pay attention to find out how you produce much of the expression, such as accent, shadings of force, attack and delicate touch effects.

The result of distinctive control is that you at once enjoy the sensation of playing music—not of operating an ingenious machine. This sensation to its fullest extent, has been known only to the few most skilled pianists.

Until you have had the Virtuolo in your home you cannot realize how true this is. From the first hour you are fascinated. From the first you find that you are led naturally and almost involuntarily to put feeling and expression into your playing, more beautifully than you would ever do if you had to master difficult control devices. Your instinctive control over tone, touch and accent to such an astonishing extent makes you eager to play with fine tone shading, molding every phrase to your fancy or mood. So, month by month, your ideas grow beyond anything you ever believed possible. You never tire of it.

The Virtuolo departs from all other players in principle. Instead of using lifeless wood and leather as the substitute for the pianist's hands, the Virtuolo plays upon its own set of keys with "air muscles" located in its eighty-eight "channel fingers." The flexing of these sensitive "air muscles" is in response to every natural impulse given by the Virtuolo pianist. All of the touch expression which makes playing artistic is produced involuntarily. That is why the novice "finds himself" when he begins playing the Virtuolo.

Get Inner Beauty. It tells you about the Virtuolo and ideas about music you may not know. Free for the asking.
