

## Psalm of Life.

Solomon Grundy, born on Sunday with a basswood spoon in his mouth. Worked on Monday, on the theory that labor conquers all things. Got his eye-teeth out on Tuesday. Accumulated \$10,000,000 of liabilities on Wednesday. Collected objects d'art on Thursday. Married his daughters to dukes on Friday. Died on Saturday, depressing the market a point and a half. Buried on Sunday, and that was the end of Solomon Grundy—Life.

## A Difficult Lesson.

"It is next to impossible for a man to teach a pretty girl how to whistle," said a musician who is a good whistler. "How is that?" he was asked. "Well, providing she is not your wife or sister, when a pretty girl gets her lips properly puckered she usually looks so bewitchingly tempting that he kisses her, and the consequence is she doesn't have a chance to blow a note."—New York Press.

## One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

## Such is Fame.

The secretary of a periodical published not far from New York City, and noted for the literary favor of its editorial pages, recently received a letter from a subscriber asking for the address of George Meredith. The secretary had a careful examination made of the long payroll of the company, but the search was in vain. A reply was, therefore, sent to the subscriber, couched in this language:

"We are very sorry that we are unable to give you the address of George Meredith. But if you will write to Joe Meredith, of our St. Louis office, perhaps you can ascertain it from him."—Success.

## ITCHING HUMOR ON BOY.

His Hands were a Solid Mass, and Disease Spread All Over Body—Cured in 4 Days by Cuticura.

"One day we noticed that our little boy had broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 10, 1907."

An Iowa man has invented a machine for paraffining butter tubs.

Ask Your Dealer For Allen's Foot-Ease A powder. It treats the feet. Cures Corns, Bunions, Swollen, Sore, Hot, Callous, Aching, Sweating Feet and Ingrowing Nails. Allen's Foot-Ease makes new or tight shoes easy. At all Druggists and Shoe stores, 25 cents. Accept no substitute. Sample mailed FREE. Address Allen S. Olmsted, LeRoy, N. Y.

"American butter" is the name given in Syria to oleomargarine.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

London's Soot Production. It is calculated that London produces 55,000 tons of soot yearly, which would be worth as fertilizer about \$225,000. There are always fifty tons of soot suspended above London in the form of smoke.

## BED-BOUND FOR MONTHS.

Hope Abandoned After Physicians' Consultation.

Mrs. Enos Shearer, Yew and Washington Sts., Centerville, Wash., says: "For years I was weak and run down, could not sleep, my limbs swelled and the secretions were troublesome; pains were intense. I was fast in bed for four months. Three doctors said there was no cure for me and I was given up to die. Being urged, I used Doan's Kidney Pills. Soon I was better and in a few weeks was about the house, well and strong again."

Sold by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Sweet Sorrow. "I can't please my friends," sobbed the young bride.

"What's the matter, pet?" "They insist that I can't be happy with a fat-head like you; but, oh, husband, I am!"—Washington Herald.

THE DAISY FLY KILLER destroys all the flies and annoying insects in dining room, kitchen, and all places where flies and annoying insects are troublesome. Clean, fast, and will not soil or injure anything. Try them once and you will never be without them again. Sold by all dealers. Write for free literature. AROLD SOMERS, 150 South Ave., Brooklyn, N. Y.

PATENTS \$25.00 We pay all expenses except Government fees. No extra. Our book shows how to write. Write for it now. THE INVENTOR'S GUIDE, 170 Broadway, New York.

## AT LAST THE WORM TURNS!

—Cartoon by Triggs, in the New York Press.

There has been introduced into the Georgia Assembly a timely bill relating to the marriage of women, which provides that if any woman, subject of the State by sents, paints, powder or perfumes, cosmetics, waters, artificial teeth, false hair, iron stays, corsets, pads or padding, hoops or high-heeled shoes, V-neck waists, lace, variegated, drop-stitched, or rainbow hosiery, or by any other deceitful means or artful practices, the marriage, upon conviction, shall be null and void. Assemblyman Glenn, who introduced the bill, represents a summer resort district.

## PRESIDENT ROOSEVELT HONORS GROVER CLEVELAND.

Names San Jacinto Forest for Former President, Who Created the Reservation—Informs Mrs. Cleveland of His Proclamation

Oyster Bay, N.Y.—President Roosevelt has written to Mrs. Grover Cleveland, informing her of a proclamation he has signed changing the name of the San Jacinto National Forest to the Cleveland National Forest, in honor of the late former President. The letter is:

"Oyster Bay, N.Y., 1908. "My Dear Mrs. Cleveland—It has recently been my privilege to sign a proclamation changing the name of the San Jacinto National Forest to the Cleveland National Forest. May I express to you the very great pleasure it gave me to take that action—a pleasure mingled with a keen sense of the loss to our country and to our citizens in the death of President Cleveland. On February 22, 1897, President Cleveland signed the proclamation creating the San Jacinto Forest Reserve in Southern California. The date—February 22—was no mere accident, since the signature of the proclamation was timed to coincide with the birthday of our first President.

"President Cleveland was one of the first to recognize the need of forest preservation, and the creation of the San Jacinto and other forest reserves, with a total area of 25,686,320 acres, was one of the results of his foresight in this direction. Throughout his life he took great interest in conserving the natural resources of the Nation; and I particularly regretted his inability to attend the meeting of the Governors in May, because that meeting was in part the fruit of seed he had sown years before. The name of Grover Cleveland will always be prominently identified with the movement to protect the forests of the United States, and it seemed to me eminently fitting that one of the forests which he created should bear his name throughout all time.

"Sincerely yours, "THEODORE ROOSEVELT."

## BROTHERS TRAPPED, KILLED THEMSELVES.

Posse Stormed Home of Man Who Had Slaughtered an Inoffensive Meat Pedler.

Benton Harbor, Mich.—Both August Gross, who without known cause shot and fatally wounded an inoffensive meat pedler named James Kirk, and his younger brother, Fred Gross, lost their lives in a pitched fight with Sheriff Tennant and a posse of seven men who went to the Gross home to arrest August Gross. One of the officers was injured. The Gross brothers are both supposed to have been insane.

After shooting Kirk, Gross barricaded himself in his farmhouse, twelve miles from here, in Pipe stone township, and through the night exchanged occasional shots with the crowd of farmers and officers who were guarding the premises to prevent his escape. His younger brother, Fred, joined him in the defense of the house, and the aged mother of the two men was also in the building. The officers found her almost prostrated with terror when they finally broke into the house.

EDICT THAT WILL WRING THE HEARTS OF COLLEGE BOYS AND NEGRO GAMBLERS Tailors in Convention Decide to Make No More Flashy Clothes After This Summer.

Chicago. — Woe for the college youth, the negro gambler and the flashy bartender. The tailors' convention, figuratively speaking, tore freak clothes to tatters. What was left of the drop-front, the four-inch trousers cuff, the frilly pocket flaps and other innovations of the season wasn't enough to interest a rapscallion. Indignation at the tailors' outrageous garments rose to a high pitch and they vowed even college boys would have to submit to conservative clothes in the fall, even if the football gatherings came to look like a campmeeting.

In the campaign against the cherished fads John E. Spahn sounded a "keynote" in his speech: "Your salvation lies in stemming the torrent of freakish garments," he said to the assembled cutters. "The tailors originated the so-called gingerbread styles for their college patronage, but they have got beyond us. They were seized upon greedily by the manufacturers. They were just what the makers were waiting for, but the curves and frills conceal de-

fects of fit. Long coats cover up the misfit of the barrel' trousers. Con-

vention figuratively speaking, tore freak clothes to tatters. ## SAILORS MARCH IN HONOLULU

Native Girls Decorate Them With Flower Garlands.

Various Entertainments Furnished Men of the Fleet: Ashore—Dinners, Balls and Excursions.

Honolulu, Hawaii.—When the Atlantic battleship fleet arrived here, by general consent the day was made a complete holiday, all business being suspended. Thousands of persons from the different islands of the Territory assembled on Diamond Head and other heights and points of vantage southeast of this city to view the vessels.

Early in the morning the crowds began scrambling up the bluffs to catch the first sight of smoke above the horizon, and the first salutation of the long cherished home came at 7.30 o'clock, when a message was received from the liner settlement on the island of Molokai that the fleet had been sighted. The Connecticut appeared off the entrance to the channel at noon.

The flagship was followed by the other vessels in regular order, and twenty minutes later all but the third division, composed of the Louisiana, the Virginia, the Ohio and the Mississippi, were in sight. After passing Molokai the third division proceeded to Lahaina, on the island of Maui, for coal.

At 12.50 p. m. the Connecticut entered the harbor, and was saluted from the naval station at 1.28 p. m., followed by the other ships. She rounded the lighthouse buoy and came to anchor inside the harbor, while the rest of the fleet made the islands found vent in whistling sirens and the bursting of daylight fireworks.

As soon as the Connecticut had come to anchor the reception committee boarded her and formally invited Rear-Admiral Sperry and his officers and men to partake of Hawaiian hospitality. Later in the afternoon Rear-Admiral Sperry made an official visit to Governor Frear, who returned the visit.

At night the city dressed in bunting was illuminated with thousands of electric lights, and the streets were filled with a holiday making crowd. Out in the harbor the men-of-war were outlined in incandescent bulbs, their masts huge electric crosses against an equatorial sky.

The feature of the visit, however, was a parade in which 2500 blue-jackets and marines participated. The procession, which was headed by a band of three miles long, lined with spectators. Many of the men in line were decorated with wreaths of flowers by Hawaiian girls.

This attention pleased the blue-jackets mightily, and the girls were most enthusiastically cheered. The men wore their flower ornaments back to their ships.

FATAL NEW HAVEN WRECK. One Killed and Twenty-six Hurt When Express is Derailed.

New York City.—The White Mountain Express, while rounding a sharp curve at Greenwich, Conn., at a fifty-mile-an-hour clip, on the New York, New Haven and Hartford Railroad, left the track at 9.30 a. m. One passenger, a girl, was killed and twenty-six were painfully injured.

The accident was due to rotted railroad ties, which allowed the rails to give way on a bridge spanning Greenwich avenue, about 100 feet from the station. Accusing the railroad officials of criminal carelessness Dr. J. A. Clarke, medical examiner for Corner County, of Fairfield County, began collecting evidence to be presented to a coroner's jury.

The dead: Miss Margarette Armstrong, aged eighteen, No. 201 Walnut avenue, Wayne, Pa.

SUICIDE OR MURDER? Body May Have Been Hanged to Sug-gest Self-Murder.

Dover, Del.—Murder is evident in the case of William Williams, an aged farmer of Maryland, Md., who was found hanging in a wood near the little village of Barclay, Md. It was at first supposed that he had committed suicide. Now an examination by a county physician shows that he was murdered.

A possible motive for murder appears in a marriage license found in the dead man's pocket going to show that Williams, at sixty-four, was about to marry a girl of thirteen, Elizabeth Walls.

Williams had two daughters and two sons, all of whom were educated. The Walls girl and her parents refuse to talk.

CAPS EXPLODE, KILLING THREE. Boston Customs Men Blown Up When Box is Pried Open.

Boston. — Two Government Customs inspectors and a wharf watchman were killed and two longshoremen and two clerks injured in the explosion of a box containing detonating caps in an inspection locker of a shed on Pier 47, Mystic Wharf. The dead:

Z. K. Nickerson, Lynn, Mass., assistant examiner.

Charles F. Atwood, Quincy, Mass., inspector.

Thomas Mason, East Boston, Mass., watchman.

Nickerson was attempting to open the box with an axe.

Advance in Window Glass Prices. An advance of ten and twenty per cent. in the price of glass was decided upon by the window glass manufacturers of the United States at Cleveland. G. W. Morenus, president of the association, announced the raise.

Largest Corn Acreage. The present corn area is increased a million acres over that of a year ago, being the largest acreage of its kind ever shown in the United States.

The National Game. The Boston American Club has signed Hazleton, Dartmouth's star pitcher.

The Boston National catcher, Graham, seems to be something of a batsman.

Cincinnati has asked for waivers on Slincock, the former Michigan University pitcher.

Catcher Bowyerman thinks Pittsburg will beat Chicago out of this season's pennant.

Outfielder Jimmy McHale, of the Boston Americans, has at last joined the Toronto team.

## AN HONEST DOCTOR ADVISED PE-RU-NA.

M. R. SYLVESTER E. SMITH, Room 215, Granite Block, St. Louis, Mo., writes: "Peruna is the best friend a sick man can have."

"A few months ago I came here in a wretched condition. Exposure and dampness had ruined my once robust health. I had catarrhal affections of the bronchial tubes, and for a time there was a doubt as to my recovery."

"My good honest old doctor advised me to take Peruna, which I did and in a short time my health began to improve very rapidly, the bronchial trouble gradually disappeared, and in three months my health was fully restored."

"Accept a grateful man's thanks for his restoration to perfect health."

Pe-ru-na for His Patients.

A. W. Perrin, M. D. S., 980 Halsey St., Brooklyn, N. Y., says: "I am using your Peruna myself, and am recommending it to my patients in all cases of catarrh, and find it to be more than you represent. Peruna can be had now of all druggists in this section. At the time I began using it, it was unknown."

"C. B." in the Abbey.

Out of the nineteen prime ministers who held office in the nineteenth century only seven have had monuments in the Abbey erected at the public expense. It is not, therefore, a customary honor, but a distinction, which Mr. Asquith will ask Parliament to confer on Sir Henry Campbell-Bannerman when he makes the proposal of which he has given notice—a distinction due by the verdict of popular opinion—British and foreign—to a character of singular grace and truth.—Westminster Gazette.

Ants Used as Food.

The termites, or great white ants which are highly esteemed as food in Central Africa, live in great colonies and build enormous hills. As soon as the rainy season begins, when the termites are full grown and about to leave their nests, they are regarded most choice as edibles, and the man ant eater then goes forth with his axe and chops his way into their dwelling place in order to kill them.—Kansas City Journal.

Artificial Honey.

Bee keepers in southern Italy are becoming seriously alarmed at the perfection which has been attained in the manufacture of artificial honey. The West India Committee's Circular, referring to the matter, says that the process of its manufacture is a very simple one and involves the use of the best quality of refined sugar and its melting and boiling with the addition to it of tartaric acid to the extent of about one-tenth of one per cent. of the weight of the sugar. It must be boiled in an enameled vase, under pressure for forty-five minutes. The liquid will then have assumed a golden color and on cooling will have the consistency of ordinary honey. If a little true honey is mixed with it the mass will assume the flavor to such an extent as to be indistinguishable from the genuine article.

Bee keepers are endeavoring to obtain legislation which shall enact that some substance shall be added to artificial honey so that it may be distinguishable at a glance from the genuine article. On the other hand, it is claimed that the artificial honey may be very useful to bee keepers because by mixing it with inferior, or unsalable honey, a marketable article may be produced.

So many peanuts are eaten in this country that the native supply is not sufficient for the demand, and about \$3000 worth of the African nuts were imported from Marseilles in 1906 and over \$73,000 worth in 1907. The west coast of Africa produces quantities of peanuts.

Many important drainage projects are under way in the marsh land of Louisiana which will ultimately make it a great agricultural country.

DROPPED COFFEE. Doctor Gains 26 Pounds on Postum.

A physician of Wash., D. C., says of his coffee experience: "For years I suffered with periodical headaches which grew more frequent until they became almost constant. So severe were they that sometimes I was almost frantic. I was slow, constipated, irritable, sleepless; my memory was poor, I trembled and my thoughts were often confused."

"My wife, in her wisdom, believed coffee was responsible for these ills and urged me to drop it. I tried many times to do so, but was its slave."

"Finally wife bought a package of Postum and persuaded me to try it, but she made it same as ordinary coffee and I was disgusted with the taste. (I make this emphatic because I fear many others have had the same experience.) She was distressed at her failure and we carefully read the directions, made it right, boiled it full 15 minutes after boiling commenced, and with good cream and sugar, I liked it—it invigorated and seemed to nourish me."

"That was about a year ago. Now I have no headaches, am not snored, sleeplessness and irritability are gone, my brain clear and my hand steady. I have gained 20 lbs. and feel I am a new man."

"I do not hesitate to give Postum due credit. Of course dropping coffee was the main thing, but I had dropped it before, using chocolate, cocoa and other things to no purpose."

"Postum not only seemed to act as an invigorant, but as an article of nourishment, giving me the needed phosphates and albumens. This is no imaginary tale. It can be substantiated by my wife and her sister, who both changed to Postum and are hearty women of about 70."

"I write this for the information and encouragement of others, and with a feeling of gratitude to the inventor of Postum."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

## How to Know a Mad Dog.

Hydrophobia is in reality so rare and so terrifying that its symptoms and treatment are little understood. As a matter of fact, the commonly accepted expression of madness in a dog is often misleading. The real mad dog does not shun water, as it is said. On the contrary, mad dogs often rush to the water and drink eagerly, if they are able to swallow. The mad dog does not foam at the mouth. It does not run amuck, snapping at everything in its path.

What, then, are the indications of the mad dog? To those familiar with a given dog the surest symptoms, and the one which should excite the closest attention is a distinct and unaccountable change in the dog's disposition—a staid dog becoming excitable and a frisky one dull. That condition does not necessarily mean rabies, but it is suspicious, and if, in addition, the dog has trouble in swallowing—as though it seemed to have a bone in its throat—beware! That dog should be instantly tied up, because if it be rabid it takes but a day or two for ferocious instincts to develop.

The unmistakable evidence, however, of a dog with rabies is the sticky, whitish saliva which covers the teeth and shows on the drawn lips. The eyes glare and are red; the dog has paroxysms of running fury, during which it barks hoarsely, which alternate with periods of temporary exhaustion. — Outing Magazine.

Puritans Had Fine Shoes.

The early settlers came over to trade and to prosper as well as to seek religious and political liberty. History commonly deals with the compact signed in the cabin of the Mayflower, the sufferings of the first settlers, and their struggles against the savages, both man and beast. But it is certain that the forefathers, and their wives and daughters, brought over many articles of fine and stylish apparel, and it may be that several pairs of fine and stylish boots and shoes were in the trunks of these stern persons who landed in Plymouth in 1620.

The early forefathers certainly laid the foundation of modern trade. They certainly brought over love of fine dress. They established in this country the foundations of trade, and the belief that it is a person's duty to dress himself as finely as he possibly can. From these early foundations, Americans have built up a trade, and an appreciation of dress that is second to none in the world. It is because the great majority of Americans of the present day admire their stylish and well appearing garments that retail trade flourishes.—New England Grocer.

Red Blood and Blue.

Three-year-old Allan had a very aristocratic grandma, who prided herself on her own and her husband's blue-blooded ancestry. She told him heroic deeds of them and warned him from ever playing with boys of low degree.

One day Allan came screaming up stairs to his mamma and grandma, holding his hand up covered with blood, where he had cut his little finger. They were both greatly alarmed, as he was a child who rarely cried or complained when hurt. Mamma washed the blood off and, examining the cut, said:

"Why, dear, it's not so very bad. Does it hurt you so much?"

"I'm not cryin' 'cause it hurts," he said, "but 'cause it's only red blood, and grandma said I had blue."—Philadelphia Ledger.

Bunyan's Sharp Answer.

John Bunyan wrote "The Pilgrim's Progress" in Bedford jail, where he was confined for his religion. A Quaker came to the prison and thus addressed him:

"Friend Bunyan, the Lord hath sent me to seek for thee, and I have been through several countries in search of thee, and now I am glad I have found thee."

Bunyan replied, "Friend, thou dost not speak truth in saying the Lord sent thee to seek for me, for the Lord well knows that I have been in this jail for some years, and if He had sent thee He would have sent thee directly."—Scrap Book. N.Y.—30

FITS, St. Vitus' Dance, Nervous Diseases, permanently cured by Dr. Kline's Great Nerve Restorer. \$2 trial bottle and treatise free. Dr. H. R. Kline, Ltd., 331 Arch St., Phila., Pa.

The value of dairy products for 1907 was \$800,000,000; of poultry, \$600,000,000.
