From Washington to Jackson every begin except the two Adamses, both of whom failed because of special offense given to the people. From Jackson to Harrison no President has been re-elected except two—Lincoln and Grant, for whose re-election there were peculiar reasons. Moreover, apart from these two only one President has been renominated by his party since the end of Jackson's second term, and he was defeated in 1888. These precedents are against Presidents Harrison's c nomnation and reelection.

The hope of the Dark Continent is the Free State of the Congo; the curse of that State and its neighbors is rum | m and slavery; and the union of all Christian nations against the double mischief is balked by the United States—unless is balked by the United States—unless the President shall intervene. The Brussels treaty prohibiting the importation of intoxicants and firearms (the latter seminated in the main feature of the latter of the latt traffic being the main feeder of the slave trade) has received the assent of

slave trade) has received the assent of all the great European Powers; our Senate alone has hitherto failed to ratify; and unless its ratification be given by the 1st of July, the proposed treaty falls to the ground, and the tide of ruin sweeps on over Africa. Will President Harrison do his part?

Senator Werts, the father of the inquor and ballot reform laws wants to be the next Governor and in regards to Gov. Abbett wanting the Senatorship, Senator McPherson said in an interview: "Abbett ought to be Senator. "His service to the State and to the party has won it for him. Abbett has had offices, but that is because the people have asked him to serve them. He has not yet had what he has wanted. He has done so much he has wanted. He has done so much for the party and for the State, as I said, that he should be rewarded with the only office he cares for. He aspires May 5.

This world needs more Earnest Workers and so did the head officers to make the wheels go round.

The making of sugar free of duty was intended to sweeten those who had begun to sour on a high tariff.

Fred Marsh has the political pull on the official plums in Union county. He is now both Senator and Prosecutor.

"He that endureth to the end shall be saved" did not prove true with the Earnest Workers, notwithstanding the end ones will have all the endurance.

The cry of the tariff people is "Tin, Tin, American Tin." In 1884, it was "soap" and in 1888, it was "fat." Sometimes there is much in a name and sometimes nothing.

The fear of increased negro supremacy in the South is vanished by the late census which shows that the whites multiplied nearly twice as fast as the negros in the past decade in the South.

Frank Leslie Magazine, of which "Prince" Russell Harrison is one of the editors, says Secretary Blaine is not and will not be a candidate for President next year. Undoubtedly the father has wish to the thought.

Some of the big papers mention the name of Wm. J. Sewell for U. S. Supreme Court Judge to succeed Justice Bradley whose health is failing. They don't seem to know that Mr. Sewell is not a lawyer, therefore unqualified.

The latest political prophecy is that D. B. Hill will run for Governor of New York for a third term. If he wins no one can hinder his nomination for the Presidency. If he looses he will hold onto the U. S. Senatorship. He has the political pull which ever way you take him.

The State officials on Tuesday designated 101 papers in the State to print the laws passed at the late session of the Legislature. Of these there are 52 Democratic, 42 Republican and 7 independent papers. The papers in Salem county chosen to print the laws are the Sunbeam, Standard and Penn's Grove Record.

WE ARE GRATIFIED

by almost constantly receiving from our customers in every part of the United States, commendatory letters as to our promptness and correctness in filling orders, and we take this occasion to say, that all such expressions are particularly gratifying, as they show that our efforts, which are earnest, are not in vain. We pride ourselves upon this, and propose so far as possible, to continue to merit the good opinion of all those who favor us with their valued orders. We cannot, however, con ceal from ourselves the fact that despite the best care, errors and omissions will sometimes happen; a careless clerk will leave something out of an order or will make a poor substitution, and unless the customer is kind enough to call our attention to the fact, we may never know it, but this we do know, that our patron, perhaps hundreds of miles away, is inconvenienced and annoyed as she had a right to look for the best service in entrusting her order to us.

We therefore desire, to emphatically state to customers who shop by mail or otherwise, that our aim is always to give the best service, and failing in this, we stand ready to correct any errors that may be made, and we would esteem it a favor if our friends would promptly notify us of the facts in the compara tively few instances, where mistakes occur.
