D. V. SUMMERILL, JR., Mayor, DEAR SIR-I am in receipt of your letter of the 30th inst., relative to moving carloads of powder from Penn's Grove. The three carload in question arrived at 6.30 P. M. on Monday, were loaded on the float during the evening, but for some cause unknown to us the float was not moved until Tuesday A M., probably on account of low water as it is impossible to move float except at high water. It is our intention and desire to move cars of powder immediately upon arrival, or keep them outside of Borough limits. If float should ground after loading and after released from slip, it is impossible, of course, for us to remove them. We will endeavor to overcome any apparent obstacle within our control and move powder with as little delay as possible.

A merry party left Penn's Grove of Tuesday morning under the care of Capt. Thos. Torton for a day of pleas ure at the Canal Lighthouse. The de lightful sail down the river was very much enjoyed and as the party neared that the Harris heirs would give the the lighthouse they beheld floating in the breeze the gorgeous hues of the stars and stripes waving to them a happy welcome and as they stepped ashore keeper Ferguson and his wife extended to each a hearty greeting. An extremely palatable dinner, supper and water melon luncheon were served on the laws to which all did ample justice.

Among the many sports indulged in during the day were the potato races and base ball games, in the latter the pitching and catching of the ladies called-forth great applause. As the sun was disappearing in the west the party hade adjeu to the host and hostes thanking them for their extreme kindness and hospitality and they in return cordially extended an invitation to them for another picnic.
