 Seven years ago the Mayor and Council first started to grade the streets and side walks and most property owners furnished planks for curbs. The planks have mostly rotted and the curbs are in a diapidated condition. Many of the cinders are being washed into the gutters where there are no curbs. No one can deny that the curbs are badly needed, that they will be a great improvement to the borough and save expense to the tax will have to be spent on the sidewalks where proper curbs are made.
