PERTH AMBOY, N. J., FRIDAY, JUNE 26 1903.

SECOND EDITION

## MARIONS WILL PLAY STAR A.C.

The Lineup for Tomorrow's Game Which Promises to be a Good One.

### LOCAL CHANGES

Marions Claim they Now Have a Winning Nine and will Make it Warm for the Newark Boys who Come Here—McPhillips will Pitch for the Home Team.

Tomorrow afternoon the Marions will play the Star A. C. team of Newark. The teams will bat in the following order:

Marions.	Star A. C.
Moorehead, 2b	Mills, rf
Kiernan, ss	Nafe, lf
Cohalan, 3b	Harnish, cf
Galvin, 1b	Deveraux, 2b
Hoffner, if	Hook, ss
Connelly, c	McGuire, 3b
Kelly, if	Cavanaugh, 1b
Lyons, of	Scheuer, c
McPhillips, p	Gilroy, p
Bird, extra	or Kinney, p.

As will be seen from the above list Kiernan will be back in his old place at short. Conditions at Springfield were not altogether satisfactory to him and he has returned to New York to stay.

At third base will be found a new man, Cohalan. This young player was considered a star last year at Manhattan College. He is a fast fielder and a good hitter. He is recommended by McPhillips who will pitch his first game for the Marions tomorrow. The locals will also have an extra player on hand in the person of Bird, a fast outfielder, who made a fine impression when he was here with the Milburn team last season.

The Stars, however, are a fast team and they declare themselves confident of taking the locals into camp. Either Gilroy, an old leaguer, or Kinney will do the pitching. Other familiar names are Mills, who played with Irvington, Deveraux, Cavanaugh, two former Murray Hill players, and McGuire, who played with the Marions during 1901. McGuire will be remembered by the fans as the famous wearer of the red pants. He was a popular player here and a hard worker.

## HELD PICNIC FOR CHURCH BENEFIT.

Ladies Aid Society of St. Paul's German Church Had Delightful Time.

The Ladies Aid Society of St. Paul's German church held their annual picnic and ball at Loeser's Grove yesterday. It was a very enjoyable affair. The crowd came early and left late.

The two prizes for the best bowling were won by George Loeser Jr. They were a silk umbrella and a silver desk set. The bowling alleys were in charge of Otto Smith. Mrs. Frank Pfeil was in charge of the ticket office. Mr. Priel was floor manager. The committee of arrangements consisted of the following: Mrs. Kutchner, Mrs. Berner, Mrs. Schardt, Mrs. Simmen, Mrs. Pfeil, Mrs. Zaugg and Mrs. Kaletsch. Two special cars took the crowd home at midnight. The money cleared will go to the church. The music for the dancing was furnished by Charles Steinhauser's orchestra and was one of the delightful features of the evening.

### HANSEN TRAINING.

H. P. Hansen has left town for New York where he will commence training at once for his coming match with McMillan, which is to come off in Music Hall on Thursday.

## FITTING UP THE LIBRARY.

Board Held Special Meeting Last Night and Took Action on Several Matters.

### ASSISTANT LIBRARIAN

A Substitute was Also Appointed—Books of History and Travel to be Placed on the Shelves—Steel Racks to be in new Building—Capacity can be Increased—Waiting for Architects Return.

A special meeting of the Library Board was held last night for the purpose of appointing an assistant librarian. Miss Emma Fraser was appointed as the assistant and the board also decided to have on the list a substitute assistant, so Miss Marie Bradley, of Market street, was appointed to fill that position. The board also decided to purchase a complete set of Charles Dickens works, and a number of volumes of history and travel, as it seems a number of people of this city would rather have them than fiction.

These will be the last books purchased until the library is moved to the new building, unless a special bargain is offered.

The board is now waiting the return of Mr. Greenley, the architect, who is now in Europe. He is to tell what color is to be used in the woodwork of the new library. At the next meeting of the board, which will be held in July, the furniture for the new building will be purchased.

The book racks will be made of steel. They will be seven feet high. The racks will be erected in the back room of the library. As the circulation of the library increases the racks will be fixed in such a way that other sections can be added to them by placing steel rods on the top of them. The holding capacity of the library is supposed to be 50,000 volumes, but by this scheme the holding capacity will hold just four times or 200,000 volumes all told.

## CADETS PRACTICING FOR FLAG DRILL.

Westminster Cadets will Give Exhibition Before General Chaffee When he Comes Here.

The Westminster Cadets held a meeting last night in the armory on Rector street. As it was found impossible to complete all the plans for the reception of General Chaffee at this meeting, the cadets decided to hold another meeting, Tuesday night at 7.30 o'clock. One of the features after the speaking of General Chaffee, will be a flag drill by the cadets under their commander, John Danner. Every meeting night they are put through this drill.

New officers will be elected, it is expected, at the meeting on Tuesday night. Albert Krogh is up for president, as he has no opposition at present, he will doubtless be elected. Krogh has been appointed temporary corporal.

For real estate see page 2.

## Announcement.

We beg to announce that on Monday June 29, we shall move our Ice Cream and Confectionery store from 136 Smith Street to 138 Smith Street. Our rapidly increasing business makes it necessary to seek more commodious quarters. Hoping for a continuance of your patronage,

Yours etc.,  
K. S. Raymond.

## TO ENTER INDIANA M. E. CONFERENCE.

REV. CHARLES J. EVERSON.

The accompanying picture is one of Perth Amboy's sons who has won honors for himself and will shortly go west to fill one of the Methodist Episcopal pulpits in Indiana.

Rev. Charles J. Everson has just graduated from Taylor University at Upland, Ind., and is now home for a few days vacation visiting his parents, Mr. and Mrs. Anton Everson, of 177 State street. One week from next Monday Mr. Everson will return to Upland where he will be married. He will then enter the Indiana Conference as a Methodist minister. Mr. Everson's bride-to-be is Miss Alice Smith, of Upland, Ind., who, for two years past, has been secretary to the president of the university where Mr. Everson attended.

Mr. Everson was born in Philadelphia, but his parents soon moved to this city where he received his early education. In 1899 he went to Nyack, N. Y., as a student in the Christian and Missionary Alliance. Graduating there two years later he went to Indiana where he entered Taylor University from which he has just graduated in the English Theological course.

Last summer while Mr. Everson was spending his vacation here, he preached twenty-eight sermons here and in the towns of this vicinity. During the month of August he supplied the pulpit in the Woodbridge M. E. church during the Rev. Mr. Womer's vacation.

## SUNSHINE AT THE RESORTS.

Boynton Beach will Have a Steamer Beginning Tomorrow Afternoon.

## SEA BREEZE. CAY.

Everyone is glad to see the sunshine again, but none more than the pleasure resort managers. At Boynton Beach a new feature has been added which will prove a decided attraction. This is a boat, the H. C. Ellis, to be run from South Amboy, Tottenville and this city to the beach every afternoon and evening. The landing here is to be made at the steamboat dock at the foot of Smith street. The first trip will be made tomorrow. The boat leaves South Amboy at 1.30 tomorrow afternoon, leaves Perth Amboy at 1.45 o'clock and Tottenville at 2.10. The last trip up, from this city is 8.45 o'clock. This will doubtless be a great attraction as it avoids the long walk after alighting from the trolley cars and also gives a pleasant sail up the sound.

At Sea Breeze the weather has made the season backward. The two boats, Josephine and Etta May have not been running during the wet weather, one being sufficient to carry the traffic, but with the warm weather again, both will go into commission and the crowds will be attracted to the breezy resort on the point. It is a delightful spot.

## FIRST GRAND PICNIC.

The first grand picnic to be held at John Nelson's Summit Grove, will take place on Friday, July 3rd. The committee in charge hope to make this a great affair. Two handsome prizes will be awarded to the best lady and gentleman waltzer who attend the picnic.

## INDIANS ON PARADE HERE.

Wild West Show Arrived in This City and Attracted Large Crowds—Good Exhibition.

## TWO PERFORMANCES.

Indian Bill's Wild West Show arrived here last night and this morning the tents were pitched on the old Stumps farm. A large number were on hand to see the unloading of the circus and it presented an interesting sight.

This morning people came from nearby towns and the rural districts to see the wonders of this great attraction. The sidewalks were lined with people who had turned out to see the parade which took place at 11 o'clock. The parade presented a diversified scene, there being many novelties. First came Captain William Powers (Indian Bill) mounted on a superb charger; then the heralds on horseback, the color bearers, holding aloft the flags of the four leading military powers of the world; a barouche drawn by fine horses, carrying the heads of the various departments, followed by a Mexican band. Included in the parade were Mexicans, Arabs, a detachment of United States Artillery men and many cavalymen, and a long line of Indians, cowboys and scouts, together with coaches, prairie schooners and many other attractions which delighted the hundreds who witnessed it.

A performance is on this afternoon and another will be held tonight.

The best sewing machines are sold at Peder Olsen's, 86 Smith street. 6-9 to 7-e.o.d.—adv.

## SKIMMONS CONVICTED.

Found Guilty of Manslaughter by Jury in New Brunswick—Case Closed Yesterday.

### SENTENCE JULY 7.

Defense Was that Defendant had Acted in Self-Defense—Judge's Charge—State Made Effort to Have the Man Hung—Witnesses Tell of Skimmon's Good Character.

Special to the Evening News.

New Brunswick, June 26:—John Skimmons, accused of the murder of his stepfather, Henry Jacobs, of South Amboy, has been found guilty of manslaughter. The Judge fixed July 7 as the date for sentence.

The trial was ended yesterday afternoon with the judge's charge to the jury. The State had tried to prove Skimmons guilty of murder in the first degree. The case was rushed through as quickly as possible and to this end a night session was held. There were no startling developments throughout the trial. The jury was satisfied the murder was not premeditated.

The defense was that Skimmon's action was in self-defense. It was claimed that he had gone to visit his mother and had been attacked by his stepfather and had simply defended himself from a murderous assault.

### EXPECT TO BREAK STRIKE.

Bosses Say They Will Have Plenty at Work Monday.

The trouble between the boss painters and the journeymen painters seems to be growing wider and wider every day. Today the bosses have a number of men at work and claim that by Monday the strike will be entirely broken because they will have plenty of men here. Two new firms of painters have been formed and today all of the journeymen are at work either in Tottenville, Woodbridge, or this city. The new firms claim that they have plenty of work and will keep the men going for a number of months. The painters say the reason they cannot prevent non union men working is because at the present time they are all doing old work. When they start on some of the new buildings the painters claim they will call off all the mechanics.

### STILL THEY COME.

More Entries for Boat Race Received—All are Welcome—A Good Race.

Today one more entry was received by Commodore Evans, of the Raritan Yacht club, for the coming power boat race on July 4. Tonight three more entries, it is expected, will be received.

Interest in the race is increasing and the speed of the crafts in this vicinity will be determined. All owners are free to enter their boats whether large or small.

### TO SAW TIMBER

The Farrington Company have just installed a twelve horse power gasoline engine and a circular saw in their lumber yard for the purpose of sawing heavy or light timbers in order to supply their customers with just what they call for.

Music at Picnic.

At the picnic given by the Original Hebrew Ladies' Society at Pulaski Park Tuesday night, Prof. Charles Steinhauser's orchestra furnished the music. It was in first class style and made dancing all the more attractive.

## TO REACH THE FERRY.

People are Discussing the Route the Traction Company Will Take When Change is Made

### NOTHING OFFICIAL

Inquiries at the Raritan Traction Company's Office Were Referred to J. C. McCoy who Could not be Located This Morning—Down High Street to Fayette is Suggested as the Probable.

Much interest is manifested in the story published in the Evening News Wednesday telling of the radical changes to be made within the next twelve months by the Staten Island Rapid Transit Railroad which includes changing the ferry house in this city from the foot of Smith street to Fayette street. This evidently means many changes in the city.

The new location for the ferry house will have the greatest effect on the traction company, whose tracks now run down Smith street. All inquiries as to the movements of the trolley company made at the office of the Raritan Traction Company were referred to Mr. McCoy, by Superintendent Rock. An effort to see Mr. McCoy was unsuccessful as he was not in his office at the Raritan Copper Works. Very little could be learned officially. It seems certain, however, that the traction company will extend its line to the new ferry, but just what route will be chosen is undecided or at least is not ready for publication. Those interested in the matter make several suggestions. One is to run through Fayette street from State street and then around Front Street. The one which seems the most probable, however, is that the company will ask for a franchise down High street from Smith street, thence to the ferry at the foot of Fayette street and thence around Front street and up Smith street again. This will give the cars one continuous run and save the swinging of the pole at the top of Smith street hill and the turning of seats. The cars, as they come down Smith street, will turn into High street and around to Front street and up Smith. This plan cannot be confirmed by any of the officials of the road and is merely a plan mapped out by those who are discussing the change.

It is expected that Fayette street will develop into a business street and will give the place more of the city appearance. The abandonment of the Smith street ferry leaves a location for a public dock.

The men who have made the largest fortunes in business are those who have been the most extensive advertisers.

### WEATHER.

The forecast received at the local Signal Station is for clear and warmer with variable winds.
