

PERTH AMBOY EVENING NEWS.

VOL. II. NO. 286

PERTH AMBOY, N. J., MONDAY, JULY 6 1903.

SECOND EDITION

NO HORSES; BUILDING DESTROYED.

Emil Koyen's Carpenter Shop Burned to the Ground Saturday.

LINGOLNS WAITED.

No Horses in Stable From Which They Usually Get Team and Much Delay was the Result—Second Alarm Sounded and Washington Hose Responded—Other Buildings Saved.

Fire, the origin of which is unknown, destroyed the carpenter shop belonging to Emil Koyen, 173 Elm street, Saturday afternoon. The loss is estimated at about \$2,000. Some people are of the opinion that the blaze was started by boys who were playing around the premises shooting off giant firecrackers.

The fire had no sooner started than it was discovered by a member of the household who quickly gave the alarm. When it was found that only Protection Hook and Ladder responded to the first alarm, a second was sounded. Just as this was finished Lincoln Hose Company, which had been unable to get horses and had refused to pull the carriage without them, arrived.

The second alarm also brought out Washington Hose Company. When the companies finally reached the scene the fire had made much headway and it was found impossible to save the shop, which was burned to the ground. The firemen prevented the blaze from spreading.

When Lincoln Hose could not get horses at the usual place they went to Sweet's livery stable and there secured a team. The delay was costly.

LOESER MAY BE HELD FOR MURDER.

State has Gathered Evidence Which is Said to be Contrary to Loeser's Statement.

The grand jury will take up the case of George Loeser Jr., tomorrow. He is held for the death of John Filmore at Maurer. Much evidence has been gathered by the State which may result in Loeser being held for murder.

WILTON P. KEAN, PRESIDENT

GLORIOUS FOURTH IN THIS CITY.

Young America Has Lost None of His Patriotism—A Delightful Day.

CITY WAS DECORATED.

Cannon Crackers, Torpedoes, and Pistols Made the Usual Din—Baseball Games and Boat Race—Pleasure Resorts Crowded—Fireworks Kept the Sky Ablaze at Night.

Young America in Perth Amboy has lost none of his enthusiasm for the Glorious Fourth. From sunrise to sunset there was hardly an interval in any section of the city when there was not a racket of some kind. Fire crackers, torpedoes and pistols combined to make the din and it was one that will easily last until the day rolls around again one year hence.

Along Smith street between High and State streets the noise began Friday night. Cannon crackers, dynamite, revolvers and smaller firecrackers, packed at a time, were the source of amusement. It was really a men's celebration, for it was the "older boys" who made all the noise and many bruised and blistered hands are the result.

A favorite way to celebrate the Fourth was to put torpedoes on the trolley tracks. The noise made by a car passing from State street to the ferry resembled a rattling gun.

The Fourth broke cloudy and muggy. There was a little spit of rain between 9 and 10 o'clock, but by 11 o'clock the sun broke through and ideal weather was the result. A great many people left the city, but they could hardly be missed for more visitors came here to spend the day than went away.

There was (more than the usual number of amusements for the day. Two ball games in which the Marions twice met defeat before the Equitables; a boat race and numerous parties going down the bay. Hundreds of people went to Boynton Beach and Sea Breeze.

At night there was a beautiful display of fireworks throughout the city. Perhaps the best place to view these was along the water front where rockets and Roman candles were visible not only from Perth Amboy, but Staten Island and all along the south shore as well. A great many balloons were watched with interest as they floated across the sky high up over the water.

The worst accident recorded in this city on the Fourth was that which happened to John Wolox, twenty-two years old. This being his first Fourth of July in America, he was unused to the setting off of firecrackers and held a large sized dynamite cracker in his hand, having seen some one shooting

NOTICE.

The retail liquor dealers Association will meet at 2.30 P. M. Tuesday July 7th at the Stricker Building 138 Smith Street instead of City Hall.

POWER BOATS MADE THINGS LIVELY ON THE WATER FRONT.

Interesting Race Under the Auspices of the Raritan Yacht Club in Which Nineteen Power Boats Took Part--The "Irene" was the First to Finish and the Last to Start--Three Prizes Awarded--Crowds of People Witnessed the Contest which was Over Triangular Course.

Never has a more successful boat race been held over the Raritan Yacht Club course than on Saturday when the power boats of this vicinity raced for three handsome prizes. Of the thirty boats entered, nineteen started. The first to finish was the "Irene," entered by the Dutton Engineering Company, but belonging to W. O. Mitchell, of Bayonne. The prize was a binnacle. The second was the "Herreshoff" of the Dutton Engineering Company, winning a combination head light. Third was the "Three Brothers," owned by the Kress brothers, and they received an electric pocket lamp. Chris Fries' little boat being the last to cross the line, he was awarded the box of candy. No protests were filed with the referees and everything passed off very successfully.

The day was all that could be desired for an ideal race. By noon the stake boats had been put in position and several boats in the harbor were decorated in honor of the event. Among these was the pilot boat "New York" which included among her decorations a handsome Raritan Yacht Club ensign.

The race was scheduled to start at 1 o'clock but it was 1.35 o'clock when the "get ready" gun was fired. The officials were on board a yacht "Go-too" anchored off the club house dock. They were Mayor Seaman, Judge Conrad Hall, J. L. Clevenger and William Crowell, referees, and

W. L. Rossi, timekeeper. Nat Pierce was unable to be present. Commodore Evans was kept busy in his launch, "Web," completing preparations.

At exactly 1.41.30 the starting gun was fired and the "Bagtime" passed over the line. Other boats followed according to their handicap. It was 2.39.21 when the "Irene," the last boat, was started, just 47 minutes and 51 seconds after the "Bagtime." By that time the latter boat had already completed one lap of the triangle and was well started on her second time around. The race was three times around the triangle which was from the starting point to a stake boat off South Amboy, thence to stake boat near No. 10 buoy east of the light house, and thence to the starting boat. This is a distance of nearly eleven nautical miles. For the first two laps the boats seemed to hold their own positions, but everything changed on the home stretch when they all seemed to come in at once. As far as could be learned, the only engine that stopped during the race was in Fries' boat which was the last to finish. It was said that two boats came together near buoy No. 10 and that the "Bagtime" was nearly fouled, but as no protest was entered the matter was evidently not serious.

Hundreds of people gathered along the water front to watch the race. All the docks were crowded, the shore was lined with spectators, and from the balconies of the club houses enthusiastic admirers greeted their favorites as they passed. It was the opening of the summer season along the water front. The bay and sound was dotted with crafts of all sizes and kinds. Everywhere was life and gaiety. It was a real awakening of interest in water sports in this city.

Following is the official time of each boat:

Boat	Entered By	Start	Finish	Time
Irene	Dutton Eng. Co.	2,29.21	3,44.03	1,14.42
Herreshoff	"	2,21.18	3,44.52	1,23.34

MARIONS DOWNED BY VISITORS.

Equitables Take the Locals Into Camp Twice on the Fourth.

EVANS DID NOT COME.

Locals Disappointed by Failure of Brooklyn Twirler to put in an Appearance and McPhillips Pitched Both Morning and Afternoon—Costly Errors Made Great Differences in the Scores.

The Marions dropped a double header to the Equitables Saturday, losing the morning game 4 to 1 and the afternoon contest 8 to 6. The first game was a pitcher's battle and Hopper and McPhillips both pitched good ball. Headless playing and inability to hit at critical stages cost the locals the game.

The Equitables played fast ball and were at their best when the Marions had men on bases and seemed likely to score.

In the afternoon game McPhillips was again on the firing line for the Marions owing to the fact that Roy Evans failed to put in an appearance. Lindeman pitched five innings and was relieved by Tierney, who pitched the sixth and seventh innings, but was batted out of the box in the latter inning, Lindeman finishing the game.

McPhillips deserves a whole lot of praise for undertaking the task to pitch in two games and is not to be criticised for the second game he twirled. Cohalan was bothered with a sore arm and could not field his position properly. Kiernan played well in both games, and had a fast double play to his credit in the morning game. The local contingent of the Marions, Galvin, Connelly, Kelly, Hoffner and Lyons, showed great need

RESCUE AT BOYNTONS.

Brooklyn Excursionist had Narrow Escape From Drowning While in Bathing.

WAS GOOD SWIMMER.

A man by the name of Mullins was saved from drowning at Boynton Beach on the afternoon of the Fourth by Herbert Eyerkes, of this city, and three young men from Brooklyn.

Mullins, who is an expert swimmer, had come down to the beach from Brooklyn on an excursion.

When the boat landed he, with a number of others, decided to go in swimming. They were out near the dock, Mullins some distance behind his friends, when he was getting weak.

He gave one loud cry of "Help Jerry!" and then sank. His friends, thinking that he was fooling because he was left behind, only laughed at him. When he was going down for the second time Eyerkes, who was on the dock, realizing that the man was really in danger, jumped overboard, and swam to his assistance.

When Mullins was gotten to the shore it was some time before he could be revived.

WAS GIVEN A HEARTY GREETING.

Major General Chaffee Visited Perth Amboy and Spoke in Presbyterian Church.

CHAUTAUQUA SALUTE.

When the General Stepped to the Pulpit to be introduced by Mayor Seaman Gives Enthusiastic Welcome—Spoke Entertainingly of China and the City of Peking.

It was an enthusiastic reception given Major General Chaffee on Friday evening. The program was carried out exactly as planned notwithstanding the rain.

The general was met at Tottenville by the committee of citizens, and upon reaching this city was driven to places of interest, the route as given Friday being followed. General Chaffee was accompanied to Perth Amboy from Governor's Island by Capt. Hutchinson, who was with him in China, and Trumpeter Dominick McBride, of the 8th Infantry.

The exercises in the church commenced about 8 o'clock, and the program was greatly enjoyed. The Westminster Cadets gave three drills which were executed in a manner showing the careful training they have received at the hands of John A. Danner and Theodore Degouring.

The service calls by Trumpeter McBride were exceptionally fine, and he was compelled to respond to an encore. Several choruses by young ladies were pleasingly given, and the flag drill by twelve girls was very pretty.

The feature of the program followed these numbers, the address by General Chaffee, he being introduced by Mayor Seaman. When he was presented, the general was given a Chautauqua salute by the audience.

The General has the appearance of a soldier and in his remarks he showed he was more accustomed to doing things than telling about them. In an interesting manner he told of the benefits to be derived from such companies as the cadets, and declared that organization was absolutely essential to military success.

In the latter part of his talk, he gave an interesting description of the great wall of China, and the city of Peking, which is, the general said, four cities in one. The address was greatly enjoyed by those present, who crowded through the parlor of the church after the exercises to shake hands with this distinguished soldier. The General's party left this city via the 9.55 boat on the Staten Island road.

Bargains in real estate are to be found in the real estate column on page 2.

WEATHER.

The forecast received at the local Signal Station is for generally fair and warmer.

HIGH TIDE.
