REMITTANCES—May be made by draft, money order, postal note, express or registered letter at our risk. Address all letters and telegrams to THE OPTIC, East Las Vegas, New Mexico.

Buckboard Mails.

Mails on the Star routes leave Las Vegas as follows:

Las Vegas to Fort Sumner, including Anton Chico, Los Colonais, Eden, Santa Rosa and Puerto de Luna, tri-weekly, on Monday, Wednesday and Friday, and arrive on alternate days of each week.

Las Vegas to Fort Bascom, including Chaperito, Gallinas Springs, El Cuervo, Bell Ranch, Liberty and Endee, tri-weekly, on Monday, Wednesday and Friday, of each week, and arrive on alternate days.

Las Vegas to Mora, including Los Alamos, Sapello, San Ygnacio and Rociada, tri-weekly, on Tuesday, Thursday and Saturday, of each week, and arrive on alternate days.

Las Vegas to Lesperance, once a week, on Saturday.

Conveyance on Fort Sumner line, is by two-horse buckboard, on Fort Bascom and Mora lines by single-horse buckboard, To Lesperance by private conveyance usually spring wagon.

THURSDAY EVENING, DEC. 10, 1896.

MATTERS in congress are evidently starting out favorable to an endeavor to secure international bi-metallism.

WITH a hot-head in the presidential chair the past four years, the United States would probably have had both a war with England and Spain on her hands. We don't agree with Mr. Cleveland on his bond issue, but we do thank him for maintaining peace.

NOW THAT the enterprising people of the Pecos Valley have a large sugar factory in operation, and the outlook is that it will be both profitable to the owners of the same and the farmers of the community, every town in New Mexico is crying for a beet sugar factory. It is well and proper that they should do so, as the industry can be conducted with equal profit in most any part of the Territory.

ARTESIAN IRRIGATION.

Elsewhere, in this paper, appears an article on artesian wells, in which N H. Darton, of the United States geological survey, says that there is practically an inexhaustible supply of water all along the eastern side of the Rocky mountains, at a depth of from 50 to 1,200 feet, and he thinks that with proper reservoirs, enough water can be had, by artesian wells, to develop the rich soil of this country.

This is indeed refreshing news to the people of this country, to whom Providence had given, seemingly, everything but plenty of water, and had but withheld this from us until a time when it is valuable to us, and when we have the means to use it.

Mr. Darton further says, that the geological survey is now making a map which will show exactly the districts where water can be found and at what depth.

Irrigation by artesian wells, where water can be obtained in plenty, is the most successful and satisfactory method of irrigation known. By it, the farmer has no "tangling alliances" with his neighbor; has water at all times and generally of a superior quality.

The irrigation congress which meets in Phœnix next week should look into the practicability of this sea of water, under us, being brought to the surface and turning our barren desert lands into sunny gardens.

LET US GET TOGETHER.

The recent campaign seems to have drawn the citizens away from all kinds of citizens' clubs, and other united efforts to do something for ourselves. But now that poplitics have been put aside for business, let the progressive citizens get together in matters of vital importance. One of the main troubles with past efforts of this sort, has been that the few patriotic men who attended, would be called upon to place opposite their names, on a subscription paper, a good, liberal sum of money and then further take the street to urge others to do the same thing. But there are many things that such an organization can do without the outlay of a dollar. Among these things, a document could be gotten up by a committee, and addressed to the new industrial agent of the Atchison road, setting forth, in a conservative manner, the advantages that could accrue to the railroad company by arranging equitable freight rates on scoured wool and tanned hides.

Again from experiments already made it has been shown that sugar beets can be raised here equal to those of the Pecos Valley, and at one time Claus Spreckels, the sugar king, offered to put in a factory at Las Vegas if the amount of beets required could be guaranteed. Certainly this could be done if united action were taken in the Mora, Sapello and Gallinas valleys. It is the business of the United States geological survey to furnish information as to where artesian wells can be sunk with profit; a committee from the citizens club could get this data with but little more expense than the postage.

It is certainly a good token of prosperity when the great railroads of the west are taking the matter of establishing new industries into their own hands, to a certain extent. More than half we get, in this world, may be had for the asking. Let us get together and ask for something.

MUD BATHS IN NEW MEXICO.

Have Curative Powers Equal to the Baths of Carlsbad.

From the Denver Republican.

John O. Plank, of Las Vegas, registered at the Albany, yesterday. "The hot springs of New Mexico," said he, "are on the Santa Fe railroad, six miles from Las Vegas, and they are situated in a basin about thirty acres in extent, surrounded on all sides by hills, rising to a height of from 300 to 400 feet, shielding the place from wind and sand storms. The mud baths, which are famous for their curative effects, are only to be had in two places in the world, here and at Carlsbad, Germany, and it has been shown that the mud found at the hot springs of New Mexico, and which is used in giving the baths, is of the same chemical composition as that of Carlsbad It is very interesting to note the formation of this mud or peat. It is formed by the vegetation which has been washed down from the hills, probably a century ago, and which settling among the rock, has become decomposed and formed into a substances which is practically carbon impregnated with salts, magnesia, soda, lithia and various other ingredients.

"This peat is gathered from the rocks, dried, and put through a fine sieve, in order to remove the silicates, and after this treatment it is as soft as flour. It is then taken to the mixing room, where it is put in large tubs and the water from the hot springs mixed with it until it is of about the consistency of mush. The mud is now ready for use and it is taken into the bathing room, where the patient is placed in a tub and covered, with the exception of the head, and allowed to remain in the mud for from ten to thirty-five minutes. The application of the mud has an effect similar to a mild poulice, and draws the impurities from the body through the pores of the skin. The patient is then removed from the bath, placed upon a slab and submitted to a vigorous rubbing, the chemical composition of the mud being such that it can be rubbed from the body with a dry towel, leaving the flesh in a clean condition. A great many people come to this place to take the mud bath treatment, and some marvelous cures are effected. In one instance I remember to have seen a man, who was all drawn up with rheumatism, and after two weeks of this treatment he had been relieved.

"The treatment is especially beneficial to persons afflicted with neuralgia, rheumatism and skin diseases. There are at this place twenty-seven springs which vary in temperature from a cold sulphur spring to a hot spring, the water registering as high as 140 degrees Fahrenheit, and these waters are much used for bathing, as they have great medicinal properties by reason of their chemical compositions. The generally accepted theory for the existence of these hot springs is that the strata rock in this section runs perpendicular and the water from the mountains, probably far distant from the hot springs, passes down between the perpendicular strata to a great depth until it is heated by the heat from the interior of the earth, and by reason of the rise in temperature is caused to move upward, issuing forth from the earth at such points as are most convenient for its exit."

TOURING THE VALLEY.

Wealthy Brewers Identified With Pecos Valley Sugar Interests.

The special car "Hesperia," occupied by Messrs. Henry Uihlein, Edward Uihlein, Capt. Fred Pabst, Miss Pabst and the Misses Uihlein, all in charge of General Manager Goetz, of the sugar factory, who had gone to Chicago to escort the party hither, came in Wednesday morning.

The gentlemen named are large stockholders in the sugar factory company of this place, and are reported to be seeking further investments.

They spent the day in Eddy visiting the factory and points of interest. Yesterday morning they continued on to Roswell, where an inspection of the upper valley will be made. They were joined here by Messrs. E. A. Cahoon and Charles H. Sparks, of Roswell, who with Vice-President Faulkner, accompanied the party on the northern valley trip. It is the intention to return to Eddy to-night, spending Saturday here, and then continue the trip to Old Mexico.

Of course, the visit of men so well known in the business world, and whose accumulated wealth aggregates an immense sum, has originated all sorts of rumors and proposed plans. What the gentlemen will decide to do is as yet uncertain. The *Argus* has no knowledge that they have communicated their intentions to anyone. They are pleased with the valley, and may, after complete investigation, decide that it is a profitable field for investment. When a decision is reached, the *Argus* will not be dilatory in giving it to its readers. Individually, its opinion is that if Messrs. Uihlein and Pabst have capital for investment, sugar factories in the Pecos valley must make strong appeals.—*Eddy Argus.*

The Danger Comes

In cases of typhoid fever, diphtheria and other wasting diseases, when the patient has been reduced in flesh, and strength, and begins the tollsome climb to health. Here Hood's Sarsaparilla finds its place. It enriches the blood, strengthens the nerves, gives tone to the digestive organs, and builds up the whole system.

Hood's Pills are the best after-dinner pills, assist digestion cure headache. 25c. a box.

Took an Appeal.

From the Albuquerque Citizen.

The case of the United States vs. the three Chinamen mentioned in the *Citizen* of yesterday, charged with being unlawfully in this country, was concluded before Commissioner Burkhart this morning. The commissioner made an order that the Chinese be removed to China, from which they took an appeal to Judge Collier, who will hear their side of the case at the court house probably to-morrow morning. The Chinese are in the county jail, and they claim to have been in the United States from ten to fifteen years, but have no certificates. Inspector Behan, who was here yesterday and was responsible for the arrest of the Mongolians, returned to El Paso this morning.

LOVE AND THE ECHO.

"Love me, love me," still he cried,
"Ever love, forever!"
Cupid, laughing, turned aside.
Echo from the hill replied,
"Never, never, never."

"Love me, for I love but thee,
Ever, love, forever.
Heart to heart for thee and me."
Echo sighed, "It may not be,
Never, never, never."

"Love me now in life and death,
Ever, love, forever."
Sadly, in an underbreath,
Sobbing Echo answereth,
"Never, never, never."

"Love me, I shall worthy prove,
Ever, love, forever."
"Till a fairer face shall move!"
Mocking Echo answers, "Love!"
Never never, never."

"Love me," still the lover sings,
"Ever, love, forever,"
Cupid plumes for flight his wings
As the last faint echo rings—
"Never never, never."

—Clara B. St. George in Chicago Inter Ocean.

THE ELDER'S PRAYER.

It Was Out of the Regular Order, but Proved Efficacious.

The Rev. H. D. Fisher could not resist the temptation to tell a story on a brother minister:

"It was Presiding Elder Still of the Methodist church. The good old man is dead now, and it can't do any harm to tell this story of him.

"The early traveling of the elder in Kansas was not easy. He had a mule on which he used to ride, and this mule was not always obedient. One day the elder and his mule encountered a swollen stream. Along the edge of the stream the elder and his mule strayed in hope of finding a safe crossing. Finally the elder found a tree that overhung the stream, and from which he believed he could swing to the other side. But the mule couldn't swing. He could swim, however, which the elder couldn't.

"All the extra clothing and the Bible were made into a bundle and tied on the mule's back and the animal led to the water. He swam safely across and began eating grass on the other side.

"The elder looked at the swinging limb, and dropping to his knees, prayed fervently that he might make no mistake in getting across. Then he swung out and landed safely.

"He knelt and thanked the Lord.

"But there was a new obstacle. The mule was having a good time in the grass and refused to be caught again. Several well directed efforts flew wide of the mark, and the good elder was in desperation. He must keep his appointment and he couldn't walk it. There was but one thing for the elder to do, and the elder did it. Down in the damp grass he dropped on his knees and prayed the Lord to help him catch the mule.

"This is the only instance I ever heard of in which a man called on the Lord to help him catch a mule, and to his dying day the elder firmly believed the Lord did it, though it took them both some time."—Topeka Journal.

Homers and Carrier Pigeons.

The homer and the carrier are both brilliant fliers, but the homer is the speedier bird and better fitted for long distances. The homer has the widest spread wings of all pigeons, and can sail for an enormous distance through midair. It is also considerably lighter than the carrier and is possessed of more phenomenal powers of endurance, having been known to fly 800 miles without alighting. On a clear day, with a good sky and favorable wind, 400 miles is an admirable record, although 500 miles a day is the goal of every pigeon flier's ambition. A bird that can perform this remarkable feat is worth at least $100, and may be valued at $500 if it is capable of a better record. The bird's gameness, stamina and speed reach their highest point of excellence at 3 and 4 years of age, which is the natural prime of life for a flier. After they have passed their prime they deteriorate in a scarcely noticeable degree and at 10 or 12 years of age are still good for the shorter distances.—Chicago Journal.

TO CURE A COLD IN ONE DAY

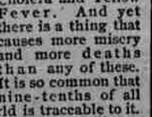
Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. 25c. tf

Sewing machines and bicycles for sale—old machines repaired and made as good as new. Call and see us. Next door to J. A. Dick's grocery store.
Bridge Street, LAS VEGAS, N. M.
209 tf W. A. GIVENS & Co.

Agostine Lerma, who has been confined in the county jail at Eddy for nearly three years, is out on bond furnished by his attorney, U. S. Bateman, in the amount of $500.

Centuries ago, people used to fear what they called the pestilence. "Black Death" was the most terrible thing in the world to them. They feared it as people now fear the Cholera and Yellow Fever. And yet there is a thing that causes more misery and more deaths than any of these. It is so common that nine-tenths of all the sickness in the world is traceable to it. It is merely that simple, common thing—constipation. It makes people listless, causes dizziness, headaches, loss of appetite, loss of sleep, foul breath and distress after eating. The little help needed is furnished by Dr. Pierce's Pleasant Pellets. One pill is a gentle laxative and two a mild cathartic. Once used, always in favor. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money it is your own fault if you do not get well. Be sure and get Dr. Pierce's Pleasant Pellets.

CATARRH
is a
LOCAL DISEASE
and is the result of colds and sudden climatic changes.
For your Protection we positively state that this remedy does not contain mercury or any other injurious drug.
Ely's Cream Balm



is acknowledged to be the most thorough cure for Nasal Catarrh, Cold in Head and Hay Fever of all remedies. It opens and cleanses the nasal passages, allays pain and inflammation, heals the sores, protects the membrane from colds, restores the senses of taste and smell. Price 50c. at Druggists or by mail.
ELY BROTHERS, 56 Warren Street, New York.

The Maxwell Land Grant

Situated in New Mexico and Colorado,

On the Atchison, Topeka & Santa Fe, and Union Pacific, Denver & Gulf Railways.

1,500,000 acres of Land For Sale!

Farming Lands Under Irrigation Systems:

In tracts of 20 acres and upwards, with perpetual water rights, cheap, and on easy terms of 10 annual payments, with 7 per cent. interest. Alfalfa, Grain and Fruits grow to perfection.

Choice Prairie or Mountain Grazing Lands,

Well watered and with good shelter, interspersed with fine ranches suitable for raising grains and fruits, in size of tracts to suit purchaser.

Large Pastures For Lease,

For long terms of years, fenced or unfenced; shipping facilities over two railroads.

GOLD MINES.

On this Grant, near its western boundary, are situated the famous Gold Mining Districts of ELIZABETHTOWN and BALDY, where mines have been successfully operated for 25 years, and new, rich discoveries were made in 1895, in the vicinity of the new camps of HEMATITE and HARDY BLUFF, as rich as any camp in Colorado, but with lots of as yet unlocated ground open to prospectors on terms similar to, and as favorable as, the United States Government Laws and Regulations.

Stage leaves every morning, except Sundays, from Springer for these camps.

Title Perfect, founded on United States Patent and confirmed by decisions of the U. S. Supreme Court.

For further particulars and pamphlets, apply to

THE MAXWELL LAND GRANT COMPANY,
Raton, New Mexico.

PISO'S CURE
For Consumption

For the last 20 years we have kept Piso's Cure for Consumption in stock, and would sooner think a groceryman could get along without sugar in his store than we could without Piso's Cure. It is a sure seller.—RAVEN & CO., Druggists, Ceresco, Michigan, September 2, 1896.

A nice wedding took place at Grafton, recently, the contracting parties being Gordon Rogers, a stock baron of the Gila, and Mrs. Sadie Freedlander, a charming young lady who recently arrived from the east. Judge William D. Reilly scientifically manipulated the nuptial knot that now firmly binds together the happy couple.

None But Ayer's at the World's Fair

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other Sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

If you want to buy or sell cattle wool or sheep, don't fail to see or write J. Minium, wool and live stock broker, East Las Vegas, New Mexico. He will save you money. 222w&dtf
