THURSDAY EVENING, APRIL 9, 1896.

THE establishment of a beet sugar factory in Eddy county will be an additional reason why the voters of New Mexico should vote the republican ticket. In order to flourish, the beet sugar industry of the United States must be protected against the cheap labor of Germany and other European countries.

THE democratic papers of New Mexico are still worrying themselves over the result of the last republican Territorial convention at Albuquerque. Why they should, however, is not exactly plain. But then they must fill up their columns with something, and that is about as good or as bad as anything else.

AN exchange has applied the X rays to the presidential situation, and it looks like this:

ON April 29th, at Phoenix, will be held the republican Territorial convention of Arizona, for the purpose of selecting six delegates to the national convention. The fight over the delegateships is quite animated and if the republicans of Arizona wish to be on the winning side and know what is best for them, then and in that case, they will send a solid McKinley delegation to represent them at St. Louis.

THE republicans in the city of Santa Fe made a most gallant fight against heavy odds, on Tuesday last, and were beaten by small majorities out of a total vote of 1,052. The democratic administration and the sheriff's office were too much for them. On Sunday and on Monday, about twenty-five republicans were placed in jail, without cause and upon fictitious charges of disturbing the peace. It took time and money by the republicans to straighten out this matter, and then about a dozen votes were lost by promises of no prosecution if the defendants voted the democratic ticket.

PHYSICIANS MAY ADVERTISE.

The ethical code of the medical profession received a rude shock and that too from a state supreme court, that of Iowa, not long since. As all are aware, it is strictly out of form for a physician to advertise. It has not only been considered against the statute made and provided, but so antagonistic to ethical culture as to make the guilty person a fit subject for professional boycott. A physician of Ottumwa concluded that he would make weekly visits to neighboring towns, and advertised the fact. His brother physicians were astonished and met the case in a peculiar manner. They claimed that he came under the head of "any itinerant vendor of drugs, nostrums or appliances, who shall advertise to cure disease, injury or deformity," shall pay a license, and they sought to put him on the quack list. Both the district and supreme court held that he had a legal right to advertise, and would have been neglecting his business interests had he done otherwise. It is easy to understand the aesthetic nature of the strictly ethical revolt at placing the profession on strictly business lines, but with this decision it is not easy to see how it can be avoided.

Daily mail communication between Silver City and Mogollon, *via* Cliff and Graham, commenced on Wednesday morning, April 1st.

CITY GOVERNMENT.

Hon. Joseph Chamberlain, in the *Forum*, for November, 1892, had an interesting article on "Municipal Institutions in America and England." He says: "The total annual municipal expenditure (excepting the appropriations for schools and almshouses), of Birmingham, is only $1,665,000, while that of Boston is $10,194,000, or more than six times that of Birmingham," and adds, after discussing the causes of this enormous disproportion, "We may at once discuss the idea that it is to be attributed to a more liberal franchise, the suffrage is more widely extended in Birmingham than in Boston." The same state of affairs, though the disproportion is not so great, exists in the cities of Berlin and New York, yet no one will venture to say that the American metropolis is better governed than the German capital.

The most practical reform in a misgoverned city is to elect an honest, intelligent citizen as a mayor, provided, of course, he is vested with the power of appointment and removal; one who has the courage to act according to his convictions; a judge of human nature, and the fact that he has been successful in his private life is not at all objectionable. Mr. Chamberlain was a successful manufacturer of Birmingham. He served thrice as mayor with great success.

It is a very fair definition of a mayor to say he is the chief magistrate of a city. Outside of the powers vested in him by law, he should minister to the happiness and safety of the people, irrespective of politics, religion or birth; he should keep a watchful eye over the expenditures of the different departments, and whilst he should encourage public improvements for the health and comfort of the citizens, he should, at the same time, instill economy, vigilance and rigid honesty into every branch of municipal affairs.

The word "mayor" first occurs in the year 1189, when Richard I substituted a mayor for the two bailiffs of London. To this day, most of the mayors of the larger cities are chosen by the "city fathers" and not by direct vote of the people. In some of the German cities he is appointed for life, "bene gerens," or during good behavior.

The burgomaster (burgermeister) of a German city—Berlin, for example—is an expert in the general art of municipal administration. Associated with him in the magisterial councils are experts in law, in finance, in education, in engineering, in sanitary science, in public charity, in forestry and park management and in water and gas supplies. Although the analogy will seem a little crude, it will answer the purpose to compare the governmental structure of a German city with that of a railroad corporation. The board of directors chosen by the stockholders appoint a general superintendent, or manager, a general passenger agent, a general freight agent, a chief legal adviser, a chief engineer, a superintendent of motive power, etc. The shareholders represent the voters of Berlin, the board of directors the municipal council, the general superintendent the chief burgomaster, and the general officers at the heads of the departments the magistrates. The choice of the burgomaster, however, is subject to the approval of the emperor, who may veto, without giving his reasons, the election of anyone not in sympathy with him. The present head mayor, or burgomaster, of Berlin, Herr Zelle, is a liberal of pronounced views, and whose party is opposed to the emperor. This did not interfere with his confirmation, as he is a gentleman of dignified and courteous manners, and an ideal personage for a mayor.

A LETTER OF INQUIRY.

Information Wanted Concerning a Murder Committed in Lincoln County.

To the Editor of the Optic.

OSSETT, England, March 23rd, 1896. —We respectfully ask whether you can give us any information, or send us a copy or copies of your paper containing any particulars, with reference to the following affair:

We hear that a murder, or crime somewhat approaching that nature, was alleged to have been committed at a camp called White Oaks, New Mexico, in either May or October, 1894. The parties concerned were men named Fitzpatrick, (who was shot), Oliver Peaks, (now awaiting his trial), and Forsyth.

Two of these men are natives of this boro, and owing to the reticence observed by relatives, we have only just become aware of the occurrence. For the same reason, we are able to glean only the most meagre details, and therefore ask your assistance, should the matter have come under your notice.

The county in which the camp is situated is stated to be Lincoln; but on this we are unable to ascertain anything definite.

Hoping that from this somewhat bare outline you will be able to assist us in our quest, and thanking you in anticipation, we are,

Fraternally yours,
S. COCKBURN & SON.

P. S.—We will gladly remit cost of postage, papers, etc.

The Taos *Monitor* states that there is a rush of Taos county prospectors to Copper mountain district, in the Picuris range, in southern Taos county. It is said "rich gold has been discovered there." In 1880, Col. Willison, of Santa Fe, discovered float thereabouts which assayed 60 per cent. copper and showed free gold.

Why is it that one man is old and decrepid at 45, and another hale and hearty at 80? It depends on the care he takes of himself. Often a man's body gets out of repair—the trouble grows until it lays him out in bed. Whenever a man feels that he is not quite as well as he ought to be, whenever he is listless, without energy and without vitality, whenever he finds that he is losing weight and that his ordinary work gives him undue fatigue, he needs Doctor Pierce's Golden Medical Discovery. If he keeps on working with his liver inactive and his blood impure—he keeps his nerves and his body under a constant nervous strain. He will not be hearty when he is old. The "Golden Medical Discovery" cures many so-called diseases because nearly all illness springs from the same thing—bad digestion and consequent impure blood. The "Discovery" makes the appetite good, the digestion strong, assimilation easy, and the blood rich and pure.

BOND VALIDATION.

The Attempt to Rush the New Mexico Bill Through Congress Defeated in the House.

Special Dispatch to the Globe-Democrat.

WASHINGTON, D. C., April 6.—The bill to authorize the issue of bonds by New Mexico to re-build the burned capitol at Santa Fe, to which had been attached amendments to validate certain other railroad bonds, amounting in all to nearly $400,000, was brought up for consideration in the house, today, and leave asked to pass it under a suspension of the rules. The proposition was defeated after a debate in which some insinuations were made that the matter ought to be further investigated, and that unfair advantage was being taken.

Mr. Owens, of Kentucky, from the committee on Territories, argued in favor of the bill's passage, stating that there was no question that the bonds represented a legal obligation of the people of the Territory, and innocent holders, who had bought them at par, and in many instance above par, ought not to be allowed to suffer.

Congressman Cooper, of Texas, said that he was very much surprised by the attempt to rush the bill through. He had, he said, been making investigations, and had given notice that probably a minority report would be presented. Gov. Thornton and other prominent citizens were aggressively opposed to the validation of these bonds, which, they alleged, were fraudulent, and further inquiry ought to be had before action was taken. If there was no good ground for refusing to validate the bonds, it was surprising, he thought, that Delegate Catron did not advocate the action.

A number of inquiries were made by members of Mr. Cooper and Mr. Owens, with the result that sufficient suspicion of the righteousness of the committee's recommendation was aroused to defeat the proposition to pass the bill under suspension of the rules by an almost two to one vote.

Hood's Is the Best

Medicine all the year around, because it purifies, vitalizes and enriches the blood, and therefore gives strength to resist bad effects from all blood diseases, Malaria, Pneumonia, Colds, Catarrh, Rheumatism, etc. Serious illness has often been prevented when Hood's Sarsaparilla has been taken in time.

Hood's Pills are the best after-dinner pills assist digestion, prevent constipation. 25c.

Adjutant General Knaebel, of Santa Fe, is in receipt of the honorable discharge of Franklin Latimore, late of troop E, fourth U. S. cavalry, who was discharged at Fort Craig, N. M., January 6th, 1883. This discharge was delivered by Jose Abran Lucero, of Ribera, San Miguel county, an old veteran himself, who says he found it in Albuquerque.

None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other Sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

At the league meeting at Eddy, the public school, Sunday school and league matters were discussed, after which a vote of thanks was tendered the teacher, Mr. Butler, for the faithful performance of his duty and the general wish is that he be re-appointed for the ensuing year.

To be kept thoroughly well posted on the news of such an eventful year as 1896 promises to be, a person should read the columns of a live, wide-awake, metropolitan paper, besides the county or local newspaper. Now is the proper time to begin a yearly subscription, which will cover the presidential campaign, the great speeches, the November election and the outcome of all the wars and troubles abroad. If intending subscribers will heed a word of advice they will send $1 to the *Twice-a-Week Republic*. They will receive in return twice every week for a year a copy of the spiciest, newsiest and most entertaining newspaper in the country. The *Twice-a-Week Republic* will make a specialty of giving all the political news and speeches on both sides and at the same time keeping up the very entertaining departments it has always contained.

A big inducement is offered to those who become so interested that only a daily metropolitan paper will meet their wants. The Daily and Sunday *Republic* has been reduced to only $6 a year or $3 for six months.

Mother Francisca, who has been connected with Loretto academy and convent in Santa Fe for thirty-nine years, and has been superior of these excellent institutions since Mother Magdalena was disabled by rheumatism in 1881, has been ordered to assume the duties of superior at Loretto heights academy and boarding school, situated seven and a half miles from Denver.

Harper's Bazar
IN 1896.

The twenty-ninth year of HARPER'S BAZAR, beginning in January, 1896, finds it maintaining its deserved reputation both as a Fashion Journal and a weekly periodical for home reading.

Every week the BAZAR presents beautiful toilettes for various occasions. SANDOZ, BAUDE, and CHAPUIS illustrate and engrave the newest designs from the finest models in Paris and Berlin. **New York Fashions** epitomize current styles in New York. A fortnightly pattern-sheet supplement with diagrams and directions enables women to cut and make their own gowns, and is of great value to the professional modiste as well as to the amateur dressmaker. Children's Clothing receives constant attention. Fashions for Men are described in full detail by a man-about-town. **Our Paris Letter**, by KATHARINE DE FOREST, is a sprightly weekly recital of fashion, gossip, and social doings in Paris, given by a clever woman in an entertaining way.

Both the serials for 1896 are the work of American women. **Mrs. Gerald**, by MARIA LOUISE POOL, is a striking story of New England life. **MARY E. WILKINS**, in **Jerome, a Poor Man**, discusses the always interesting problem of the relations between labor and capital. Short stories will be written by the best authors.

Special Departments. Music, The Outdoor Woman, Personals, What We Are Doing, Women and Men, report and discuss themes of immediate interest.

Answers to Correspondents. Questions receive the personal attention of the editor, and are answered at the earliest practicable date after their receipt.

The Volumes of the BAZAR begin with the first Number for January, of each year. When no time is mentioned, subscriptions will begin with the Number current at the time of receipt of Order.

Remittances should be made by Postoffice Money Order or Draft, to avoid chance or loss.
