UNTOLD MISERY
FROM
RHEUMATISM
C. H. King, Water Valley, Miss., cured by
Ayer's Sarsaparilla

"For five years, I suffered untold misery from muscular rheumatism. I tried every known remedy, consulted the best physicians, visited Hot Springs, Ark., three times, spending $1000 there, besides doctors' bills; but could obtain only temporary relief. My flesh was wasted away so that I weighed only ninety-three pounds; my left arm and leg were drawn out of shape, the muscles

being twisted up in knots. I was unable to dress myself, except with assistance, and could only hobble about by using a cane. I had no appetite, and was assured, by the doctors, that I could not live. The pains, at times, were so awful, that I could procure relief only by means of hypodermic injections of morphine. I had my limbs bandaged in clay, in sulphur, in poultices; but these gave only temporary relief. After trying everything, and suffering the most awful tortures, I began to take Ayer's Sarsaparilla. Inside of two months, I was able to walk without a cane. In three months, my limbs began to strengthen, and in the course of a year, I was cured. My weight has increased to 165 pounds, and I am now able to do my full day's work as a railroad blacksmith."

Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." THIS LOCALITY

Las Vegas, the Chief City of New Mexico--Some of Her Resources, Attractions and Advantages.

LAS VEGAS, meaning "The Meadows," is the county seat of San Miguel county, lies on both sides of the Gallinas river, and, with its suburbs, has about 10,000 inhabitants.

It has water works, street cars, arc and incandescent electric light plant, telephone exchanges, Territorial agricultural experiment station, headquarters of the Atchison railway system, New Mexico division, together with railroad machine shops and tie-preserving works, stock yards, and the largest sheep shearing and dipping plant in the United States.

West of the river, the old town has the quaint and picturesque Mexican appearance—adobe houses, narrow, crooked streets, native people and customs, handicrafts and occupations; but the plaza and all of the new town, east of the river, constitute a distinctive American city. The streets are wide and well graded, while sidewalks abound, shaded with growing trees. Three parks, filled with grass and trees, add to the beauty and healthfulness of the place. Handsome and well-filled stores, beautiful residences, and innumerable lawns, set in grass and adorned with shrubbery and flowers, combine to proclaim a cultured community, possessed of all modern comforts and conveniences.

A city hall, three public school buildings, court-house, Masonic temple, opera house, Territorial Normal school and Territorial Insane asylum are public buildings, constructed of red and white cut sandstone, unsurpassed in beauty by similar edifices in any town, of equal size, in the States.

An Academy, Seminary, Jesuit college, Convent school, Presbyterian Mission school, Methodist manual training school, Christian Brothers' institute, City high school, three graded public schools, a kindergarten, a commercial school and two music schools, besides several private teachers, are among the educational advantages and facilities.

LAS VEGAS is the natural sanatorium of the United States, combining more natural advantages than any other place in America. Her thermal waters are the equal of the Hot Springs of Arkansas, while her climate is infinitely superior. There is no malaria, no excessive heat or cold, no gnats, rats or mosquitoes. The air is pure, dry, rarified, and highly electrified—a certain cure for consumption, if the disease be taken in time. The hot waters are a specific for liver, skin, rheumatic and blood disorders. Her Montezuma hotel is the finest hostelry between Chicago and California, and is situated in a beautiful canyon, five miles from town, where the Hot Springs, forty in number, come boiling to the surface.

The latitude is about the same as that of central Tennessee, while the altitude is nearly 6,500 feet. This combination gives a peculiar, but most happy, result. In the winter, during the day, the thermometer seldom falls, in the shade, below forty degrees, while it often runs, in the sunshine, to sixty-five degrees—or even more. On the other hand, in the summer, the heat is never oppressive, in the shade, and no night is too warm for comfortable sleep, under one or two blankets. The sun will shine nine days out of every ten, the year round. This, with the extreme dryness of the air, caused by the very slight precipitation of moisture; the resinous aroma, rolling down from the pine-clad mountains; the large amount of electricity in the air, and the consequent ozone, resulting from the altitude; and the location of the town, land-locked by mountain and mesa—these all conspire to produce an atmosphere which is a balm to all diseases of the respiratory organs. The percentage of death from consumption is lower in New Mexico than it is anywhere else in the United States; and no other place in New Mexico excels Las Vegas in the salubrity of its climate. Asthmatics experience immediate and permanent relief, in this altitude.

In the way of health and pleasure resorts, Las Vegas is unrivaled. In a radius of twenty miles, in romantic mountain glens and beside babbling mountain brooks, are the Las Vegas Hot Springs, Harvey's, El Porvenir, Sandoval's Mineral Hill, Romero Ranch, Blake's, Sparks', Sapello, Rociada, and other places, too numerous to mention, where health can be recovered, and life becomes a pleasure to the ennuye, the invalid, the over-worked business man.

LAS VEGAS has two daily and five weekly papers, three banks, two building and loan associations, three hotels, many boarding houses, nine churches, a number of clubs, and all the leading civic and social societies; a roller flour mill, capacity, fifty barrels per day; two wool-scouring establishments, cleaning 1,500,000 pounds of wool annually; a well-equipped brewery and bottling establishment; a manufactory of mineral and carbonated waters; two wagon and carriage factories; a saddle and harness factory; a foundry, electric light plant, three planing mills, and other enterprises of less importance.

There are eight large wholesale houses, whose trade extends throughout the Territory, and into the adjoining sections; while the volume of this trade, and the value of the stocks which they carry, can not be duplicated west of Kansas City and south of Denver. Three merchants' brokers have selected the city as their distributing center, the amount of their yearly sales exceeding, in the aggregate, the combined sales of all other such brokers in New Mexico. The retail merchants, of Las Vegas, are more numerous, and carry larger and better stocks of goods than do the retail merchants of any other town in this Territory or Arizona.

LAS VEGAS is the distributing point for nearly all New Mexico. By the Atchison system, she has connection with Kansas on the east, Colorado on the north, Arizona and California on the west, and Texas and Old Mexico on the south. Besides these, she has more stage lines, connecting her with tributary territory, than has any other town in New Mexico. This territory includes the entire section east and south of the mountains, and comprises the counties of Colfax, Mora, Taos, San Miguel, Santa Fe, Socorro, Dona Ana, Grant, Chaves, Lincoln and Eddy, with parts of Valencia and Bernalillo—a country larger than all New England. This takes in the famous Valley of the Rio Grande, and the less famous, but not less excellent, Valley of the Pecos—the finest fruit sections of the west.

This Territory is rich in everything that constitutes the Wealth of Nations. Iron, coal, lead, silver, gold, mica, limestone, sandstone, marbles, gypsum, soda in endless variety and exhaustless quantities, are among the several products of the country which Las Vegas commands. Sheep, cattle and lumber abound, so that in each of these prime articles of commerce this city is the best market in New Mexico. She handles more wool than all the other towns in the Territory combined, while her commerce in hides is truly enormous. In the same way, she stands pre-eminent for her trade in grains, hay, vegetables, and other farm products; while her trade in ice, gathered in the neighboring mountain canyons, extends east into Kansas, west into Arizona, and south into Old Mexico.
