New postoffices have been established at Pena Blanca, Bernalillo county, with Chas. Lowenberg, postmaster; El Porvenir, San Miguel county, Margarito Romero, postmaster.  
Two shifts are now working in the "Surprise" mine, on near Agua Zaca, and they have reached a depth of sixty feet. The ore looks better and gets softer as the work goes on.

J. Y. Lujan, of San Ignacio, is in the city, to-day. He has turned the management of his fine summer resort, out there, over to Col. Wm. McEae, of New York, and it will be conducted in first-class order by him this season.  
The workmen in the Trout springs coal mine are in about sixty feet and now have thirty-four inches of good coal. John Jenkins, the expert coal miner of Blossburg, recently visited the mine and gave them great encouragement.

W. E. Orites received a telegram to-day from W. S. Standish, stating that the mine down in Lake Valley looks better than he expected to find it, and people here know that he expected a great deal, too. He is preparing a carload of ore for shipment at once.  
A rare chance, to-morrow, for those who desire to have their measures for spring suits and overcoats, at Amos F. Lewis', "forty-five" Jimmie, the professional cutter. Was never known to make a misfit suit. The prices will be from \$12.50 upwards. 11  
D. O'Keefe, manager of the proposed electric railroad to Taos, is in the city from Mora, and reports that everything is in readiness, with the exception of the Las Vegas end of the line, which J. L. Lockwood is to look after, and he is just recovering from serious illness in Birmingham, Ala.

Born, to Mr. and Mrs. John L. Chapman, yesterday, at 5:30 o'clock p. m., a ten-pound boy. John L. is engaged in the second-hand-goods business, but this late arrival at his home is brand new and first class in every particular. Mother and child doing well, as is also "Papa" John.  
A meeting of citizens will be held at the Rathburn hotel and shoe establishment, this evening, to devise ways and means of equalizing taxation more satisfactorily in some portions of the city. The common council have been appointed to do so, and now the county commissioners will be approached in the matter.

CALLING MEETING IN THE CITY COUNCIL.

Messrs. Forsythe, Hofmeister, Hollingsworth, Kline, Martin, Rogers and Mayor Olney responded to roll call at the meeting of the city council, last evening Messrs. Barber and Hamblis absent.  
On motion, \$30 was appropriated for the purpose of procuring an attendant to accompany Capt. W. S. Hall to the Soldiers' home at Santa Monica, California.  
The city engineer presented his report accompanied with plans, etc., on the establishment of a grade on Sixth street. A compromise grade was adopted, on account of the permanent improvements having been made on that street before the city was incorporated.

Messrs. Chas. Lifford and John Shank were present. In the interest of a franchise for the Las Vegas street railway company, and the committee to whom the proposed franchise was referred, some weeks ago, were instructed to report on the same at the next regular meeting.  
The finance committee made a lengthy report, which was received and ordered filed.  
The treasurer was instructed to present bills to the council for all moneys paid out by him for interest on bonds, warrants, etc., and get warrants covering the said amounts.  
The report of the clerk showing the financial condition of the city, March 1st, was read and referred to the finance committee.  
Adjournment was then taken, subject to the call of Mayor Olney.

The finance committee of the city council, composed of B. F. Forsythe, L. H. Hofmeister and C. Hollingsworth, made a special report to the council, last evening, stating that but \$40 on dog licenses had been paid into the city treasury, while they believe that there are more than 100 canines subject to tax in the city. They recommend that a dog catcher be employed to impound the dogs which have no owners who will pay taxes on them. Thirty-three dollars have been paid in on the bicycle tax, about one-third of the amount that is estimated should have been forthcoming. Eight dollars were the receipts from the vehicle license, an amount "way below what it no doubt should be. Five business firms in the city have not paid their business license.

The committee recommends that suits be brought against those who have failed to pay their poll tax and that steps be taken to collect \$147.84 expended by the city in the impounding of Ulbarri street.  
The committee is of the opinion that the municipality has the right to collect the city taxes, if the county collector does not do so, and recommends that a test case be made.

The Bell-Jaxon company, of Kokomo, Ind., the senior member of which is Delos F. Bell, one of the oldest and ablest printers in northern Indiana, are now the manufacturers of a chemical compound, known as electricite, for the elimination of electricity from all grades of paper, while undergoing the process of printing. It does not "swell" nor "pucker" the type, but tends to preserve it. The price of electricite are fifty cents and \$2 per bottle, the formula being furnished with the larger priced bottle.  
An exchange furnishes this recipe for breaking boys of the cigarette habit: "Try bribery, persuasion or the shutting off of his allowance. If he remains obdurate, use rawhide on raw hide—weld him until he is ready to hold up his hands and promises to smoke no more of the little death dealers. If that does not stop him, drown him, as a drowned boy is better than one who smokes cigarettes."  
E. D. White, a sheep-raiser, residing this side of Clayton, Union county, is reported to have lost between 8,000 and 10,000 head of sheep in the late big snow storm; and a man by the name of Slater, a resident of that locality, had his flocks depleted to the number of 5,000 head. In both instances, the sheep fellows huddled themselves together, with fatal results.  
James Smith, Ed Lewis, Hugh Chappell and J. H. Landers are working a mine out near Agua Zaca that was located fourteen years ago, but allowed to rest until now. It runs well in silver, but no gold.

REPORT OF THE U. S. GRAND JURY.  
To the Honorable Thomas Smith, Chief Justice of and Judge of said Court:  
We, as grand jurors at this term of court, duly empaneled and charged to inquire into offenses arising under the constitution and laws of the United States, present this as our final report.  
The jury has been in session sixteen days, have considered twenty-two bills, and have returned sixteen true bills.  
We have considered to pursue our inquiries without fear or favor, and desire to submit to your honor the impartiality of our proceedings, in our endeavor to serve the law. The jury finished all the matters submitted for investigation, several days ago, and have been delayed to this day because of the absence of material witnesses in a matter undecided. Your jury have pursued their labors, not with the view of returning bills of great number, but of fair presentation.  
We desire to express our appreciation of the efforts of the officers of the court and to your honor for your assistance in facilitating the prosecution of our business; and such business being now consummated, we ask that we be finally discharged.  
F. L. FINNAN, Foreman.

TRACK AND TRAIN.

Mrs. C. C. Wray, wife of the chief dispatcher at this point, is visiting friends at Raton.  
Three firemen and an engineer, lately arrived from Topeka, visited the hot springs, yesterday.  
R. E. Montgomery, traveling agent for the M. K. & T., arrived in the city from the north, last evening.  
Several engineers and firemen from Argentine, Kansas, are in the city and will run between here and Raton.  
The shopman of the Atchison will take Thursdays and Sundays off, instead of Saturdays and Sundays as heretofore.  
W. A. Wright, slight operator at the Las Vegas depot, has gone up to Pueblo, having been relieved at the key here by Operator Owens, of Trinidad.  
Frank Trumbull, receiver of the U. F. Denver & Gulf railway, has filed with the district clerk in Las Vegas his report of receipts and disbursements for the month of March, showing a disbursement of \$144,685.76, leaving a balance on hand, April 1st, \$557,705.00.  
T. J. Pargen, section foreman over there, left Clayton, for Trinidad, Colorado,

where he goes to take charge of a construction train, operating between Trinidad and Toluca. Mr. Pargen is a cousin of F. T. O'Dowd, roadmaster of the U. F. D. & G. railroad.  
No. 3, or any other train, will not exceed a speed of two hours and fifty minutes from Raton to Las Vegas, a distance of 110 miles; one hour and fifty-five minutes from Las Vegas to Glorieta; one hour and fifty minutes from Lamy to Albuquerque. This running time includes ordinary stops and for water and coal. Passenger trains will not run at a higher rate of speed than forty-five minutes from Glorieta to Raton.  
Brakeman L. A. Carter, of the Emporia Division, was instantly killed, the other day. He was coming west on an extra, and when near Story siding the extra was flagged by the work train. When the engineer of the extra applied the air to make the stop, the coupling pin between the engine and first car broke. This also broke the air hose, which caused the air to set on the train suddenly, and Mr. Carter, who was near the end of the first car, was thrown to the ground, two cars passing over him. He was forty-four years old and married.  
GUARANTEE BONDS.  
Auditor J. F. H. McKibben, of the Atchison, has issued circulars 1 and 2 in reference to the guarantee bonds for subordinate employes, and the assignment of districts to be covered by the six traveling auditors. These are the first circulars issued by the auditing department in Topeka since the re-organization of the road.  
Circular No. 1, which deals with the rules in regard to the bonding of employes, is in general respects exactly similar to the old circular issued on this matter, with the exception that the information conveyed is much more explicit.  
In circular No. 2 several changes are made in the territory of the traveling auditors. The territory of A. L. Conrad, of Albuquerque, in charge of district 1, was found to be too large, and a portion of the work has been transferred to L. J. McQuade, of Hutchinson, who has charge of district 4. The other changes are of minor importance.  
A copy of each circular is to be forwarded to all agents over the entire system.  
AN ACCIDENT FORTUNATELY AVERTED.  
What came near being one of the most disastrous wrecks in the history of the M. K. & T. was averted a few days ago by an accident. The train were the Missouri Pacific east-bound express and the Missouri Pacific fast mail, which have been running over the Washburn and M. K. & T. between St. Louis and Sedalia since the wreck of the bridge at the Gasconade river.  
The pilot on the St. Louis bound train received orders to meet the fast mail at Estill, the first station beyond Franklin Junction and he read "Estill" for "Estill" Elliott is this side of Moberly.  
The operator at Estill, who entered his office about the time the train went whirling over the town, casually opened his key and "spoke" to Payette: "No. 8 has just left here." The dispatcher at Moberly hearing the message, was fortunate enough to stop the fast mail, which left Moberly a few minutes late, at Payette, and averted what might have been a fearful accident.
