## LET THEM HOWL.

A contemporary says that a newspaper may praise a man until it exhausts its vocabulary and the man will accept it as though he deserves it; but rub the hair the other way, never so gently, and only once, and he will go into hysterics, stop his paper and call you everything that is bad. Our contemporary wants to know if this is not strange. We think not. The man who travels generally upon passes, is the man who most loudly damns the railroads for their extortions, when by accident he is called upon to pay for some slight service. The man in the most robust health, with never an ache or a pain, howls the loudest over the gnat or cinder which may chance to get into his eye. A man in New Mexico, where the sun will shine 350 days out of the year, abuses a cloudy day with ten-fold the violence of him who lives in the murky atmosphere of some of the states, where the cloud is the rule and the sunshine the exception. In other words, it is human nature to look upon blessings generally enjoyed, as matters of right and not of privilege, to undervalue that which is of very frequent occurrence, to over-estimate that which is rare, and to be greatly offended at the withdrawal of a privilege which has been neither purchased nor deserved. Nevertheless, brethren of the press, in view of this trait of human nature, it is well quite often to rub the hair the wrong way. Stir up the animals, let them howl, and snarl and threaten to bite. Poke them in the ribs, feed them the bitter food of truthful, adverse criticism. Let them see that they have neither the power nor the perfection, which their self-conceit added to the puffs of the press has caused them to ascribe to themselves. Lay bare their follies, touch them to the quick of their pride; and then when the sweet words of commendation are again offered, should they ever deserve them again, such words will be fully appreciated, and not received with the gracious condescension or the haughty indifference of an eastern despot receiving the homage of his slaves. Nothing is more beneficial than for the press to show its independence of all men, cliques or parties.

BEFORE the next real estate boom begins we ought to have the Torrens land title system established in Colorado, says the Pueblo *Chieftain*. Even with the reduction of fees, the expenses attending any transfer of real estate are so large as to be seriously considered in calculating the costs. An instance could be given in which an arrangement was recently made for a sale of certain lots for $100, but it was found that an abstract of title could not be obtained for less than $9, and this was just enough to prevent the sale. These title expenses grow larger as the number of transfers increases, and thus the expense of titles will become so large after a while as to practically make it impossible for poor men to deal in real estate or buy homes. There are so many other burdens attending the owning of a home or home site, such as the fearful taxes and the cost of water and transportation, that the mere clearing of the title ought to be so arranged as to be a nominal expense. It is evident that something like the Torrens system must be obtained some day, and, therefore, the sooner the better. Our next state representatives should start the movement in some shape, and should have it investigated and ready for action before the legislature meets.

### GETTING ALARMING.

The Territorial papers, daily and weekly, are giving considerable space to divorce proceedings, showing that the "fad to marry and then get divorced," as an eastern paper expressed it recently, is growing to an alarming extent in this Territory.—*Albuquerque Citizen.*

There are an unusual number of divorce cases on the docket at the present term of court in San Miguel county. Some one asks us the cause of this fatality to the nuptial knot—the tie that should be cherished as the most sacred on earth, and we are somewhat at a loss to answer, unless it be that people are growing careless of home influences and prefer to become actually wicked. Furthermore, the fact is that men and women, as a rule, marry nowadays without due thought and reflection. They rush in to the marriage state as though it was a mere convenience to some thoughtless end. Acquaintanceship they may have with each other, and a delusive idea that they are mutually in love, but in reality they are just as ignorant of the ability of each to render marriage happy as though they had never met. Generally they know nothing of the temperament, the physical condition, or the inward and outward lives of each other, and a want of this knowledge leads to discontentment and even hatred after marriage.

As one has said, a fair measure of health in husband and wife is necessary to the making of a happy home, but there are many persons united in marriage whose physical conditions better fit them to become inmates of hospitals than for the formation of homes. The same authority says that no woman should receive the advances of a man who, by immoral and dissipated habits, has undermined his constitution, and no man should marry a girl whose waste is so small as not to leave room for the operation of the natural organs of the body. These matters are seldom or never taken into account in marrying, and the final result is divorce. Passion is too often mistaken for love, and instead of men and women knowing each other's hearts before marriage, they are led on by a false sentiment, and, in time, resort to the "divorce mill" for relief from a yoke that has become galling. It often happens that an intellectual man marries an unintellectual woman, or a refined and educated woman accepts a coarse, boorish man for a husband. The result is incompatibility and a separation. Let men and women take care to know each other well before marriage, and make sure that mentally, socially and sympathetically they are not unfitted for each other. If this course were pursued in selecting husbands and wives there would be fewer unhappy homes in the country and fewer grounds for divorce.

THE *Southwest Sentinel* at Silver City, this Territory, has suspended publication, the office being in the hands of the sheriff.

### None But Ayer's at the World's Fair.

Ayer's Sarsaparilla enjoys the extraordinary distinction of having been the only blood purifier allowed an exhibit at the World's fair, Chicago. Manufacturers of other Sarsaparillas sought by every means to obtain a showing of their goods, but they were all turned away under the application of the rule forbidding the entry of patent medicines and nostrums. The decision of the World's fair authorities in favor of Ayer's Sarsaparilla was in effect as follows: "Ayer's Sarsaparilla is not a patent medicine. It does not belong to the list of nostrums. It is here on its merits."

John Duncan has given a bond and lease on his claim in the Jicarillas, known as the "Jane Anderson," the lessees agreeing to make certain developments and to pay the purchase price within six months. Work has already begun, and the ores will probably be milled at the Comrey & Green mill, near the mines.

### A Valuable Prescription.

Editor Morrison, of Worthington, Ind., "Sun," writes: "You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for Constipation and Sick Headache, and as a general system tonic it has no equal. Mrs. Annie Stehle, 2625 Cottage Grove Ave., Chicago, was all run down, could not eat nor digest food, had a backache which never left her and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50 cents and $1 00. Get a bottle at Murphey-Van Petten Drug Co's. drug stores, Las Vegas and East Las Vegas, at wholesale by Browne & Manzanares Co.

James McGahan, who worked for J. Korber & Co., at Albuquerque, as a blacksmith, and occasionally took turns in the prize fighting ring, was killed in a mine accident a few days ago. Mrs. McGahan is in Socorro, on a visit to her parents, Mr. and Mrs. P. H. Dempsey.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I know from personal experience that it will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Palm Balm eased the pain and the use of one bottle completely cured him. For sale by X. D. Goodall, Depot Drug Store.

General Manager C. C. Blodgett and Colonel J. J. Bell, of the El Paso-White Oaks railroad, arrived in White Oaks from the Texas end of the road, and spent several days at that point.

# Gloom to Sunshine

Of ill health, despondency and despair, gives way to the sunshine of hope, happiness and health, upon taking Hood's Sarsaparilla, because it gives renewed life and vitality to the blood, and through that imparts nerve strength, vigor and energy to the whole body. Read this letter: "Hood's Sarsaparilla helped me wonderfully, down stairs without clasping my hand over my heart and resting. In fact, it would almost take my breath away. I suffered so I did not care to live, yet I had much to live for. There is no pleasure in life if deprived of health, for life becomes a burden. Hood's Sarsaparilla does far more than advertised. After taking one bottle, it is sufficient to recommend itself." MRS. J. E. SMITH, Beloit, Iowa.

# Hood's Sarsaparilla

Is the One True Blood Purifier. All druggists, $1. Prepared only by C. I. Hood & Co., Lowell, Mass.

**Hood's Pills** cure all liver ills, billousness, headache. 25 cents.

### UNLOADING SENATOR TELLER.

**Hon. D. P. Carr, of Grant County, is Willing to Trust to his Leadership.**

*To the Editor of the Optic.*

SILVER CITY, N. M. May 20, 1896.—A few days before the assembling of the Colorado state republican convention, the Albuquerque *Citizen* advised that body to "unload" Senator Teller, as one good day's work. In yesterday's issue of the same paper is found the following:

If the democrats want Senator Teller, the quicker they get him the better for the republican party. The one idea fellows who imagine they are better than their party can be dispensed with by the republicans this year.

Through some strange perversity, the republicans of Colorado did not accept the advice of the *Citizen*, but, on the contrary, elected him as the leader of the delegation from that state to the national convention at St. Louis—instructing the other delegates to follow his lead, whatever course he may decide upon. Now the assumed leading republican paper of the adjoining Territory, the interests of the people of which are identical with those of the people of that state, suggests that it would be to the advantage of the republican party for Senator Teller to once affiliate with the democrats. Against this I, for myself, and I believe voicing the sentiment of thousands of republicans in New Mexico, most earnestly protest. Two years ago, the republican party of this Territory, in convention, declared in the most positive manner for "protection and bi-metallism" and for the free and unlimited coinage of silver.

At the last session of the legislature, no member opposed the passage of the silver memorial, which I had the honor to introduce in the house, and it received the vote of every republican in both houses of that assembly. There was no ambiguity in the language of that resolution, and the representatives of the republican party, in that body, went on record in favor of the principle now so earnestly advocated and represented by Senator Teller.

Does the *Citizen* pretend that because of the apparent probability of the national republican convention adopting a gold-standard platform, the entire republican party of New Mexico have deserted the cause of silver, which they so recently endorsed?

Does the *Citizen* represent the masses of the republican voters of the Territory, or only those who would "keep in sight of the pie counter?" It is my belief that upon a careful canvass the editor will find that it voices the sentiment of only the latter class.

Senator Teller as not an "one-idea man." The patron saint of the *Citizen* is the "one-idea fellow," who would attempt to restore prosperity by increasing the burdens of taxation, without providing the means of paying them. Neither Candidate McKinley, nor the *Citizen*, will dare attempt to make the American people believe that a high protective tariff will add one cent to the price of a bushel of wheat, corn or oats, or one-sixteenth of a cent to the price of a pound of cotton, while the gold standard is maintained. Senator Teller is consistent in advocating protection and bi metallism, and is right in demanding that they shall not be separated and silver sacrificed upon the altar of protection.

To me, Senator Teller is the most commanding figure in American public life to-day—the bravest, purest, grandest patriot of all who champion the people and defy the shafts of the place-hunters and time-servers, who tamely follow the lead of the plutocrats, who have all but sapped the foundations of American liberty.

It will be a pleasure and a duty for me to follow whither he may lead. I have hitherto declared, as he has: "I will not follow the flag of protection into the gold standard camp." I meant it then and I reiterate it now.

Should the issue be made, as it now appears that it will be, for a McKinley tariff, and the gold standard by the republican party in the national convention, Henry M. Teller may go to the democratic party, if it shall be controlled by the masses and champion the cause of the people in favor of the full re-monetization of silver. And when he goes the state of Colorado will go with him and thousands of as good republicans as John Sherman and George F. Hoar, all over this land, will follow his lead.

I do not hesitate for an instant to say that I will go with him and, while I do not claim to have any personal following, I know of many in this county who will go with me, because they believe in the righteousness of such a movement, and it is my belief that in every county in the Territory there will be scores of republicans brave enough to pass the Rubicon.

D. P. CARR.

"Ten people out of a dozen are invalids," says a recent medical authority. At least eight out of these ten, it is safe to allow, are suffering from some form of blood disease, which a persistent use of Ayer's Sarsaparilla would be sure to cure. Then, don't be an invalid.

### Thorns in the Pathway.

From the Springer Stockman.

All things considered, the newspapers of New Mexico, in the vigor of their editorial opinions, their surprise in gathering news, and their conscientious fidelity to the best ideals of modern journalism, are, comparatively speaking, the best in the United States and any intelligent man, acquainted with the details of newspaper work, who will look over the field and take account of the strong and steady discouragements that face New Mexico journalism on every hand, will not think this estimate an exaggerated one. Just now our newspapers are doing some splendid work in behalf of the various communities in which they are published, and while the unthinking reader, who glances briefly over the columns, gives little heed to the influence they are exerting, it is nevertheless the fact that they take the lead in building up the Territory, and all other agencies, railroads and immigration agents included, are merely auxiliary.—Las Vegas OPTIC.

Every newspaper in New Mexico will agree with THE OPTIC in the above pleasant paragraph, but there are thorns in the way of the newspaper man in this Territory at every turn in the journalistic highway. There are localities that could, if they would, support a newspaper, and be benefited gresly thereby; and again there are towns having established papers that do not support them, and the paper is compelled to seek outside patronage for the privilege of living in and supporting the town wherein it is published, and these towns, in every instance, are found to be slow and backward in all particulars. Some people regard newspaper patronage as an act of charity, and the editor as solely existing on the liberality of charitably disposed persons, and such citizens are always a drag on that community. The *Stockman* is one of those Territorial papers that has always sought outside patronage, not because the town could not support it, but because it would not. There are a number of good live men in Springer, but there are a number also that are not so lively and enterprising, and the two extremes have kept the town in a dormant state for years, but thanks to some unseen influence, the live citizens of the town have set down on the advocates of retaining war prices and keeping all in any and all emergencies. Some cry down every enterprise simply because they are afraid they will be asked for a dollar to help it along. But Springer has taken unto itself new life and is moving to the front, and of course with the aid of its newspaper.

### The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an ideal panacea for coughs, colds and lung complaints, having used it in my family for the last five years, to the exclusion of physicians' prescriptions or other preparations."

Rev. John Burgus, Keokuk, Iowa, writes: "I have been a minister of the Methodist Episcopal church for 50 years or more and have never found anything so beneficial or that gave me so speedy relief as Dr. King's New Discovery." Try this ideal cough remedy now. Free Trial Bottles at Murphey-Van Petten Drug Co's., Las Vegas and East Las Vegas, and at wholesale by the Browne & Manzanares Co.

Mary Judd and Nellie St Clair were fined $10 each by Judge Crawford, down at Albuquerque, for disturbing the peace.

Hall's Hair Renewer renders the hair lustrous and silken, gives it an even color, and enables women to put it up in a great variety of styles.

Nowadays when women are trying to do everything it is not strange that many things are over-done. It is not strange that there are all kinds of physical and mental disturbances. If the woman who is a doctor, or a lawyer, or a journalist, or in business would not try to be a society woman too it might be different; but the woman who knows when she has done a day's work has yet to be born. Usually a woman's way is to keep doing until she drops. Working in this way has manifold evils. The most common trouble resulting from over-exertion, either mentally or physically, is constipation of the bowels, with all its attendant horrors.

Dr. Pierce's Pleasant Pellets are the most effectual remedy in the market. They work upon the system easily, naturally. There is no unpleasant nausea after taking them. No griping—no pain—no discomfort. They are composed of materials that go through the system gradually, collecting all impurities and, like the good little servants that they are, disposing of them effectually. Sold by druggists.
