No Sanctity in Garments.
There is no sanctity in garments. A rose in a man's hat does not enlarge his piety. Grace is not conveyed by a piece of lawn or chastity by the wearing of a girdle. A black gown has neither more sense nor better manners than a black coat. Nor is a black cloak more edifying than a fustian frock, no more than a cambic tili is an antidote against lewdness or an atonement for it.—Independent Whig, 1719.

A Useful Fashion.
"Ah, professor, what a charming collection of stuffed birds you have here! Where did you get them from?"
"Oh, that is quite simple. I have been collecting them for years from the worst lots of my seven daughters."
—Zur Eberhartung.

A German proverb says, Honor the old, instruct the young, consult the wise and bear with the foolish.

CANCER CURED
—AND A—
LIFE SAVED
By the Persistent Use of
Ayer's Sarsaparilla

"I was troubled for years with a sore on my knee, which several physicians, who treated me, called a cancer, assuring me that nothing could be done to save my life. As a last resort, I was induced to try Ayer's Sarsaparilla, and, after taking a number of bottles, the sore

began to disappear and my general health improve. I persisted in this treatment, until the sore was entirely healed. Since then, I use Ayer's Sarsaparilla occasionally as a tonic and blood-purifier, and, indeed, it seems as though I could not keep house without it."—Mrs. S. A. FIELDS, Bloomfield, Ia.

Your Boy Won't Live a Month.
So Gilman Brown, of 34 Mill street, South Gardner, Mass., was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$375 with doctors, who finally gave him up, saying, "Your boy won't live a month." He tried Dr. King's New Discovery, and a few bottles restored him to health and enabled him to go to work a perfectly well man. He says he owes his present good health to the use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble.

Mrs. Rhodie Neah, of this place, was taken in the night with cramping pains and the next day diarrhoea set in. She took half a bottle of blackberry cordial but got no relief. She then sent me to see if I had anything that would help her. I sent her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and the first dose relieved her. Another of our neighbors had been sick for about a week and had tried different remedies for diarrhoea, but kept getting worse. I sent him this same remedy. Only four doses of it were required to cure him. He says he owes his recovery to this wonderful remedy.—Mrs. Mary Sibley, Sidney, Mich. For sale by K. D. Goodall, Depot drug store.

THIS LOCALITY
Las Vegas, the Chief City
of New Mexico--Some
of Her Resources,
Attractions and
Advantages.

LAS VEGAS, meaning "The Meadows," is the county seat of San Miguel county, lies on both sides of the Gallinas river, and, with its suburbs, has about 10,000 inhabitants.

It has water works, street cars, and incandescent electric light plant, telephone exchanges, Territorial agricultural experiment station, headquarters of the Atchison railway system, New Mexico division, together with railroad machine shops and tie-preserving works, stock yards, and the largest sheep shearing and dipping plant in the United States.

West of the river, the old town has the quaint and picturesque Mexican appearance—adobe houses, narrow, crooked streets, native people and customs, handicrafts and occupations; but the plaza and all of the new town, east of the river, constitute a distinctive American city. The streets are wide and well graded, while sidewalks abound, shaded with growing trees, add to the beauty and healthfulness of the place.

Handsome and well-filled stores, beautiful residences, and numerous lawns, set in grass and adorned with shrubbery and flowers, combine to proclaim a cultured community, possessed of all modern comforts and conveniences.

A city hall, three public school buildings, court-house, Masonic temple, opera house, Territorial Normal school and Territorial asylum are public buildings, constructed of red and white cut sandstone, unsurpassed in beauty by similar edifices in any town, of equal size, in the States.

An Academy, Seminary, Jesuit college, Convent school, Presbyterian Mission school, Methodist manual training school, Christian Brothers' institute, City high school, three graded public schools, a kindergarten, a commercial school and two music schools, besides several private teaching facilities, comprise the educational advantages of this locality.

LAS VEGAS is the natural sanatorium of the United States, combining more natural advantages than any other place in America. Her thermal waters are of the equal of the Hot Springs of Arkansas, while her climate is infinitely superior. There is no malaria, no fever, no cholera, no malarial fevers, no ague, no colds, no quarts, rats or mosquitoes. The air is pure, dry, rarefied, and highly electrified—a certain cure for consumption, if the patient takes the inhaled air, and the waters are a specific for liver, skin, rheumatic and blood disorders. Her Montezuma hotel is the finest hostelry between Chicago and the Pacific, and is situated in a beautiful canyon, five miles from town, where the Hot Springs, forty in number, come boiling to the surface.

The altitude is about the same as that of central Tennessee, while the altitude is nearly 6,000 feet. This combination gives a temperate, sunny, breezy, restful winter, during the day, the thermometer seldom falls, in the shade, below forty degrees, while it often rises, in the sunshine, to the high 70s, and even 80s. On the other hand, in the summer, the heat is never oppressive, in the shade, and no night is too warm for comfortable sleep, under a two blanket coverlet. The humidity of moisture; the resinous aroma, rolling down from the pine-clad mountains; the large amount of electricity in the air; and the consequent ozone, resulting from the electricity; and the location of the town, land-locked by mountain and mesa—these all combine to produce an atmosphere which is a balm to all diseases of the respiratory organs. The percentage of death from consumption is lower in New Mexico than in any other place in the United States; and no other place in New Mexico equals Las Vegas in the salubrity of its climate. Asthmatics experience immediate and permanent relief, in this altitude.

In the way of health and pleasure resorts, Las Vegas is unrivaled. In a radius of ten miles there are two waterfalls, two glaciers and besides bubbling mountain brooks, are the Las Vegas Hot Springs, Harvey's, El Forester, Santa Fe, El Mescal, El Rio, El Rancho, El Rancho, El Rancho, El Rancho, and other places, too numerous to mention, where health can be recovered, and life becomes a pleasure. In the way of the over-land business center, Las Vegas has two daily and five weekly papers, three banks, two building and loan associations, three hotels, many boarding houses, nine churches, a number of clubs and all the leading civic and social societies; a roller flour mill, capacity, fifty barrels per day; a wool scouring establishment, cleaning 1,500,000 pounds of wool annually; a well-equipped brewery and bottling establishment; a manufactory of agricultural and domestic implements, saddles and harness factories; a foundry; electric light plant, three planing mills, and other enterprises of less importance.

There are eight large wholesale houses, whose trade extends throughout the Territory, and into the adjoining sections; while the volume of the trade, and the value of the stocks which they carry, can not be duplicated west of Kansas City and south of Denver. Three mercantile brokers have selected this city as their distributing center, the amount of their yearly sales exceeding, in the aggregate, the combined sales of all other such brokers in the Territory. The retail merchants of Las Vegas, are more numerous, and carry larger and better stocks of goods than do the retail merchants of any other town in this Territory or Arizona.

LAS VEGAS is the distributing point for nearly all New Mexico. By the Atchison system, the best connection with Kansas on the east, Colorado on the north, Arizona and California on the west, and Texas and Old Mexico on the south. Besides the above, she has more direct lines connecting her with tributary territory, than has any other town in New Mexico. This territory includes the entire section east and south of the mountains, and comprises the counties of Colfax, Mora, Teras, San Miguel, Santa Fe, Socorro, Dona Ana, Grant, Chaves, Lincoln and Elddy, each parts of which are fertile and productive lands, larger than all New England. This takes in the famous Valley of the Rio Grande, and the best of the best of the best fruit sections of the west.

This Territory is rich in everything that constitutes the wealth of the West. From coal, lead, silver, gold, mica, limestone, sandstone, marbles, gypsum, soda in endless variety and exhaustless quantities, are among the several products of the country which Las Vegas commands. Sheep, cattle and lumber abound, so that in such of these prime articles of commerce this city is the best market in New Mexico. She handles more wool than all the other towns in the Territory combined, while her commerce in hides is truly enormous.

In the same way, she stands pre-eminent for her trade in grain, hay, vegetables, and other farm products; while her trade in live stock is the highest in mountain country, and extends east into Kansas, west into Arizona, and south into Old Mexico.
