

# MEXICANS MAY SUCCEED NEGROES AS TRAIN PORTERS

The Pullman company is making an experiment with Mexican porters on the cars as substitutes for negroes on the Mexican Central and other lines in Mexico handled by that district. Mexicans have already superceded negroes on some of the runs out of Mexico City, and the change is said to be very satisfactory to the management. There are about fifty porters in Mexico who are under the jurisdiction of the office in El Paso and if the Mexicans give the satisfaction expected of them it is probable that most of the negroes on these runs will give place to the natives.

# BURNING ECZEMA QUICKLY SPREAD

Started Like Ringworm on Hand—Hand Swelled and Then Humor Spread to Arms, Legs and Face—It was Something Terrible.

## PRESCRIPTIONS FAILED; CUTICURA CURED HIM

"I have used the Cuticura Remedies for a very bad case of eczema with complete success. About fifteen or eighteen years ago the disease developed in the shape of a large pimple on top of my hand. It burned and itched so much that I was compelled to show it to a doctor. He pronounced it ringworm, and made very light of it. He gave me a wash and told me to apply it before going to bed and all would be over in the morning. But the next morning my hand was all swollen up and I poulticed it. When the doctor came to his office I showed him the hand and to my surprise he told me that he had never experienced such a case in his practice and said it was well I poulticed it. After trying his different remedies the disease increased and went up my arms and finally to my thighs and legs generally and finally on my face. The burning was something terrible. After I had tried this doctor, as I thought, long enough, I went to another doctor who had the reputation of being the best in town. He told me it was a bad case of eczema and that it would take quite a while to cure it. His medicine checked the advance of the disease but no further.

"I finally concluded to try the Cuticura Remedies. I bought a cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent and found relief in the first trial. I continued until I was completely free from the disease and I have not been troubled with another attack since. I still use the Cuticura Ointment in my family as it is one of the best remedies to heal a sore or other injury rapidly. I can freely and truthfully say that the Cuticura Remedies are the best so far as my experience went with them and I am still recommending them, feeling sure I am not making a mistake. C. Burkhardt, 236 W. Market St., Chambersburg, Pa., Sept. 15, 1908."

## PREVAILING DROUGHT DISASTROUS TO STOCK

Hon. Solomon Luna, of Los Lunas, Valencia county, one of the largest individual sheep raisers in the southwest, was a visitor in Las Vegas yesterday, leaving for Albuquerque this morning on the California limited.

Mr. Luna's trip to this city was for the purpose of personally looking after a big shipment of fleecy animals to Colorado grazing grounds. The sheep were shipped from the Luna ranges in Socorro county, being loaded at Magdalena. The sheep were taken from the cars upon arrival at Springer and allowed to spend the day resting in the Santa Fe stockyards, this being in compliance with the twenty-eight hour law.

Mr. Luna said that the southern ranges were parched for want of rain and that unless the present dry spell was broken soon, it would result in great losses to stockmen generally. As it is the past season has been anything but favorable to sheep and cattle because of the prevailing drought.

At a recent meeting of the territorial Sheep Sanitary board in Albuquerque, the dipping season was extended until the July rains set in. The dipping therefore will begin next week throughout the territory.
