NEW YORK STOCK EXCHANGE

New York, Jan. 12.—The equilibrium this morning by violent fluctuations of Lohigh Valley. Declaration of an extra dividend had been expected for some time and a large speculative interest in the stock had been built up. Room shorts who sold on the theory that the news had been discounted succeeded in forcing down the price for a short time, but were badly squeezed on the recovery which followed. Reading was influenced to some extent by the movement, but displaying more stability. St. Paul again displayed weakness, receding to within less than two points of its low price of 1911. Copper stocks were under decided pressure, despite the future advance in the price of the metal. Prices did not fall to the earlier low level in the second hour, although the copper group began to show heaviness. Speculation became steadier toward midday and there was improvement in all quarters, with some of the specialties rising vigorously. Bonds were steady. Higher prices accompanied a large increase of business but the demand was concentrated largely in a handful of stocks. United States Steel reached 67 3/4 and Union Pacific 163. The market closed firm. Moderate selling to take profits checked the advancing trend in the final hour. The reactions were not large and the market became dull on the decline. The closing sales were as follows: Amalgamated Copper 65 1/2; American Beet Sugar 11 3/4; Atchafson 105 1/4; Great Northern Div. 126 3/4; New York Central 107 1/2; Northern Pacific 116 1/4; Reading 153 1/4; Southern Pacific 109 3/4; Union Pacific 163; United States Steel 67 3/4; United States Steel preferred 111.

Part Cash, Balance on Time will buy a good two story frame house, 7 rooms and bath, corner lot, sidewalks in on both streets, excellent location; easily worth \$2,000. Better hurry if you want to take advantage of this bargain. Investment and Agency Corporation, Phone Main 40.

NEW APOSTOLIC DELEGATE Rome, Jan. 12.—The appointment of Monsignor Boglianni, bishop of Adria, as apostolic delegate to Mexico, has been confirmed.

PERSONALS

O. A. Larrazola left Las Vegas this afternoon for a short business trip in the southern part of the state.

Dr. W. R. Tipton, went to Watrous yesterday afternoon returning to Las Vegas this afternoon on stub train No. 1.

Willard Barrows, representing Marshall Field and Company, was in Las Vegas today visiting the local dry goods men.

M. McGe, formerly of Las Vegas, now roundhouse foreman for the Santa Fe at Lamy, was in Las Vegas today on business.

W. A. Cole of Ratoch arrived last from his home in the Gate City and was in Las Vegas today a guest at the Castaneda hotel.

James Clay, of Clay and Havers the liverymen, went to Watrous yesterday afternoon on business, returning to Las Vegas this afternoon.

Miguel Senecal, brother of Arthur Senecal of the Rosenwald & Son store, has returned from Canada and will reside in Las Vegas permanently.

George A. Campfield of Albuquerque arrived in Las Vegas this afternoon on stub train No. 1 from the north and is stopping over in this city on business.

Mrs. J. van Houten, daughter of Mr. and Mrs. Chris Wiegand of this after stopping off on her way from Albuquerque to Raton for a short visit, left yesterday afternoon for the Gate City.

P. C. Searle, southwestern New Mexico sales agent for the Vermejo Coal and Coke company, of Dawson, with headquarters in El Paso, went south this afternoon after stopping off in Las Vegas on business.

Herbert W. Clark, secretary of the republican state central committee, went to Santa Fe yesterday to attend a meeting of the committee to be held in that city in a few days for the transaction of important business.

Attorney Charles A. Spies, according to the Santa Fe New Mexican, has returned to the Ancient City after being in Albuquerque several days as attorney in the McIntosh-Romero land trespass case which came before Judge Abbott Wednesday.

A. Staab of Santa Fe, after stopping off in Las Vegas a short time on his way from Denver to his home, continued on to the Ancient City this afternoon. Julius Staab, an attorney of Albuquerque, his son, who was with Mr. Staab went south to the Duke City.

Tom Keaveney, traveling salesman for the American Tobacco company, who has made his headquarters in Las Vegas for several years, has been given a district in northwestern Texas and southern New Mexico in addition to his present field and has transferred his headquarters to El Paso. Mr. Keaveney left this afternoon for the border.

IT GROWS HAIR

Here Are Facts We Want You to Prove at Our Risk.

Marvelous as it may seem, Rexall "93" Hair Tonic has grown hair on heads that were once bald. Of course, in none of these cases were the hair roots dead, nor had the scalp taken on a glazed, shiny appearance.

Rexall "93" Hair Tonic acts scientifically, destroying the germs which are usually responsible for baldness. It penetrates to the roots of the hair, stimulating and nourishing them. It is a most pleasant toilet requisite, is delicately perfumed, and will not gum or permanently stain the hair.

We want you to get a bottle of Rexall "93" Hair Tonic and use it as directed. If it does not relieve scalp irritation, remove dandruff, prevent the hair from falling out, and promote an increased growth of hair, and in every way give entire satisfaction, simply come back and tell us, and without question or formality we will hand back to you every penny you paid us for it. Two sizes 50c and \$1. Sold only at our store—The Rexall Store. E. G. Murphey.

Julius Graef, of the firm of Graef & Hayward, grocers, was reported critically ill this afternoon and has been taken to the Las Vegas hospital for treatment. Mr. Graef has been ill for some time but up to a short time ago was at his store regularly.

Mrs. Lavonia A. Hill has issued invitations to the marriage of her daughter, Margaret Craig Hill, to James Curry, formerly of Las Vegas, the ceremony to take place in Los Angeles at the Westlake Presbyterian church on January 24. Mr. Curry, while a resident of Las Vegas, was in the employ of the Santa Fe railroad and is employed with the Southern Pacific in Los Angeles.

Right here and now, pause and consider the fact that there are people in the world who never even heard of you.

Lady Baltimore Cake

The Most Popular Cake This Season

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

This is considered by many cooking authorities the finest cake that can be made, though in reality it is not at all difficult.

One cup butter; 2 cups granulated sugar; 1 cup milk; 1 teaspoonful rose water; 3 1/2 cups flour; 3 level teaspoonfuls K C Baking Powder; whites of 3 eggs, beaten dry.

Cream the butter and beat in the sugar gradually. Sift together, three times, the flour and baking powder, and add to the butter and sugar, alternately with the milk and rose water. Lastly, add the egg whites. Bake in three-layer cake pans. Put the layers together with the following frosting.

NOTE—The cake is a large one and will fit Women's Exchange for \$1.50.

Frosting for Lady Baltimore Cake

Three cups granulated sugar; 2 cups boiling water; whites of 3 eggs; 1 cup chopped raisins; 1 cup chopped nut-meats; 5 eggs cut in thin slices.

Stir the sugar and water until the sugar is dissolved, then let boil without stirring until the syrup from a spoon will spin a long thread; pour upon the whites of the eggs, beaten dry, beating constantly meanwhile. Continue the beating until the frosting is cold; add the fruit and spread upon the cake.

The K C Cook's Book contains ninety six such delicious recipes—bread, muffins, cakes and pastries. You can secure a copy by sending the certificate enclosed in every 25-cent can of K C Baking Powder to the JACOBUS BROS. CO., Chicago. Small cans do not contain Cook's Book certificates.

SEEKS "OPPORTUNITY" THROUGH 90 YEARS OLD

AGED ABNER HAMMOND GOES TO CALIFORNIA TO MAKE BELATED FORTUNE

San Francisco, Calif., Jan. 12.—Abner Hammond, 90 years old, and his wife, who is 80, arrived in San Francisco early today from Lyons, Wayne county, New York, "seeking new opportunities." The ferry station was stormed with the rush of the early commuters past as the aged adventurer stepped off the boat and they were caught in the crowd.

"I didn't think there'd be so many people out here," said Mr. Hammond, querulously. He carried his earthly belongings in a battered telescopic suit case and "mother" clung to his hand. From an old wallet, bound with a string of interminable length, the aged argonaut drew a real estate folder, showing a rose-bordered bungalow and a generous invitation to "come to sunny California."

"We weren't getting on very well," he said and we thought we would come out here and get into something. We had \$150 in the bank, but it took it all to get out here. I know a man named J. L. Harris in Los Angeles, and I guess he can give us some advice, if we can get down there. I'd like to have a little farm." I used to make the best butter of anybody in our township," added "mother," as she deftly adjusted Mr. Hammond's black string tie.

The travelers aid department of the San Francisco Young Women's Christian association will assist the aged couple in their journey to Los Angeles.

"I AM NOT AFRAID TO MEET MY DEATH"

SO SAYS CONDEMNED MURDERER JUST BEFORE HE PAYS PENALTY ON GALLOWS.

San Francisco, Jan. 12.—Mark A. Wilkins, who was convicted of the murder of Mrs. Vernie Carmen, with whom he eloped from Kansas City in 1907, was hanged at San Quentin prison at 10:31 a. m. today. The body was pronounced dead and taken from the scaffold at 10:17.

Just before being taken from the death chamber, Wilkins made the following statement to Warden Hoyle: "I want you to say for me, as my last words on earth that I am an innocent man, and have no fear of death. Express my deep gratitude to those who have been active in trying to secure a pardon."

Wilkins slept soundly all night. He dressed carefully and announced to his guard that he was ready. Two priests spent the hour preceding the execution alone with him. The condemned man walked with a firm step to the death chamber, where a small group of physicians, prison officials and newspaper representatives were waiting. The cap and noose were adjusted and the trap sprung in less than three minutes. A bit of metal, sharpened to a razor edge was found in Wilkins' prayer book after the execution.

BREAKS UP A COLD AND CURES GRIPPE

Most Severe Cold and Grippe Misery Relieved in a Few Hours

You can surely end Grippe and break up the most severe cold either in head or chest, back, stomach or limbs, by taking a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, mucous catarrhal discharges, running of the nose, soreness, stiffness and rheumatic twinges. Take this harmless Compound as directed, without interference with your usual duties and with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery as promptly and without any other assistance or bad after effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

When given as soon as the croupy cough appears Chamberlain's Cough Remedy will ward off an attack of croup and prevent all danger and cause of anxiety. Thousands of mothers use it successfully. For sale by all druggists.

RED CEDAR FOR BUILDINGS

Some of This Excellent Material is Estimated to Be Nearly Four Thousand Years Old.

It will surprise many to know that they have in their homes material estimated to be 4,000 years old. If the shingles or interior finish is red cedar or if you have a red cedar chest it is possible that the wood antedates the history of this country by thousands of years, says the Cleveland Leader.

A Cleveland man is credited with bringing the first red cedar into this section. W. A. Geist, on a western trip several years ago, was attracted by the red cedar forests at Port Angelus, Wash. He established a mill there and began shipping the cedar to the eastern market. Formerly the southern cedar was used in great quantities, but it is the claim of Mr. Geist that the product from the Pacific coast is growing in favor and the demand for it is increasing.

It is a most durable wood and its use in a home guarantees that moths and other troublesome insects will not enter. It is used for wainscoting, mantels, cupboards, cabinets and especially for chests in which to store furs and clothing. Mr. Geist exhibits a quantity of red cedar cut from a tree he estimates to be at least 3700 years of age. Three large cedars were found growing from a fallen log which was five and one-half feet in diameter. The largest of the three trees growing from the fallen tree was ten and one-half feet in diameter. By counting the rings in both trees indicates that the fallen tree, still sound, is nearing its four thousandth birthday.

Mr. Geist is an expert upon red cedar and goes in for the history of the wonderful trees of Washington and other coast states as a biographer would the data upon the life of some famous man. He surrounds a bolt of single cedar with an interesting story, which goes back to the misty ages and something like reverence grows within the listener for this venerable work of nature.

Unquestionably the red cedar is the oldest material used in the construction of the home and few materials will outwear it, it being nearly indestructible except by fire.

King's "Fake" Gold Plate

The first point of interest is suggested by the title of the volume, "The Gold and Silver of Windsor Castle." Whenever a royal banquet at Windsor or Buckingham palace is described in the newspapers the writer says that "the sideboards were adorned with the famous gold plate." In point of fact, there are only three pieces of gold plate in the Windsor collection, two of them a small silver ten and one-half inches in diameter and a cup and cover nine and one-half inches high, both dating from the first year of George IV, and it is a melancholy fact that the former was made from a number of gold snuff boxes presented to the Duke of York by various cities and by the University of Oxford. All the rest of the "gold" plate is really silver gilt, and Mr. Jones' book brings out the curious fact that most of the gilding, even of the silver pieces that had been made a century or two earlier, was done by George IV's goldsmiths, Rundell and Bridge.—London Times.

The Range of Vision

Data have been gathered in Germany with reference to the distance

DO NOT LEAN UPON OTHERS

Learn to Stand Alone or You Never Will Become Strong or Original.

Power is the goal of every worthy ambition, and only weakness comes from imitation or dependence on others, says Orison Swett Marden in Success Magazine. Power is self-developed, self-generated. We cannot increase the strength of our muscles by sitting in a museum and letting another exercise for us. Nothing else so destroys the power to stand alone as the habit of leaning upon others. If you lean, you will never be strong or original. Stand alone or bury your ambition to be somebody in the world.

The man who tries to give his children a start in the world so that they will not have so hard a time as he had, is unknowingly bringing disaster upon them. What he calls giving them a start will probably give them a setback in the world. Young people need all the motive power they can get. They are naturally learners, imitators, copiers, and it is easy for them to de-

For Those Who Hear Not

The hallboy had fairly split his throat shouting directions to deaf persons who had called to see Mr. Schwartz. Mr. Schwartz lived in the fourth floor rear, right-hand apartment, through the long hall and up the back stairs. It took a good deal of shouting to make some folks understand that.

How Mind Relieved

"Charley, dear," said young Mrs. Torkins, "what is a jackpot?" "Why—er—a jackpot is a general contribution for purposes of charitable donation."

Light of the Firefly

The statement that the light of fireflies and other phosphorescent animals is produced without any sensible degree of heat has often been repeated without any information as to the quantity of heat that would be required to produce a similar amount of light by artificial methods. This information is supplied by Professor McIntosh. He says that a temperature approaching 2,000 degrees Fahrenheit would be necessary to make a light equivalent to that emitted by an ordinary firefly. The enormous waste in all industrial methods of producing light is a matter of common knowledge, and the example of the firefly remains unlimited by man. The very simplicity of the mechanism employed by nature in phosphorescent animals is baffling.—Harper's Weekly.

Deduction

"What are you grouchy about?" asked the young man who wears his hat over one eye. "Your manners—" suggested Mr. Mildboy. "But you told me to make myself at home in your office." "True. And I was merely sympathizing with you. I am sure that with your aggressive style of speech and your general lack of repose your home life cannot be happy."

ORCHARD AND GARDEN NOTES.

Never cut a limb from a fruit tree unless you know just why you do it. If the rabbits have only gnawed the outer bark, wrap the wound with cloth.

Diversified gardening is the safest course for growers supplying local markets. "It is a bad mistake to neglect an orchard when it is not producing a crop of fruit.

Seed potatoes, like table stock, should be stored as cold as possible without frost. A bruised potato is a short-lived potato. Handle them carefully, as if they had feeling.

If air-slacked lime be in earth in which plants are potted it will keep worms away. An experienced pruner notes the direction of growing branches and prunes accordingly.

Put the potatoes designed for seed purposes in barrels or bins where they can be kept from the light. Prune out old canes and raspberries and blackberries, and burn them. Thin the hills to three or four shoots. Cultivate, and add some manure to the soil.
