OFFICIAL PAPER OF SOCORRO COUNTY.

SATURDAY, JULY 2, 1904.

REPUBLICAN NATIONAL TICKET.
For President,
THEODORE ROOSEVELT
For Vice-President,
CHAS. W. FAIRBANKS.

ROOSEVELT'S nomination was a foregone conclusion. So is his election.

It is now up to the democratic national convention to nominate the victims.

THAT joint statehood plank seems to have had rough sailing on convention seas.

EL DEBENSOR defends the School of Mines in a manner that will win that paper many friends in Socorro.

SOCORRO is infested with its full share of that class of inhabitants whose only mission seems to be to afford a repulsive example of idleness and the fruits thereof.

ON account of his gallant fight for New Mexico Delegate Rodey can easily be forgiven his little fling at the opponents of joint statehood as recalcitrant republicans.

THE recent mischievous assault made upon the School of Mines by Elfege Baca of El Paso, Texas, was very ill-advised, as that gentleman is likely to find to his cost.

THE CHIEFTAIN has not yet abandoned all hope of a union county ticket this fall, but it must be conceded that a good many local democratic magnates seem bent on their own destruction.

THE ALBUQUERQUE CITIZEN has many friends in Socorro and the number will grow greater as a result of that paper's recent defense of the School of Mines against an unreasonable and unwarranted attack.

SOMEBODY asks concerning Parker, "What has he ever done to deserve democratic preference?" The question is easy. Parker has done nothing, and therein he has a mighty big advantage over numerous other democratic candidates who might be mentioned.

IT is suggested that the politicians were not exceedingly enthusiastic for Roosevelt's nomination, but that they nominated him because the people demanded him. What stronger guarantee of his fitness could be afforded? Also, what greater assurance of his election is possible?

THE republican organization of Socorro county will this fall pledge its candidate for the legislature to introduce and urge the passage of a bill making a liberal appropriation for the completion and enlargement of the dam and canal at the point of Socorro mountain. The fact that the citizens of Socorro have contributed so liberally for the construction of this work of defense against the menacing and

destructive floods that sometimes sweep down from the mountains will help greatly to secure the passage of such a bill.

ANYBODY who may be disposed to criticize the New Mexico School of Mines would do well to keep a firm hold upon these facts: The total enrollment at the School last year was 103. The number enrolled from outside of the territory was 18. The number of Spanish-speaking boys and young men enrolled was 25. The appropriations for the maintenance and support of the School is now 45 one-hundredths of a mill on each dollar of the assessed valuation of the taxable property of the territory, and it is estimated that this millage will hereafter produce from twelve to fifteen thousand dollars a year. Last year was by far the most prosperous and in all respects the most satisfactory in the history of the institution.

Our Filipino Visitors.
In its century of history the White House has seldom been the scene of a more interesting reception than that which was given in honor of the visiting Filipinos, who have been making a tour of the United States. The President and Mrs. Roosevelt entertained them at luncheon, after which the prominent people of the national government were invited in to meet them.

With few exceptions, none of these visitors, and they are the leading men of the archipelago, had ever been in the United States before. Some of them had never before left the archipelago, for the Philippine Islanders are not great travellers. Most of the places to which they would naturally go are a long way off, and so those who are not prepared for a formidable journey stay at home.

Travelling has been in all ages one of the greatest agencies in bringing people to understand one another. Even the Crusades did much good in broadening the view of Europe at a time when travelling in the modern sense was unknown. Americans going to the Philippine Islands have been profoundly interested in the strange contrasts which the Asiatic tropics present.

These visiting Filipinos were equally interested in conditions here. They found the American summer about like their climate all the year round. Our warm and substantial buildings told to their observing eyes of the frosts of winter and the absence of earthquakes. The railroad system of the United States amazed them. The multitude of our cities was almost confusing.

And still these visitors are well-read men. It is a peculiarity of Asia, by contrast with America, that while the masses live in an exceedingly primitive condition, the educated few are abreast of the times in culture and learning. Judge Arellano, for instance, the chief justice of the Supreme Court of the Philippine Islands, upon whom Yale University this year conferred the degree of doctor of laws, is a jurist of the first rank.—Youth's Companion.

Cared of Chronic Diarrhoea After Ten Years of Suffering.

"I wish to say a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Mattie Burge, of Martinsville, Va. "I suffered from chronic diarrhoea for ten years and during that time tried various medicines without obtaining any permanent relief. Last summer one of my children was taken with cholera morbus, and I procured a bottle of this remedy. Only two doses were required to give her entire relief. I then decided to try the medicine myself, and did not use all of one bottle before I was well and I have never since been troubled with that complaint. One cannot say too much in favor of that wonderful medicine." This remedy is for sale by all druggists.

UMBRELLAS OLD AS MAN.

Though Rain Shields Are 10,000 Years Old, Improvements Are Still Necessary.

"How rich I'd be," said an umbrella salesman to a Chicago Tribune reporter, "if I had patented the umbrella." The floorwalker smiled. "You might as well talk," said he, "of a patent on swimming or cooking. Umbrellas appear to have existed always. Wherever we excavate—Babylon, Nineveh, Nippur—traces of the umbrella are found. This instrument is coeval with mankind. "It is of oriental origin. The English didn't begin to use it until 1700. Shakespeare, with all his genius, had no umbrella to protect him from the rain. Jonas Hanway was the first English umbrella maker."

The floorwalker paused to brush a white thread from his long black coat. Then he resumed: "Now, what you might do would be to patent some new sort of umbrella—some rain shield built on better lines. We have proof that the umbrella existed for 10,000 years, and yet in all that time it has not once been improved. Consider it. It is by no means perfect. It turns inside out readily, and it only protects the head and shoulders from the rain. Change all that. Give us an umbrella that is a complete rain shield. Then you will become a millionaire."

Brutally Tortured.

A case came to light that for persistent and unmerciful torture has perhaps never been equaled. Joe Golobick of Colusa, Calif., writes: "For 15 years I endured insufferable pain from rheumatism and nothing relieved me though I tried everything known. I came across Electric Bitters and it's the greatest medicine on earth for that trouble. A few bottles of it completely relieved and cured me." Just as good for liver and kidney troubles and general debility. Only 50c. Satisfaction guaranteed by all druggists.

Wooden Shoes In Holland.

"The wooden shoe," said a native of Holland, "is worn almost exclusively by the peasant classes, and they find them more comfortable than the leather shoes that are worn in America. The foot is clad in a heavy woolen stocking and then slipped into the shoe without fastening. They never fall off because the people are used to wearing them. They would not exchange, because any other kind would not be comfortable. The shoes are of elm wood and cost from 10 to 15 cents of American money. Two pairs will last a year."

Sight Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood; but when all other medicines failed, three \$1.00 bottles of Dr. King's New Discovery wholly cured me and I gained 58 pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c and \$1.00. Trial bottles free at all drug stores.

Her Purgatory.

"But surely," protested the lately departed Boston girl, "you are not going to take me to the—infernal regions." "Only for a few seconds," replied the attendant spirit. "We must thaw you out a little."—Town Topics.

No Pity Shown.

"For years fate was after me continuously" writes F. A. Guldage, Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25c at all drug stores.

SORRY SHE SPOKE.

The Mistake That Was Made by a New York Milliner.

One of the richest and most prominent society women in New York caught an unexpected glimpse of the reverse side of a Fifth avenue trades-woman's manners the other day. The society woman in question is very quiet and unostentatious in her dress, and it is only the appointment of her equipage that betrays the fact that she is wealthy. She stopped her carriage outside the establishment of a fashionable milliner, entered and addressed the proprietress.

"I see you have in your window a sign, 'Apprentice Wanted,'" she began.

The milliner eyed her contemptuously from the crown of her modest bonnet to the tip of her common sense shoe. "You would not do at all," she said. "I want a ladylike person who can wait on customers."

"I wished to place one of my maids with some one from whom she could learn millinery while I am abroad," continued the visitor quietly, "but I'm afraid you would not do."

The Fable In Russia.

This fable, dealing with the fall of Witte, the Russian finance minister, is related in a brochure entitled "A Glance at the Secrets of Russian Policy," published at Vienna: "The czar dreamed the following singular dream: He saw three cows, one fat, one lean and one blind. The next day he sent for the metropolitan Paliadus and begged him to explain the dream, but the metropolitan declined. The czar then sent for Father John of Kronstadt and made the same request of him. Father John stroked his long curly hair with his hand and made reply in the following words: 'Your majesty, I understand your dream in this way: The fat cow is the finance minister, the lean one is the Russian people and the blind one—' 'Don't be afraid. Go on,' said the czar. 'The blind cow is—your majesty!'"

Indigestion.

With its companions, heart burn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sal-low skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by Socorro Drug and Supply Co.

Exactly So.

Those old maids who assembled in New York the other day sneered at President Roosevelt's remarks concerning large families and said that he had no business to talk about the loveliness of having children, because he was not a mother and therefore lacked the experience necessary to discuss the subject intelligently. Still, says the Chicago Record-Herald, it would seem that the old maids have little to brag of concerning this kind of experience.

Working Night And Day.

The busiest and mightiest little thing that ever was made is Dr. King's New Life Pills. These pills change weakness into strength, listlessness into energy, brain-fog into mental power. They're wonderful in building up the health. Only 25c per box. Sold by all druggists.

He—Are you good at conundrums?
She—Yes.
He—Well, here is one: "If I were to propose to you, what would you say?"

Courage is a Matter of the Blood.

Without good red blood a man has a weak heart and poor nerves. Anemia means thinness of blood. It is common in men and young women and all those who work indoors, who do not get enough outdoor air and good oxygen in their lungs. There are too many white blood corpuscles in such cases, and there is often a peculiar sound in the heart, called a murmur, in cases of anemia. This heart murmur is caused by thinness of the blood passing through the heart. The murmur of anemia disappears when the blood regains its natural consistency and richness. It is not heart disease. Sometimes people suffer intense pain over the heart, which is not heart disease, but caused by the stomach. It is the occasion of much anxiety, alarm and suffering, for which its victim is dependent upon reflex disturbances from the stomach caused by indigestion. In the same way many had coughs are dependent upon these reflex disturbances of what is called the pneumogastric nerve. To enrich the blood and increase the red blood corpuscles thereby feeding the nerves on rich red blood and doing away with nervous irritability, take Dr. Pierce's Golden Medical Discovery, which promotes digestion and assimilation of food so that the blood gets its proper supply of nourishment from the stomach. Get as near to nature's way as you can. A medicine made entirely of botanical extracts and which does not contain alcohol is the safest. Dr. Pierce's Golden Medical Discovery contains no alcohol or narcotics. Dr. Pierce's Pleasant Pellets are the best liver pills.

Russian Choral Singing.

Love of music, cultivated and enlarged by the fine rendering of the anthems and chants of the services of the churches, is a trait of the Russian peasant. The choral singing of men and boys in some of the smaller hamlets is indeed so rich and finished in style as to be a constant source of wonder to all travelers.—Social Service.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ills., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c, \$1.00. Sold by Socorro Drug and Supply Co.

Competent for the Job.

Conductor—All aboard! Please get aboard quickly, Miss. The train is about to start.
Young Lady—But I wish to kiss my sister goodbye.
Conductor—Get aboard, get aboard, I'll attend to that for you.—Chicago Journal.

Mamma—Yes, Willie. Your father is going to buy this picture. He's a connoisseur. Do you know what that is?
Willie—Yep. It's a old guy what'll dig up a hundred for a dinky picture when his dear little son's sufferin' for a billy-goat an' wagon!

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 2-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

ROCHESTER, GA., Jan. 20, 1902.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent me the medicine and now they are getting so fine. They are looking 20 per cent better.
S. P. BROCKINGTON.
