KENNA : : : NEW MEXICO

The new nickels are no easier to get than the old ones.

Our idea of the "perfect" gown is one that can be wished on.

Hasty marriages are proverbially likely to lead to long repentance.

Many men take their work more seriously than others do their loafing.

Lipton cannot lift the cup, but all true sports lift their hats to Lipton.

Get busy. Did you ever notice what hard work it is to keep on doing nothing?

A California scientist says the sun is a magnet. It certainly does draw attention.

A Japanese expert has arrived to study the New York police. Possibly for points to avoid.

Adding insult to injury is where a man asks for a light and then blows the cigar smoke in your face.

Now a scientist has risen up to say that cheese causes appendicitis. But some cheese can do worse than that.

Insects have one advantage in that many of them mature thirty minutes after birth. Some men never mature.

Disapproval of the design of the new nickel is becoming general. Why so much fuss over a lowly half dime?

The clergyman who said: "Let your enemies kiss you," evidently has never felt the smarting effect of a brick wound.

Now we know why the "turkey trot" has been discarded by society. The dance is too rough for corsage bouquets to stand the shock.

No one but dentists will worry over the statement made by a University of Chicago professor that the human race will some day be toothless.

King George is to wear a crown. If it has an open top doubtless its use will tend to prevent baldness, but there is little excuse for it otherwise.

The burglar who entered a Los Angeles home and forgot the purpose of his visit long enough to aid in comforting a sick baby, is not beyond redemption.

The Minnesota legislator, who is after a law to make it a felony for a housewife to "steal" the servant of another, must have had a good cook in his family at some time.

The professional burglar has quit wearing gloves to avoid leaving finger prints. He has discovered that a much easier method is to wash off the safe after he is through with it.

The Indian chiefs of the west found nothing else in New York so interesting as the buffalo at the Bronx. Can it be that buffalo are scarcer than skyscrapers in Buffalo Bill's country?

A member of the Albany legislature has been seized with the brilliant idea of taxing city cats. It is but a measure of retribution; for lo, these many moons city cats have been taxing people.

The butcher classifies his customers this way: Those who never buy beefsteak are poor, those who buy beefsteak twice a week are well to do, and those who have it oftener are rich.

One of the writers in the Pittsburgh Chronicle-Telegraph compares George Washington to Honus Wagner; showing that Pittsburgh people still have a high regard for the first president.

It has been determined that the average lifetime of a United States \$1 silver certificate is a trifle more than a year. We can cite numerous cases where it hasn't lasted a minute.

The hoboes' union proposes to petition the president for more freedom. More freedom in what? Chicken houses, or freight trains, or simply emancipation from compulsory baths?

The widow of a New York policy king signed a check for \$30,000 for a spiritualistic medium at the orders of her husband's ghost. Mighty poor policy to have the ghost walk in that fashion.

Some times it does not pay to emulate great men of the past. A Virginia youth, while trying a Benjamin Franklin experiment in flying a kite through an electrical storm, was instantly electrocuted.

## MAY BE FEW FIGHTS ON TARIFF

### HOUSE AND SENATE LEADERS PRACTICALLY AGREED.

A General Revision Bill Approved by President Wilson Nearly Ready for Congress.

Washington, D. C.—The Democratic Tariff Revision bill is finished, with the exception of a final decision upon the sugar tariff. From beginning to end it is a measure modeled in accord with the ideas of President Wilson, with wool, meats and many other foodstuffs and clothing materials on the free list; with low duties upon all agricultural products and foodstuffs that are not free; and with the tariff on chemical, steel and other commercial products cut far below the present protective rates.

The senate tariff leaders asked for an opportunity to study the bill. They will then confer with Oscar W. Underwood, chairman of the house committee on ways and means, and later will have a final conference with President Wilson. A careful analysis of the senate will be made in the meantime, to determine whether free wool, "one cent sugar" and low rates on "market basket" products will prove acceptable to a majority of the Democrats.

Briefly summarized, the tariff developments were:

President Wilson's ultimatum to sugar interests, that they must agree to a tariff of one cent per pound for three years, with free sugar after that time, or he would attempt to secure free sugar at once.

The completion of the bill by the ways and means committee with the exception of the sugar schedule.

On this, the committee is prepared to agree on free sugar if the President insists. Income tax rates fixed at 1 per cent for all corporation incomes above \$5,000; 1 per cent on personal incomes from \$4,000 to \$20,000; 2 per cent from \$20,000 to \$50,000; 3 per cent from \$50,000 to \$100,000; 4 per cent above \$100,000.

The President submitted his proposal on the sugar tariff to Representative Broussard of Louisiana early in the day. Louisiana senators and representatives conferred throughout the day, and sounded out other members of the senate, to determine whether enough strength could be secured to fight the free sugar features of the plan. They had reached no decision at this time, however, as to the course they would take.

## SUFFRAGETTES USING BOMBS

A Railway Station at Oxted in Surrey Blown Up to Revenge Pankhurst.

Oxted, Surrey, England.—Suffragettes blew up the railway station at Oxted in Surrey. An alarm clock set for 3 o'clock, a contrivance similar to those used by dynamiters in America, was found in the wreckage, and also a loaded revolver. Militant placards told that the explosion was the work of the women.

The lavatory of the station was demolished and the walls, windows and doors damaged. So far as known nobody was injured.

Stockport, England.—Explosives partly wrecked a London & North-western railway train near here. The carriages were almost empty and nobody was injured. Suffragettes were suspected of the wrecking, in revenge for the conviction of Mrs. Pankhurst.

London.—Warnings were sent out by the directorates of all the railroad systems in the United Kingdom to the effect that militant suffragettes had threatened to burn stations in various parts of the country. Patrols will be stationed at all stations and in tunnels.

## HUERTA GIVES UP PRESIDENCY

Madero's Successor in Mexico Says That He Is Unable to Handle Situation.

El Paso, Tex.—To satisfy all factions, General Huerta has agreed to the naming of Pedro Lascurain as provisional president, said advices received here directly from the national capitol. Lascurain will serve out the uncompleted term of the late Madero, if named.

As minister of exterior relations in Madero's former cabinet, Lascurain is entitled to serve as next in line in view of the deaths of Madero and Vice-President Suarez. The Huerta cabinet would be retained by the compromise.

## AN ARMY SENT AGAINST ZAPATA

President Huerta Will Try to Crush Mexican Rebel With 10,000 Troops.

The City of Mexico.—The breaking off of all negotiations for peace with Zapata has forced the government to mobilize a strong force for a campaign against the southern rebels. That has been done in spite of the fact that rebel successes in the north have made imperative the dispatch of a large part of the regular army to that region.

The war department says that government troops will begin moving into those districts occupied by Zapata's followers. That concentration will continue until an army of ten thousand men has been gathered.

The followers of Zapata have circulated numerous manifestos repudiating Huerta and Felix Diaz, and calling on the people to support the Zapata movement.

## MAIL POUCHES IN THE FLOOD

Postage Stamps and Currency Destined for the Southwest Get a Soaking.

St. Louis, Mo.—Nine pouches of registered mail containing \$100,000 worth of postage stamps and new currency of the face value of approximately \$100,000, all water soaked by being marooned in the flood district, has reached the postoffice here. The stamps are a total loss but the money may be saved by being shipped back to Washington to be "laundried and ironed."

The stamps were destined to post-offices in all parts of the Southwest, the orders from postmasters ranging from \$100 to \$20,000, according to the size of the office. A temporary stamp famine may be the result in some places.

## MONTENEGRO DEFIES POWERS

Little Kingdom Refuses to Abandon the Siege of Scutari at Their Demand.

Cettinje.—The little kingdom of Montenegro has thrown down the gauntlet to the six great powers. It declined to yield to the demand of the powers to abandon its attempts to gain possession of Scutari, and has announced officially that "there will be no departure from an attitude which conforms to the necessities of the state of war existing between the allies and Turkey."

## CONGRESS IN EXTRA SESSION

### BOTH SENATE AND HOUSE MEET AND ORGANIZE.

Large Crowds Filled the Galleries Long Before the Time Set for Opening.

Washington, D. C.—The extraordinary session of the Sixty-third congress has convened.

Popular interest centered in the house of representatives where Representative Champ Clark, Democrat, was re-elected to the speakership shortly after the session opened. Representatives James R. Mann of Illinois, Republican, was placed in nomination for that office by the minority. He received a rousing demonstration, but was overwhelmingly defeated.

Other officers selected by the house were as follows: Clerk, South Trimble of Kentucky; sergeant-at-arms, Robert E. Gordon of Ohio; doorkeeper, Joseph J. Slinnott of Virginia; postmaster, William M. Dunbar.

No election of officers was held in the senate, that body having been organized before its adjournment on March 17.

The convening of congress was auspicious in Democratic history. It marked the first time in nearly a score of years that Democrats have had complete control of the senate, the house of representatives and the presidency.

Long before the hour set for throwing open the doors of the house and senate galleries, the capitol was besieged by sightseers seeking admittance. Among them were hundreds of prettily gowned women—the wives of senators and representatives, with a fair sprinkling of suffragettes.

## Convene Promptly at Noon.

The presidential proclamation directed that both houses convene at noon and promptly at 12 o'clock the gavel of Vice-President Marshall fell in the senate. A new chaplain, Rev. F. J. Prettyman of Washington, delivered the invocation. The roll of senators was called in the usual way and committees appointed to notify the house and the president that the senate was ready to transact business.

In the house Clerk Trimble ascended to the speaker's rostrum and directed the reading of the president's proclamation. He was accorded a noisy reception. The proclamation was read and Trimble announced that in accordance with precedent and the constitution it was necessary to call the roll of the new house by states.

The house chamber had been equipped with benches instead of the old style desks and looked much like the English commons. While the roll was called members jokingly asked each other how they liked the new seats and the old timers tried to figure out how they could ever get used to this radical innovation.

## A HARD WIND HITS ATCHISON

Small Houses Were Unroofed and Wires Blown Down by Funnel-shaped Cloud.

Atchison, Kan.—A heavy windstorm struck this city about 6:30 o'clock in the afternoon. Houses in the west part of the town were unroofed and wires blown down.

Joseph Dickerson, a grocer's boy, was blown from a delivery wagon and painfully injured. Dr. Virgil Morrison, a physician, was caught in the whirlwind and had to lie down to escape its force.

The whirlwind lifted when it reached the business section, and crowds of people watched its course over the city. The air was filled with shingles and light debris.

## SET CAPTURED BALLOON FREE

The Germans Were Permitted to Leave by the French Authorities at Luneville.

Luneville, France.—The German air cruiser Zeppelin IV was inflated and departed for Germany at 3 o'clock in the afternoon. The landing of the airship on the parade grounds here in the midst of a brigade of French riflemen was satisfactorily explained to a French board of inquiry. The airship and its crew were afterward released on payment of \$2,000 as custom duty, and the incident was declared closed.

Omaha, Neb.—Joedy Pospisil, a pugilist, was drowned eight miles north of Omaha. In company with Miss Frankie Virgin of Omaha he was cruising in the Missouri river in a gasoline launch and ran upon a sandbar. In an effort to release the boat he stepped upon the bar and immediately sank in quicksand. Miss Virgin was rescued by farmers.
