KENNA : : : NEW MEXICO

It keeps the average man hustling to change clothes as often as the weather.

First thing we know, some fashion designer will be creating a slit bathing suit.

At last the automobile with the cow-catcher has come. It was only a question of time.

A damage suit may not be a cheap suit, but it is nearly always due for a little shrinkage.

Some men can hardly wait for pay day to come around. Other men are indifferent. Married.

Become not alarmed over your afflictions, for most of them pass quickly, notably, the cubist art.

In Indianapolis a split skirt tied up traffic. It might be well if some one would tie up the split skirt.

Did you ever observe that the man who does things has no "Do It Now" sign posted up near his desk?

A market report says that cheese is at a standstill. But most connoisseurs of cheese don't like it that way.

What a nice feature act for vaudeville would the perfect babies of the six leading cities of the country make!

A Berlin judge has ruled that a betrothal is not binding. Looks like a fine opening for a woman's rights party.

What, by the way, has become of the old-fashioned fellow who was once upon a time referred to as a muck-raker?

An unsportsmanlike exchange suggests the addition of another column to the tabulated baseball score to record bonehead plays.

Another exemplification of "the easiest way." Florida woman has gone insane because she couldn't solve the hired girl problem.

Washington beau brummel has come out with a feather in his hat, and it is safe to assume that he is spending his father's money.

Leased wire report from New York says the "stop, look, listen" gown is the latest creation there. Many of us are doing the same thing.

New York woman is suing her husband's second wife for \$25,000 damages for loss of his affections. Rather high for second-hand article.

Bulgarian coats are said to be popular with the men in New York. Well, if the bow behind hats become popular there's a chance for this new fad.

Now that the college student is about to obtain his degree will the A. B. mean as much to him as a sheep skin or as an indication of time "At bat."

A Texas man who lost an umbrella had enough faith in human nature to advertise for it. Investigation has proved that he only recently moved to Texas.

Wise as Solomon or any other experienced married man is the judge who told a husband it was wrong to leave letters where his wife could find them.

What has become of the old-fashioned swain who carefully removed the cigars from his vest pocket and placed them on the mantel when calling on his best girl?

In a contest for women only in Paris it was decided that the worst trait a man could possess was selfishness. Many a man will now pay his wife's bills in silence.

Every man who buys a pair of white trousers and a cap with an anchor on it does not own an 18-foot motorboat, even if he does tell every one he is going on a cruise.

Germany is now offering tourists air rides to assist in seeing the sights. To riding, sailing and swimming, flying is now added to swell the joys of the summer vacation.

"Constant Reader" assures an eastern editor that it is worry that produces the bald pate. In that case how does he explain the apparent exception of the bald-headed row at musical comedy?

There is one thing about the plan of that preacher who is sending out talking machine records of his sermons for the stay-at-homes. The machine can be shut off when the audience is tired.

HYDRO-AEROPLANES ON A LONG RACE

The start of the race for hydro aeroplanes from Chicago to Detroit, following the shores of the lakes, was marred by storm and accidents to the machines, but several of the contestants got away. The photograph shows two of them in Chicago harbor.

FLEE FROM MEXICO

MANY AMERICANS LEAVING THE SOUTHERN REPUBLIC IN A DESTITUTE CONDITION.

UNITED STATES AIDS THEM

For Fear of Their Lives Are Forced to Desert Their Interests—Many Investors Face Financial Ruin Because of Revolt.

Washington, D. C.—Destitute Americans are arriving in the United States on every boat from Mexican ports. Many of them face financial ruin in a series of revolutions which has paralyzed commercial and industrial enterprises, and they are leaving the southern republic with reluctance.

American consuls are empowered to draw upon the state department out of the various danger zones and in some instances, notably at Torreón, Ambassador Henry Lane Wilson has sent money to be expended by consuls and consular agents to relieve actual hunger.

Before Mexico passed through the terrors which commenced with the Madero revolt against the Diaz regime more than two years ago, most of the indigent were engaged in prosperous ranching and mining enterprises, or other commercial pursuits.

While the United States government repeatedly has warned them to flee and depend upon the government of the United States to guarantee a settlement of their claims against Mexico, the fear of delay in the adjustment of claims and the hazard of the loss or destruction of all their property has made hundreds take the risk of remaining in the revolution country. In the last month, however, between four and five hundred have been brought to the United States at government expense.

WERE LOST IN THE DESERT

Chaffee and U. S. Grant IV. Crazed by Hunger and Thirst When Rescued by Indian.

San Diego, Cal.—Lost in the desert between the little towns of Mecca and Brawley, Cal., Chaffee Grant and his younger brother, U. S. Grant IV., tramped for three days on the verge of death and were rescued by pure chance and the aid of an old desert Indian known in the district as Plute Jake.

At one time during the awful period Chaffee was so far gone with thirst, hunger and exhaustion that his brother, himself dazed and almost crazed by his experience, fought with the Indian in an effort to shoot the prostrate man and "so put him out of his misery."

THE BIG FOREST FIRE IS OUT

The Army of Fighters Succeed in Saving the San Francisco Suburban Towns.

Mount Tamalpais Summit, Cal.—The forest fires on Mount Tamalpais are out. Here and there linger a few smoldering embers, but after four days and three nights of fighting Mill Valley, Larkspur, Corte Madera and Muir Woods are definitely beyond the return of danger. Beyond the destruction of timber the property loss has been slight. It has been established definitely that there was no loss of life.

AVIATOR'S NARROW ESCAPE

Capt. Hennessy's Life Saved When His Foot Caught in Aeroplane Wires.

San Diego, Cal.—Capt. F. B. Hennessy of the army aviation corps had a thrilling escape from death in a falling biplane here. He had attained an altitude of about eight hundred feet over the ocean, when a gust of wind tilted his machine and threw him out of his seat. His right foot became entangled in the wires which control the silencers and the machine immediately began to sink. It had glided nearly six hundred feet down before Captain Hennessy succeeded in freeing his foot. The machine had kept an even keel and the officer managed to regain his seat and control of the plane. The machine was then within two hundred feet of the water.

BULGARIA GIVES UP

PLANS TO HEAD OFF SERVIAN AND GREEKS MET WITH FAILURE.

HAS APPEALED TO POWERS

Dissention in War Office and Exhaustion of Her Troops Caused the Defeat of Bulgaria—Roumania a Factor.

London, England.—The end of a fortnight's desperate fighting in the Balkans finds Bulgaria forced to appeal to the powers to arrange peace. The Bulgarian plan to drive a wedge between the Greek and Servian armies in the neighborhood of Guevghell has failed completely. The last reports of the fighting received from Athens show that the Servians and Greeks at this point are combining forces, while the Roumanian army is beginning an invasion of Bulgaria.

The latter fact doubtless was the deciding factor in the Bulgarian appeal to the powers. How far Bulgaria's defeat is due to dissensions in high military quarters, which resulted in the resignation of General Savoff, and how far to the fact that the Bulgarian troops, which bore the brunt of the hard fighting in the last campaign, were more exhausted than the Greek and Servian forces, probably will never be known.

Nothing can be predicted at the moment as to how events will shape themselves, the Roumanian invasion of Bulgaria having brought an entirely new factor into the problem. Russia and France are devoting their efforts to persuade the allies to adopt a moderate attitude in order to facilitate a peaceful settlement.

The Servian premier is quoted in the Vienna Neue Freie Presse as declaring that the new war has completely set aside all treaties of alliance and that peace must now be negotiated on an entirely new basis.

Rumors were published in Berlin and according to the Daily Telegraph's correspondent at Athens were current there that General Ivanoff, with fifty thousand Bulgarians was forced to surrender near Demirhisar, where fighting was proceeding for the possession of a railway bridge over the Struma river.

Dispatches from the European capitals published in London severely criticize Premier Doreff's overbearing policy as being the cause of the Bulgarian defeat and his speedy downfall is predicted.

A RAIN OF MONEY RECALLED

Charles A. Stevens, Negro Mail Robber Who Had \$50,000 Hidden, Gets His Freedom.

St. Paul, Minn.—A man shall not be compelled to serve a double sentence if it can be shown that the crimes charged against him were committed simultaneously and were prompted by one criminal motive, according to an opinion prepared by Judge Sanborn of the federal circuit court of appeals. The decision of the district court of Kansas was reversed and the release from Leavenworth federal prison of Charles A. Stevens, a negro, convicted of robbing the mails, was ordered.

Stevens was convicted of stealing a pouch of registered mail from a car at Kansas City, June 6, 1908. The conviction was on two counts and he was to serve five years for each count. One of the stolen letters contained \$12,500, which he embezzled, according to testimony.

GET THE ROADS FOR NOTHING

Government Bulletin Says That the Property Increase More Than Pays for Improvement.

Washington.—Improvement of country roads has enhanced the value of property bordering on such roads so that the cost of improvement is equalized and often exceeded says the Department of Agriculture in a bulletin just issued.

The department has gathered a mass of data through the office of public roads which is making a special study of the economic effect of the road improvement.

According to the information land values not only have increased but farm values often show marked advances over the original outlay as a result of road improvement.

Thought Baby Was Slighted. The baby of the family had been christened that afternoon and little Jane was observed looking thoughtful. Somebody asked what troubled her.

"Oh, I was just a-wondering!" was the quiet reply.

"What were you wondering about, dearie?"

"Oh, I was just a-wondering if all the people's names had been used up."

"What do you mean, dearie? We don't understand."

Jane looked surprised at the density of adult perceptions, but deigned to explain, gently:

"Oh, I noticed that we're going to call the baby Hazel, and it seems as if she might have a real name 'stead of a nut!"

Making Boiled Milk Palatable.

Everybody knows that boiled milk keeps much more satisfactorily in warm weather than raw milk—in fact, boiling milk is the one sure way of keeping it on a sultry day. But to many persons the taste of boiled milk is unpalatable, and to others even its odor is unpleasant.

To overcome these two faults, try boiling the milk in a tightly-closed double boiler. Do not remove the cover, but allow the milk to stay over the fire in the double boiler for ten minutes after the water has begun to boil. Then put the milk, still tightly covered, immediately on the ice and cool it quickly.
