## BEAR GRASS COMING TO THE FRONT.

The American Manufacturing Co., of St. Louis, has made a test of beargrass in the manufacture of rope, paper, matting and rugs, and found it so satisfactory that contracts are being given out for train loads of it. One shipper, at Midland, Texas, has an order for 50 cars of the dry leaves, one at Tucumcari, N. M., an order for 10 cars, and another, at Nari Visa, N. M., has a 10-car order. \$7.50 per ton, baled, is the price paid. If it can be profitably gathered and baled at this price some enterprising party ought to secure a contract for this section of the country, and make a home market. We have lots of the commodity—and to spare. Possibly other factories will take up its use soon, and the demand make it a leading crop. If this should be so the plains country of New Mexico would become "some pumpkins." We can grow bear grass more easily than weeds. Rain or shine, wet or dry, Mr. Beargrass can be counted on to deliver the goods. Now find us a good market for our Mesquite beans and Prairie dog hides and we'll defy droughts and build big mansions. "Nothing was made in vain,"—not even beargrass.

## TREATMENT DIFFERENT.

Things have changed in the last quarter of a century. 25 or 30 years ago the average boy would go out on Sunday, climb a tree and partake of a few gallons of mulberries and top off with a pocketful of green apples and salt. The next morning the mother diagnosed his trouble as "worms," and he was made to swallow a half bottle of Frey's Vermifuge, a quarter of pound of epsom salts, and was turned loose in the cow pasture until supper time, when he always showed up, ready for a square meal. Now, if a boy complains of a "hitch" in the side he has the "appendicitis," and is hustled off to a hospital, starved within an inch of his life, half a dozen surgeons each take a whack at him with pearl-handled knives, and he is turned over to the undertaker. Thus sayeth an article in an Eastern exchange, and we are a living witness, in so far as the article relates to ye olden days. We've eaten ye green apples, and taken ye salts in big doses—and LIVED.

TEACHER: I shall not keep you after school, Johnnie, you may go home now." "I don't want to go home," said Johnnie, "there's a baby just come to our house." "Well, then," the teacher began, you ought to be so glad to see the little baby that—"Glad nothing," broke in Johnnie, "I ain't glad. Pa'll blame me. He blames me for everything."—Lippincott's.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

## NOTICE FOR PUBLICATION.

Department of the Interior, U. S. Land Office at Fort Sumner, New Mexico, January 16, 1911.

Notice is hereby given that William Keller, of Kenna, New Mexico, who, on August 24, 1907, made Homestead Entry Serial No. 04422, for Lots 1 & 2, and S 1/2 N. E. 1/4 Sec. 1 Twp. 5-S., R. 29-E., N. M. P. Meridian, has filed notice of intention to make (Soldier's) Five-year Proof, to establish claim to the land above described, before W. D. Chancey, U. S. Commissioner, at his office in Kenna, New Mexico, on the 20th day of March, 1911.

ARTHUR E. CURREN, Register.

PARABLE HE LIKED. "Which of the parables do you like the best?" said the preacher to the boy whom his mother had hired to read the testament. "I like the one," said the boy. "where somebody loafs and fishes."

There are two ways of getting into a newspaper—purchasing an interview, or buying an interest. And there is still, also, another way—pulling the wool over the editor's eyes and getting in for nothing. The latter is the most popular plan.

The other day a medicine peddler, (or faker,) wanted to sell us a cartoon of medicine to cure fits—and offered to take his pay in advertising. Nothing doing. We didn't need the dope. We never had a fit in our life—not even in clothes.

Real success is purely ideal. No one ever gets so high that he does not care to go higher. If you are a one-story man, build another and another. There is no limit to the space above you, and no law against intellectual sky-scrapers. Build up.

Nowadays when a man falls in love with another man's wife it's "affinity," but when another man falls in love with your wife, that's—b-r-r-r!! If you stand on the corner and make ugly remarks about a nother man's daughter—that's fun; but when it happens to be your girl who is spoken of in the same way—that's dirty and scandalous. And so it is all along the line. It makes a lot of difference which way the bark is peeled. Ever think of it?

A new conundrum: If a goat should swallow a rabbit, what would the X-ray reveal? Ans.—A hare in the butter! This is in line with the cat and canary story. A lady offered 50 cents for the return of her canary. A small boy brought her a cat, and claimed the reward. "I do not want a cat," said the lady. "I advertised the reward for the return of my canary. Didn't you understand?" "Yes, mum, please," said the boy. "but the canary's inside the cat."

## Tortured For 15 Years

by a cure-defying stomach trouble that baffled doctors, and resisted all remedies tried, John W. Modders, of Moddersville, Mich., seemed doomed. He had to sell his farm and give up work. His neighbors said "He can't live much longer." "Whatever I ate distressed me," he wrote, "till I tried Electric Bitters, which worked such wonders for me that I can now eat things I could not take for years. It's surely a grand remedy for stomach trouble." Just as good for the liver and kidneys. Every bottle guaranteed. Only 50 cts. at all druggists.

## WE KNOW IT.

(FROM LAS VEGAS OPTIC.)

"Yes, we know the Optic is on the blink. We know it is the poorest excuse for a newspaper that was ever published. We know, also, that it never gets anything right. In view of the great help the paper receives, its shortcomings are inexcusable. Everybody turns aside from his daily task to telephone us "a item." Everybody talks freely to the reporters. Everybody does his best to spread the news. Everybody pays for his paper. There are no "red" circulation marks on our books, or at least the few that are there are run by persons who praise us most. Oh, yes! These things are all so true that, like the Kilbuck News, we apologize for all mistakes in former issues, and say they were inexcusable; as all an editor has to do is to hunt news, clean the rollers and set the type, sweep the floor and pen short items, fold the papers, write wrappers and make the paste, mail papers talk to visitors and distribute type, carry water cut wood and read proofs, hunt the shears to write editorials, dodge the bills of dun delinquents, take cash from the whole force, and tell our subscribers we must have money. We say we have no business to make mistakes while attending to those little matters, and making our living on hopper-tail soup flavored with imagination, wearing no collar, old shoes, and a patch on the seat of our pants, and being obliged to tell a merry smile for the fellow who tells us our paper ain't worth a dollar anyhow, and that he could make a better one with his eyes shut."
