COUNTY HEALTH DEPARTMENT SHOWS REMARKABLE WORK

The Health Department has been in existence for one year, and desires to express its marked appreciation and gratitude to all the physicians, newspapers and all the people in Union county for their untiring cooperation in this work.

To be of value to the people, the Health Department must reduce the death rate. It is the desire of the Department, through the courtesy of the newspapers to publish a comparative report of sickness and death for April, 1921, our first month in this county, and a report for April, 1922, after operating one year.

The Health Department belongs to the people of Union county. They pay for it and therefore must be the judge as to whether it is a good investment or not.

This report is absolutely authentic and the records are always open for inspection. It is our job to prevent all preventable diseases, and thereby preventing unnecessary deaths.

Read the comparative report carefully and decide in your own mind the question, "Is the Health Department a good investment?"
