

**GAMBREL-EMERSON**

Stephen Gambrel and Mabel Emerson were married at Mosqueo last Tuesday evening, June 27, and returned to County Clerk in Jersey. They received the necessary papers and then went over to Judge McGlothlin's office and had him say the words that made them man and wife. Immediately after the ceremony they returned to Roy or rather started to and of course the car had to get stuck in a mud hole, but love laughs at such trivial things as a stuck car, and after several hours work the car was extricated and the happy couple came on to Roy and which place they will make their future home.

The groom, Mr Gambrel is one of Roy's young men and was a student of the Roy schools during the 1920-21 term. He is the youngest child of Mr and Mrs J. G. Gambrel of this place and an exemplary young man.

The bride is the second eldest daughter of Mr and Mrs John Emerson of Dawson, but formerly of the Pleasant View neighborhood. For the past two years she has been living with her grandparents Mr and Mrs B. F. Emerson of this place and was one of the students of the Roy Public Schools the past year and is one of the prominent young ladies of the town.

The Spanish American extends congratulations to the happy young couple and wishes them all the joys that go to make life worth while.

**DN-CAVENDER**

Mr and Mrs Anderson formerly of this place but now of LaPorte, Ind. and Miss Lillian Cavender of that place were quietly married at La Porte, Ind on Saturday evening June 17th.

Mr Anderson has spent the greater portion of his life in Roy or on the farm near this place, having come to New Mexico from Indiana when a mere child and received his education in the Roy schools. Three years ago he joined the U.S. Army and served his enlistment and received an honorable discharge and after his return home went to LaPorte to visit his father and brother and while there secured a position at Michigan City and later with the Rumley people at LaPorte and which place he met his bride.

Mrs. Anderson is one of the popular ladies of LaPorte and we are sure that Lysle has chosen wisely in taking for himself this young lady who will be his future helpmate thru life's long journey. We extend to this young couple all the joys of life and hope their fondest ambitions may be realized.

F. M. Hughes and wife were up from Solano Tuesday evening and while here they attended the revival services.

**ARNOLD-LATHAM**

W. S. Arnold and Miss Danzel Latham of the LaCinta Canyon neighborhood drove quietly down to the county seat last Thursday and after getting the correct papers from the County Clerk, went across the street and had Judge McGlothlin say the necessary words that made the two hearts beat as one and they then went back to their LaCinta Canyon home man and wife.

Mr and Mrs Arnold are young people of that neighborhood and at which place they will make their future home. The groom is the youngest son of Mr and Mrs Arnold, old time residents of eastern San Miguel County and is a prosperous young farmer of that community for the past two years, he has been residing on the Pint farm southeast of Roy. The bride is the daughter of Mr and Mrs John Latham who is an employe of the Oen Co., which purchased a part of the Trigg ranch and is an accomplished lady.

The S. A. which will visit this home from the day it was established extends this happy young couple all the joys that go to make a real American home and may their future life be one continued round of bliss.

T. A. Brown of Clovis, was in town Wednesday; Mr Brown came up after his cement mixer and tells us that he is ready to commence work on the new school building within a few days notice.

**J. C. LLOYD SEVERELY INJURED IN ACCIDENT**

News was received in Roy Saturday that James Lloyd was severely injured on the preceding day while assisting Sheriff in removing a pump from his well on the ranch below the David hill. The pipe had been practically all removed from the well except one joint and this was being hoisted and was practically out when the chain slipped which was being used as a hoist, letting the pipe drop and as it went down it caught on the end of a lever with which they had been lifting the pipe with and caused the pole to fly up striking Mr Lloyd under the chin and arm and knocking him several feet in the air and leaving him in an unconscious condition. Dr Daniels was hastily summoned and after an examination found that the lower jaw was badly bruised and the flesh torn from the bones with several teeth knocked loose. He was removed to his home the following day and became conscious and at present is reported slowly recovering altho he is badly bruised and shaken up, he will be laid up from work for several weeks.

W. T. and Walter McFarland of David, N.M. stopped at Roy Thursday morning enroute to their home from L Vegas where they have been the past few days attending to business matters. Walter is the proprietor of the Mosquero Picture Show.

**PART OF THE REMAINS OF A GIANT MASTADON FOUND IN CANYON EAST OF ROY**

Encarnacion Lucero came to town last Thursday evening with the tooth of a giant mastadon which his son Vivian had found in the Sabino canyon about 17 miles northeast of Roy. Young Lucero was walking along the banks of the Sabino last Wednesday noting the damage that had been done by the recent flood in that vicinity when accidentally noticed something resembling a giant tusk protruding from the gravel bank which had been partly washed away by the recent flood. After careful investigation he found it to be a tusk of a huge mastadon, and with the assistance of some neighbor boys he tunneled into the bank and was successful in removing the tusk, or rather a part of it, as the complete remains were broken up during the process of unearthing them. He also found two mammoth teeth that weighed about twelve pounds each and were about eight by five inches in size. Portions of the skull of the huge animal were also unearthed but the complete recovery of the remains was made impossible owing to the caving in of the bank.

The tusk partly decayed is 10 feet and four inches long and about nine inches in diameter at the largest place. It appears that a portion of the outer covering of the tusk has decayed or removed. From the curvature of the tusk one would arrive at the conclusion that the full length will measure over fifteen feet when it is finally unearthed. The remains were found on a limestone cliff covered by several feet of gravel, sand and dirt. In order to remove the balance of the skeleton it will be necessary to move several hundred tons of dirt and it will cost a great deal of money to make complete excavations. The Smithsonian Institute has been notified of the discovery.

From the surroundings about it would appear that the balance of the skeleton lies on the bedrock cliff under the large deposits of gravel and it will take several days to make a full investigation.

A number of Roy people went out to Sabino Saturday morning and looked over the situation and also took several pictures of the find. The boys in digging out the remains used a pick and by so doing broke the tusk in several places. A portion of it is now at the Ornellas home and the balance at the Lucero place near the scene of the discovery. The discovery was made a few hundred feet east of the Sabino school house on the south bank of the creek and the small end of the tusk was washed from the bluff by the flood of two weeks ago.

The Mastadon was a species of the elephant and is now extinct. Fossil remains occur in America as late as the Post-Pliocene period. The mastadon closely resembled existing species of elephants differing with them mainly in the formation of the teeth. They had a vaulted and cellular skull, large tusks and a heavy form. Skeletons found in various portions of North America indicate they were about twelve feet high and from eighteen to twenty feet long, with tusks that ranged from eight to ten feet in length.

From the portions of the fossil discovered at Sabino creek it appears that the one discovered there is probably among the largest ever found in America.

It is probable that a collection will be taken up and men and teams hired to scrape away the bank in order to determine if the complete skeleton cannot be unearthed under the bank beyond where the present tunnel has been made.

Mr and Mrs Young Farr, former residents of Walsenburg, Colo. and well known in this community, but now are residing at Long Beach, California, have visited with Mr and Mrs Henry Farr of east of Roy the past few days. Mr Young Farr is a brother of Henry, and he intends to spend a few weeks in New Mexico attending to business and taking advantage of our climate before returning to California.

T. J. Heiman was in from the ranch near Albert Tuesday. We understand that Tony is considering seriously of entering the race for sheriff. He also informed us that he lost all of his row crops in the recent hail storm.

**ROY LOSES TO WAGON MOUND**

(Continued from page 1) with Williams on the mound, the boys expect to get revenge on the visitors for the flogging given them last Sunday.

On Tuesday July 4th, the Roy team goes to Tucumcari to give that town a chance to get even for the defeat of the 18th. The home team is practicing everyday and unless Tucumcari imports some extra players there is every reason to believe that Roy will attach Tucumcari's scalp to her belt once more.

The El Paso and Southwestern has agreed to run an excursion from Mills to Tucumcari on that day with a fare of \$5.05 for the round trip. Everybody that can should accompany the home club to Tucumcari and give them all the support possible as this promises to be one of the best games of the season.

The Village Board met in adjourned session last Monday evening and transacted considerable business of importance to the Village. They decided to erect a windmill at the village well at once and connect it on to the Floersheim tank. They also decided to lay water mains in the town district; the four inch pipe purchased for the deep well will be laid for city mains. The Board also finished up the deal purchasing the city dump grounds and considered other questions of importance to the town. The Board will meet again sometime during the coming week as their regular meeting is the first Monday of the month, but on account of this being the evening before the Fourth it will probably be postponed until later in the week.

LOST—Rear Bumper from automobile, with spade strapped to it, lost near Mills, finder please return to

F. S. Brown, Roy

O. A. Buttler and Chas Depew have been enjoying an outing with a fishing party in the mountains for the past week.

FOR SALE—the house formerly occupied by Ray Carr. Will sell on easy terms and at a price that is right. Now is your chance to have a home and save paying rent. Mail me your offer. Any offer in reason will not be refused. F. A. Sargent, Box 158, S. Tacoma, Wash. 17-24-1-8. - N.P.

**NOTICE OF CONTEST.**

Department of the Interior, United States Land Office C6759 Clayton, New Mexico.

June 8, 1922  
To William M. O'Connor of Tucumcari, N. M. Contestee:  
You are hereby notified that Pedro T. Montoya who gives Roy, N. M. as his post-office address, did on April 28, 1922, file in this office his duly corroborated application to contest and secure the cancellation of your homestead entry No. 022013, Serial No. 022015 made March 8, 1919, for E 1/4 NW 1/4, NE 1/4 SW 1/4, SW 1/4 NE 1/4, SE 1/4 Section 24, Township 19N, Range 25E, N.M.P. Meridian, and as grounds for his contest he alleges that William M. O'Connor has wholly abandoned his homestead entry, as he has not established his residence thereon, or improved it in any way whatever, and these defects exist and have existed from date of entry and up to date hereof. And that said absence from the land was not due to the entryman's employment in the military or naval organizations of the United States of the National Guard of any of the several States.

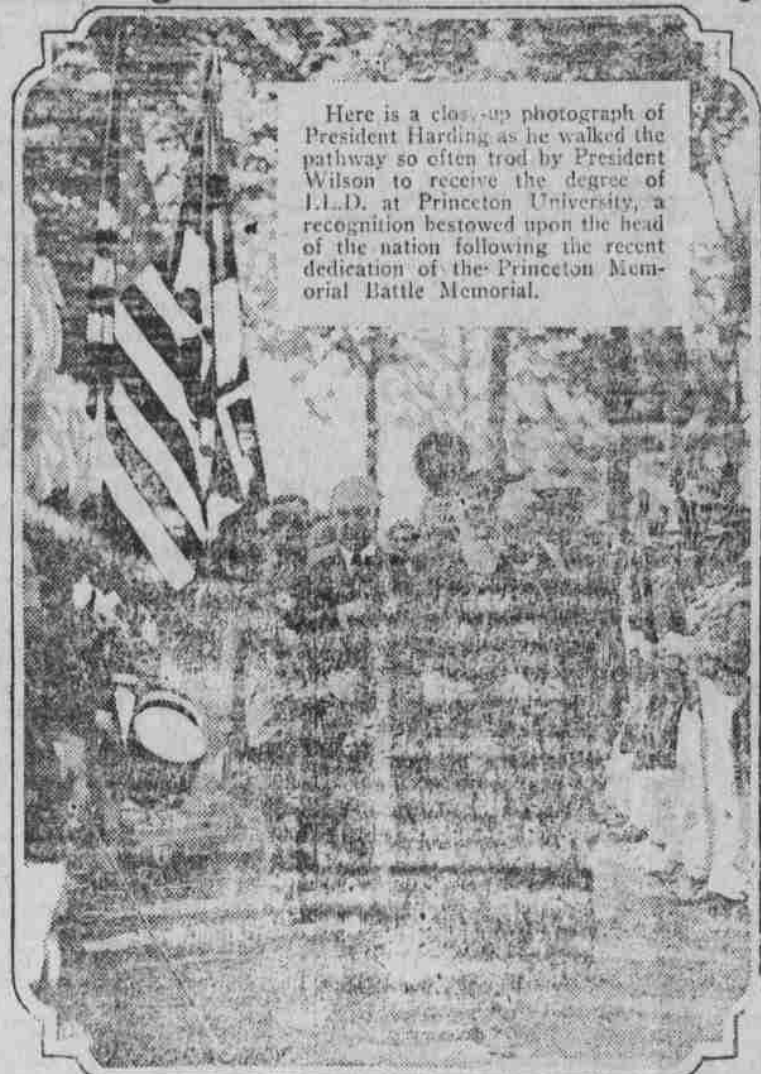

You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.

H. H. Errett,

Register.  
First publication June 17th.  
Second " June 24th  
Third " July 1st  
Fourth " July 8th

**Harding Travels Wilson Pathway**

Here is a close-up photograph of President Harding as he walked the pathway so often trod by President Wilson to receive the degree of LL.D. at Princeton University, a recognition bestowed upon the head of the nation following the recent dedication of the Princeton Memorial Battle Memorial.
