NEW MEXICO LIEUTENANT ASSIGNED TO PHILIPPINES

Washington, D. C., June 15.—General Orders No. 124 issued by the war department on June 9th, designates First Lieutenant Howard Pelest, medical reserve corps, general hospital at Fort Bayard, N. M., to an assignment of duty in the Philippines. First Lieutenant Thomas S. Lowe, at Fort Apache, Arizona, is also included in the order, which is as follows:

Each of the officers named is relieved from duty at the station designated after his name, to take effect at such time as will enable him to comply with this order, and will proceed to the proper time to San Francisco, California, and take the transport to sail from that place on or about December 5, 1911, for the Philippine Islands, and upon arrival at Manila will report in person to the commanding general, Philippines division, for assignment to duty."

Just piles of straws! You've surely decided on the kind of "straw" you want this summer.

Peerhaps it's a sailor?

Or a soft roll straw that is "just the latest?"

Or one of the rounder shapes?

Or a Fedora style, maybe?

Well, no matter, we have the one you want in just the right brim and crown. At the price you want to pay.

Sennits --- "Splits" --- Milans are the principal straws.

$2.50 to $3.50.

Or, if you're a little more hightoned?

Panamas!!!

The real articles $5.00 to $6.50.

WASHINGTON CLOTHING

YEARLY MODELS OF MOTORS WILL BE CONTINUED

Auto Manufacturers Decide to Continue Policy of Improvement of Pleasure and Business Vehicles.

Detroit, Mich., June 16.—Following the announcements of 1912 cars by a number of motor car manufacturers, the question of yearly models has caused a lively discussion in which makers, dealers and owners have displayed a keen interest.

In outlining the attitude of the Packard Motor Car company of this city, Vice President S. D. Waldon announces that the present plan of producing new models annually will be continued.

"The public is the real judge in this matter and it is accustomed to classifying automobiles by their season rather than by technical changes in construction," says Mr. Waldon. "The buyer of the latest model does not designate his new car as the one with such and such a feature, but as a 1912 car.

"Automobiles are manufactured most successfully in quantity," he continues, "and it follows that their development must be accomplished by changes corresponding to the production of different factory lots. When the changes are made annually the factory operates to the best advantage by being able to produce an entire season's output that is identical in construction and design. This policy also meets the public's demand for new styles each year.

"In advancing the date of our early announcements, the process has been gradual but has followed a well defined plan. In bringing out a new model each year, for twelve successive seasons, we have lapped the calendar, so to speak, by launching the output of each new car about a month in advance of the time its predecessor was introduced.

"In this experience, we have learned the advantages of introducing new models at all times of the year and we are settled in our belief that the best time is mid-summer—say July 1. At that time of the year the weather has become settled, and the period is usually free from business disturbances and other conditions which might interfere with sales and deliveries. In fact, we are so well convinced of the manufacturing and commercial utility of the annual model and the great desirability of the change being made in mid-summer that we have already made plans for the observance of this plan in our future business."

APPRENTICES GO TO VEGAS SUNDAY

Local Santa Fe Team Will Attempt to Take a Fall Out of the Meadow City Aggregation.

The Apprentice team from the local Santa Fe shops will go to Las Vegas Sunday morning to meet the strong shop team of that city. The Las Vegas team is the same that played here last Sunday, which was badly beaten by the Grays.

The local boys are practicing hard in preparation for the game, and will doubtless give a good accounting of themselves. They are indulging in hard work care every day, after quitting time, and are steadily improving. This team is one which started with practically nothing last year, and is now coming right to the front of the younger amateur aggregations. If it keeps on and does its work as well in the future as in the past, it will be some team in about two years.

The success of the organization is in no small measure due to the efficient work of Manager Davidson and the team work idea of the men.

WILLING TO DEFEAT BROWNS AGAIN

Happys Show Inclination to Take on Baca's Team and Show Him How to Play Ball.

The Old-Town Browns, Manager E. R. Baca, are negotiating for a game with the Happy-Go-Luckys for Sunday and it is not unlikely that the two clubs will come together. It has taken the Brownies several days to recover from the shock incident to the severe drubbing they received at the hands of the Haps last Sunday.

Speaking of prospects for a game today the captain of the Haps said that they were willing to take on the Brownies just for practice work Sunday and trim them up in better shape than last Sunday.

"We will play them at Traction park, Luna park or on any old diamond they select," said the captain. "The only stipulation we make is that the game shall begin not earlier than 2 o'clock and not later than 3. We will agree to anything else. If Baca wants two shortstops or an extra man to back up third base let him say so."

Try a Herald Want Ad. It will bring results.

CORONADO BAND IS A WONDERFUL AGGREGATION

Henry Ohlmeyer and His Crack Musical Organization Please the Music Lovers at Elks' Theater.

Music lovers of Albuquerque heard with delight a masterly concert by Henry Ohlmeyer and his Coronado band in the Elks' theater last evening. Albuquerque has more people who appreciate high class music than were present at the concert last night, and the audience was not as large as the merits of the attraction warranted. The house was fairly well filled, however, and genuinely appreciative, applauding generously every effort of the musicians.

Henry Ohlmeyer, leader, is the same polite, clever and talented leader that he was on his former appearances in Albuquerque. Flourishing his small baton without any exaggerations, Mr. Ohlmeyer anticipated every note of every number, demonstrating the wonderful sympathy and feeling between himself and his musicians.

Mr. Ohlmeyer was extremely generous with his encores, both in concert and solo work, and each encore played a more pleasant surprise than was expected. Selections from John Philip Sousa were rendered as encores, for the most part, and proved very popular with the audience. "El Capitan" was hailed with delight. "The Pride of the Yankee Navy" sent a surprise thrill through the house; "Manhattan Beach March" struck a happy chord, and "The Kiss of France" proved a delightful morsel, the variations on the drums and piccolos being unusually fine.

Soprano soloists have come to Albuquerque made their bow and passed on. Many of them are still remembered; others are forgotten by everyone. But the name of Miss Blanche Lyons and her marvelous soprano voice will be remembered here for many years. Miss Lyons sang with heart and soul "I Love and the World is Mine," and was applauded to the echo. Miss Lyons was called back three times, singing love songs which stirred the hearts of all her hearers, awakening tender memories in some, recalling joyful thoughts in others. Miss Lyons was accompanied by the band and her every note was followed by Mr. Ohlmeyer and his marvelous baton accompaniments. Truly Miss Lyons is "The Woman Who Stays to Beat the Band," and the people who hear her in Coronado this summer will hear some splendid music.

Frank Hehl, flugel horn soloist; Henry Meyer, xylophone soloist; John Hughes, cornetist; James G. Sackett, piccolo soloist, and Otto H. Jacoby, euphonium soloist, all proved wonderful performers and were all warmly and enthusiastically applauded, responding generously with encores.

Altogether Henry Ohlmeyer and his Coronado band proved a splendid attraction. Mr. Ohlmeyer proved himself one of the foremost leaders who have appeared here, ranking with Sousa and other notables. Still a young man, Ohlmeyer has a rich career before him.

Here's hoping Mr. Ohlmeyer will stop in Albuquerque on his way east next fall. A warm welcome always awaits him here.

PERSONALS.

Probate Clerk A. E. Walker has left for a visit of three weeks in Kansas and Illinois.

Lou Holz and bride have returned from a honeymoon trip of several weeks in southern California.

Dr. W. N. Macbeth underwent a serious operation this morning at St. Joseph's sanitarium and is reported doing as well as could be expected.

Elmer E. Studley, prominent attorney and former member of the New Mexico legislature, was in Albuquerque today from Raton.

Mrs. Montoya, wife of Nestor Montoya, editor of La Bandera Americana, accompanied by her two children, have left for Santa Fe, where they will visit relatives for several weeks.

RECORD CROWDS AT GOLDEN RULE

Offerings at Big Dress Sale So Attractive That the Clerks Are Kept on the Jump at Local Store.

Following the Herald's Wednesday evening announcement of extraordinary values in summer dresses, the Golden Rule dry goods store yesterday handled a record crowd of Albuquerque women who know genuine bargains when they see them. From opening time until closing every clerk was busy with a customer which means that an enormous quantity of goods was disposed of during the day. It was the same story today.

The following is a partial list of the bargain magnets that are drawing the crowds to this sale:

Dresses, Lot A, $1.95.—Lot 1 consists of Lingerie Dresses in white, light blue, pink and helio, also gingham and lawn dresses in pretty patterns; values up to $3.50. Your choice now, $1.95.

Dresses, Lot 1, $2.95.—Lot 1 consists of Cotton Foulard dresses in linen and dark blue, neatly trimmed; also gingham dresses, embroidered trimmed. Values up to $4.50. Sale Price $2.95.

Dresses, Lot 2, $3.95.—Lot 2 consists of special line Lingerie Dresses in white, light blue, pink and helio; also white Marquisette dresses trimmed with strands of Mercerized cords, and Foulard dresses and a nice line of cotton Foulard and fancy Gingham dresses; values up to $7.00; your choice now, $3.95.

Dresses, Lot 3, $4.95.—Lot 3 consists of very pretty values in white Lingerie, fancy Voiles, fancy Foulards, Linen Effect Ginghams and other high class novelties for summer wear. All beautiful designs and especially made values up to $10, on sale now at $4.95.

Dresses, Lot 4, $5.95.—Lot 4 consists of over 100 dresses in Silk Foulards, dainty patterns, very latest styles, were considered cheap at $10; also several white Marquisette dresses, colored, embroidered, trimmed, valued at $15; your choice now of entire lot for sale, $5.95.

Dresses, Lot 5, $10.95.—Lot 5 consists of afternoon gowns and street dresses in best quality Poplins and Marquisettes and Silk Foulards, artistically made and elegantly trimmed; these dresses are splendid values up to $20, all go on special sale for only $10.95.

Silk and satin underskirts.—Sensational sale 200 Petticoats, extraordinary values—200 new Petticoats in fine Messaline, Satin and Taffeta silk, complete line of colors, also black and white, regular $5.00 values, on special sale for $2.95.

Dresses, Lot 6, $24.95.—Lot 6 consists of a small selection of party dresses for afternoon and evening wear in Marquisette, Crepe de Chene and Chiffon effects; every one a beautiful gown, in black and colors; values up to $75. Best bargain ever offered, your choice, $24.95.

RAILROAD NOTES

Engine 3261, a converted Mallet compound built at the local shops from a Class 1908 engine and a unit, was breaking in yesterday on the main line between here and Isleta, and will probably go out on the coast lines tonight. This engine is an oil burner. The 3292 has already gone to the coast lines. The 3293 and 3295, which are built on from two class engines and a unit are doing well. The first reconstructed engine has already gone, and the other will be out of the shops June 20.

Engines 1279 and 1307, injured in the wreck a short time ago near Deming, have been repaired at the local shops and work on them has been completed. They will be given a general overhauling and are expected to be out in a little over a month.

W. H. Edgecombe, house superintendent for the Santa Fe Demonstration Farm at this city, and General Bonus Commissioner Epler were here Wednesday and left Thursday for San Marcial.

Engine 242 came in for general repairs yesterday.

Arthur Wagner, one of the best known machinists of the local shops, has returned from a year's trip through Texas.

Paul Salazar, an apprentice, left last night for a visit with relatives in Denver.

A. W. Thomas, a well-known machinist, left for Chicago yesterday to remain a month or so visiting relatives and friends.

E. G. Lynch, another well-known employe, has gone to La Junta to attend an examination of firemen who want to become engineers. Mr. Lynch's position as traveling engineer compels him to attend all such examinations. Firemen from the southern division, from La Junta, Las Vegas, Pueblo and other terminals will be present at the examination.

HEAVY RAINS REPORTED NEAR STANLEY, N. M.

(Special Correspondence to the Herald)

Stanley, N. M., June 16.—Good rains fell in the vicinity of Stanley on the 13th and 14th with lighter showers over the entire north end of the valley. Crops which are up are growing finely and the prospects for farmers are better at this time than at any time since the settlement of the valley.

A. P. Posey was down from Carrillos the last of the week.

Mrs. G. W. DeLong is proving her claim of 320 acres just north of town.

Geo. A. and A. J. Mott arrived from Carrillos on the 10th.

Tom Selvidge was down from Santa Fe early Sunday.

E. A. Frankenstein returned from Solano, N. M., on the 12th.

H. H. Peabody came down from Santa Fe Saturday evening to spend Sunday with the home folks.

Children's day was observed at the school house last Sunday when a most excellent program was rendered by the children and members of the Union Sunday school. The building was tastefully decorated and the children who rendered the program reflected credit on the ladies of the Sunday school who have been so considerate as to train them.

Miss Zoe E. Smith was a Stanley visitor Sunday.

Claude Black made a business trip to Santa Fe Sunday, returning Monday evening.

Mrs. G. W. Jacobs has been visiting in Santa Fe for some time, returned home on the 12th.

T. M. Castle was a visitor to Santa Fe on the 12th, returning on the 13th.

INDIAN VILLAGE IS ALMOST FINISHED

Ella and Tom Have Moved Into Their Quarters and Are Already Entertaining Visitors from Reservation.

Society item: Ella and Tom, famous crafts workers for the Harvey cafe, have moved into their handsome new home, in Pueblo Villa, north of the Alvarado hotel, and are at home to their friends.

Ella, best weaver of Navajo blankets in the world, and Tom, cleverest of Indian silversmiths, with their children, moved into the villa yesterday. Today they are busy entertaining friends from the Navajo reservation.

The Indian villa, which has been under construction for several weeks under the direct supervision of Manager Herman Schweizer of the Harvey cafe, is now nearing final completion. The main Pueblo villa has been finished far enough to permit the Indians to occupy their quarters. The villa is built entirely according to the primitive style which prevailed three hundred years ago. Mr. Schweizer was on the job every moment while the Indian and Mexican workmen were building the houses. Nothing modern is contained in the village. In many instances the material has been obtained from abandoned adobe houses, giving a distinct native appearance. The villa is true to Indian life in every detail and is one of the most picturesque spots in Albuquerque.

The village will be extended from time to time and it is likely that in a few years the pueblo will be of such proportions that the governor of Isleta will come there to make his home.

WORK STOPS ON CAMINO REAL FOR WANT OF FUNDS

Bridges Placed in Repair, and Road Straightened, but Nothing More Can Be Done in Dona Ana at Present.

(Special Correspondence to the Herald)

Las Cruces, N. M., June 16.—The remaining bridges along the road way of El Camino real have been installed and the highway is now open from Dona Ana to Anthony. Other phases of the work have been stopped until more money is available. Several miles of mesquite and brush have been cleared, and the road opened through new land in order to make it straight. All sandy places and depressions have been repaired along the old road and the new roadbed has been graded. As soon as more funds are raised the entire road will be gravelled and rolled and a coat of crude oil applied. Lagens of lateral roads will be put into first class conditions so the farmers can have good roads to their front gates. The work will probably be suspended until all the crops are harvested in the fall.

The Woodmen of the World are planning a picnic for the citizens of Berino, Anthony and Chamberino, on July 4th. A barbecue will also be given.

City Health Physician Dr. G. W. Yerkes reports a case of smallpox in a Mexican home about one mile southwest of the Santa Fe depot. It is said the disease was brought here by a returning immigrant from Juarez.

E. H. Hoagland, manager of the Mesilla Valley Produce exchange, left Wednesday night for Albuquerque and other northern points in the interest of work up a market for vegetables and fruit.

F. W. East of El Paso has purchased 76 acres of land in the lower valley, the consideration being $1,520.

The Las Cruces community ditch commissioners have levied a tax of 75 cents per acre upon all lands having a water right under the ditch. The levy will go to pay the government tax.

Mrs. Monte, Mrs. Crothen and Mrs. Brown have issued invitations for an "at home" Friday, June 16, from 3 to 5.

Company C of the National Guard is drilling. In the Las Cruces armory every night in order to be in condition for the two weeks' outing the middle of July. The local company will go to Las Vegas and hike from there to the encampment. About 40 Las Cruces men will attend under Captain Philip Dessauer.

A large force of men is rushing the work on the Masonic Temple. Several cars of brick are on the ground and the work of erecting the walls is making rapid progress.

HEAVY RAINS BREAK LAS CRUCES FLUME

Air Cooled by Repeated Downpour; Work Progressing Rapidly on Standard Guage Railroad Tracks.

(Special Correspondence to the Herald)

Las Cruces, N. M., June 16.—Recently the flume washed out on the Las Cruces ditch where it passes under the Mesilla ditch, causing the fields to be without water for several days. This break has been repaired, but now the Dona Ana ditch has two breaks, causing the water to be turned out of it until it is repaired. This trouble has been brought about by the unusually large amount of water being carried in the ditch.

Rain started to fall Saturday night and has continued with a few hours intermission, until Tuesday, giving the entire valley a good soaking and helping with farms and gardens. It has cooled the atmosphere greatly and given much relief to the two weeks' hot spell.

B. W. Hymen of Silver City has been placed in charge of the Western Union Telegraph office. Mr. Brown occupied the same position here two years ago before he went to Silver City. The former manager, C. E. Smith, is now in California.

The Elks of Las Cruces have been warming for a building for the past two years. Some time ago they purchased a site just south of where the Masonic temple is now being erected. Little by little they have added to the building fund until now it looks as though the new building is in view. If present plans are carried out the order will build this fall.

Bert Shaw has been released from the county jail, where he served a two and one-half months' jail sentence for forging his father's name to a check.

On Monday afternoon the Tennyson club met with Miss Edith Barker at her home on Mirage avenue. Dainty refreshments were served and a very enjoyable afternoon was spent. This was the second meeting of the club, the first being at Miss Lina Brownlee's on Saturday afternoon. The Tennyson club was organized for the purpose of reading and studying Tennyson's works, and for the purpose of gathering a few young people together socially. The club will meet every Monday afternoon at the homes of the different members.

The following officers were elected: Miss Iva Inglefright, president; Miss Leetha Reeves, secretary; Miss Lina Brownlee, vice president; Mrs. Lytton R. Taylor, news reporter.

The following ladies are members of the club:

Misses Lina, Ruth and Nell Brownlee, Leetha and Fern Reeves, Ada and Helen Hoagland, Iva Inglefright, Edith Burke, Fannie French; Mesdames Frank Burke, A. D. Brownlee, Thomas Mitchell, Lytton R. Taylor.

CELEBRITIES MAY MAKE CIRCUIT

S. E. Busser Superintendent of Reading Rooms Says Famous People Will Appear on Santa Fe in Fall.

All sorts of famous people and organizations are coming to this city next fall and winter if Superintendent S. E. Busser's present arrangements are completed. Mr. Busser is here today, and said that while he had not completed all the details of next year's series of entertainments by any means, he still felt certain that one of the best methods of applications made to him or really famous entertainers he would accept, except to make it a record season.

"The great difficulties seem to exist to make the jumps around," he said, "partly to see the country, I suppose, but partly on account of another reason they have that is that there are better lodge rooms the effect of their work on an audience where there are practically strangers than on the where they are well known and even peeling a favorite. I believe that we will have a famous New York prima donna out here this winter, traveling incog. Her of this I cannot say. We will probably also have the Notting Hand from Toronto, one of the foremost organizations of the continent. I have no application from the Northwestern university glee club, also. They may come this way.

"You have no idea of the vast amount of detail work necessary to carrying out the systems series of entertainments. There are accounts to check up and care to account for, and taxes to be provided, and a thousand other things. Now that the season is over this year I am going to check up my accounts and get a good night's sleep."

GRADUATES RECEIVE DIPLOMAS

Three Young Men and Trio of Young Ladies Awarded Honors in Immaculate Conception Church.

In the presence of a large number of relatives and friends, six young men and women of the Immaculate Conception school received graduating honors in the Immaculate Conception church last evening. The graduates received diplomas from A. M. Mandalari, S. J., who congratulated the young folks on the successful conclusion of their school life. Father Mandalari said that he had every reason to be proud of the graduates and that he was confident they would prove a honor to themselves, their families and their alma mater.

The graduation program was very brilliant, vocal and instrumental music being features of the program. The ceremonies were brought to a fitting close by Benediction of the Most Blessed Sacrament. The graduates were Richard J. Brennan, William J. McDonald, Lucile A. Truswell, Elizabeth C. Johnston, Florence E. Colvill and Angela A. LaBriere.
