

COMMITTEES AGREE AND STATEHOOD NOW SEEMS TO BE CERTAIN

House Members Meet With Senate and Arrangement is Made to Pass Flood Resolution Again But With the Recall of Judges Eliminated As Condition for Arizona's Admission; New Mexico Must Vote on Easier Amendment Clause; Measure Placed on Senate Calendar and Prompt Action is Looked for.

COMPROMISE IS ACCEPTABLE TO PRESIDENT TAFT DECLARE MEMBERS

Only Danger Now is Filibuster But Sentiment Strong for Admission of Territories at This Time and it is Believed New Measure Will Pass Tomorrow; Senator Bristow Threatens to Antagonize Action in Upper House But He May Not Be Successful.

(By Evening Herald A. P. Leased Wire)

Washington, Aug. 17.—The senate and house conferees on the statehood situation today reached a complete agreement to eliminate the judiciary recall feature of the Arizona constitution and to provide for making the New Mexico constitution easier of amendment. This agreement is held to conform to President Taft's wishes and undoubtedly means statehood for the two territories at this session.

It is understood that the senate will further objections and aid in passing the amended resolution. This agreement to the Flood resolution was suggested by the senate committee from the house when it met with the senate committee. The senate committee presented a bill whereby it was agreed to pass the Flood resolution with the recall eliminated if the senate committee would agree to accept the same measure. This proposition was accepted promptly.

Although unable to see President Taft today, Chairman Smith of the senate territories committee, after a talk with Secretary Wilson, declared that a joint resolution introduced in the senate Tuesday, providing for the admission of Arizona and New Mexico into the union, with the recall of judges clause eliminated from the Arizona constitution, would be acceptable to President Taft.

The Flood resolution over the president's veto. It is well recognized here that the matter could not be passed by a two-thirds vote in the senate, and to vote on it in the house would be merely wasting time without doing anything more than placing the members on record. There is, however, a sentiment among some congressmen to hold a veto first.

AMENDED RESOLUTION WILL PASS WITHOUT BOLE CALL IS FORECAST

Stiff Correspondence from the House of Representatives

Washington, Aug. 17.—A complete agreement was reached by the senate committee on territories and a committee from the house, which met in joint session today, for a favorable report to both bodies on the Flood resolution with the recall of judges eliminated and with the provision retained for the voting on an easier amendment clause in New Mexico.

But Opinion By Himself and Secretary Wilson Came Out Just Exactly the Opposite After Board Got Through.

FOOD EXPERT CREATES ANOTHER SENSATION

(By Evening Herald A. P. Leased Wire) Washington, Aug. 17.—Dr. H. W. Wiley, the pure food expert, advised another sensation to the house today in his agricultural department affairs today, when he declared that a ruling should be made to call the corn syrup manufactured by the American Sugar Refining Co. "glucose" instead of "corn syrup".

WOOL BILL WILL GET VETO TOO ALSO ALL OTHERS

Following a Special Meeting of the Cabinet it is Announced That Mr. Taft Will Oppose All Tariff Juggling

HE WILL TELL WHY IN SPEAKING TOUR

(By Evening Herald A. P. Leased Wire) Washington, Aug. 17.—Following a special meeting of the cabinet today—the fourth held this week—the last remaining doubt of President Taft's attitude on the wool bill was swept away. It was stated that Mr. Taft's veto message might go to the house late today. One or two cabinet officers, who yesterday have held to the proposition that it might be wise to the president to sign the wool bill, were said to have been entirely won over to Mr. Taft's view on the wool bill.

ATWOOD FLIES OFF FOR CLEVELAND AFTER A STOP IN SANDUSKY

Cross Country Trip Has Now Covered 579 Miles From the Starting Point and Birdman is Still in the Air.

HE IS FOLLOWING LAKE SHORE ROUTE

(By Evening Herald A. P. Leased Wire) Sandusky, Ohio, Aug. 17.—Arriving here at 1:32 p. m. today, Harry N. Atwood completed another stage in his cross country flight from St. Louis to New York. Counting the 24 miles that intervened between this city and Toledo, which was his starting point this morning, he has now traveled 579 miles from an original starting point at St. Louis.

Wiley charged that the manufacturer of the product had offered money to prominent commercial chemists of the United States to secure signatures supporting their constitution that "corn syrup" was a proper name for glucose. This board of food and drug inspection, under the direction of chemists found that "corn syrup" is a chemical name for glucose.

It became known after the meeting that he would not only veto the wool bill but that the veto would also include the tariff juggling bills and the Tariff Commission bill which he had introduced in the house.

Atwood announced he would resume his flight tomorrow, Cleveland about 7 p. m. He will land at Rapid River, 60 miles from his starting point in Sandusky.

In the interval between the presentation of his decision and the publication of the ruling by the large secretary, I know the Corn Products Company was very busy.

(By Evening Herald A. P. Leased Wire)

London, Aug. 17.—An industrial war has been declared and the employees on all the railway lines of the United Kingdom will be called out at once.

(By Evening Herald A. P. Leased Wire)

New York, Aug. 17.—Ex-President Roosevelt has an article on the "Steel Corporation and the Panic of 1907" in the Outlook appearing today. Mr. Roosevelt discusses his recent appearance before the congressional committee investigating the Steel corporation, repeating the written statement he then presented and dealing with some of the lines of inquiry and his responses. He says in part:

This long conference at the board of trade proved fruitless. The representatives of the unions were irremovable in their stand that the managers of the railroads had broken the letter and violated the spirit of the conciliation agreement.

"On Saturday, August 5th, in compliance with the request of the chairman of the congressional committee investigating the absorption of the Tennessee Coal and Iron company by the Steel corporation, I appeared before that body. I had nothing new to say to testify. There was not a fact of the slightest importance or of the slightest bearing on my action, which was not already known and which had not been known from the time I acted; and incidentally I may mention that this is also true as regards Panama, the dealings of my administration with the Sugar Trust, or any other trust, and as to any other action of my administration. Nobody need feel either concern or hope as to whether anything done by my administration will be "discovered" for the excellent reason that there is nothing that was hidden.

At this point Premier Asquith intervened and offered to appoint immediately a royal commission which should investigate and report what amendments, if any, were desirable for the conciliation plan.

"Many questions were asked as to what my belief was concerning the motives of the Steel corporation people in acquiring the Tennessee Coal and Iron company's property; to which of course my answer was that it was not my business and neither was it in my power to search the hidden domain of motives, and that my action was completely independent of what I believed to be the motives actuating the steel corporation but upon my belief that the action which they proposed taking would be enormously to the benefit of the community at large at that particular moment.

SHIP OWNERS TRY TO MAKE PEACE

Liverpool, Aug. 17.—The ship owners in conference this afternoon displayed a willingness to meet the demands of the joint committee of the strike leaders in London that the lock-out be ended, the striking employees might be employed. Their offer is to withdraw the lock-out notice on certain conditions.
