

Baking Helps

Learn to Regulate the Heat of Your Oven

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

There is just one way to make your cakes rise high and keep an even surface. Have your oven moderate at first, until the cake is fully risen; then increase the heat, so as to brown it over quickly. Extreme heat stiffens the dough. If you stiffen the outside of the cake before the rising is complete, you stop the rising process. Then the leavening gas, forming inside, will bulge up the center, where the dough is still soft, and spoil the shape of the cake.

NOTE—Biscuits or other pastries made from stiff dough, that are cut into shapes for the oven, bake in a hot oven. This is because the cut surfaces of the dough do not seal over, but rather leave the pores open, allowing the leavening gas to escape and the heat to penetrate readily. Small ovens cool quickly, therefore they should be made several degrees hotter than a larger oven, and the less the door is opened the better. Do not attempt to take bread and pastry together. Bread requires prolonged, moderate baking—pastry the reverse.

Have a strong undertone for baking powder preparations, especially pastry. These are only a few of the many baking tips found in the K & C Cook's Book—a copy of which may be secured by sending the enclosed certificate taken from a 25-cent can of K & C Baking Powder to the Jaeger Mfg. Co., Chicago.

"Bob," Ervien is a Natural Born Booster And Popular With Everybody in State

CANDIDATE ON THE REPUBLICAN TICKET.

- Robert P. Ervien, candidate for commissioner of public lands. Age 44 years. Born at Ogonia, near Philadelphia, Pa. Scotch-Irish and German parentage. Graduated from Swarthmore. Received Degree Bachelor of Science in 1888. Civil engineer of P. & R. railroad. Came to Clayton, New Mexico, 21 years ago. Secretary and then manager of mercantile concerns and candidate on the Republican ticket for the same office. Was born on December 8, 1868. He was born in Ogonia, the classic suburb of Philadelphia, which accounts for his being a religious reader of the Philadelphia Record, the rank and Democratic daily in the United States, and an admirer of the cartoons of Del Starbuck. He says it makes him a better Republican. He was born of Scotch-Irish and German parentage. This accounts for his untold stubbornness. When Bob Ervien once has his mind set on a thing, he will not let it go. He has a thing in mind, and all the king's horses and the king's men, cannot make him change his course. His associates were among those who made it uncomfortable for the Hessians around Philadelphia and sought it to the British at Brandywine. His father for thirty-five years and more was a famous manufacturer of pitchforks. This accounts for Bob's third faith. He is a practical joker. Other failings he has none, for he is a good politician. A faithful public servant does not beat his wife and loves his children and a good man. Ervien went to public schools, not because he liked to, but because his father compelled him to. There were eight children and the subject of this sketch received his share of the parental chastisement, which he amply deserved. To crown it all, he was compelled to go to Swarthmore, which is famous as a school for young ladies and a paragon of the "higher" culture. He graduated in 1888 and was given the degree of bachelor of science in the engineering course, something he has not quite outgrown. With a degree in his pocket, he thought he knew enough to get married and led to the altar Miss M. Hornew, also a native of the Quaker city. This time he made no mistake as his own returned favor and healthy countenance abundantly testify to the world. Only a large, husky, energetic fellow that sort of a healthy, electric appearance. There are two sons, almost grown to man's stature, and they give every evidence of having inherited their father's sagacity and liveliness and their mother's virtues.

Do You Want Stable Government?

"It is peculiarly incumbent upon us, in a time of such masterly leadership, both collectively as a nation and individually as citizens, to show, each on his own account, that we possess the qualities of prudence, self-knowledge and self-restraint. In one government, we need above all things, STABILITY, FIXITY OF ECONOMIC POLICY."—Theodore Roosevelt.

It is giving this second statement. It is my desire to show that I value this remedy as high as ever. Mrs. George Parker.

Colds and Catarrh.

Mrs. George Parker, 419 Water St., Memphis, Wis., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It cures the common cold, and prevents serious consequences."

"I began using it for catarrh, which I suffered with a good many years, but had not been very long until I used it, since I began taking Peruna the dripping in my throat has disappeared, and my head and nose are no longer stopped in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh."

"I heartily recommend it as an 'invaluable medicine.'"

After Effect of Grip.

Mrs. J. S. Rogers, 1222 Bolshoin Ave., Kansas City, Mo., writes: "I feel it a duty due to you and to others that may be afflicted like myself, to speak for Peruna."

"My trouble first came after a grippe, or influenza, a gathering in my head and nostrils. I suffered most all the time. My nose, ears and eyes were badly affected for the last two years. I think from your description of internal catarrh that I must have had that also. I suffered very severely."

"Nothing ever relieved me like Peruna. It keeps the head feeling cold. With the exception of some dizziness I am feeling perfectly cured. I am forty-six years old. I feel that words are inadequate to express my praise for Peruna."
