

COMMISSION FORM OF GOVERNMENT INSTITUTED IN FOUR CITIES

Results of Municipal Elections in Western Cities Add Four Recruits to New Style of Local Administration.

NEW CHARTER ADOPTED IN SACRAMENTO, CAL.

Citizen's Ticket in Salt Lake Wins Over "American Party" and Makes Possible New Scheme.

(By Evening Herald A. P. Leased Wire) Kansas City, Mo., Nov. 8.—Commission form of government won in two cities east of the Missouri river yesterday's election namely Chanute and Manhattan, Kan., while two more, Sacramento, Calif., and Salt Lake appear to have voted for the change.

Salt Lake Adopts Scheme.

Salt Lake, Utah, Nov. 8.—By the landslide which yesterday overturned "American party" rule in Salt Lake city the Citizen, non-partisan party gains the opportunity of being the first to set in motion a new scheme of government here—the commission plan. By a majority of 4,116 the entire Citizen's ticket was carried into effect. The vote for mayor was: Park 14,961; Bradford 10,915. The vote of the larger cities in Utah, Republican gains were reported at Ogden, where Fell, the Republican candidate for mayor won over his Democratic opponent by a comparatively small majority at Brigham, the customary Republican majority was maintained.

New Charter for Sacramento.

Sacramento, Cal., Nov. 8.—Sacramento stepped in the ranks of cities having the commission form of government as a result of the municipal election yesterday. The new charter was adopted by a majority of 3,900. The charter will be presented to the special session of the legislature next month and undoubtedly will be ratified. It will take effect next July. A SCHOLARSHIP FOR RAILROAD MEN

Santa Fe Railroad Institutes Policy of Rewards for Apprentices and Other Employees Who Desire to Work Up.

According to its policy of offering inducements to its employees to better their condition and work up into the higher professions, the Santa Fe railroad now announces a scholarship in the Armour Institute of Technology for apprentices. This action is in line with an expansion recently instituted by the railroad with its employees. Last September H. M. Hunter entered the University of New Mexico under this plan, and has been so consistently successful since entering school that the officials think that the plan will be a decided success. Mr. Hunter began a penmanship boy in the shops as an apprentice, and he has shown himself as desirous of bettering himself, and so eager in the performance of his duties that the foreman chose him as one of the scholarship boys in the local University. He has made good so far, in the word received. He is well up in his class work, and takes an active part in all school activities, being a member of the football squad. He has been pledged to the Sigma Tau fraternity and is expected to be one of the school's best products within another year.

According to a recent announcement of the Santa Fe, the Santa Fe Employees' Magazine is giving a free scholarship in the Armour Institute of Technology, Chicago, to the Santa Fe apprentice having the best record. The scholarship entitles the holder to four years of tuition free. The Armour Institute is recognized as one of the best training schools in the country. All apprentices who have served three years of their apprenticeship will be eligible for the scholarship, the award being made to the one who ranks first in his school and shop grades. The successful apprentice may select any course offered by the institute, viz., civil engineering, mechanical engineering, electrical engineering, chemical engineering, architecture, or fire protection engineering.

COPPER PRODUCERS PUBLISH REPORT

(By Evening Herald A. P. Leased Wire) New York, N. Y., Nov. 8.—The statements of the Copper Producers' association for October shows a decrease in stocks on hand of almost 5,000,000 pounds compared with the previous month. Production increased by 2,666,492 pounds, domestic deliveries increased from 57,311,584 to 64,969,307 and foreign demand from 50,824,011 to 60,984,548 pounds, making a total increase on deliveries for the month of 16,017,061 pounds. John D. Ryan, president of the Associated Copper Producers, announced that the company, as a member of the executive committee of the producers' association.

COURT NOTES

The trial of criminal cases opened again today in the district court, Paul Ross being the first prisoner brought to the bar. Ross is a young married man, and is charged with the rape of a young native girl, Josefa Gutierrez by name. It is alleged that he enticed the girl into his home upon the plea that his wife wanted to see her. The case of Thomas Inley, charged with the murder of his brother-in-law, a man named Higgins, last spring, is expected to be taken up tomorrow. Seventeen ballot boxes have been turned in at the probate clerk's office for canvass by the county commissioners. The law requires that this canvass shall be made within 21 days after the election. No date has been set by the commissioners for the canvass. A marriage license was issued today to Rex Dearing and Granville M. Cleghorn, both of Willard.

DELAY ENDANGERS OTHER BUILDINGS NEAR FIRE

Mismanagement in Directing Firemen Threatened to Give Capitol Saloon Blaze a Dangerous Headway.

Because of delay in getting water turned on the blaze at the Capitol saloon last night, the flames endangered the building west of the Capitol and also the N. T. Armory building on the corner of Central and second streets.

The fire broke out about 10:25 and both departments responded to the alarm, running four lines of hose into the front and back of the saloon. The damage is not yet determined, but all the fine furniture and fixtures in the place are hopelessly ruined and scorched, and the big mirrors are broken by heat.

The insurance is small. The fixtures are owned by Charles E. Patten and the building by Thomas M. Chase of Washington.

The fire started through the lighting of a match by the proprietor of the lunch counter in the rear, T. P. Dempsey, when there was a gas line vapor from the heater in the room. An explosion followed, knocking Dempsey down and starting the blaze.

VITAGRAPH PEOPLE COMING TO CITY FOR PICTURES

Company Passes Through Albuquerque This Morning on Way to Grand Canyon, Likely to Stop Here on Return.

A company of artists engaged in making pictures for the Vitagraph Company of America, passed through here this morning on its way to the Grand Canyon. The party was in charge of Manager B. S. Sturgeon and numbered 15 people. Mr. Sturgeon expressed great surprise at the opportunity afforded by New Mexico, especially in the vicinity of Albuquerque, for making good pictures, and stated that if he failed to secure all the films he wanted at Grand Canyon he would return here to fill out the balance he needed. He said he was favorably impressed and might return any way and that in any case he would make such a report that he would make a company here if he was called elsewhere with his troupe.

I have been especially impressed with the local color offered by the last 20 miles coming into Albuquerque," he said, "and I do not believe that I have ever realized New Mexico possibilities for pictures before. I am going to Grand Canyon for some films already planned, but, of course, if I find I can not get them there, it will be quite up to me directly to get them somewhere else. In that case I will come here for them. I wish you would have some of your local photographers get in touch with me, and let me know just what we can do here. I understand the University offers some scenic possibilities, as I have heard of its peculiar architecture in the east. And I believe you have some Indian villages close by."

On being told something of the opportunities locally, with the weather conditions and the percentage of bright days Albuquerque usually has, Mr. Sturgeon said he was very favorably impressed and would consider the matter seriously. He promised to make a favorable report on the locality in any case.

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair is First Sign of Age, Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combats these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

Don't look old before your time. Get a bottle of Wyeth's Sage and Sulphur today, and see what an improvement it will make in the appearance of your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

BOYS BASKETBALL MANAGER CHOSEN AT VARSITY

W. B. Arens Selected by Board of Control to Conduct Affairs; Girls Basketball Team Will Be Winner This Year.

The board of control yesterday chose W. B. Arens as manager of the boys' basketball team at the University. This action on the part of the committee will insure a successful basketball season, as Arens has demonstrated his ability to successfully conduct the business affairs that have been entrusted to him in the past. The basketball season will not open until after the football schedule has been played out, and the girls basketball team has played several games, because it has been found inadvisable to try and run several branches of sport at the same time on account of the too meagre support. However, the time intervening will allow plenty of time to make arrangements for some good games.

The basketball team will be drilled into shape by Coach Hutchinson while the girls' team is playing its schedule. Under the capacity of Charles Lemke, the team is expected to hold up the high standard that it exhibited last year. Several of last year's best men will play again this year, among whom are Littrell, who played such an aggressive game at center last year, and Doran, as well as Captain Lemke.

The girls' basketball team will commence to play its schedule as soon as the football season is over.

There is considerable interest among the girls to make a winning team this year. On account of a lack of support last year the girls' basketball ball fell rather flat, but those who are behind the movement this year intend to push it through to a successful conclusion. Miss Helen James has been elected captain, and with the help of Coach Hutchinson it is believed the U. N. M. girls will bring home the championship of New Mexico in spite of the opposition of a strong team at the Normal university and other schools. B. O. Brown was elected student manager of the girls' basketball and he will commence to arrange his schedule at once.

REPUBLICANS ARE VICTORIOUS

(Continued from Page One.) and Socialists divided honors, the former making notable gains at Lasan, Provo and Park City. The Socialists elected tickets at Murray, Kureka, Tinto and Stockton. The overturning of majorities that have been ruled up in years past by the Republicans in the small towns furnished one of the surprises of the election.

Election Contested.

Salt Lake, Utah, Nov. 8.—The election of Samuel C. Parkes as mayor and the election of four commissioners and an auditor at yesterday's municipal election will be contested on the ground that the ballots used in the election did not comply with the law. It was announced today.

INTIMIDATIONS AND BRIBERY

(Continued from Page One.) among the patriots that there was easy money for those who would vote right. In a very little while the headquarters next door to the polling place became immensely popular, and a steady stream of patriots with a price, always accompanied by a watchful scout, poured into the headquarters and thence out of the headquarters to the polling place. Thus did the henchmen of the boss throw themselves into the breach and save the day in the down town precincts. Verily, it was a field day for "good government."

These methods were tremendously effective, and as a result W. C. McDonald appears to have carried the county by a majority of approximately 1,100, while the Republican county ticket was defeated by majorities averaging about 100. These returns are incomplete, as several of the mountain precincts have not yet been heard from, but the official figures will vary little from this estimate.

MISSING BOY HAD ONLY ONE DOLLAR

Santa Fe, N. M., Nov. 8.—Brother Edward, director of St. Michael's college, has received word from the relatives of Para William Ruiz, the missing boy who left Phoenix, Ariz., October 1st for Santa Fe and has not arrived yet, stating that besides his ticket he had but \$1 in his pocket when he left home. Although the boy speaks only Spanish, his relatives are greatly alarmed over the mystery of his whereabouts and anyone who can give information should address Brother Edward, St. Michael's College, Santa Fe, N. M.

ENORMOUS COTTON CROP WILL BREAK ALL RECORDS

Amount Ginned November 1st Exceeds Previous Figures by Almost Two Million Bales.

(By Evening Herald A. P. Leased Wire) Washington, D. C., Nov. 8.—With 2,963,172 bales of cotton of the growth of 1911 ginned prior to November 1, as announced today by the census bureau, the promised record-breaking cotton crop is fast being made ready for the manufacturers.

The amount ginned to November 1 exceeds by 1,777,000 bales that ginned in 1908, the previous record. It is also greater than the ginning to November 14 of any year, being about 299,000 bales more than ginned to that date in 1904, the record year. This would indicate that the crop was at least two weeks earlier in maturing and reaching the gin.

Calculations of the year's total crop, based on the ginning reports, therefore, probably would be more accurate if figured on the November 14 reports of other years. In previous records were about 70 per cent of the total crop has been ginned to that date and a rough estimate of this year's crop might be placed at a minimum of 14,000,000 bales.

The Figures.

Washington, Nov. 8.—Census bureau reports cotton ginned to November 1 as follows: United States, 2,963,172 bales; round bales, 2,534,342. Sea Island, 64,132. Florida, 29,974. Georgia, 23,736. South Carolina, 1,363. Total ginning by state: Alabama, 1,039,374; Arkansas, 442,505; Florida, 69,973; Georgia, 1,906,254; Louisiana, 232,047; Mississippi, 385,041; North Carolina, 597,028; Oklahoma, 553,723; South Carolina, 1,031,972; Tennessee, 212,059; Texas, 2,219,218; other states 57,341.

LOCAL YOUNG MEN BUY BUSINESS

E. T. Howell Has Sold C. & A. Coffee Company to Messrs. Kraemer and Fryer.

There has been closed within the past few days a deal by which the ownership of the C. & A. Coffee Company on South Second street is transferred from E. T. Howell, who has conducted the establishment for the past two years, to Armin W. Kraemer and Fred Fryer, two widely known local young men.

It is Mr. Howell's intention to move within the near future to San Diego, Cal., where he has some very promising business opportunities. E. T. Howell has made many friends in Albuquerque, who will wish him every success in his new home.

The new proprietors of the C. & A. have had valuable experience in the line of business they are to undertake. Mr. Kraemer having been for the past seven years in the employ of William Bojke and Mr. Fryer having been connected for about five years with the Ward grocery. Both are hustlers and they propose to extend considerably the lines handled by the C. & A. company.
