COMMERCIAL CLUB WANTS FOURTH STREET ROAD COMPLETED

Sentiment of Club Strongly Expressed Last Night in Favor of Having More Roads Built by the State.

PAVING QUESTION IS CONSIDERED

House and paving were the major matters before the Commercial club last night, at a small but busy meeting, with the commission form of government as an issue for the early future.

The meeting was called to order by President Simon Stern with only a few members present, but more drifted in from time to time, until at the close there was quite a respectable number in attendance.

The meeting was called to order by President Simon Stern with only a few members present, but more drifted in from time to time, until at the close there was quite a respectable number in attendance.

The secretary was instructed to send certified copies of the resolution to this committee and to the house committee on the same subject.

It was pretty well brought out in discussion that if the state expected the national government to do anything for it in bringing one of the roads proposed through the central counties and across to Arizona, it must likewise do something itself.

The secretary read a letter from the Associated Engineers association, thinking the club for its endorsement of the association's movement to secure better roads abroad for American diplomats.

Letters from Frank L. Brown, chairman of the publicity committee, and J. M. Cummings, secretary to the president of the Panama-Pacific exposition, thanking the club for its endorsement of the exposition, and mentioning aid in securing the Elvins' chairman's visit to this city in January, were read.

Secretary Bryant reported that the committee which went to Santa Fe to secure the next annual meeting of the Educational association thought it possible to secure this association permanently for this city, and also reported the success of the committee's efforts for next year.

President Stern then spoke of many important matters to be brought up at early meetings the commission form of government.

Mr. Stern mentioned among the important matters to be brought up at early meetings the commission form of government.

form of government, state roads, and several other things. He said he was informed the city spent between \$125,000 and \$150,000 a year, and he thought that was too big a business for eight men to handle and attend to their own business at the same time.

A. R. McMillan then said that he was thoroughly in accord with the ideas expressed by Mr. Stern, and that he believed some plan which would provide for the building and repair of state roads should be made at once, and that he favored a bill providing that convict labor should hereafter be employed only on the state roads.

Mr. Stern then said that at the next meeting, the committee appointed by the city council on this subject would be ready to report, and Dr. Hope urged a meeting once a week for a time.

Mr. Stern then said that at the next meeting, the committee appointed by the city council on this subject would be ready to report, and Dr. Hope urged a meeting once a week for a time.

Mr. Metcalf brought up the subject of a tuberculosis hospital to be built by the Spanish War Veterans, and suggested that an effort be made to secure it for this city.

Then Mr. Stroup introduced the road question, asking that the club take some action to secure the apportionment of the road funds now in the treasury on the roads, preferably the North Fourth street road.

The question of paving was taken up, Mr. Stern stating the time conditions of the present contract with the city making it paying practically a cash proposition.

It is estimated that over \$2 per cent of this half of the taxes have now been paid, Treasurer Pinney and his assistants are very busy these days writing out the tax receipts, but not so busy as they will be Friday, when the last batch of the prearranging ones comes in.

Mr. Metcalf then said that he understood the Illinois company, which has the paving contract, would make contracts with the property owners for the payment of their pro rata of the cost in longer time.

Mr. Metcalf said there was at present no way in which the city could hold itself out for paving, and then stated that he thought the powers accorded municipal corporations in the statute books to be very narrow, much more so than those given private corporations.

P. V. Latham of the Institute company was called upon and promised that time would be extended all the property owners who desired it, by means of private contracts with the company.

After a further brief discussion of paving, the meeting adjourned.

FINE WHITE TURKEY WAS RAISED BY LOCAL MAN

Handsome Specimen of Thoroughbred Hollander Exhibited Down Town Today; His Beauty Won't Save Him

Although they hold the place of honor on Thanksgiving tables, turkeys are not, as a rule, regarded as creatures of surpassing beauty. Exception must be made, however, in the case of a bird raised this season by Herb Asselin of this city and displayed today in front of the Fashion Cafe.

The bird is a perfect specimen of the bronze-tinted, white Hollander and attracted a lot of favorable attention from passers-by. He also attracted the attention of a large bull dog and was saved from premature death only by the quick action of a rescue party headed by Miss Host Davis.

A lady was heard to remark that the Asselin turkey was quite too handsome to kill, but it is officially announced that even a suggestive intervention will not save him from the oven tomorrow.

"DIVINE COMEDY" OF DANTE AT THE ORPHEUM

A special Thanksgiving matinee will be given at the Orpheum at 2 o'clock tomorrow afternoon, when Dante's "Divine Comedy," one of the greatest feature pictures ever made, will be presented. This picture is in two reels and shows the wanderings of lost souls through Purgatory and the Inferno. It is a picture that has created more interest throughout the world than any ever made.

FRIDAY LAST DAY TO PAY TAXES

Penalty of One Per Cent Goes on After December First, and Larger One Is Added Later.

Friday is the last day upon which to pay your taxes. If you wait until after that date you will have to pay an added one per cent penalty, and if you wait longer than January 1, an additional four per cent will be added.

The taxes now due and payable are those for the first half of the year 1911. The last half will not be due until June 1.

It is estimated that over \$2 per cent of this half of the taxes have now been paid.

"365 DAYS MAKE ONE YEAR," SAYS BRYANT

No one disputes the fact that every resident of this city is thankful for life, liberty and happiness. That's understood. But Bryant is thankful for something else. He is thankful that he founded Bryant's Quick Parcel Delivery and Messenger Service, and he is thankful for the patronage that the people of this city have given him.

BENEFIT CONCERT AT A. O. U. W. HALL

Local Talent to Aid St. Anthony's Sanitarium With Musical and Literary Selections Tonight.

Tonight the first of the benefit entertainments for St. Anthony's Cottage sanitarium will be held in A. O. U. W. hall, a number of local people assisting in the affair. This entertainment will be a concert, and the fact that Cadman's music will be on the program will be an added incentive to local people to attend.

Mr. Cadman spent last winter in Albuquerque and the peculiar beauty of his musical compositions, especially those based upon Indian themes, drew many admirers to him.

Mrs. Ray Hoyt, Charles G. Andrews, Mrs. Ralph M. Henderson, Bruno Dieckmann and other well known local musicians will render selections. The proceeds will be applied toward the needs of the recently organized sanitarium.

The hall is being tastefully decorated this afternoon by a committee of ladies, with flags, palms, and flowers, and will present a very artistic aspect tonight at the concert.

GRACE VAN STUDDIFORD HERE ON DECEMBER 7

Agent Ned Holmes in City Today Arranging for Production of "Paradise of Mahomet."

Local audiences will have an opportunity to see Grace Van Studdiford, one of the foremost singers on the American stage here on December 7, a week from tomorrow. The arrangements for the production were made today by Ned Holmes, agent for the opera company which has Miss Van Studdiford under contract, and Manager Frank Cortez of the Pines theater.

The "Paradise of Mahomet," the opera in which this noted star is appearing, is a posthumous work of Robert Planquette, author of the "Chimes of Normandy," a well known work. It was discovered among his papers six years after his death and a libretto was written by a Frenchman to fit it.

Two years ago an American saw it in Paris, and bought the American rights for Miss Van Studdiford. The opera played for a year in New York, and this year has been on the road with the original star, mostly in the west. It has made a great hit wherever produced.

HOLIDAY SEASON ON IN MUSICAL LINES

Extraordinary Advance Interest in Victrolas and Interior Players at Leonard-Lindemann's Open Evenings.

That the holiday buying season has opened up in earnest is apparent from the announcement of the Leonard-Lindemann company that in order to accommodate patrons with the most careful and painstaking service, their store will be kept open evenings until January 1st.

Early holiday inquiries at the Leonard-Lindemann store show conclusively that the most popular gifts in the musical line this year will be talking machines, particularly Victrolas, and interior-playing pianos. In order to meet this advance demand, the Leonard-Lindemann store yesterday received a shipment of twenty Victrolas of various types, while another big shipment is expected in a few days.

These wonderful machines make ideal Christmas presents, so they provide entertainment for the whole family the year round. There are, too, models adapted to every taste and pocketbook, the prices ranging from \$15 to \$200.

The interior-player pianos handled by the Leonard-Lindemann company have been declared by experts to be in a class by themselves, being immediately and artistically responsive to the interpretative ideas of the most exacting musician.

A particularly attractive model of the Milton interior-player in the mission style and finish is being displayed in one of the Leonard-Lindemann windows.

E. J. Gibson, superintendent of the Albuquerque division of the Santa Fe, is in the city.

Assistant District Law Officer J. O. Smith leaves tonight for Arkansas, to attend to legal matters for the forest service.

The Imperial laundry has a new electric sign, quite the most pretentious thing of the kind in the city.

Colonel R. E. Twitchell, commandant for the Santa Fe is here today on a brief business visit from his home in Las Vegas.

TRAVELING SALESMAN TO BE HERE SATURDAY

Seat Sale Last Night Showed Respectable Totals Though Plenty of Good Seats Left.

The seat sale for the Traveling Salesman, a comedy by James Forbes, author of the Chorus Lady, which made such a hit in former years, began yesterday.

A large number of Albuquerque people will attend the play, and they cared enough about it to get out early in the cold and secure seats. Not all the good seats are gone, however, and there is still opportunity for those who want to see the play to secure them.

The comedy will be presented here Saturday evening, and is expected to be one of the best comedies that has been produced in Albuquerque for a long time.

The Markets

BEAR SELLING IS DEPRESSING

Tone of Stock Market Today Is Heavy Except for Brief Spell When Effort Is Made to Rally Prices Again.

(By Evening Herald A. P. Leased Wire) New York, Nov. 29.—Continued bear selling again depressed the stock market today. The tone was heavy through the morning except for a brief spell after the opening, when the list responded to the bidding of a few of the issues in which there was a vulnerable short interest. The movement was of brief duration and stocks fell off sharply. Local traction issues were strengthened by the acceptance of the modified re-organization plan for the Metropolitan Street Railway company.

Activity increased largely at the expense of values in the second hour when the market dropped in a way which was discouraging to the bull interest. Rumors that the forthcoming October earnings of the Hariman lines would make a poor showing increased the bear pressure against the general western group. Some of the market leaders gave way to 3/16th the low figures prevailing yesterday. Before the final vigorous upturn in the market, New York Central rose over two points and American Beet Sugar 2. In the more active quarter losses were sustained of 2 points in Lehigh Valley and Reading, 1 1/2 in Union Pacific and a point in many other stocks. Bonds were irregular.

Bear operators increased their pressure against the list when call money rates rose to 3 per cent. Amalgamated copper extended its loss to 2 points. The October reports of the China Pacific and Southern Pacific showing comparatively small decreases in net earnings, although the gross return fell off largely, served as a check in the selling and the list stiffened slightly. Large operators sold profits heavily again and the market fell to a lower level than before. The reports of a falling off in the demand for copper explained the persistent selling of the active copper shares. Amalgamated copper suffered a loss of 3-4 and American Smelting 3 points. Reading bore the brunt of the pressure in the railroad quarter, selling at 149 1/8 as compared with 152 in the morning. St. Paul yielded 2 points and the entire western group gave way easily. Toward 2 o'clock the market gathered renewed strength and rallies of 1/4 to 1 point were general. The close was steady.
