Title and velvet hat of picturesque style. It is worn in smart cigarettes.—Misses Charlotte Hennard.

JAPAN IS GROANING UNDER IMMENSE WAR DEBT

Heavy Taxation of People to Meet Interest on Billion Dollars Causes Economic Depression; Famine Acute.

(Associated Press Correspondent.) Tokyo, Jan. 30.—Despite official utterances to reassure the public, Japan is declared in other quarters to be suffering from an economic depression. In the northeastern section a famine has made the situation particularly acute. In some cases schools have had to close because there was no money to pay the teachers and because the children, weak from lack of food, were unable to attend. The Hokkaido government has asked the central government to advance \$15,000,000 for relief funds.

The chief cause of the general depression, which began about the time of the death of Emperor Meiji, is the heavy taxation of the people which is necessary to pay the interest on the national debt among the people at the close of the victorious war with Russia and a patriotic business boom also caused a general rise in the standard of living and the price of commodities soared as a result of the more luxurious level of expenditure. Then came reaction. This was due to the burden of extraordinary taxes to meet the war debt and constant expenditures in the building up of a big army and navy.

The government, however, is attacking the problem heroically by making heavy retrenchments. Much is the dissatisfaction of the army, it has been decided to abandon for the present at least, the long standing proposal to create ten more military divisions.

Baron Takahashi, the minister of finance, promises a reduction of taxes to lighten the burden of the people. He will endeavor to continue the practice of redeeming the national debt by \$25,000,000 yearly. He looks forward also to an increase in the amount of capital invested in the establishment or expansion of banking and industrial enterprises. Costly harbor improvements may be delayed but the authorities are actively planning to build a new water works system in the city of Tokyo and construct a sewage system of which the metropolis stands badly in need in the interest of public health. For these improvements loans will probably soon be sought in Europe.

But it is by increasing her export trade that Japan hopes to find real relief. Conditions in China where revolution upset the market for Japanese goods and the opening of the Panama canal are greatly desired as furnishing means for augmenting the exports and thereby reducing the balance of trade which now stands against Japan.

Everybody is also looking forward eagerly to the coronation of the new emperor next fall as signaling bright prospects for the increasing demand for labor and putting a large amount of money into circulation.

TWO MINERS FALL TO DEATH IN SHAFT

Eagerness to Get Home to Supper Costs Last Chance Employees Their Lives; Third Breaks a Leg.

BIG CATTLE DEAL IN GRANT COUNTY

(Special Correspondence to the Herald.) Silver City, N. M., Jan. 29.—Jose Sepulveda and Perfecto Hernandez, miners employed at the Last Chance mine at Mogollon, were instantly killed, and a third miner, Jesus Sandoval, sustained a broken leg when the trio fell 75 feet to the bottom of a shaft while riding up in the bucket. Hurry to get home to supper is responsible for the tragedy.

OWEN WILSON BUYS OUT DOWNER CATTLE INTERESTS

Owen Wilson of Silver City, last week added to his ranch holdings in Arizona and the southern portion of Grant county by purchasing the entire cattle interests of N. F. Downer, county treasurer, which the latter acquired only recently from Jones, Downer and company. The transfer includes the 80, A4, EDY, V. Buzzard and RA Bar brands, with some others of less importance. The 80 ranch itself is one of the nearby scenic spots noted for its flowing well of the purest water. It is located only about three miles northwest of the city limits, just above the Cottage sanatorium. The consideration has not been named, but the extent of the purchase is such that the amount involved must have been very large. By it Mr. Wilson becomes one of the largest individual cattle holders in the two states.

ACCEPTING PARCEL POST IN WAGON LOAD LOTS

Parcel post packages in parcels not exceeding 50 pounds each will be accepted in any quantity for shipment to places in the first and second zones, and after January 30, 1914. Shipments exceeding 100 pounds in weight in the aggregate will be accepted at the business place of consignor and shipped from there. Parcels weighing more than twenty-five pounds and aggregating less than 100 pounds in weight will be received at the north door of the postoffice. All small packages will be received the same as usual, at the stamp window.

2 LB. CAN KARO SYRUP 10C

DOLDE'S 210-212 South Second Street. Phone 864. ALL GOODS DELIVERED.

The Right Way to Roll a Cigarette I. In fingers of left hand, hold cigarette paper curved, so as to receive the tobacco. Pour right quantity of "Bull" Durham out of muslin sack with right hand, strewing tobacco evenly in paper.

II. Then place your two thumbs next to each other in the middle of the paper in this position.

III. And roll the cigarette on the lower fingers, so that the index fingers move up and the thumbs move down. With the thumbs, gently but firmly force the edge of the paper over the tobacco, and

IV. Shape the cigarette by rolling it with the thumbs, as you draw them apart.

V. Hold the cigarette in your right hand, and

VI. Moisten the projecting edge of the paper.

VII. With fingers close ends of cigarette by twisting the paper, and you have a cigarette properly made, properly shaped and ready to smoke.

VII. This is NOT the way to make a cigarette. The thumbs—not the index fingers should be used.

While the Supply Lasts A 200-Leaf Book of LA CROIX WHEAT STRAW French Cigarette Papers To Every Purchaser of a 5c Sack of "Bull" Durham Tobacco

LA CROIX WHEAT STRAW are the finest cigarette papers in the world. They are made in France, used in every corner of the globe and sold in 5c books everywhere. "BULL" DURHAM Tobacco rolled in LA CROIX WHEAT STRAW papers makes fresh, fragrant, hand-made cigarettes that afford lasting enjoyment to millions of experienced smokers. The object of this free offer is to induce more smokers to roll their own cigarettes from ripe, mellow

GENUINE "BULL" DURHAM SMOKING TOBACCO (Enough for 40 hand-made cigarettes in each 5c sack) Enough "BULL" DURHAM is sold in a year to make approximately 12 BILLION cigarettes—as many as all brands of ready-made cigarettes in this country combined—and the sales are still growing. This proves that the majority of smokers prefer the cigarettes they roll for themselves, to their own liking, from "BULL" DURHAM Tobacco, to any ready-made cigarette they can buy.

The rich, fresh fragrance and smooth, mellow, satisfying flavor of "BULL" DURHAM hand-made cigarettes are a revelation. Take advantage of this free offer—learn to roll your own, and enjoy the most satisfying luxury in the world.

FREE These Free books of La Croix Wheat Straw Cigarette Papers are offered by the enterprising merchants whose names appear below. Their supply of La Croix Wheat Straw is limited and they cannot obtain more—so call on the nearest of these up-to-date dealers right away. Get a 5c sack of "BULL" DURHAM and ask for the free book of La Croix Wheat Straw Cigarette papers. THE AMERICAN TOBACCO COMPANY

New Mexico Working Toward Front as Mineral Producer

This state has been steadily working toward the front as a mineral producer. In 1913 important contributions were made to the country's production of gold, copper, lead, zinc and other metals. According to C. W. Henderson of the United States geological survey the mine production of gold showed an increase of \$109,000 over the output of \$784,448 in 1912; zinc of silver, an increase of 108,000 ounces over the production of 1,556,792 ounces in 1912; lead, a decrease of 888,000 pounds from the yield of 2,494,018 pounds in 1912; copper, an increase of 20,000,000 pounds over the yield of 34,030,968 pounds in 1912; and zinc (figured as spelter or zinc in zinc oxide), an increase of 4,000,000 pounds over the output of 13,566,627 pounds in 1912.

Increased production was made with only four sections of the mill in operation, and will be materially increased when the mill is operating at maximum capacity. In June the company began the payment of dividends and during the year—its second year of production—paid three dividends totaling \$1,917,540. The Elizabethtown district, in Colfax county, continued as the most important placer producing district and also shipped an increased tonnage of ore. The lead output of New Mexico comes chiefly from crudi ore from the Central district, Grant county; from lead ore and concentrates from the Magdalena district, Socorro county; and from ore from the Victoria district, Luna county, formerly an important producer of lead. Mines producing zinc in 1913 were in the Magdalena district, Socorro county; in the Cooks and Victoria districts, Luna county; and in the Hanover and Pinos Altos districts, Grant county. The Magdalena district is the most productive; the shipments of both zinc concentrates from the mills and of zinc carbonate showing an increase. The wet concentration and magnetic mill of the Tri-Bullion Co. closed in July; but the new wet concentration and acid leaching mill of the Oregas Co. commenced production in March and had a heavy output from August to the end of the year, and the shipments of zinc carbonate from the Ambrosia, Junilla, Ozark, and Tri-Bullion mines increased. Zinc ore and concentrates as marketed from New Mexico increased from 21,938 tons of 25.9 per cent zinc in 1912 to 22,198 tons of 39.9 per cent in 1913. One transaction of the year worthy

of mention was the purchase of the zinc claims owned by George H. Uter in Pinos Altos district by the Empire Zinc Co., a subsidiary of the New Jersey Zinc Co. YOU'RE BILIOUS AND COSTIVE!—CASCARETS Sick Headache, Bad Breath, Sour Stomach, mean Liver and Bowels Clogged—Clean up tonight. Get a 10-cent box now. Furled Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels. "Bif's" cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleaning and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women like a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little insides need a good, gentle cleaning, too.

Special Stockholders' Meeting. Notice is hereby given that a special meeting of the stockholders of the Northwestern Colonization & Improvement Company of Chihuahua will be held on the tenth day of February, 1914, at ten o'clock a. m. at 1029 Garfield building, the office of the company, in the city of Cleveland, state of Ohio, for the purpose of electing directors of said company and such other business as may properly come before such company at such meeting or any adjournment thereof. O. M. STAFFORD, President. January 22, 1914. Hearings on Trust Legislation. Washington, Jan. 30.—Hearings on proposed trust legislation, embracing President Wilson's recommendations for trust reform, were inaugurated today by the house committee on interstate and foreign commerce.
