

JERRY ON THE JOB

SPORTS

Baseball.

Table with columns for National League, American League, and Federal League, listing teams and their records.

GAMES TOMORROW

Table listing baseball games for tomorrow, including matchups between teams like Pittsburgh and Philadelphia.

YESTERDAY'S RESULTS

Table listing the results of baseball games from the previous day, including scores and key players.

LINING 'EM OUT

Text article discussing the National League baseball race, mentioning teams like the Red Sox and Athletics.

Kind scribe observes that he knew Naps were in some kind of a storm, but hadn't figured whether it was hailing or snowing.

Walter Johnson has just started his eighth year in the American League. He joined the Senators in August, 1907.

Manuel Costa, a supposed phenom from Havana, released by the St. Louis Reds, was signed on Armando Marsans' recommendation.

Of fourteen pinch hitters who were sent in by various big league clubs one day recently, only three made good with hits. Only two walked. James of the Boston Braves saved his name from the Reds, so that, of the whole fourteen, James was the solitary hero.

J. E. SULLIVAN OF OLYMPIC COMMISSION DEAD IN NEW YORK

New York, Sept. 16.—James E. Sullivan, secretary and treasurer of the Amateur Athletic Union and American Olympic commissioner in recent Olympic games, died here today.

ALL GRADES OF CATTLE ON A STEADY CLIMB

Kansas City Stockyards, Sept. 14.—All grades of cattle made a steady climb last week, finishing 10 to 25 cents higher for the week. There was a good active market every day. Receipts were 43,000 head, against 43,000 same week last year. The supply today is 27,000 head, largest run this year. Prices are steady to 15 cents lower, some few exceptions. There was a good native trade today, salesman admitting that buyers "just ate them up." No prime cattle are here, as that kind is getting scarce, the best here selling at \$9.15. Strictly prime heavy cattle would bring around \$11, which price is not regarded as the limit between now and Christmas by any means. There is a shortage of Kansas grass cattle today. Steers from Landers Bros., Eureka, brought \$3.80, 1369 pounds. Other Kansas cattle brought \$7.25 to \$8.50, including some Garrison & Whipple steers at \$8.40, around 1150 pounds, which was sharply higher than best bid on some of these steers at St. Joseph up to noon. There is a good run of Panhandle today, beef steers up to \$7.75, stokers \$4.75 to \$7.75, cows \$5 to \$8.39, veals up to \$10.50. Western Colorado heavy beef steers brought \$7.70, light beef steers \$7.10, feeders \$7.20, shipment of Billie Moore from the rifle country. Eastern Colorado has several shipments in, including a five-car drive of good feeders from Rude, which sold at \$7.35, \$7.65 and \$7.95. Quarantine receipts are 118 cars, largely middle and low class stuff. Brown & Ellingwood sold 19 cars at \$6.85, other middle weight steers \$6.25 to \$6.75.

Hogs sold 10 to 15 cents lower today, receipts 5,900 head. There was a big smash in September pork Saturday, a break of \$1.50 a barrel, and packers say live hogs must go still lower. Steers in a wide spread in price and buyers in the country should allow themselves ample margin. Top here today is \$8.80, bulk of sales \$8.30 to \$8.65. Order buyers bought all the hogs that sold above \$8.65. Bulk of sales in Chicago today ranges from \$8.25 to \$8.85. Medium weight hogs are bringing the top, and it is the rough heavy hogs that sell lower.

Wool and lambs sold 10 to 20 cents higher today, and a late sale was 25 cents higher. The Budget Utah lambs, 5 double deck, sold late at \$8.20, 67 pounds average. Bulk of the lambs brought \$8 to \$8.20 today, total receipts of sheep and lambs 12,900 head. Prices are nearly \$1 per hundredweight higher today than ten days ago. Fat cows are worth \$5.15 to \$5.20, breeding cows \$4.50 to \$5.75, feeding lambs \$6.75 to \$7.25. Considerable feeding and breeding stock will be available right along now.

BOOK CO. CALENDAR SHOWS RAPID GROWTH OF NEW MEXICO SCHOOLS

Santa Fe, N. M., Sept. 16.—The advance made in education in New Mexico is graphically told each year on the calendars of the American Book Company which are sent to all the educators of the United States.

Alvan N. White, state superintendent of public instruction, stated today that he is now at work preparing the statistics to be printed on the 1915 calendar showing the school attendance, number of teachers and expenditures for 1914. In 1913-14 the enrollment of pupils was 61,037; the number of teachers, 1539 and the expenditures \$954,483. In 1912-13 there were 1717 teachers and probably 65,000 pupils and an expenditure of over a million dollars. The 1914 statistics cover the fiscal year from September, 1913, to June, 1914.

LAS VEGAS TO BUILD OWN IRRIGATION PROJECT

Tired of Fooling With Speculators from the Outside, Grant Board Will Construct Important Reservoir System.

East Las Vegas, N. M., Sept. 15.—At a meeting of the Las Vegas grant board this morning, at which the possibility of completing the irrigation project were extensively discussed by members of the board and several citizens, it was decided to press the suits now pending against the Cambridge Development Company in a speedy termination, it being the consensus of opinion that no plan could be properly launched for the development of the lands north of Las Vegas until the board has reacquired title to the tract desired to the contracting company several years ago.

It was brought out that the ultimate hope of accomplishment so far as the project is concerned lies in the support of the community rather than in the building of the reservoir, on a speculative basis, by outside concerns. The members of the board and those in attendance agreed that the estimates of cost that have been published heretofore, have been far higher than actual cost, because the promoters have made their figures on the basis of bond issues.

The board further decided to call in the services of a competent engineer who shall be paid to make a survey of the entire project, and develop a plan for its construction, basing his estimates on the actual and not the speculative cost, and that the necessary funds for the building of the entire system should be raised by the sale of the lands. It was shown that several local corporations likely would be willing to invest considerable capital in the scheme in return for land, where they could not be induced under any consideration to buy stock or bonds. It is thought that the project can be completed at a cost not to exceed \$250,000. This was emphasized by Engineer Vincent Jones, who is said to have gone over the ground carefully at several times. This substantiates the theory that all former estimates have been speculative.

REFERENDUM UPON WILSON PLAN OPPOSED

Sharp Contest Over Acceptance of Three Year Truce in Miners Meeting at Trinidad.

Trinidad, Colo., Sept. 16.—A fight over a proposal to refer President Wilson's strike plan to a vote of local unions developed at today's session of the convention of the Colorado coal miners. J. E. McDonald, a delegate from La Junta, offered a motion putting the convention on record in favor of adopting the three year truce but leaving the final decision to a referendum vote, the returns to be reported not later than September 25.

James Lord, president of the mining department of the American Federation of Labor, urged immediate and decisive action by the convention.

"This is the greatest opportunity that ever crossed the path of the working class," he declared. Referring to the recent copper miners' strike in Michigan, he said: "The Michigan people at one time could have had a favorable settlement but they neglected to take advantage of their opportunity. Finally the relief stopped coming in and they were starved back into the mines. Now conditions are fifty per cent worse than they were before the strike."

After a vigorous discussion the proposal for a referendum vote was laid on the table. Officers of the union expressed confidence that the peace plan would be adopted at the afternoon session.
