China's Inquiry as to Intentions of Japanese in China Elicits Mighty Little Information.

TAKE SALTS TO FLUSH KIDNEYS

Get Less Meat If You Feel Backache or Have Bladder Trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system.

Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pain in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear.

PLAN SCHOOLING FOR ISLETA WHITE KIDDIES

There are about 10 or 12 white children of school age at Isleta, and although plans have been made by the government to put in a school for the Indians to which the white children would be admitted, that arrangement does not appeal to the whites.
