A Spring-like Dash and Color
Makes

THE SUITS

of which there is a multitude of style

Of course, anything so striking as the models this Spring won't bear repetition, that's why there's such a variety. To start with are those dressy, elaborate suits of silk that come in crispy taffetas and swishing failles. They're simple enough, but the softness of the colors lifts them out of the ordinary, and the flare of the coat and the ripple of the skirt give them a quaintness of almost as much swoop as the hoop-skirts grandmother wore. When we get to the sensible styles, we find they're quite sport-like, with a gay boyishness about them—carelesslike. The cuffs and collars are fascinating—so are the suits. Prices start at \$15.00 and for the topmost, \$85.00, you can buy "Dream Suits."

Ready-to-Wear Section, Second Floor

Pure de Jap Panamas

Imported direct from Japan to Rosenwald's.—Unblocked, so that you may have any shape you may desire. Panamas that are easily worth \$3.50, for a Few Days Only at

\$1.95

A wonderful value and at the right time of the season to be of use to you. The supply is limited, so do not delay.

Millinery Salons, Second Floor

Helping Make Your House into a 'Home'

You have ideas, perhaps—or at most the consciousness that something should be done to freshen up the home you live in: here a worn-out armchair re-covered, these rooms repapered or painted, a bay-window added here, a den arranged there. But the whole "job" is too much for a mere layman isn't it? This is the reason for the new service in our store, just given new lease of life with interesting designs, artistic materials, and trained decorators to carry out your ideas or suggest their own. Mr. Falkenburg is here at any time to offer suggestions, or to make up your ideas in Cretonnes or Quaker Craft Laces. Give him a call.

Housefurnishing Section, Third Floor

They're Wonderful Waists for \$1.00
and they show what modern factory and
store-keeping methods can accomplish,
when applied to the making
and selling of Waists

The New Withmore Waists on Sale Tomorrow.
As Always, \$1.00. As Always, Worth More.

The manner in which these Waists are made and sold—the large saving that come as a result of their manufacture on a tremendous scale, and in a most efficient and economical manner—together with the large savings in selling expense has made possible the sale of these splendid Waists at \$1.00. No other Waists at the same price can be like them—for no others are made and sold in the same way. The very frequent arrivals always insures the very newest and most desired styles.

Just one good store in every city can sell the Withmore Waist. In this city they are sold here exclusively.

MUNSING WEAR

A reputation worth millions is back of that trade-mark. Ever stop to think of that? One reason we value having the agency is the way Munsing-Wear always lives up to its reputation. Today it is the most popular underwear made.

Munsing-Wear Section, Second Floor

Grand opera in your own home by the world's greatest artists

While everybody can't go to the opera, everybody can have the opera come to them.

With a Victrola in your home you can hear the most famous artists sing for you the masterworks of music which they sing in the great opera houses of the world.

And on the Victrola it is all so real that you enjoy it just as much as though you were really attending a performance in an opera house.

Come in and hear Caruso, Melba, Schumann-Heink, and other artists on the Victrola. We'll gladly play any music you want to hear, and tell you how you can easily put a Victrola in your home.

Victrolas \$15 to \$300. Victors \$10 to \$100.

Music Section on Third Floor

No Substitute for Work in a Man's Life or His Clothes

You cannot build a career without work. You cannot make a good Suit without putting hours of labor into the tailoring. One is as true as the other. Tailors who begin with good fabric and slight the tailoring are like some brilliant, bubble chaps who "blow up" suddenly. They skip the work. There are too few laboriously taken stitches, too many hours lost that should have been sewing Service into the coats. Rosenwald's Clothes are made to last, to stay in shape, to look well as long as the fabric will hold together.

Suits at \$15, \$18, \$20 and \$25.00

PORTUGUESE URGED TO GROW CEREALS

Associated Press Correspondence
Lisbon.—The war has turned the attention of the Portuguese people to the agricultural situation of the country. Although Portugal is regarded as principally a farming country, it has to import sometimes

as much as half the amount of wheat required for the year's home consumption. The years when there have been the largest importations of wheat have been years of hard times, when there was a great deal of idleness and at the same time a great deal of waste land, which might well have been devoted to wheat raising.

REINFORCEMENTS FOR PERSHING ARE ARMED HERE

Colored Troops on Way to Border Detrain at Station to Receive Guns, Sidearms and Ammunition.

In the view of the United States army Albuquerque is in the Mexican war zone—at any rate, on the edge of it. That was indicated today when a trainload of troops on the way to the border, who arrived here on a peace footing, were lined up at the station and armed.

The troops, 200 colored infantry, first of a contingent of 1,500 to be moved from Fort D. A. Russell, Wyoming, reached here at 11:40 o'clock this morning on a train of 18 cars. They detrained in small groups and were marched about the streets adjacent to the station for a limbering up.

On their return to the station they were lined up, and guns, sidearms and ammunition were issued to them. The train left on the last lap of the journey in the border at 2 o'clock. The Santa Fe will carry the soldiers to El Paso.

Three more troop trains are scheduled to pass through here. The next is due some time during the early morning tomorrow. No line on the arrival of the other two trains had been obtained by Santa Fe railroad officials here this afternoon.

Arraignment of Young Dentist To Be Held Soon

District Attorney Expects to Bring Accused Murderer of Millionaire Druggist to Trial Promptly.

(By Evening Herald Leased Wire)
New York, March 24.—Soon after Dr. Arthur Warren Waite, accused of poisoning his father-in-law, John E. Peck, wealthy drug manufacturer of Grand Rapids, Mich., had denied the charge today, District Attorney Swann announced that he had obtained a voucher from a druggist signed with Waite's name for the purchase of a quantity of arsenic on March 9, three days before Peck's death.

New York, March 24.—District Attorney Swann said today that he would arraign Dr. Arthur Warren Waite for the murder of his father-in-law, John E. Peck, a millionaire druggist of Grand Rapids, Mich., as soon as Waite's physical condition would permit bringing him to court.

The young dentist is under arrest at his apartment and so far recovered from the effects of narcotics taken yesterday that the district attorney hoped to produce him in court today.

The grand jury investigation of the deaths of John E. Peck and his wife, in Dr. Waite's Riverside drive home, under circumstances which led the authorities to believe they were victims of poison, continued today.

Since Wednesday, Dr. Waite had been under the influence of drugs taken, he said, to induce sleep and no coherent statement could be ob-

tained from him. Meanwhile the discovery of arsenic in the body of Mr. Peck led to the order for the dentist's arrest.

Among the exhibits upon which the authorities are working are medical books taken from Dr. Waite's library, containing marked passages describing the effect of poison much as that said to have caused the death of Mr. Peck.

Undertakers who prepared Mrs. Peck's body for shipment to Detroit revealed today that they were compelled to make great haste to place the body on board the train leaving here on the day of her death.

Dr. Waite's prominence as a sportsman and tennis player has increased the interest in the case here. He won the metropolitan indoor championship here early in the season and figured in the national indoor championship when he was defeated by R. Lindley Murray, who won the title.

Aero Stations In San Antonio Are Dismantled

For Safety's Sake, Officials Put Twenty-five Amateurs Out of Commission While Mexican Trouble Is On.

(By Evening Herald Leased Wire)
San Antonio, Tex., March 24.—Twenty-five wireless stations in and about this city have been dismantled by federal officers acting upon instructions from the department of justice, it was announced here today.

These plants designated as "amateur" stations have been a source of considerable annoyance to the war department, especially since the establishment of wireless apparatus with the American troops in Mexico. It was found impossible to prove offenses against individual operators and as the use of these stations was considered a menace, the authorities

PORTUGUESE AND THE CHINESE DISPUTING OVER MACAO HARBOR

Associated Press Correspondence
Macao, China.—Recent conflicts between Portuguese and Chinese officials in the Macao harbor have revived the old controversy between Portugal and China as to actual boundaries of this Portuguese settlement, which dates back to 1587 and was the first open port in China.

Portugal owns a territory three miles square and about 50,000 population here under Portuguese jurisdiction. It has always been Portugal's contention that it also controls the entire harbor and has jurisdiction to the opposite side of the bay. The Chinese contention is that China and Portugal have joint control of the entire harbor.

A few days ago workmen employed by a woman junk owner had a dispute with her concerning their pay and created considerable disturbances. Portuguese policemen went to the assistance of the woman, whose boat lay close to the Chinese shore. It was necessary to discharge some shots to quiet the row. The shooting attracted Chinese soldiers who arrested the Portuguese policemen for the use of firearms and put them in jail. The policemen were finally released, but not until the Portuguese officials made emphatic demands.

Several days later a Chinese gunboat entered the harbor, destined for a fort on Chinese territory. A Portuguese gunboat fired a signal for the Chinese boat to stop and make a report, but instead of stopping the Chinese gunboat answered the shot and drove away a number of small launches which began firing at it. Nobody was hurt in the brush, but it caused much excitement among the Portuguese and the governor of Macao ordered the guard to be increased in the settlement and made arrangements for the better equipment of the police and volunteers.

Before Hong Kong came into prominence Macao was an important commercial center. It lies fifty miles west of Hong Kong and is connected with the British settlement by frequent steamship service. Recently the Portuguese have been dredging the Macao harbor and making an effort to revive its commercial importance.

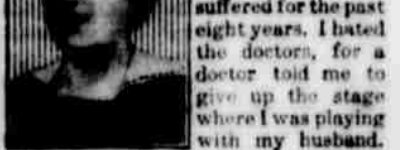

Wonderful Tale of an Actress

Struggled with Sickness and Discouragement; How Relieved.

Dayville, Killingly, Conn.—"I shall be glad to have every woman know what I know now, after using Lydia E. Pinkham's Vegetable Compound. Although I am only 24 years old, I have suffered for the past eight years. I hated the doctors, for a doctor told me to give up the stage where I was playing with my husband.

I had bearing down pains, my health failed me, and I could not work on the stage, and was unable to tend my baby or even get around myself. I was always downhearted and discontented with the world, and only lived for the sake of my little girl. The doctor said to move to some quiet little town away from the noisy city, and I might be able to live and feel well, so I went to Dayville in November. At that time I was so sick I could not walk around, and my husband kept house and I stayed in bed. One day in January I read your advertisement in a newspaper, and I sent for Lydia E. Pinkham's Vegetable Compound, and started taking it. Within two weeks time I was a different woman, could get around, and felt so good that it was a pleasure to do my housework. I felt contented and happy, and now am the picture of health, and am tempted to return to the stage. We appreciate my health as the most precious thing on earth."—Mrs. H. L. Mangan, Box 25, Killingly, Conn.

Looking for a job? Try a Herald Want Ad.

Lydia E. Pinkham's Vegetable Compound is a powerful medicine for women's ailments. It is made from natural vegetable ingredients and is known for its effectiveness in treating various conditions such as menstrual irregularities, weakness, and general ill health. The testimonial above describes how it helped a young woman regain her health and confidence.

THIS OF COURSE IS A COOLMOR---

The Coolmor never "sticks." It never rolls unevenly. It does not bulge and it cannot warp or get out of shape. The Coolmor "wind-safe" device absolutely prevents "flapping"—no matter how violent the wind.

The Coolmor Shade appeals to every practical woman who seeks service, comfort and durability.
