The Markets

New York Stock Exchange.

New York, March 24—Today's trading was more narrow than recently, but heaviest of specialties was partly counterbalanced by a better inquiry for investments.

Metal shares were most active at the opening of today's market, large blocks of Anaconda, Inspiration and Richmond copper changing hands at fractional advances, with further activity in American Zinc and Huttig & Superior. Studebaker, Mexican Petroleum and American Smelting were higher at the outset, together with American Can and Reading, but rally in general were unimpeded. Later heaviness in Lackawanna and Crucible Steel, Inland and Mexicana caused a reversal in prices.

Chicago Board of Trade. Chicago, March 24—Wheat declined in value today. The opening, with May at \$1.07 1/2, 1/2, and July at \$1.05 1/2, 1/2, was followed by some additional losses. The close was strong with May at \$1.08 1/2, and July at \$1.06 1/2.

Heavy selling to stop losses sent corn sharply down grade. After opening 1/2-1 1/2, the market rallied a trifle, but then sank lower than before. The close was firm at 10 to 10 1/2, 1/2, no advance.

Oats fell with corn and wheat. Higher prices on hogs strengthened provisions.

'CASCARETS' FOR A COLD, BAD BREATH, OR SICK HEADACHE. Best for liver and bowels, for biliousness, sour stomach and constipation.

Get a Cascaret box now. Furred Tongue, Headache, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to avoid misery—indigestion, foul gases, bad breath, yellow skin, mental torpor, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months. Millions of men and women take a Cascaret now and then to keep their stomach, liver and bowels regulated, and never know a miserable moment. Don't forget the children—their little bodies need a good, gentle cleansing, too.

POLITICIANS IN FRANCE TO NEED A WAR RECORD

Deputies Returning From the Front Say Service Does Them More Good Than Electoral Campaign at Home.

Paris—French politicians are already much interested in the question whether it will be necessary for candidates for public office after the re-establishment of peace to have a war record. Some members of the chamber of deputies who have stuck to the Palais Bourbon instead of joining the army have shown irritation at the publicity given to exploits of their colleagues, some of whom have been killed and others like Monsieur Maginot, former assistant secretary of war, have been repeatedly cited in the orders of the day.

One deputy who recently returned to Paris on leave of absence said he had found that presence at the front was far better than an electoral campaign for his political interests as well as for the salvation of the country. "Besides," he said, "it is for the nation to do the speaking now."

One socialist deputy, interrupting an orator who was recalling the exploits of one of their colleagues at the front, declared: "It is not his place, his place is here. This country seems to be started by a considerable majority of the parliament but not altogether by the public. The municipal council of the city of Neuilly-sur-Seine whose mayor, deputy for the department of the Seine, fell upon the field of honor, considering that the defense of the country is the first duty of a citizen, that equality before the law is the normal right of Frenchmen whoever they may be and that no member of any elective body should seek to avoid it, that the representatives of the people should be the first to give the example of respect for the law and the duties of citizens, expresses the wish that all senators and deputies in this assembly be obliged to do their military duty as all other citizens."

Socialists, radicals, radical socialists and other elements of the left see in all such allusions an attack upon the parliament, and considerable anxiety is betrayed in certain parties as to whether this spirit will grow and what effect it will have on politics when hostilities have ceased on the field of battle. There have also appeared speculations as to the accounts that must inevitably be rendered after the war by parties responsible for obstructing or neglecting the development of armaments in the face of Germany's obvious preparation. Advanced radicals appear to look to the activity in Catholic circles to renovate their anti-clerical issue and thus offset the war issue. The direction taken by political movements in France is so susceptible of unexpected developments that speculation is vague, but not a few far-seeing men look for marked changes in the next general political campaign which in the ordinary course of events will take place in the spring of 1918 when the chamber of deputies is renewed.

GERMAN LEATHER IS USED IN SHOES WORN BY ENGLISH PEOPLE. [Associated Press Correspondent] London—The English people are beginning to believe that they are wearing shoes made of German leather, through the fact that many of their shoes are imported from Switzerland, where the manufacturers are known to use large quantities of German leather. Their suspicions were recently confirmed by the fact that British imports of shoes from Switzerland during February were nearly double those of the corresponding period in 1914.
