ENTENTE ALLIES PULL TOGETHER IN CONFERENCE

Delegate to Session of Diplomatic and Military Representatives Sees Real Co-Operation in Workings.

By Evening Herald Special Writer. Paris, March 29 (U. P.).—The conference of the entente allies, which held its first session here Monday, opened in the Matin as a demonstration of the genuine character of the gathering.

THE BATTLE OF PETERSBURG. A Scene in the Birth of a Nation.

MILITARY EXPERTS AID GRIFFITH IN PRODUCING FEATURE

In the list of so-called public enemies and misdoers in Griffith's Birth of a Nation, noted picture drama of the year, which vindicates the patriotic character of the picture, are the names of military experts who aided Griffith in producing the feature.

...The splendid bringing of this mighty attraction to this city in Manhattan is not alone a tribute to the skill of the photographer, but also to the very greatest of them, who could do for his picture and the event of capturing a Birth of a Nation for one week here long will be remembered as one of the greatest successes in the history of the city.

YOU CAN'T FIND ANY DANDRUFF AND HAIR STOPS COMING OUT

Save your hair! Make it thick, wavy, glossy and beautiful at once.

Try a job well, after an application of Dandruff, you can get rid of a single trace of dandruff or falling hair and your scalp will not only be clean but you will find that it will grow again. This is the secret, and when you see your hair stop coming out, it is a sign that you are really new hair-growing all over the scalp.

DEMAND IS GOOD FOR TERRITORY WOOL AT 32 CTS.

Most of Good Fibre From Mountain Regions Bringing 75 Cents Clean Basis; Market Generally Firm.

Boston, Mass., March 29.—The market for territory wools has been moderately active this week and prices are steady. There is reported the sale of a lot of Soda Springs half-blood, containing wool of 22 cents in the gross, which is a fractional advance. Most of the sales have been of original bag lots of fine and the medium wools bringing up to 75 cents for the best wools and around 70 cents clean for the poorer wools.

THE SITUATION IN THE WOOL MARKET

The wool market is generally firm and business continues at much the same rate that it has been going for the past two weeks. Possibly there is a little more general inquiry than was the case last week and the week preceding, but on the whole the volume of business is hardly more. There seems, likewise, to be little or no change in prices, with the exception of a few pulled wools, which are in better demand and not in heavy supply.

...one of the parties manufactured product spinners and owners of an independent as ever in their attitude and while some 2,400,000,000 yards worth possibly be bought under \$1.45 per pound, it is very doubtful how much could be obtained and it is certain that most spinners would be indifferent to an offer to purchase at that price on account of the fact that they are sold ahead so far, sometimes even to October 1. The situation among the owners is more or less amiable to that with the spinners.

Sales have been held this week in Mexico beginning Tuesday and in Sydney Monday. Prices have been firmly maintained there for good wools and about on the basis of 32 to 35 cents for any wools that could be called good, although the class of wools is practically not to be had in the markets down below in the present time. Heavily good top-making wools are being bought at about 12 cents and some importers figure that they can find them at slightly less money.

The situation at the Cape is firm and offerings of good wools are limited and unchanged. Advance information on the new clip wools is in the offer that prices are fully up to or even above the parity of the old wools.

South American offerings are chiefly of odds and ends and are by no means heavy. Prices needless to say, are strong and in not a few instances out of range of the general market.

The situation in England shows little change. English wools are in slack demand and combed wool and tops have been rather slow of late but moraines seem to be fairly firm.

News from the west is rather meagre. Buying of the new clip makes haste but slowly this year in view of the high level of prices prevailing and the tendency of growers to hold for extreme prices—prices that the present situation in the wool markets by no means justifies.

It is stated by a competent observer in Texas at the moment that the report of a tremendously large purchase in the vicinity of San Angelo recently at 30 cents a pound for fine wool is not only ridiculous but is based upon the actual purchase of 100 pounds of medium wool for which 30 cents was paid.

Contracting seems to have been stimulated in the far western states, notably California, Nevada, Oregon and Washington, in the last day or two, and 2 1/2 cents has been paid for the wools in Nevada and 2 1/2 to 3 cents for fine medium and half-blood wools in the same state.

Rickart's Livestock Market Letter

Kansas City Stock Yards, March 29.—Cattle sold stronger last week after Tuesday, the advance due to smaller supplies and 100 pounds, 800 head and feeders sold higher all week, the feature during the week in this trade being several sales of heavy feeders, 1150 to 1200 pounds at \$1.00 to \$1.50. Receipts today are 10,000 cattle, and prices are strong to the higher.

Native steers made \$1.20 today, and strictly prime steers worth reach \$1.25. Good native fed steers sold at \$1.40 and upwards. There was another good run from Colorado and prices realized were equal to the best this year, sales ranging mostly from \$1.60 to \$1.75, some plain rough steers at \$1.15. Colorado steers at \$1.25 to \$1.40, Colorado cows at \$1.10 to \$1.25, bulls, \$1.00 to \$1.20.

Active cars arrived in the quarantine division, the first run of the season of veal and corn fed guarantee steers, the best selling at \$1.75, and beef from Whaley & Jones, Myer, Texas.

Total receipts at all the markets are smaller today than a week ago and the situation for sellers more than it did last week, although it was believed that the liberal run of last week was temporary. Stealers and feeders met a good demand last week and were cleaned up quickly. They are selling stronger today, steers at \$1.90 to \$1.45, mostly sold for today up to \$1.65, feeders \$1.75 to \$1.25, a few heavy steers at the higher prices.

Veal calves broke half a dollar today, best now around \$1.00.

Hogs sold stronger last week and again today, receipts 3,000 today. A new high top was made in 3000 bulk of sales highest set recorded at \$9.50 to \$9.75.

Light hogs are selling strong, reaching up to \$9.75 and pure stock at \$9.50 to \$9.75. Finding good outlet for these hog parts located adjacent to the stock yards.

The supply shows signs of falling and \$1.00 hogs this week are 7 cents premium for this market. California hogs and heavy hogs consumption at home are making the hog market exceptionally firm.

Sheep and lambs sold the highest today, another new high top recorded at \$1.60, other sales at \$1.50. No fancy ewes were seen today, as profitable up to \$1.60, all these prices highest ever recorded here. Receipts were 2,000 head today and the outlook is for light hogs at this market supply sources having become practically exhausted.

Today's receipts include sheep and lambs from a wide territory, California, Texas and the intermountain states, and the small total suggests extreme scarcity.

Customers Constantly Are Asking Us Why Furniture Prices Are Going Up

The answer is found in the side of the world shown here, where war has wrecked industry and driven all trade into the single channel of destruction. Raw materials, items essential to the manufacture of practically every article of home furnishings, are being destroyed here in huge quantities, and America is supplying these materials for destruction.

Let Us Show You The Facts

"The American Metal Market and Daily Iron & Steel Report," New York, of March 8, 1916, shows that from July 31, 1914, to March 6, 1916, Lake Copper has advanced 111%; Tin, 107%; Lead, 47%; Zinc, 297%; Aluminum, 265%; Sheet Copper, 84%; Copper Wire, 105%; Sheet Zinc, 257%; Antimony, 718%; Iron Bars have advanced 96%; Steel Plates, 104%; Wire, 55%; Tin Plates, 21%. Pig Iron from 31 to 46%.

All Of The Above Enter Actively Into The Manufacture Of Home Furnishings

The Average Advance in Steel Used In The Manufacture of METAL BEDS and SPRINGS is 55 Per Cent.

That Is Why Furniture Prices Are Going Up

And with the metals, woods, fabrics and dyed materials—rugs, carpets, tapestries and linoleums—have advanced, rugs 25% above prices of a year ago; linoleums, 4 1/2% above.

EVEN AT ADVANCES OF 25 TO 200 PER CENT many home furnishings lines cannot be had on any reasonable time of delivery.

Our large reserve stock and heavy buying early in 1915—before the big advances came—enable us to supply nearly all necessary articles of home furnishings from complete stocks—AT PRICES OF A YEAR AGO.

But these prices cannot continue long. In a season of active buying stocks will soon be exhausted. THEN THE ADVANCED PRICES AT WHICH WE MUST BUY MUST OF NECESSITY BE CHARGED FOR THE GOODS WE SELL.

That Is Why We Have Advised and Urged Our Patrons Who Need Home Furnishings TO BUY NOW

There is neither safety nor economy in waiting YEARS MUST ELAPSE before the furniture prices of 1914 are restored—IF THEY EVER RETURN.

THE WORLD MUST PAY FOR WAR'S DESTRUCTION

You can save yourself part of your share of the unjust debt by taking advantage of your opportunity to buy your home needs now.

The Kapple Furniture Co.

Half a Block East of New Y. M. C. A. Building.

come to you as a cigarette creation worthy of comparison with any cigarette in the world, no matter what its price!

Blended choice Turkish and choice Domestic tobaccos in Camels provide a new flavor that is as delightful as it is refreshing. And besides, Camels are free from bite and parch, and leave no unpleasant cigarette after-taste, no matter how freely you smoke them!

Camel cigarettes are worthy of your confidence because they'll stand any test for satisfaction and for quality! Do not look for or expect coupons or premiums. The value is in the cigarettes!

And the more Camels you smoke the more you'll realize you prefer this blend to either kind of tobacco smoked straight!
