CANNOT TELL YET WHETHER FAIR IS PROFIT-PRODUCER

While Management Hopes for Best, It Must Go Through Settlement of Bills Before Casting Accounts and Striking Balance.

Will the fair itself prove a matter of merely profitable interest to the exhibitors and the fair management?

Suggestions for Future. Following three meetings of exhibitors, fair managers and others interested in the success of the state exposition a set of suggestions for the conduct of future fairs has been drawn up.

Principal Fair Secretaries. The principal secretaries are as follows: A. M. Herron, La Junta, Colo., first and second P.

Local Brevities. The private car Anthracite, of William H. Truesdale, president of the Laramie railroad, was attached to Santa Fe train No. 1 Saturday afternoon.

AMBASSADOR'S CHEF NOW IS COOKING FOR SOLDIERS AT VERDUN

Young Frenchman Prepares Food for Company of His Comrades Before Famous Fort; Tunnel Is Great Help to Forces of Joffre.

Associated Press Correspondence. Verdun, Oct. 2.—Just west of here, in the forest of Ardenne, there is a remarkable military tunnel, 40 feet underground, extending eight miles with 500 shafts of the most hard-pressed points around Verdun.

There was a very American atmosphere about this tunnel when the Associated Press correspondent visited it for the various facts developed that the two officers in command were American residents, one a stock broker in Alberta, Canada, and the other a bank official of the Franco-American bank at Los Angeles, Cal.

Emerging from the tunnel into the front line of French trenches, the German trenches were plainly visible on the crest only 200 yards away. The intervening space was swept clear as though by a cyclone.

"This has been a rather good day," said the commandant, "two men killed, one in the shoulder, the other in the leg. That is little for after we have 10 to 15 killed or injured in these trench excavations, which go up continually as the Germans try to mine under the trenches and we try to mine under theirs."

The last glimpse of Verdun came this party passed a detachment of French soldiers just out of the trench and going to the rear for food. They were tired and heavily laden, but happy and cheerful as they sang along to irregular notes, laughing and smoking as though they came from some peaceful occupation. They were all the-looking young fellows, and they talked that calm and invincible spirit which the young French soldiers are putting into their service.

MRS. MAY'S LETTER TO WOMEN

More Proof that Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Chicago, Ill.—"I suffered from a bad case of femaleills. Lydia E. Pinkham's Vegetable Compound was recommended and I took about six bottles. It fixed me up all right. The common symptoms of such a condition—pain when walking, irritation, bearing-down pains and backache, nervousness and disordered digestion—soon passed away. I look much better now than I did before, and I recommend the Compound every time for female troubles, as it did for me all it is claimed to do." Lydia E. Pinkham, 2548 S. Lincoln St., Chicago, Ill.

If you have any of the symptoms mentioned in Mrs. May's letter, remember what Lydia E. Pinkham's Vegetable Compound did for her, and try it yourself. It is a good old-fashioned medicine, made from roots and herbs, and it has helped countless numbers of women.

If you need special advice, write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

building that General Pettin, who presided over the funeral of General de Castelnau, quickly made the plans on the first night of the Germans which held them until reinforcements could be brought up.

As we were at Verdun headquarters a party of brothers came by. They were all young, their eyes and faces glowing with the excitement of the war, and they were all going to work, and in each case German carried a gun on his shoulder. As Verdun is a German life whatever, but General de Castelnau's headquarters were passing women and men along with the police, indicating an air of life which this new world had.

The results back of Verdun in the most recent series of attacks on the line is a vast expanse of mud with some twenty enormous mounds of unburied bodies, covered with mud. Across the mud is a redoubtable machine for miles which attempts to cross the mud and mounds and pass forward in emergency without allowing the batteries to get stuck and then, as a result, the mud is a vast expanse of mud with some twenty enormous mounds of unburied bodies, covered with mud.

The last glimpse of Verdun came this party passed a detachment of French soldiers just out of the trench and going to the rear for food. They were tired and heavily laden, but happy and cheerful as they sang along to irregular notes, laughing and smoking as though they came from some peaceful occupation. They were all the-looking young fellows, and they talked that calm and invincible spirit which the young French soldiers are putting into their service.

STOPPING OF STRIKE SAVES MILLIONS TO COUNTRY'S FARMERS

Huge Sum Would Have Been Lost Had President Allowed Railroad Tieup; Plea of Poverty Not Well Taken, Says Expert.

Special Correspondence. New York, Oct. 2.—One hundred million dollars direct loss and paralysis of the market is what the farmers and fruit growers of the United States would have suffered had not President Wilson averted the rail and strike, as the statement made today by Frank J. Odell, agricultural economist and formerly agricultural statistician for the state of Nebraska, Mr. Odell said.

The certified returns made by the 725 railroads of the United States to the interstate commerce commission show that for the month of April, 1916, their combined earnings were \$18,000,000 more than for April, 1915. The railroads' plea of poverty is being used by the Republicans to scare the farmer, Mr. Odell said, but he would have to pay the cost of increased freight rates if the eight-hour day should compel the roads to pay more in wages. The Republicans are not calling attention to the fact that farmers would have lost more by one week of strike conditions than their alleged increase of expense would have cost the railroads in five years.

"Take this single instance," continued Mr. Odell. The Seattle Times prints this report of the fruit crop of the famous Yakima valley in Washington: "North Yakima, Sept. 15.—It is now practically certain that the 1916 fruit crop of the Yakima valley will be 10,000 carloads, 2,000 carloads more than ever before. The total crop has been run over that figure. High prices have encouraged the growers to pick and ship all of their fruit and as it was exceptionally clean this year very little has been left to waste."

A general railroad strike would have presented the moving of this crop with a resultant loss of \$15,000,000 to the Yakima fruit growers. "This," Mr. Odell continued, "is indicative of a similar and perhaps larger loss in the famous fruit and vegetable districts of Washington and Oregon, and the Oregon and Washington fruit crops, which are worth \$100,000,000 a year, and in Nebraska nearly \$100,000,000. This does not take into account early small fruits, grapes of various kinds, which would have been lost in the case of a railroad strike.

"The certain losses which would have fallen on the growers in these districts alone would have totaled many millions. The disorganization of markets which would have followed a strike would have been felt disastrously in every item of this year's farm production."
