ANGRY MOB FORCES JUDGE TO WITHDRAW HIS ORDER

People of Denver Suburb Favor Unrestricted Operation of Slot Machines and Side With Town Marshal—Court Attempts to Escape on Engine.

Denver, Col., Oct. 2.—The spectacle of a member of the judiciary being dragged about by a mob and forced to rescind an official order, ended a day of turmoil today at Brighton, Col., the county seat of Adams county, adjoining the city limits of Denver. A. H. Guthrie, county judge, hauled the mayor, marshal and members of the town board before him this morning and delivered a lecture to them for their alleged failure to enforce ordinances against gambling and Sunday liquor selling. Following this, he ordered the sheriff and marshal to gather the slot machines in the town of Brighton, and when they appeared later with the report that they could find only one, Judge Guthrie departed two men to arrest them for contempt. In the meantime both the sheriff and marshal disappeared. The report of the judge's action concerning the two police officers spread through the town and caused much excitement. Citizens began to gather on the streets, and fearing for his personal safety, Judge Guthrie, boarded a Union Pacific freight engine as it was pulling a train slowly through the town. He ordered the engineer to couple the engine from the train, it said, and run to this city with him threatening legal action unless the engineer complied with the order. The latter refused to obey the demand and while they were discussing the matter, a mob gathered around the engine and Judge Guthrie was dragged from the cab. He was told that he must rescind his order to arrest the sheriff and marshal, and upon being assured that he had already done so, the judge was released and allowed to proceed to this city on a passenger train late in the afternoon.

HYDE HAD NO RIGHT TO SELL EQUITABLE STOCK

NEW COMPLICATION APPEARS IN TROUBLE THE CONTROL OF RYAN.

New York, Oct. 2.—The transfer of the stock of the Equitable Life Assurance society, from James H. Hyde to Thomas F. Ryan, was attacked in an amended plea filed Saturday with the United States district court by the representative Herbert G. Tall, of Philadelphia. Tall's suit was to determine the ownership of the surplus of the surplus of the Equitable society. The amended plea states that Mr. Hyde could not give a good title of 502 shares of stock to Ryan, because it was merely held in trust for him until he was 30 years old, which age he had not yet reached. Thus it argues, Ryan was unable to give a good title to stock to the trustees, Grover Cleveland, Justice Morgan, J. O'Brien and George Westinghouse.

Laborers on Rio Grande Line Into New Mexico Quit Work When Pay Is Cut and Threaten to Destroy Whole System—Big Posse on Guard.

Special to the Morning Journal. Farmington, N. M., Oct. 2.—Yesterday eighty-five Greeks, who have been employed by the Denver & Rio Grande railroad in construction work here on the Durango-Farmington line, were informed that their wages would be reduced from two dollars to one dollar and sixty cents per day. On receipt of the news they all decided to quit work. Today the railroad came down to Flora Vista, where the Greeks were in camp, and paid them off. After receiving their pay they demanded passes to return to Durango, which were refused. The Greeks at once began to tear up the tracks. The sheriff, Sheriff Vaughn at Farmington, and Sheriff Thompson at Durango, in a short time Sheriff Vaughn had gathered twenty-seven deputies, armed with rifles, Winchester, and started on a special train to Flora Vista, the scene of the trouble. A special from Durango brought Sheriff Thompson and twenty deputies and they proceeded to the Denver & Rio Grande railroad company. After the arrival of both trains, an armed consultation was held and the representatives of the railroad agreed to pay the wages of the Greeks. The Greeks then refused to go or allow the tracks to be repaired unless they were granted passes to Denver.

CHICAGO'S FIRST WITH MUTUAL BANK

Distinct Novelty in the Financial World.

DEPOSITORS SHARE ALL PROFITS WITH STOCKHOLDERS

New Savings Institution Carries Profit Sharing Idea a Little Farther Than Ever Before Attempted by a Bank.

Chicago, Oct. 2.—Chicago capitalists today gave to the financial world something claimed to be distinctly novel, when they opened a new institution to be known as the Mutual Bank. The new institution is asserted to be the first of its kind in the country, which, organized under existing law, as a bank and owned and operated by the stockholders, divides its profit equally with its savings depositors. The mutual profit sharing plan under which the new bank is to be operated contemplates sharing profits equally between stockholders and savings depositors after the usual guaranteed 5 per cent semi-annual dividend has been paid to savings depositors and 5 per cent has been distributed to the stockholders. This profit sharing goes to the point where, if at any time the management of the bank desires to carry any surplus out of the earnings to the profit and loss account, it must be done out of the stockholders' share of the profits and not from that of the depositors.

JIM HILL'S BRIEF NOT RESPECTABLE

JEROME MAKES CAUSTIC COMMENT ON LATEST MOVE IN PATRICK MURDER CASE.

Albany, N. Y., Oct. 2.—The cause of Albert T. Patrick, who since March 26, 1902, has been under conviction for the murder of the aged millionaire William Marsh Rice at New York city in 1900, was again before the court of appeals today in an aspect as remarkable as any of the previous phases of the case, which throughout has attracted the attention of the public in the criminal history of this state. Patrick's counsel, former Senator David B. Hill, presented a brief in support of his motion for a retrial of the case, which was decided against Patrick by the court last June by a vote of 4 to 2. In the course of this brief he points out that a son of Judge John Clayton Gray, one of the judges of the court of appeals, and one of those who voted against the reversal of Patrick's conviction, was the assistant attorney of New York county and participated in the prosecution of Patrick.

NO CHANCE TO SAVE BIG STEAMSHIP

WRECK ON GOLDEN GATE ROCKS GOING TO PIECES

Much Freight Has Been Removed But Engineers Fear the Loss Will Still Be Very Heavy.

San Francisco, Cal., Oct. 2.—The steamer Alameda's engine room is filled with water and she is doomed to be broken up. Experts here have discovered that the vessel's plates have been torn away in many places and that it will be impossible for the pumps to remove the water. The greatest injury sustained by the Alameda was at the point where she first struck the rocks. Since then the tides have redoubled the strain upon her plates and torn her bottom open. It is the opinion of experts who have examined the wreck that the Alameda will go to pieces in a short time. The freight that is now being saved is for the most part undamaged. The forward hold has been held clear of the water thus far and the underwriters will be able to recover a substantial saving from this point. After the hold is for the most part submerged and the freight there may be a total loss.
