Hours of Disapproval for King and Ministry Greet Royal Rescript

Proroguing National Assembly.

Buda Pest, Hungary, Oct. 10.—Parliament was prorogued today by royal rescript until December, 1905.

Count Julius Andrássy rose and denounced the ministers who contrary to precedent failed to appear before parliament.

"The government," he said, "has thereby shown contempt of the house and has abandoned all pretense of conforming with the laws."

The protest which was presented in behalf of the coalitionists declared that the continuing refusal of parliament to be reconvened is unconstitutional because they render it impossible to impeach the cabinet.

Count Stephen Tisza, former premier, followed with a brief speech explaining that he refused to continue the debate, which he considered inadmissible after parliament had been prorogued.

"At 4:30 o'clock Monday, October 9, the bank of Pittsburg delivered to the Adams Express company at their office, 619 Wood street, Pittsburg, a package of currency containing \$100,000.

"This package was received and accepted for delivery by Edward George Cunliffe, who was then acting in the place of the regular money clerk, who was ill.

"Cunliffe left the office at the usual time last evening and this morning when he failed to report for duty a hurried examination was made of his department and it was learned that about \$1,000 of funds entrusted to him were missing.

"Inquiries made at his residence, 314 Laurens street, West End, Pittsburg, showed that Cunliffe arrived home at the customary time last evening and after changing his clothes and putting on his slippers, he turned on the light and nothing further has been heard from him.

"Cunliffe has been employed by the Adams Express company since March 1, 1904."

DELICATE MESSAGE FROM TURKS

Willis' Ear Encourages a Speedy Response.

ENGLISHMEN IN SALONICA FEAR FOR HIS SAFETY

Investigation Being Made of Demand of Brigands That \$5,000 be Paid for Release of Young Adventurer.

London, Oct. 10.—Much anxiety is expressed here regarding the fate of Willis, the Englishman recently employed by the Turkish tobacco revenue department, who, as announced yesterday in a dispatch to the Associated Press from Salonica, had been captured by brigands.

The Salonica dispatch said that the British consulate at Monastir had received a package containing a human ear, which, a letter accompanying the package declared, had been cut from Willis. The letter mentioned that Willis would be murdered unless the brigands were paid a ransom of \$5,000 not later than October 14.

Mr. Willis, who is about 27 years old, disappeared last July. He is a son of an engineer who for many years has been engaged in work in Turkey, and a brother of Percy Willis, the British consular agent at Ismid, Asia Minor.

He served as a volunteer in the British army during the Boer war and was returned invalided, afterward securing a position in the Turkish tobacco revenue department. He is of an adventurous disposition and is known to have strong revolutionary tendencies.

The foreign office today received information regarding the latest developments in the case. It is said that Robert W. Graves, British consul general at Salonica, had left for Monastir October 9, in connection with the receipt of the severed ear. The officials here and persons closely connected with the Macedonian government are inclined to believe that the ear does not belong to Willis, but was sent with the idea that the ransom demanded would be promptly paid.

"Inquiries made at his residence, 314 Laurens street, West End, Pittsburg, showed that Cunliffe arrived home at the customary time last evening and after changing his clothes and putting on his slippers, he turned on the light and nothing further has been heard from him."

Cunliffe has been employed by the Adams Express company since March 1, 1904.

At a meeting of the trust company section the question of federal control of trust companies was referred to somewhat extensively. No one came out squarely in advocacy of it, but each speaker voiced a decided sentiment in favor of adequate inspection.

The savings bank section voted to make an experiment in taking statistics of savings accounts throughout the country.

A publicity section was organized and various committee meetings held.

Houston, Oct. 10.—E. R. Gray, cashier of the Commercial National bank of this city, shot himself twice with a revolver today, dying almost instantly. POOR SHOWING FOR OUR ARMY

DISEASE RATE FAR ABOVE THAT OF ALL EUROPEAN MILITARY FORCES.

Washington, Oct. 10.—Of the twenty-one men of the United States army killed in action in the past year only two were by gunshot, according to the annual report of Surgeon General O'Reilly. Twenty-seven soldiers committed suicide. Ten deaths were due to homicide. Forty-five soldiers were drowned. 11 per cent of the total deaths from all causes, indicating that the soldiers' deaths by disease is too high.

There was a decided increase in insanity, but this increase was not incident to the service. Of the eighty-eight soldiers discharged for insanity the disease was noted as having been contracted before enlistment in twenty-two cases, and probably so contracted in eleven more. Eight soldiers were discharged as insane within three months of enlistment.

An unfavorable showing is made by the American army in comparison with other armies in the statement of diseases in the army. This is more apparent than real. In the American army the soldiers are admitted to sick reports and treated. In other armies they are promptly discharged. General O'Reilly says:

"The comparatively high American death rate for tuberculosis is explained by the fact that in the United States army soldiers are retained in service for long periods, while in other armies they are promptly discharged; the high admission rate is no doubt due to the present defective system of medical examination of recruits."

The undue prevalence of typhoid fever in the army is partly explained by its undue prevalence in the civil communities where the troops are stationed, as a result of the general failure to purify water and sewage in American municipalities.

M'CURDY NOT THERE TO MAKE MONEY

Declares Life Insurance Should be Philanthropy.

POLICY HOLDERS SHOULD NOT EXPECT ANY PROFITS

President of Mutual Has Queer Views About Uses to be Made of Other People's Money.

New York, Oct. 10.—The pension of the insurance investigating committee was terminated for the week at adjournment today, because of the death of S. Fred Nixon, speaker of the assembly of the legislature of New York, at his home in Westfield.

The testimony today did not elicit any information of a sensational nature beyond what had been discovered in the testimony of previous witnesses. The feature was the presence as witnesses of the executive officers of the Mutual Life insurance company. These were President Richard A. McCurdy and Vice Presidents Granites and Gillette.

While it had been hinted last week that some expenditures charged to legal expenses might have been contributions to campaign committees, it was announced definitely by Dr. Gillette that the Mutual Life contributed \$40,000 to the republican national committee last fall, that in 1900 \$35,000 was contributed and in 1901 \$10,000 was given for campaign purposes.

Dr. Gillette testified that he paid these amounts personally in cash, and later in the day McCurdy said that while he knew campaign contributions had been made, he did not know the amounts. He said that no contributions had been made to campaign committees before 1896 and that no contribution to state or municipal campaigns have ever been made in this or any other state.

President Granites knew little about the contribution to campaign funds, but justified them on the same grounds as President McCurdy of the New York general election platform, in reference to the interests of the policyholders.

PRESIDENT M'CURDY WAS ON THE STATION ALL OF THE AFTERNOON SEAN, TOWARD THE CLOSE OF THE SESSION M'CURDY MADE THE STAIRING STATEMENT THAT AN INSURANCE COMPANY WAS NOT AN INSTITUTION FOUNDED TO MAKE MONEY FOR THE POLICY HOLDERS, BUT WAS OR SHOULD BE, A GREAT PHILANTHROPIC ENTERPRISE FOUNDED TO INCREASE AND SPREAD ITS BENEFITS OVER THE ENTIRE EARTH.

"There has been a great mistake made," he said, "about the real province of life insurance companies in these latter days. People have been led to believe that the main purpose was to make money for its policy holders. In my view that is not the purpose of such companies. They are philanthropic. When a man insures a company he enters into a contract the fact that he has entered a great philanthropic concern that is in duty bound to spread itself, even though this growth prevents him from realizing as much as he expected."

Big Bill for Lunch.

Gillette testified that the Mutual company paid \$23,371 last year for luncheons for its clerical force in this city. This was at the rate of almost \$250 a day.

No Limit to Expense Fund.

From the testimony elicited today, it appeared that there is no limit to the money the Mutual's committee on expenditures is authorized to be paid out. General Solicitor Gillette admitted he could get \$25,000 whenever he pleased, without disclosing the purpose for which it was to be used. The Mutual's regular expenses in 1904 were \$264,000, while those of the New York Life were \$174,000, and those of the Equitable \$204,000. The Mutual's expenses in 1905 were \$5,475,359, in 1903 were \$6,721,352, and in 1904 \$7,199,530.

Wilson the Only Farring Note.

Washington, Oct. 10.—There is any harrington note in the welcome the southern states are preparing to extend to the president during his trip to New Orleans this month it will arise from the cotton report issued in the department of agriculture. The Southern Cotton Producers' association, through its president and secretary, has announced its belief that Secretary Wilson should raise and see repudiated R. S. Peters, the association's vice president, who came out in support of Mr. Wilson. It may be that the growers will tell the president that his secretary's administration has been incompetent.
