

And other things needed for painting anything and everything from a small box or a chair to a house, inside or out, will be found in our stock. Painting, when you do much of it, costs too much to be done badly. You might much better not paint at all than be dabbling around with some miserable stuff that will be quickly worn off. Save money by coming to a reliable establishment like ours and getting something that you can wager ten to one is a first-class article and full value for the money it costs.

BRUTALITY OF ENGLISH MOBS

Dastardly Treatment of Rider Haggard, the Famous Novelist, While Visiting Polling Places.

Pelted with Mud and Stones—Ladies of His Party Badly Hurt—Beautiful British Election Methods.

London, July 20.—If further evidence was needed of the brutality of English mobs on election day it was furnished yesterday in the eastern Norfolk district, where H. Rider Haggard, the novelist, was the Conservative candidate. He made a tour of the district in a four-horse drag and was repeatedly pelted with mud and stones. Near Latham, Miss Cartwright, a member of Haggard's party, was cut on the head by flying missiles, and at Stalham the party was obliged to take refuge in a hotel, which was besieged by a mob of 800 persons, who fled when the police appeared. Haggard returned to North Walsham, escorted by mounted police. Miss Cartwright was too ill to be moved. At Walsham, Haggard made a speech, in which he said that, in all his travels, he had not seen such dastardly conduct. Haggard was defeated, the vote standing: East Norfolk, R. J. Price, Liberal sitting member, 4,678; Rider Haggard, Conservative, 4,480; Liberal majority, 198; loss of 242.

WHO'LL GET IT?

Six Cities in the Field for the Next National Republican Convention.

Columbus, Ohio, July 20.—Hon William Hahn, secretary of the National Republican executive committee, said last evening that he met Chairman Carter of the national committee some days since and they discussed the probable time of the next meeting of that organization and contended that it ought to be some time in September or October. Mr. Hahn said: "I think it will make it as early as September or October, so as to give any one of the several cities which are applicants to secure the location of the convention ample time in which to prepare. I would vote and use what influence I have in favor of either Cleveland or Cincinnati, provided they are applicants."

Postmistress Burned. San Diego, Cal., July 20.—The post-office and an adjoining grocery store, at La Pressa, fifteen miles east of here, were burned last night, and the body of Mrs. Louise Schaeffer, the postmistress, was found in the ruins to-day.

Defender Wins a Race. Highlands, N. J., July 20.—In the yacht race to-day the Defender, the new yacht, beat the Vigilant by about three minutes over a thirty mile course.

POINTS ESTABLISHED. Harvey Comes Strongly to the Front in Support of His Side of the Colnage Debate.

Chicago, July 20.—The fourth day of the Hor-Harvey silver contention opened in the Illinois club at 1 o'clock this afternoon. Mr. Harvey opened the talk with a statement of the points so far established. They were that prior to 1873 gold and silver were the money of the constitution; that silver was the unit of value up to that time; that the debtor was permitted to pay in the cheaper money, and that silver was not demonetized because of any over production at the time the act of 1873 was passed. Taking up the debate proper, Mr. Harvey denied that he had at any time tried to impeach the integrity of the American people, but he did not propose to allow corrupt legislators to throw the mantle of national honesty around them for their own protection. The speaker recognized the integrity of the American people and it was to that he appealed. The speaker then resumed his statement, interrupted at the close of the talk on Thursday, of the various steps leading up to the passing of the act of 1873.

Officers of Baptist Union. Baltimore, July 20.—In the Baptist convention to-day the announcement was made that Frank L. Wilkins, general secretary of the union, was unanimously elected by the board of managers; W. H. Merritt, re-elected as business manager, and H. A. Cuppy, elected managing editor of the Baptist Union.

Silver Meeting at Austin. Austin, Tex., July 20.—At the silver meeting, called for to-day by ex-Gov. J. S. Hogg, ex-Treasurer E. R. Lubbock and others, to elect delegates to the Ft. Worth silver convention, just seventy persons were present, half of whom were Populists. Gov. Hogg made a speech, denouncing Cleveland and Carlisle, and said that their action in selling bonds was perfidious.

THE GOVERNMENT'S VIEW. Washington.—Secretary Carlisle expresses the opinion that no serious results would follow such boycott.

His conclusion was based upon figures regarding the circulation of national bank notes. The amount of these outstanding June 1, 1895, was only \$206,579,490 and of this amount about \$20,000,000 are held by banks. National bank notes never have been made legal tender by statute, so it is true it would be impossible to force any person to accept them in individual transactions. They are, however, available for use by the government in payment for all its obligations except for interest on the public debt and redemption of national currency. They are also receivable by the government as taxes, excises, for public lands and for all the obligations due the government except duties of imports.

Section 6, paragraph 198, provides that national banks are compelled to accept these notes as legal tender.

Electric Storm in Kansas. Ellsworth, Kan., July 20.—A severe electric storm passed over Ellsworth county, about 3 o'clock this morning. Lightning struck the house of Eli McHenry, instantly killing Eli McHenry, Ed Crimes and Frank Brown. They leave large families.

Hunts for the Body of the Williams Girl—Three Partly Charred Human Ribs and Part of a Woman's Shoe Found—Holmes Says He Can Prove an Alibi.

CHICAGO WAS STARTLED.

Disclosures that Point to Holmes as a Kidnapper as Well as a Murderer of Children.

Hunting for the Body of the Williams Girl—Three Partly Charred Human Ribs and Part of a Woman's Shoe Found—Holmes Says He Can Prove an Alibi.

Chicago, July 20.—Some years ago Chicago was startled by the bold kidnaping of Little Annie Redmon, daughter of a south side blacksmith. Her abductors, while keeping her identity a secret, admitted in notes to the parents of the child that their sole object was to hold her for a big ransom. The kidnaping, as afterwards proved, was done by Mrs. Geerly, who was sentenced to five years in the penitentiary. Mrs. Geerly refused to talk much about the case, but threw out hints about having done the job at the instigation of other parties. Since the exposure of the Holmes rascality it has been ascertained that the Geerlys were not only neighbors of his, but were on intimate terms socially with him. It is clear enough now, to those who have investigated the matter, that the mysterious abduction of the Redmon child was a job put up by Holmes, and that he used the Geerlys, over whom he had some queer control, as tools.

Search for the body of the missing Williams girl was begun early to-day in a house in Englewood, formerly occupied by the alleged murderer, H. H. Holmes. Yesterday's developments had led to the belief that evidences of the supposed crime were concealed somewhere about the house, and the suspicion of the neighbors and detectives pointed strongly to a large cellar, in which a disagreeable odor had been detected. Every foot in the cellar will be dug up.

STARTLING DISCOVERY. An examination of the large grate of the Holmes stove to-day resulted in another startling discovery, when three charred bones, resembling human ribs, were found among the ashes. The finding of the three supposed ribs, with a partly burned woman's shoe, the buttons and pieces of the cloth, was considered by the police as practically proving at least that a portion of the body of a woman had been cremated.

INSISTS HE CAN PROVE AN ALIBI. Philadelphia.—The Press to-day prints an interview with H. H. Holmes, who insists that he can prove an alibi with reference to the murder of the Pietsel children, in Toronto, and Minnie Williams in Chicago, and says that the authorities here can not prove that Pietsel was murdered in this city.

BUNCH OF HUMAN HAIR FOUND. Chicago.—Later—Late this afternoon a bunch of human hair was found in a chimney of the Holmes house by newspaper reporters. The hair was pronounced that of a woman. The appearance of the locks led to the belief that they had been drawn from the head and drawn up the stove-pipe.

Sentenced to Be Hanged. Chicago, July 20.—Silveria Borelli was sentenced to be hanged by Judge Stein to-day. He killed Dominick Parento on last Thanksgiving day. Borelli's wife fainted when the sentence was given and was carried unconscious from the court room.

Firemen Injured. Philadelphia, July 20.—While going to a fire to-day the hose cart overturned. C. Riders' skull was fractured and he died in a few minutes. Peter Collins, W. McMahon, Wm. Murphy and Pat O'Connell received serious injuries.

Saratoga Regatta. New York, July 20.—The regatta program of the National association of amateur oarsmen was completed at Saratoga lake this morning, by the rowing of the deciding heat in the single sculls. Chicago won by two lengths.

TO-DAY'S CONDENSATION. In a feud fight at Larned, Miss., between the McRae and Terrill factions, fifty-two shots were exchanged. Two men were killed, one was mortally wounded and several were seriously injured.

At Washington, it is stated authoritatively that no assurances have been given to Mgr. Satali that the papal decree regarding the Knights of Pythias would be reconsidered, with a view to its modification and possible annulment.

The fruit crop report of the agricultural department for July shows a material decline in condition, particularly as regards peaches and apples. Frosts have done much damage to grapes, and especially in the more northern belt and central west.

At Denver little Lillian May Alnutt, over whom her relatives are waging war, is now under the eye of the sheriff and will so remain until this afternoon, when Judge Johnson will hear the case on its merits. The child's father is not "a wealthy resident of Buenos" as stated in the dispatches. He is a traveling barber and once lived at Rincon for a few weeks.

Helping Out Walker. Kansas City, Kan., July 20.—State Representative J. K. Cobbleson, of this city, has received a letter from Paul Bray, a stepson of John L. Walker, the ex-United States consul at Tsamatawa, Madagascar, who is now in the French prison at Chateau d'If. In the letter Bray asks Walker's Kansas City friends to raise \$500 to loan him until he gets a settlement from the French government, against which he has made three separate claims for indemnity.

It is probable that a public meeting would be called to raise the money. Walker formerly lived here, and his friends are much concerned over the sudden turn of events which has landed him in prison on a twelve-years' sentence and left his family unprotected and unprovided for in Madagascar.

KINDERGARTEN. Miss Guilford will, when her private classes resemble those of a kindergarten, open a kindergarten on the most modern and approved principles, assisted by another thoroughly trained teacher.

TEXAS MORALISTS PREVAIL.

The Texas Ministers Will Not Permit the Great Fight on Texas Soil.

Galveston Has a Pull and Dan Stuart Will Look Into Its Proposition.

Dallas, Texas, July 20.—At the Corbett-Fitzsimmons athletic headquarters an order was received for 250 \$20 seats. It was accompanied by a check for \$5,000. Work is progressing on the big building, the seating capacity of which is 52,000, but the opposition to the fight is developing so much strength that it may go elsewhere.

Galveston wishes to get the contest. The capitalists and business men of that city have appointed a committee to go to Dallas and make a proposition to President Stuart, of the Florida Athletic club. Stuart said that Galveston's proposition was a liberal one, including ground and building fees and that he would go there to-night to see about it.

Austin.—The ministers of Austin are out in a publication advising the morally inclined element of the state to rally to their support in trying to suppress the Corbett-Fitzsimmons fight at Dallas. They desire all people who love good morals to write a vigorous protest against the fight and send it to Austin, and they propose to compile the data and submit it to the governor.

Las Vegas Optic: Father Defouret, parish priest on the west side, is engaged in the very laudable endeavor to have a steel ceiling, like that in the ground floor of the Masonic temple, put into the west-side church. The ceiling of the church was made of common sheathing, in the first place, and has been in use for twenty-six years. The weight of accumulated dust which it bears, with its growing weakness from age, is liable to precipitate it upon the heads of the congregation at any time. Father Defouret will gladly accept any donations which may be offered him from the east side, and the Optic hopes they will be many.

A fancy metal toy, shaped something like a pocket flask, and having springs inside of it, was found among the debris of the A. T. & S. F. depot at Silver City. Soon it was noticed about that this was an infernal machine which had been wound up and set to start on fire after every one had left the premises. Mr. Chas. Dyer, general superintendent of western grand division, and J. E. Hurley, division superintendent, arrived Tuesday evening. They examined the supposed incendiary machine. They scouted the idea that it was ever used for any such purpose. The lost property amounted to \$4,500, mostly on railroad buildings. There was very little freight stored in the freight house and very little baggage in the baggage room.
