FLAMES IN PHILADELPHIA.

Quaker City Visited by One of the Fiercest Conflagrations in Its History To-day.

Immense Paper Box Factory and Many Dwellings Burned—Fire Department Slow—Water Supply Deficient—Loss Over \$500,000.

Philadelphia, Aug. 12.—One of the fiercest fires that ever visited this city originated at 8:30 this morning in the rear of the paper box factory of Brown, Bailey & Brown, 412 Franklin street. The building, five stories high and extending through to Eighth street, is a complete loss.

The factory was surrounded by small dwellings. The flames leaped across Willow street to the dwellings on the south side of that thoroughfare and are rapidly eating their way through to Callow Hill street, a block south. A strong breeze, from the northwest is blowing the flames and it seems almost impossible to save the dwellings on the south side of Willow street, between Franklin and Eighth streets. The dwellings and stores on Eighth street, north of Willow, are burning fiercely.

It is reported that three employees were burned to death in the box factory, but this can not be verified. The flames are spreading rapidly, and the block, bounded by Franklin, Willow, Eighth and Callow Hill streets, will probably be a total loss. In the rear of Brown's factory and facing on Eighth street was Buck & Co's big gas fixture and chandelier factory. This firm carried a big stock and its loss will be heavy.

Yeager & Davis' big coal yard on the southeast corner of Eighth and Willow streets is burning at this hour, 10:30 a. m. Several firemen, overcome by the intense heat, were removed to the hospital. The loss at this writing is about \$500,000.

GREAT PHILADELPHIA FIRE IN DETAIL.

The fire started at 8:30, but it was nearly 9 before an engine responded to the alarm. The delay proved disastrous. The firemen turned their attention to saving the adjoining buildings, but the supply of water was inadequate and it looked for a time as if the whole block, bounded by Franklin, Eighth, Willow and Callow Hill streets, would be swept away. The firemen worked heroically until 11:15, when the fire was under control. The principal losses are Brown & Bailey and Buck & Co. The former's loss will reach \$150,000, with insurance of \$100,000. Buck & Co's loss is between \$100,000 and \$125,000, with insurance of between \$75,000 and \$80,000. Yeager & Bro., coal dealers, place their loss at about \$20,000, while the loss on burned dwellings is about \$50,000. Several firemen were hurt, but none fatally.

ASSUMES JURISDICTION.

Opening Skirmish of Legal Giants in Atlantic & Pacific Receivership Case at Albuquerque.

Denver, Aug. 12.—A special to the Times from Albuquerque says: The first mortgage bondholders' application for separate receivers for the Atlantic & Pacific division of the Santa Fe system was called to-day before Judge Collier. Judge Steery, general counselor for the Atlantic & Pacific, who is resisting the application, argued that the court had no jurisdiction, especially during vacation. Gen. John W. Noble and F. G. Jennings, counselors for the Atlantic & Pacific reorganization committee and the Union Trust company, argued that the court had jurisdiction. The court sustained the latter, after which a recess was taken until to-morrow.

RED FLAG AT PITTSBURG.

Italian Strikers Attack Men at Work—Strong Resistance—Several Injured on Both Sides.

Pittsburg, Aug. 12.—One hundred Italian laborers, formerly employed by Booth & Fling on street improvements, now on a strike for an advance of 25 cents per day, attacked the workmen on the Squirrel Hill this morning. The workmen made strong resistance, and several were injured in both crowds, but none fatally. The police captured twenty-one rioters marching under a red flag.

NORTH CAROLINA RIOTERS.

Notices Given Out in Colored Churches—Cause the Organization of a Negro Mob in Winston.

Winston, N. C., Aug. 12.—It was given out in the colored churches yesterday that an attempt was to be made to lynch Arthur Tattie, a negro, on trial here for the murder of Policeman Vickers last May. After church, 150 negroes marched to the jail, armed with pistols and guns. Mayor Gray assured the negroes that there was no danger of a lynching, but many of the mob refused to leave. Sheriff McArthur ordered out the Forsythe riflemen and more in a number of companies. The mob began firing at the officers, several of whom were struck with bird shot, but none were seriously wounded. The riflemen fired several volleys into the crowd, causing the negroes to disperse in quick order. Fourteen rioters were arrested.

Colorado Marshal Killed. Denver, Aug. 12.—A special to the Times from Victor, Colo., says: Marshal Wm. Shea, when attempting to arrest Patrick Gibson for disturbing the peace, was shot and killed by the latter's brother, Bill Gibson. The Gibsons escaped and a posse is pursuing them. The Gibsons are deputy sheriffs.

SILVER MEN WIN.

Brice Beaten in His Home County—Bimetallism in Europe.

Lima, Ohio, Aug. 12.—The free silver men succeeded in getting the best of the day at the home of Senator Brice at the convention. Seven out of the ten delegates chosen from Allen county to the Democratic state convention are for free silver. The silver men seem to have caught their opponents unawares. They claim to have also carried the Lorain county Democratic convention.

THE FOREIGN SITUATION.

London.—The bimetallic question seems again coming to the front. Hitherto the German government's action has not been regarded in financial circles here as a serious attempt to deal with the question, but as only intended to quiet the demands of the agrarian party in Germany. On the other hand the Associated Press is informed by the officials of the bimetallic league in London that advisers which have been received there leave no room for doubt that there is a general desire among the Berlin authorities to promote an international monetary conference which would not be merely one of a doctrinal character, but which would aim at practical results. There is no doubt that the London gold men have been taken aback by the large number of members of the present British cabinet who are bimetallicists. For the same reasons the bimetallic league is greatly excited and is prosecuting a more extended agitation throughout the industrial and agricultural centers of the country. It is distributing literature broadcast, while its agents are very active in pushing their propaganda, which, moreover, is having the co-operation of some labor leaders.

NERVY DEPUTY MARSHAL.

Single-Handed He Held a Gang of Oklahoma Outlaws with His Winchester.

Kansas City, Aug. 12.—A special to the Star from Esfalia, I. T., says: The outlaws expected here to-day rode into town a few minutes ago. Deputy Marshal Johnson encountered them alone and with a Winchester held them in place until Deputy Sheriff Weeks, of Hancock, O. T., and a posse came up. The gang was completely surprised. They were disarmed of their Winchesters and pistols and proved to be the men wanted. They are charged with all the crimes from horse stealing to murder. Officer Grant Johnson will take them to Fort Smith to answer for recent depredations in the Creek Nation, after which they can be tried by the Oklahoma authorities.

PAGANS AND MISSIONARIES.

United States and England Urged to Intervene in Behalf of Their Subjects in China.

State Department Fully Alive to the Situation—Views of Minister Denby—Navy Department Has Ordered Detroit to Foo Chow.

Special Tien-Tsin Dispatch. Copyrighted 1895 by the Associated Press.

Tien-Tsin, China, Aug. 12.—A meeting of foreign residents of this city was held here to-day. It was decided to communicate by cable the necessity of the immediate intervention in China of the United States and British governments, and the following telegram was addressed to the Associated Press:

"The foreign community of Tien-Tsin express sympathy with the friends of the Ku Cheng victims. They consider the Chinese officials guilty and the British and Americans blame the continued apathy of their governments for the situation. They regard England's demands for an inquiry into the Ku Cheng massacre to be useless, for, as before, the officials will buy innocent heads as substitutes for the actual criminals. They protest that the Czechoslovak commission implied the officials of that province. England and America must send an ultimatum threatening reprisals. Diplomacy means. We implore attention. Signed, Dieckman, chairman."

STATE DEPARTMENT ALIVE TO SITUATION.

Washington.—Acting Secretary Allen, of the state department, to-day sent the Associated Press cable from Tien-Tsin, and said that nothing of the kind had been received at the state department. He furnished the following statement: The state department has received a reply from Minister Denby to the effect that he is in the city of Tien-Tsin, and is relative to the reported looting of the American missionary property at Yung Fuh, near Foo Chow. Minister Denby urgently represented the facts to the yamou on the 10th, and obtained instant promises of protection and redress. Yung Fuh is believed by the officers of the state department to be the same as Sung Fuh and Ing Hok, mentioned in the press telegrams, the variations in name being doubtless due to erroneous transmission over the trans-Siberian cable, in the course of which many transcriptions and repetitions are necessary.

WHAT THE NAVY DEPARTMENT IS DOING.

Acting Secretary MeAdoo, of the navy department, dictated the following: "The navy department received this morning from Admiral Carpenter a cablegram announcing that he had dispatched the Detroit to Foo Chow, the nearest point for that vessel to reach the scene of the nearest disturbance."

A cable was received this morning from Capt. Newell commanding the Detroit, announcing his arrival to-day at Pagoda anchorage, about nine miles below the city of Foo Chow.

Another cable has also been received from Admiral Carpenter, announcing his departure from Nagasaki for Che Foo, China. The Foo is the nearest and best port for communication with the American minister at Peking.

The department has again to-day called Admiral Carpenter regarding matters in China and advising him to keep in close and constant communication with Minister Denby. A dispatch from Denby indicates that the American minister does not share the views of other citizens in China, who think that reprisals should be made. A high official of the navy said to-day that it would not be right for United States war vessels to begin bombarding Chinese towns and killing Chinese people, who are entirely innocent, because these riots have taken place in the interior, especially since the Chinese government has already assured our minister that everything possible is being done to prevent further trouble and to bring the offenders to justice.

Another Body Recovered.

New York, Aug. 12.—The body of another victim of the West Broadway disaster, the fourteenth thus far, was unearthed to-day.

Spinner served under General Merritt in the "fighting fifth" during the Indian wars in the west.

With the Beckman stamp mill running full blast night and day, the Santa Fe & Cochiti railway soon to be built, smelters to be erected at Cerrillos and at the river, mines working to their full capacity, the Crown Point shipping a car load of ore to Pueblo daily, Bland is rapidly coming to the front. Keep your eye on Bland, if you want to make money.—Bland Herald.

He came to California forty years ago and was one of the most prominent men in the state.
