Are you taking SIMMONS LIVER REGULATOR, the "KING OF LIVER MEDICINES?" That is what our readers want, and nothing but that. It is the same old friend to which the old folks pinned their faith and were never disappointed. But another good recommendation for it, is that it is BETTER THAN PILLS, never gripes, never weakens, but works in such an easy and natural way just like nature itself, that relief comes quick and sure, and one feels new all over. It never fails. Everybody needs take a liver remedy, and everyone should take only Simmons Liver Regulator.
Be sure you get it. The Red is on the wrapper. J. H. Zeilin & Co., Philadelphia.

J. B. SLOAN, Clerk.

SPECIAL COURT FUNDS.

The Law and the Facts Regarding the Expenditure of the Money Provided by the Legislature for Court Purposes.

The Albuquerque Citizen and the San Juan Index are painfully unhappy about the disposition that has been made of the special appropriation made by the last legislature for court purposes, and intimate that Santa Fe has improperly secured more than its share thereof.
What are the facts? Chapter 22 of the laws enacted by the 31st legislative assembly of New Mexico provides that "in payment of the expenses of holding any regular or special term of the district court for any county of the territory, any such district court so held may issue certificates of indebtedness against the territory of New Mexico, which said certificates of indebtedness shall be issued only for such expenses of such courts as shall be approved by an order of the court in which such expenses shall be incurred," and the same act further provides that, upon being duly presented with such certificates or certificates by the clerk of the court authorizing the issue of the same, "it shall be the duty of the auditor of public accounts of the territory to audit and approve such certificates or certificates and draw his warrant for the amount thereof upon the territorial treasurer, payable out of the funds of this territory due to said territory by the Albuquerque National Bank and the New Mexico Savings Bank & Trust company, of Albuquerque, and not otherwise: Provided, That the certificates as aforesaid shall not be issued in excess of \$6,175 for any such expense incurred in any one judicial district in this territory." And an act of the legislative assembly of 1887, still in full force, provides: "That all warrants drawn by the auditor of the territory upon the territorial treasurer, payable out of the moneys of the territory as they shall come to his hands."
Since the passage of chapter 22 by the last legislative assembly, Receiver Schofield, the defunct Albuquerque National bank, has paid into the special court fund created thereby dividends collected on account of the Albuquerque National bank to the amount of \$9,766.42. Against this fund the courts have drawn as follows:
First judicial district, \$4,951.22; 2d judicial district, \$100.45; 5th judicial district, \$3,904.10, making a total of \$8,955.77, all of which has been paid in cash in strict conformity to law, and there is still a cash balance of \$810.65 in this special fund. As it is probable that the Albuquerque National bank, under the present receivership, will come near paying out in full, this fund will unquestionably be swelled by subsequent dividends so that each judicial district will receive its full apportionment of \$6,175 in cash. It is true that the 1st and 5th judicial districts have so far drawn nearly all of the money in the suspended banks fund, and the 2d and 4th districts have drawn nothing, but this is no fault of either the territorial or court officials. It was done just as the law directs and was clearly the result of urgent criminal business in the 1st and 5th districts.
The most of the amount used in this district was expended in holding the late special term of the district court in Santa Fe county; but the fruits of that special term—seven red-handed murderers convicted and sentenced to die on the gallows—are so substantial and so creditable to the entire territory that no friend of law and order ought to be dissatisfied, even if more of the cash in the special court fund was unavoidably used during the term than any one anticipated at the beginning.

When once the trial of the murderers of ex-Sheriff Chavez was commenced, it could not be stopped until the jury brought in a verdict, and even if it had been possible, the New Mexican is persuaded that no good citizen of the territory would have wanted it suspended short of a verdict calling for a suspension of the seven murderers. Similar circumstances surrounded and rendered imperative the expenditure of the \$3,904.10 in the 5th judicial district. It was unavoidably used to promote the ends of justice. Possibly the law would have been more equitable if it had provided for an apportionment of the cash as it came into the special fund to the credit of the respective districts, but that was clearly not done, and if blame attaches to any one in the premises it is to those who framed and enacted the same.
In reiterating its foolish complaint about the recommendation of Judge Laughlin that \$3,000 should be levied in San Juan county for court purposes in 1896, the San Juan Index goes entirely outside of the record and the realm of truth to find an excuse for finding fault with the New Mexican. It insists that the assessor of San Juan county was delayed in completing his work by the slowness of the New Mexican in filling his order for tax schedules. The ignorance of the Index on this subject is dense as old cheese. In the first place assessors do not order the blanks they require. They simply designate the number needed and the blanks are ordered by the territorial auditor. And, in the second place, the blanks for assessors could not have been ordered by the auditor nor printed by any one before the passage and approval of the appropriation bill, the change in a line of which might have changed the form of the blanks, and the appropriation bill passed by the last legislature did not become a law until February 27, 1895. Then the order for assessors' blanks was placed with the New Mexican, the necessary paper was

ordered by wire from Boston, the 70,000 blanks were twice run through the ruling machines of this office and twice more through its press, and the entire order was filled and the blanks delivered in less than thirty days after the appropriation bill became a law. Possibly the Index office could have done better; certainly no other printing plant in New Mexico could.
For the further information of the Index it may be added that the paper could not have been ordered in advance of the passage of the appropriation bill because it is always of a peculiar kind, useful for no other purpose than assessors' blanks, and no prudent business man would think of investing several hundred dollars in stock of this kind until he knew what was required by law.
Regarding the \$3,000 tax levy recommended by Judge Laughlin, the Index misrepresents the views of the county commissioners and nine-tenths of the intelligent people of San Juan county. They realize that the recommendation was proper and timely and have acted accordingly. The Index simply misstates the facts when it intimates that this \$3,000 levy was intended to be in excess of any other levy for court expenses in San Juan county for 1896. Of course the county commissioners were not in any way bound by the recommendation of Judge Laughlin; they might have fixed the levy at a much less amount; but they would have had no longer terms of court than they made money provision for. They doubtless acted wisely in modifying their tax levy for court purposes to conform to the recommendation of the presiding judge.

IN THE WORLD OF BEAUTY

Cuticura SOAP
IS SUPREME
Not only is it the most effective skin purifying and beautifying soap in the world, but it is the purest, sweetest, and most refreshing for toilet, bath, and nursery. It strikes at the cause of bad complexion, falling hair, and simple baby blemishes, viz.: THE CLOGGED, INFLAMED, OVERWORKED, OR SLEAZED PORES.
Sold throughout the world. BOTTLED BY CUTICURA, LONDON. FOREIGN DEPOT: H. & F. CO., LONDON.

ROSEATE SHOWING.

Crop Reports from All Parts of New Mexico Continue Most Satisfactory—Promises of Plenty.

U. S. DEPARTMENT OF AGRICULTURE, Weather Bureau, Santa Fe, N. M., Aug. 13, 1896.
The past week has been moderately cool with partly cloudy weather. Frequent showers have occurred and in a few cases accompanied by hail, which did some damage.
The frequency of rain has made it difficult to harvest crops of grain and alfalfa. Corn has grown rapidly and is looking very well. Fruit of all kinds is in splendid condition and the yield of apples will be very large.
The stock ranges are in the best possible condition and in many places a good crop of grama grass can be cut for hay. Stock is in good condition and in a few weeks will be very fat.
The following extracts from a few of the reports received at this office will be found of interest:
Bernillo.—Brother Gabriel.—Heavy thunder and lightning with high wind and rain on the 6th and 8th, doing some damage to crops, causing them to "lodge down." Apples this season are very large in this locality, some measuring twelve and one-half inches in circumference.
Eagle.—E. J. Westervelt.—This week has been cool and dry on the plains, but there have been thunder storms in the mountains nearly every day.
Gallinas Springs.—J. E. Whitmore.—The past week has been very favorable for corn and all other crops and grass on ranges has not been so good since 1880.
Las Vegas.—Dr. F. H. Atkins.—This week also has been damp, therefore crops are maturing rather slowly. There has been some damage to alfalfa from the excessive moisture. Irrigated crops are exceptionally fine this moist season.
Las Cruces.—New Mexico Agricultural College.—The weather has been somewhat cloudy and uniformly warm. We had light rains, but no hard winds. Plants are not making so rapid growth, as they are now maturing. Grapes are ripening, some varieties give indication of being troubled with black rot.
Monero.—D. W. Caldwell.—Crops have made excellent progress during the past week. The potato crop will be considerably better than was expected. Oats and other small grains are being harvested.
Ocate.—E. M. Cosner.—The week has been a cool, cloudy and wet one. Wheat in the low level places is so tall that it is being lodged by the light winds which strike it. Corn is very backward, in fact, we are having to watch rain.
Ranchos de Taos.—A. Guadof.—And still it rains! Retarding hay and not doing much good to crops. We have had about enough for a while. On the 5th we had a hail storm which lasted about two minutes; the hailstones being very large, did some damage in places, although the area affected was not large. If the rains would now cease, wheat and oats would be ready to harvest in ten or fifteen days.
Rincon.—C. H. Raitt.—The week has been warm and somewhat cloudy, with an occasional light shower. The temperature has been remarkably uniform, particularly at night. Plant growth of every kind has been very good.
Santa Fe.—U. S. Weather Bureau.—The past week has been very favorable for the growth of all crops. With the exception of peaches the fruit crop will be the largest ever grown in the county. Corn in splendid condition. Frequent showers make harvesting slow and difficult.
Springer.—D. Coughlin.—Generally cloudy and warm with frequent showers. Heavy rain and hail on the 10th doing considerable damage to garden truck, which had attained excellent headway under the influence of the refreshing showers.
Watrous.—Dr. E. J. Pring.—Hailstorms have been frequent, but doing very little damage to standing crops. The temperature has been unusually low and crops are suffering from too much rain.

ROUND ABOUT TOWN.

Capt. Pershing, lately agent at the narrow gauge depot, has gone to Creede to take the D. & R. G. express agency.
The Madrid Black Diamonds play in Albuquerque on Sunday next, thus postponing the Madrid-Santa Fe game another week.
City Marshal Gold last evening arrested Tung Lee for selling tobacco to little boys and he will be accorded a hearing before Justice Borrego this afternoon. This is Tung Lee's second or third offense.
All work on the \$20,000 improvement in hand at the National military cemetery is progressing most satisfactorily. The stone work on the lodge will be finished by Friday. Mr. Crichton has been employed by Dignoe Bros. to do the carpenter work.
Mrs. Brown, of Washington, D. C., sent out as principal teacher at Ramona Indian school for girls, has received notice that she has been appointed superintendent in full charge of the school, the department having wisely decided not to add to the official responsibilities of Col. Jones. The Ramona school will be opened early next month.
The attention of Postal Inspectors Fredericks and Waterbury is again called to the many complaints respecting the prompt delivery of mail. Here is a sample from a Denver business man: "I am a subscriber to the daily New Mexican, but it has been coming very irregularly, and of course I am disappointed whenever I fail to get it."
Miss Dusenberry, the Colorado bike-bloomer girl, surprised the local talent last evening and came wheeling gaily around the plaza just as the twilight concert opened. Mr. Arthur Knebel acted as her escort. The wheelmen were wild to catch a glimpse of her face, but a heavy black veil prevented that. She left this morning for the south, with Ed. Andrews as pace-maker.
General Agent Helm hopes to induce the D. & R. G. people to put on chair cars in and out of Santa Fe next month, or as soon as the road improvements now in hand are finished. Practically, the whole of the Espanola line is receiving new ties and heavy rails will be laid between the White Rock canon crossing and Espanola. South of that point the steel is first-class.
Kinlock, the Sinden's third baseman, who recently played here, has come back to Denver. Kinlock had a trial on the St. Louis national league team, and did well, whereupon the sick player whose place he was filling got well with remarkable promptitude, and there was no vacancy for Kinlock. He is a fine third baseman, and the way he lines them over to first shows that his wing is a brand. It is said that Rowe will try him on the Denver association team soon.
At the special meeting of the New Mexico Horticultural society yesterday Prof. T. D. A. Cockerell, entomologist of the Agricultural college, gave a most interesting lecture upon the insect pests found in this locality, their life history and kindred subjects of importance to all horticulturists. The lecture treated all topics touched upon in a fluent and facile way which betokened his intimate knowledge with his subject and was intelligible to the youngest as well as the oldest of his hearers.

Sores Disappeared.
"I have been suffering with sores on my face. I was unable to sleep and had no appetite. I began taking Hood's Sarsaparilla and after I had used two bottles I felt like a different man. The sores disappeared, my appetite increased and I can now sleep soundly."—Henry Retchers, Georgetown, N. M.
Hood's Pills cure all liver ills.

United States Land Office.
Santa Fe, N. M., Aug. 12, 1896.—Notice is hereby given that the approved plat of the official survey of the following townships, to wit: Township 8 n., r. 7 e., township 12 n., r. 6 e., township 13 n., r. 5 e., township 13 n., r. 10 e., of the New Mexican meridian, will be filed in this office on the 14th day of September, 1896, and that on and after said date we will be prepared to receive applications for the entry of lands in said townships.
JAMES H. WALKER, Register.
FERRO DELGADO, Receiver.

Fresh Melons Cheap
Melilla valley water melons at your own price. A car load now on sale at retail at Mrs. Felipe Delgado's store, lower Frisco street. K. M. BALL, Grower.

PERSONAL.

Mr. H. J. Loomis is on the sick list.
Mr. Andy Horne is in from the Cochiti country.

Mrs. J. L. Stubbs and daughter, of Denver, are sight seeing about Santa Fe to-day.
Mr. Allan H. McDonald, editor of the Silver City Sentinel, is visiting friends in the capital city.
Mr. H. E. Fox, of Albuquerque, is in the city conferring with his business partner, Mr. Hickox.
Mr. C. C. Hall, the well known Albuquerquean, and his charming wife, are guests at the Palace.
Mr. H. Parkman, minister in charge of St. Paul's mission, Las Vegas, is in town, the guest of Mrs. Thomas Smith.
Prof. W. H. Seaman, late of Rolla, Mo., the new president of the New Mexico school of mines, passed down the road yesterday en route to Socorro.

At the Exchange: A. Horne, Thornton; T. A. Whitten, Albuquerque; W. N. Allison, Lewis Boekman and family, Topoka; Press Clements, Cerrillos; O. M. Rosendale, Chicago.
Mr. Thos. Lowthian is in the city to-day en route from Denver to the Cochiti country where he has large mining interests.
Hon. E. L. Hall, who, by the way, is making a model official, returned last night from the Ohio region of Colfax county, where his cattle herd is now grazing. He says settlers allege that no such crop and range grass season was ever known throughout Colfax.

At the Palace: S. Burkhardt, Albuquerque; John N. Flaver and wife, Gray House, L. T.; Mrs. John Flaver Bird and baby, Gray House; Mrs. J. L. Stubbs and daughter, Denver; F. J. Radford, Trinidad; Allan H. McDonald, Silver City; B. Hooper, Prescott; H. E. Fox, C. C. Hall and wife, Albuquerque.
Among the prominent gentlemen interested in the outcome of the A. & P. case who are in the city are D. B. Robinson, acting president of the Santa Fe system; A. F. Walker, receiver, Atlantic & Pacific Railroad company; W. K. Gillette, general auditor; J. J. Frey, general manager; W. A. Blasel, assistant freight traffic manager; C. B. F. Palmer, secretary to Receiver Walker; E. C. Nettles, secretary to George R. Peck, and J. B. Robinson, secretary to D. B. Robinson.—Albuquerque Democrat.
