RENOWNED BATTLE FIELDS.

Bloody Fields of Chattanooga and Chickamauga Dedicated as National Pleasure Grounds.

ELOQUENCE OF PALMER AND GORDON

Doubtful if the World Ever Before Saw Such a Scene as that Witnessed at Chickamauga To-day—Striking Ceremonies.

Chattanooga, Tenn., Sept. 19.—The bloodiest battle field the world ever saw was formally dedicated here to-day as a pleasure park for the edification and enjoyment of the American people for all time. It was Chickamauga, whose ravines and mountain sides were strewn with nearly 30,000 dead and wounded.

The dedication was conducted by the men who fought in that awful strife. The two generals, with silver gray hair, who headed the thousands of men in the fray on opposite sides, made the principal speeches at the dedication. They were Generals John M. Palmer and John B. Gordon.

It is doubtful if the world ever before saw another such scene as that at Chickamauga to-day. It was witnessed by no less than 50,000 people from the north and south, at least half of whom took part in the bloody civil war.

The first event of the day was a display of arms by battery "F," fourth U. S. artillery. There was a battalion regimental drill, showing the new tactics and field movements, under the command of Col. Holland.

These exercises at arms were of great interest to the veterans, who expressed the belief that such tactics would have fallen as timothy before the mow if placed against the tactics adopted during Chickamauga.

Vice President A. E. Stevenson presided over the dedicatory exercises. He was introduced by Gen. John S. Fullerton, chairman of the Chickamauga and Chattanooga national park, and greeted with loud applause.

The great national arena on Snodgrass Hill, selected by the national commission for the exercises, was so arranged that the tens of thousands of auditors could here the addresses throughout.

By way of beginning there was a national salute of forty-four guns by the artillery, followed by the "Star Spangled Banner," played by one of the U. S. infantry bands.

It was cheered to the echo by the veterans of the blue and of the gray, and many grizzled veterans shed tears of joy. When the applause ceased, Vice President Stevenson made a brief address appropriate to the occasion.

Prayer was offered by Right Rev. Bishop Galter, of Tennessee. "America" was sung by the audience accompanied by the bands.

The volume of sound rolled up as a great tidal wave and long before the song ended tears were coursing down the cheeks of thousands of veterans.

Gen. John M. Palmer, the venerable senator from Illinois, made the first dedicatory address. His voice at first had a tremulous sound, but he became grandly eloquent as he advanced and frequently was applauded.

Another patriotic tune followed Gen. Palmer's speech. Then the battle-scarred veteran of the Confederacy, whom Lee called his "right arm," John B. Gordon, of Georgia, was introduced. He was greeted with no less applause than was accorded Gen. Palmer and he spoke with fully as much enthusiasm, feeling and patriotism.

Those who had heard Gen. Gordon before said that this was the effort of his life.

Great Crops in Iowa.

Des Moines, Iowa, Sept. 19.—The Iowa weekly weather crop bulletin says: On the whole the crop season of 1895 has been very propitious to the farmers of Iowa, bringing forth the most abundant harvests that have been garnered within the past ten years.

NOT PROHIBITED BY LAW.

Texas Court of Criminal Appeals Declares that the Statutes of that State Do Not Forbid Prize Fighting.

Dallas, Texas, Sept. 19.—After two days consumed in argument on the habeas corpus hearing of Jesse Clark, charged with prize fighting, Chief Justice J. M. Hurt, of the court of criminal appeals, decided yesterday afternoon that the act in the penal code was wholly inoperative. The court said: "It was I who first suggested to make prize fighting a felony. I wanted the state of Texas to take an advanced ground on the subject, which I regarded as the most brutal of acts. But my private opinion has nothing to do with the law. I do not believe that, under the provisions of our statutes or the well settled rule of construction, this man has violated the law that has been so plainly written that he is responsible for it, and I shall discharge him. I will give my reasons hereafter in writing."

Skipped With Thousands.

Chicago, Sept. 19.—Ross C. Von Bokkelen, receiving teller of the Merchants Loan & Trust company, is missing with \$33,000 belonging to the institution. It is thought that Von Bokkelen has gone to Mexico.

ANOTHER MISSING BANKER.

Chicago.—An employe of the National Bank of Illinois is missing and with him has disappeared \$19,000. The bank officials refuse to make public the name of the defaulter.

REPUBLICAN HARMONY.

Alderman Lammer, Anti-Swift, Bravely Beaten by a Swift Supporter at a Republican Meeting in Chicago.

Chicago, Sept. 19.—The "harmony" meeting of the Republican county central committee wound up last night with a brutal attack upon Alderman Henry E. Lammer, of the anti-Swift element, by "Buck" McCarthy, a supporter of the jelly. Lammer's face was beaten to a major. One eye was gouged out, his head was cut in several places, and he was more dead than alive when McCarthy was finally dragged off.

Executions in China.

London, Sept. 19.—The Times tomorrow will publish a dispatch from Shanghai which says that several prisoners were executed to-day at Ku Cheng in the presence of the consuls.

Turks Apprehensive.

London, Sept. 19.—A dispatch to the Chronicle from Constantinople says the British minister's yacht has been under steam for the past twenty-four hours awaiting dispatches from the fleet. Great apprehension is felt among the Turks.

DURRANT'S DARK TRAIL.

Strong Evidence Being Piled Up Against the Young Man Accused of Murdering Blanche Lamont.

San Francisco, Sept. 19.—As the trial of Theodore Durrant progresses strong evidence is being piled up against the defendant.

The prosecution has shown by the testimony of Mrs. Vogel that the accused walked up and down the sidewalk in front of the high school building Blanche Lamont came out. He was then seen to take a car with her and started toward Market street. Later he was seen on a Valencia street car in company with a young lady answering Blanche Lamont's description by Mrs. Crossett, who has known Durrant intimately for years.

The evidence that has been introduced relative to Durrant's whereabouts on the afternoon of April 3 is directly contradictory to his statement made on the night of his arrest, that he had not seen the murdered girl after he left her on the way to school on the morning of the 3rd.

Martin Quinlan, an attorney, took the stand and supplied another link to that furnished by the evidence of Mrs. Crossett, testifying that he saw Durrant and a young lady walking on Bartlett street toward Emanuel church about ten minutes past 4 on the 3rd of last April. The witness adhered to his story and refused to be led into the slightest contradiction.

David Clark, who accompanied Quinlan on the visit to St. Luke's hospital late on the afternoon of April 3, was then called and corroborated all the previous witness had stated regarding his movements with Clark. His testimony narrated in detail the story told by Quinlan.

PREVIOUS UNITED PRESS.

President Cleveland Didn't Touch the Electric Button Until 6:30 Last Night.

New York, Sept. 19.—President Cleveland had expected to start the machinery at the Atlanta exposition, at 2 o'clock yesterday afternoon, by the pressure of an electric button in his home at Buzard Bay. There was some delay in making the connection and the Atlanta people decided to defer the president's functions until 5 p. m. Not till 6:30 was the connection closed at Gray Gables and the wheels moved in Atlanta. Unhappily, however, by the facts, the United Press, promptly at 2 p. m., reported that Mr. Cleveland had started the Atlanta machinery.

ACQUITTED OF MURDER.

Killers of Banker Ross, in Alabama, Turned Loose—Queer Explanation.

Birmingham, Sept. 19.—Robt. S. Walter and Jas. Skelton, brothers, have been acquitted of the murder of Robt. C. Ross, banker, in February, 1893. The Skelton boys believed that Ross, a wealthy married man, had betrayed their sister, Annie. When Annie heard of the murder, she wrote a letter to her brother, Bob, exculpating Ross, and blaming J. C. Musgrove, the United States marshal, for her conviction.

THE JERSEY LILY'S JEWELS

Delivered by Her London Banker to Unknown Person on a Forged Order.

London, Sept. 19.—During the absence of Mrs. Langtry on the continent, a forged order was presented at her bank for her jewel box, which contained \$200,000 worth of jewels. The box was delivered to the bearer of the order. Mrs. Langtry returned a few days ago and today sent to the bank for her jewels, when she learned that the box had been delivered under the circumstances indicated, on Aug. 24.

Old Colonnade Falls.

Nashville, Sept. 19.—A portion of the walls of the Old Colonnade building, being torn down, fell to-day. Six workmen were buried, but none are thought to be injured. The injured are: John Wesley, Andrew Jennings, Ed Blair, A. Hopkins, Geo. Vaughan and Austin Wilson.

CYCLONE IN WISCONSIN.

Work of the Furious Winds in Door County—Church Capsized.

Green Bay, Wis., Sept. 19.—News reached here to-day that a terrific cyclone swept over the Door county peninsula yesterday, demolishing thirty buildings. At Clay Bank a large shingle chaw was twisted from its foundation, lifted bodily into the air and dumped bottom up in the forest. For twenty miles the cyclone cut through the timber and across farms, leveling everything.

STEAMERS COLLIDE AT SEA.

Steamers Edam and Turkistan Run Into Each Other Off the English Coast.

A DENSE FOG PREVAILED AT THE TIME

A Great Blowing of Whistles and a Terrific Crash—Narrow Escape of the Passengers—Edam Goes to the Bottom.

Plymouth, Eng., Sept. 19.—The steamer Bechford has arrived here, having in tow the Trawler-Vulture and four ship's boats, containing the captain, crew and passengers of the Northlands-American Steamship company's steamship Edam, of Rotterdam, from New York, bound for Amsterdam.

At 1 o'clock this morning, the Edam collided with the Turkistan, fifty miles southeast of the starting point in a dense fog.

The Edam foundered and the Turkistan was lost to view in the fog. The captain, crew and passengers of the Edam were picked up by the Trawler-Vulture and taken to the fishing grounds, fifteen miles from the Eddystone light house, last night. Just before 1 o'clock a thick fog came up. Thence on, the Vulture heard a great blowing of whistles and then a terrific crash. The Vulture immediately went along side the steamship Edam, which was rapidly filling.

Capt. Brunsmas requested the Vulture to stand by. The ship's boats were quickly lowered and the passengers helped into them without accident.

The passengers were greatly alarmed, but there was no panic. A majority went on deck without having taken time to dress.

The women and children were the first embarked in the ship's boats. The sea was smooth.

The steamer Turkistan, which did not appear to have sustained serious injury, stood by until the danger was passed and then proceeded in the direction of Cardiff.

The Edam foundered at 3 o'clock, two hours after the collision.

NEW MEXICO FAIR NOTES

Says the Citizen: Santa Fe puts up a swift game of ball.

Joe Bailo was beaten in the five-eighths of a mile running race yesterday.

Gov. and Mrs. Thornton will remain in Albuquerque until the close of the fair.

The exhibits at the territorial fair are being admired by thousands of visitors.

An unusually large number of representative newspaper people are in attendance.

Gallup is one of the best towns in New Mexico, and in base ball and everything else it is hard to beat.

The grand trades procession was most attractive and imposing. The proteoic display to-night will be fine.

The championship bicycle race, one mile, was won by John M. Moore; Bert Vories, second, Tom Scott, third. Time, 2:36 1/2.

M. P. Moore, of the internal revenue office, Santa Fe, is in Albuquerque, the guest of the deputy internal revenue collector, Wm. Burns.

The fourth game of the base ball tournament resulted in a victory for the Raton team over the Indian school team by a score of 28 to 7.

This has been observed as a general holiday in Albuquerque today, the Santa Fe and Pacific shops and most of the stores were closed for the day.

Three exhibits of sandstone are shown, the gray, white and red. The two former are found overlying the coal beds and close to White Oaks, while the latter is found on the slope of Lone Mountain. Gov. Thornton so admired these great blocks of stone that he made a request that they be shipped to Santa Fe after the fair.

Solitor General Victory and Mr. Fitzhugh Thornton returned from Albuquerque this morning. Mr. Victory reports that the territorial fair is a dazzling success, both as regards the attendance and the large and varied exhibits of the fruits, vegetables, grain, minerals and other products of New Mexico. He pronounces the Santa Fe fruit exhibit superb, and is naturally proud of the fact that his fine exhibits of choice cherries and raspberries were the only ones of the kind displayed.

Visitors to old town should take in the ancient church built in 1701, 2, 3, 4 and 5, and have their attention called to the building to the west of the court house, which was the residence of Gen. Manuel Armijo, commanding the Mexican forces at the time of the occupation of New Mexico by the American forces under Gen. Kearney, in 1846. It is also known as the building where Major (afterward General) Rucker afterward lived with his family, and where, it is said, Gen. Phil Sheridan's wife, a daughter of Major Rucker, was born.—Albuquerque Citizen.

The fair is a success, even beyond the hopes or expectations of the most sanguine of our citizens. Taken altogether, nothing like it has ever been witnessed in all the long years during which the fair has been annually held. There are products of the soil, both vegetable and mineral, on view, such as have never before been gathered together in the great southwest, and a sight of them gives a promise for the future which should be sufficient to arouse the hopes and the ambitions of even the most despondent.—Albuquerque Citizen.

The Old Abe mine shows a specimen of free milling gold ore of immense value, as does the Lady Godiva with a specimen assayed at 4,000 ounces of silver and thirty ounces of gold at a depth of 450 feet. The specimen from the Old Abe was taken one week ago at a depth of 900 feet. The North Homestake shows lead and wire gold upon which it is impossible to place a value. In the Jicarilla district the Eureka mine shows free gold in chalcoprylites.

No. 3 from the north last evening brought in a detail of ten men from company B, New Mexico National Guard, of Santa Fe. They were armed and equipped in a business-like way, such as to reflect credit on their captain, William Strover, who, unfortunately was detained at home by sickness. The men were under the command Maj. Newstetter, of Gov. Thornton's staff. The major is an enthusiastic guardsman, having served three years in the national guard of Arizona before coming to New Mexico. He is the efficient office deputy for United States Marshal Hall, at Santa Fe.—Albuquerque Citizen.

Tierra Amarilla is preparing for a big blowout when the Biggs railroad reaches that place.

W. L. Booth passed through Chama with a train full of sheep the other day. They were loaded at Lumberton and shipped to Kansas City.

W. R. Garrison, a talented lawyer of San Juan county, has located at Park View, and will practice his profession.

Davidson Bros. and Mrs. J. O. Rose shipped 474 head of stock cattle from Deming last week to Patrick & Doyle in Colorado.

The two saw mills of the New Mexico Lumber company on the Navajo are running on full time but are behind with their orders.

The report comes up from the Jicarillas, down in Lincoln county, that Col. G. W. Stonerod has nearly lost his hearing, from causes not stated.

Needed repairs are being made on the Continental oil tanks on the Las Vegas hot springs branch. The tanks have a capacity of 12,000 and 14,000 respectively.

The report from the country is that another week of warm, dry weather is needed to thoroughly ripen the small grains, especially oats. The unusual rainfall prolonged greatly the growing season.

There are thirty-five laborers and three bridge carpenters employed repairing the Silver City & Northern railroad between Hanover and Whitewater, and the road will be ready for operation in a few weeks.

It is an undisputed truth that whoever improves his private property improves the city, and it is none the less true that every improvement of the city is an improvement for private property.—Gallup Gleaser.

Several loads of native salt have recently arrived, at Las Vegas, from the Pecos country, the teamsters bringing it in rather than to come empty after loads of merchandise. The optic understood that it sold at 40 cents per 100.

Owing to a called term of the supreme court for the first Monday in October, the court term at Lincoln has been changed to the third Monday in October. The term will begin at Eddy on the second Monday in November, and will be followed by a special term at Roswell.

We understand that Mr. Hearn has bought over 12,000 head of cattle during the past year at an average of \$8 a head and sold them at about \$14. He must have cleared fully \$48,000. Several other cattle men have done equally as well in eastern New Mexico. Looks like old times for the cow man.—Roswell Register.

The Pecos valley, like all irrigated countries, was scarcely self sustaining for a time but now we are forging ahead. Quantities of fruit and vegetables are going west into the mountain towns and are sold at over 20,000 pounds of melons was shipped to Dallas from the Caldwell farm, below Eddy, last week.—Roswell Register.

Frank Jones, special deputy U. S. marshal, left for San Francisco last Wednesday, with the five Chinamen ordered deported by Judge Bantz. Mr. Jones also took with him some of the finest specimens of fruit ever grown in Grant county, with which he will surprise the natives of California.—Silver City Sentinel.

The Las Vegas roller mill is running from fifteen to eighteen hours every day now, and commencing with next week, will run day and night, probably to the first of the year. This is the first year in the history of this mill that wheat has not been imported. Home-grown wheat is coming in very fast now, and is of the best quality. There is no better flour than that made right here in Las Vegas.—Las Vegas Optic.

The Romero-Clarke party camped on top of Baldy mountain Friday night, and at sunrise next morning, a most beautiful sight met their gaze in the broad expanse of country thousands of feet below them in the distance. Don Benigno Romero succeeded in locating about 150 lakes, small and great, to the satisfaction of the pleased and interested sight-seers.—Las Vegas Optic.

The Giver of all things is showing very little partiality in the distribution of the water storage above. Poor little Rincon was billed for last Sunday, and the water rushed through the center of the town with great fury. A building, belonging to the railroad company and containing building material, was set on fire by the slacking of lime and destroyed.—San Marcelino Bee.

Two train loads of cattle were unloaded here the first of the week. They are from the ranges in the southern part of the territory. It is plain to be seen that the cattle business is rapidly coming to the front in Colfax county, and in the next few years it will show evidence of continued improvement. In this county the present season, several thousand head have been added to Colfax county ranges, and in the next twelve months as many more will be brought in.—Springer Stockman.

R. B. Rice, the surveyor, says that there are a few things in the article printed in the Optic yesterday, from the New Mexican, not correctly stated though possibly without intention. He is anxious to know who the Las Vegas business man is that charged in Santa Fe that Rice had given tips about locations to some of his friends. He states that about twenty persons have asked him about quarter sections, and his reply has always been a profession of his ignorance on that question. He also states that if he were given more assistance in defining boundaries, by those who should give it, the survey work would probably get along faster.—Las Vegas Optic.

M. K. Walker, the young man who left his wife in Armourdale, Kas., in seven hours after marriage, next turning up in Las Vegas, and telegraphing her not to be uneasy, is a Missouri farmer, occupying a farm adjacent to that of the bride's father. The bride said that he had been an affectionate sweetheart, and when he left her at 10 a. m. on the day following the afternoon of marriage, he kissed her an affectionate farewell, and said he was going to the parson's home to get the certificate of marriage. The secret of the strange conduct seems to lie in the fact that he was drinking, and celebrated the honeymoon happening a little too heavily.—Las Vegas Optic.
