

TWO JITNEY BUSES TO CARRY COUNTRY PUPILS TO SCHOOL

The cars arrive in Albuquerque and will go on trial runs to Alameda and Isleta this afternoon.

The day when the country school children travel three miles or more over a country road to school is ended. In the future they will simply walk to the side of the road in front of their homes until a jitney bus comes along and picks them up and whisks them off on their way to high school.

Two new jitney buses that will bring country pupils to the Albuquerque high school this year have arrived in the city and will start out on their first trip this afternoon.

The trial trip this afternoon will be to let the pupils on the route know that the buses are actually here and that they will be ready to pick them up next Tuesday morning.

John Milne, superintendent of the city schools, had the two buses driven around in the Herald office this morning to let the editorial force look them over.

The bodies of the cars are built on a regulation Henry Ford car, with pneumatic tires on the front wheels and solid disk on the rear wheels.

The route in these two towns are in good shape and better accident. It is believed that the machines will be able to pick up the children regularly each day.

GERMAN INTRIGUE BLAMED. London, Aug. 2.—The recent capture of Italy by the Bolsheviks was due to German intrigue and lack of harmony among the anti-Bolshevik contingents, according to a dispatch to the Daily Mail from Washington.

A DISCOVERY THAT BENEFITS MANKIND

Two discoveries have added greatly to human welfare. In 1853 Newton originated the vacuum process for condensing milk with cane sugar to a semi-solid form.

In 1885 Horlick at Racine, Wis., discovered how to reduce milk to a dry powder form with extract of malted grains, without cane sugar.

This product HORLICK named Malted Milk. (Name since copied by others.) Its nutritive value, digestibility and ease of preparation (by simply stirring in water) and the fact that it keeps in any climate, has proved of much value to mankind as an ideal food-drink from infancy to old age.

DANCE DELIGHTS PASSENGERS ON STRANDED TRAINS

Entertainment Provided by Albuquerque Causes Much Favorable Comment From Visitors—Several Praise City.

More than two hundred people, the majority of whom were straggling passengers of the trains being held up at a dance given in the R. R. ball room last night.

The hospitality of the city was much appreciated and commented upon. The entertainment offered during the enforced visit to something of a lack. Various types of individuals from all over the world were present.

Miss Rosa Hoffman, New York, Winter Garden danseuse, was delighted, she said, to have been detained here and business men from the big cities expressed themselves as glad that they had an opportunity of seeing the city, and that this would prove a big advertisement for Albuquerque.

Although the majority of the passengers are anxious to be on the move, yet they are far from being dissatisfied with their lot.

W. F. McAdams, who is en route to his home in Los Angeles, was emphatic in his statement that the way the passengers had been entertained here was out of the ordinary.

"So often when such things are attempted," said Mr. McAdams, "it is apt to be seen in a person's eye an advertising stunt, or an attempt to show off the best they have and keep the rest under cover. This, in my opinion, is absolutely not the case here. I firmly believe it is good fellowship all the way through and an honest attempt to entertain us people and help break the monotony of our present plight."

Another passenger broke in at this point with the remark: "I'm glad that 'hop' they had here last night, but I had a very pleasant evening nevertheless. After the ride I had the other day I wanted to go somewhere, also to get a car and seat in the direction of the mountains and would you believe there is a number of large sanitariums up on these hills with beautiful grounds."

LEMON JUICE FOR FRECKLES

Girl! Make beauty lotion for a few cents—Try it!

to a bottle containing three ounces of orchard white shade well, and you have a quarter pint of the best freckle and tan lotion and complexion beautifier at very, very small cost.

Your grocer has the lemon and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.

BIG STRIKE IN TEXAS OIL FIELDS

Drillers, Carpenters, and All Classes of Mechanics Take Drastic Action, and Make Demands Which Are Promptly Granted.

Never before in the entire history of the oil industry has there arisen a situation so singular as that which confronted the Ranger-Eastland Oil Co. of Eastland, Texas, a few weeks ago, when it announced itself ready for development activities in oil production on its three blocks in the heart of the great Desdemona pool, where dry holes are unknown, and where wells average from 500 barrels to 10,000 barrels.

The first day the Ranger-Eastland Oil Co. placed its stock on the market 20,000 shares were purchased in ten hours by home people, in lots of from ten to four thousand shares. You can't beat it. You can find no other case like it. Those people live there. They know. They will profit. Many of them are buying more stock every week as they can spare the money.

This company is a half million concern—\$500,000. It owns large acreage in the gusher pools. Drills only in proven spots. Its financial stability guarantees stockholders frequent dividends in cash—large dividends, and dividends for a lifetime.

Every purchaser of stock has option to buy the same number of shares at the same price until July 1, 1929, no matter how high the market price of the stock may be. Only 100,000 shares will be sold at par of \$1 each. Any prominent Eastland man will wager you 5 to 1 that this stock will be worth \$3 to \$7 a share within 41 days.

Taft Gets 1825 Letters From an Anonymous Writer

Long Beach, Calif., Aug. 29.—Having received 1,825 letters in five days from some local resident whose writing was so poor the letters could not be read, former President William H. Taft, through his secretary, has asked Walter J. Ingersoll, postmaster here, to find the anonymous correspondent and ascertain what it is all about.

W. W. Wischler, Mr. Taft's secretary, writes that the anonymous writer's letter contained postage. Each letter generally covers six closely written sheets. The opening lines always are: "Full many a gem of purest ray serene."

"The dark unfathomed caves of ocean bear"

DENVER DETECTIVE SHOT AT HIS HOME

Denver, Aug. 29.—City Detective George Klein was shot and dangerously wounded at 1 o'clock this morning just as he was entering his car with his family. The assailant escaped.

Klein recently shot and fatally wounded Jerry Corbetta, an Italian returned soldier and proprietor of a suit-dry cleaning in a prohibition raid. Italians at the time called the city hall and demanded the discharge of Klein from the police force.

The Markets

Chicago Board of Trade. Chicago, Aug. 28.—Live hog prices which continued to decline steadily today under yesterday's closing. The market was again the controlling factor in the grain and provisions market and their weakness was reflected in lower prices for cereals and meat products.

Initial prices were notional 51-52 1/2 to 51 1/2 3/4 and December 51-52 1/2 to 51 1/2. Early offerings were quickly absorbed and prices recovered. The rallies brought out selling offers and prices fell away from 1 to 2 cents lower than yesterday's closing point.

Data moved in sympathy with the same conditions. Opening prices were 2-3 cents higher to 1-2 cent lower, the December delivery showing the strength.

Increased offerings were followed by a sag in prices, the drop being less pronounced than in cereals, but still carrying values well below the opening point. September started at 65 1/2 and December 72 1/2 to 73 1/4.

Provisions started with a decline of 25 cents in pork and had with ribs still carrying values well below the opening point. September started at 65 1/2 and December 72 1/2 to 73 1/4.
